Letters To The Editor

Woodward No Bigot

To the Editor:

Undoubtedly the Institute lectures by Professor Davidson and Frazier and by Mrs. Carter which were given presumably after the ORIENT went to press cast some shadow on last week's editorial, "Southern Moderation." There was certainly little "warmed over moderation" in the remarks of at least two of these speakers. I would like to deal, however, with the charge expressed in the editorial that Professor C. Van Woodward had taken substantially the same view of the South as Anthony Harrigan writing in the National Review. While there may have been some similarity in terms there was no similarity in emphasis.

As was stated, Harrigan is a "highly opinionated and bigoted Southern Journalist." He wants to picture the South as being different to the North and to indicate Southern superiority. Thus he slanders his terms and praises Southern writers for being "discriminating."

Woodward, too, is seeking to indicate to overturn the arguments of the narrow-minded segregationists such as Harrigan and Tate.

(Continued from page 1)

Tate said, "I may indicate some of the causes, social and historical, that brought about the Southern renaissance. But that says nothing of the quality. And the quality I have in mind makes its direct impact on the reader. Let us substitute Mode of Discourse for quality. This presupposes someone at the other end listening to you." Dr. Tate discussed this Mode of Discourse in relation to the rhetoric of the Old South when "the southerner talked to someone else but as always with rhetoricians - going nowhere."

"Southern writing," Tate went on, "is almost never about ideas. But this doesn't mean the South is without thought." Tate quoted Emerson, the dialectician as saying, "The scholar is man thinking. And he then provided the answer Poe might have given in the rhetorical mind of the gentleman in man talking."

Dr. Tate set about demonstrating the rhetorical method from through Robert E. Lee who "never owned a slave and detested slavery." The scholar is man thinking. And he then provided the answer Poe might have given in the rhetorical mind of the gentleman in man talking."

Cincinnati and Cicero - Lee was part of the public phase of rhetoric which was political. And Dr. Tate went on to explain the difference between the Northern understanding of the time and the Southern as being the difference between the dialectic and the rhetorical method. The south was committed to rhetoric and could not understand the dynamic workings of the North. The "persons" of the South at that time was that of the agrarian patriot, who is a combination of "Cincinnati and Cicero." The southern community was an aggregate not a whole presided over by our hero Cincinnati Cicero. The Center of Southern life was the plantation. Virginia was one great aggregate of families which were interested.

Centers Of Culture
Examining the art of the South of the rhetorical tradition Tate could find only one that of architecture, and the reason for absence of an ante bellum literature was the lack of cities as centers of culture. This was not a failure of intelligence because the South did not want centers of culture. Tate found an analogy for this in Archimedes' statement about giving him a fulcrum from which he could move the world. Tate asked, "Were the Greeks any less intelligent because they didn't provide the fulcrum?" Like the people of Rome the Southerners were short in artists and long in military and rhetorical.

Isolation Out Of Defeat
The isolation of the South also came under the scrutiny of Dr. Tate and he saw an increase in isolation after 1865 the reasons for which were "partly internal, partly external. It was an isolation of defeat and hurt pride." And if the South created a mythical ante bellum at this time, Tate said "I

of the agrarians.

It is true that the heritage that Woodward was backing had dark overtones, but he was not arguing that that tradition be actively followed now. On the contrary Woodward felt that it too would pass and the South would be welded into the American whole.

Thus the editor's worries do not seem to be justified. The South certainly cannot change its tradition and it is not living up to the heritage that Professor Woodward discussed. It is evident that the South is growing into the "enlightened future" that is the editor's goal.

Gordon L. Well

take it a pleasant dream to be preferred to an actual nightmare, though it was neither.

Looking toward the literary application of these ideas Tate first described the south as being "Now the center of American literature. It must be seen in respect to literary causation of historical factors without which it never would have appeared. Social upheaval itself will not produce a poet like John Crowe Ransom or a novelist like William Faulkner."

The Dialectical Twain
A more important factor appeared through Tate's examination of Mark Twain's *Huckleberry Finn*. The action of "Huckleberry Finn" is not only typical, it is archetypal. It is the first break with the rhetorical tradition "action" is generated inside the character. Tate then explained the great contrast in terms of Huck Finn and Tom Sawyer. Huck is the dialectician who has to understand within before acting and Tom is the rhetorician who believes if something is said it is so. "Twain did not seem to be conscious of what he had done. He never did it again." Tate explained in reference to the collapse of Twain's return to the rhetoric.

Tate does not believe the contemporary southern writers learned the dialectic method from Twain but had to discover it for themselves. "This change," he said, "is almost possible the whole school of modern fiction."

Mr. Faulkner And The School Discussing this change was specifically Dr. Tate said that "While Mr. Faulkner is undoubtedly the greatest novelist of the United States, even without Mr. Faulkner the Southern school would be very distinguished." And further said the "New England rhetoric of the transcendentalist tended to fly off to mere abstraction, having the dialectic synthesis but always leaving out the thesis and antithesis. The southern dialectic must be resolved in action imaginatively."

A Question Of The Quarrel
How did this change come about? Tate saw the South suddenly "Looked around and saw that the Yankees were not to blame for everything." And he closed with the distinction made in Yeats' epigram: "Out of the quarrel with ourselves we make poetry."

Teacher And Author
Dr. Tate, who has been Professor of English at the University of Minnesota since 1951, is a native of Winchester, Ky., and a graduate of Vanderbilt University. In 1952 he was one of six American literary delegates to the International Exposition of the Arts in Paris. He is a Fulbright professor at the University of Rome.

He is the author of *Jefferson Davis: His Rise and Fall*; *Stonewall Jackson: The Good Soldier*; *Mr. Fane and other Poems*; *The Fathers*; and many other volumes of essays and poems.

The Jaxonia tree often found in the Southern states of the U.S. has a black trunk that twists to the sky and bears orange blossoms and a small bitter fruit. It is found in Truman Carole short stories as a symbol of fertility.

Quite By Accident

by RICHARD KENNEDY

By Dick Kennedy

The natives still insist upon wearing their woolen hunting jackets, but the tourists-in-residence have pretty well made up their minds: spring is here. Why wait for the snow to melt in the recesses of Hubbard Hall? Bermuda shorts abound on goose-pimpled knees and short-sleeved shirts sprout much-used handkerchiefs in the breast pockets, but the spirit of the season is cornered, if not captured.

Now I don't wish to appear unreasonable or un-American, but spring to me does not mean the beginning of the baseball season. I have other ideas in spring. However there are many persons who feel differently toward the season and can hardly keep from twitching at the thought of a good old fashioned catch. These are frequent spectacles on the campus and like crab grass are known to crop up anywhere. I have nothing against these gamblers. I have not been known to pull up crab grass and I don't plan now to stop ball games.

But you see, I was absent the day they passed out coordination and this is an inconvenience in spring. No matter where I should be directing myself these sunny days, I must pass through a ball square. Regardless of how carefully I skirt the edges of the playing field, the ball is soon directly before me on the ground, and a little man VERY far away is screaming "Over here! Throw it here!" It is a mystery what particular fascination baseball hold toward me. I have had my shoes checked, suspecting them of acting like magnets toward leather spheres, to no avail. Perhaps balls are like cats: they seek out the person who likes them least.

Whatever the reason, the thing is at my feet and has to be returned. Through the years I have developed a few, very few, counterattacks. I have sometimes, out of the corner of my eye, seen the little things loping along the grass in a wicked line toward my feet. When sighted, I stop dead, look pensive, snap my fingers as if I just remembered something vital and frantically retrace my steps. I tried pretending I couldn't hear, but if any noise is audible outside of a steam calliope, it is a baseball player's wailing for his ball. The most satisfactory, though cumbersome device is to always carry between nineteen and twenty-three books, thus incapacitating both hands. This has its drawbacks as it also makes it impossible to pick up stray mechanical pencils, quarters or lost wallets.

Well, just a few more weeks and even the ball players will have to go in and study for their finals.

REFERENCE BOOK OF THE WEEK

"Where is the nearest Field Office of the Public Housing Administration?"

You can find that information in the Reference Book of the Week: The United States Government Organization Manual. This is a manual of information on the organization, activities, and current officials of the various departments, bureaus, offices, commissions, etc., of the government. It gives the history, purposes and addresses of such government agencies. Includes: quasi-official agencies, international organizations, and organization charts of federal departments. Includes in Moscow, Corruption, a novel.

NEW LIBRARY BOOKS

Boule, Fossil man.
Byrd, The London Diary (1717-1721).
Campbell, Collected poems.
Cole, The Common People, 1746-1946.
De Conde, Education and security.
Fast, The naked god.
Handlin, Al Smith and his Americanism.
Kaufmann, Existentialism from Dostoevsky to Sartre.
Martz, The poetry of meditation.
Mosley, Corruption, a novel.

Freshmen And Friday

The administration's decision to bring the freshman back on the Friday preceding classes is a sound and wise compromise. As these columns observed last week, the upperclassmen will retain the privilege of greeting the entering student when he arrives. Then he will be requested to attend a luncheon at the Union and the afternoon schedule will be in the hands of the faculty. The President has suggested that the PM session would be an appropriate time to test the men to provide for a more adequate placement system. Considering that the student has just arrived and some of his classmates may not accompany him, we feel that this would not be an appropriate occasion to measure his aptitude. Yet, in any event, this time could be effectively used for a College oriented program.

These proposals, it would seem to us, preserve the best of Bowdoin's traditions, while allowing for a necessary change. The fraternities will still be able to greet incoming students and thus maintain the College's cordiality. At the same time, the College will have an opportunity to stress some of the more important aspects of the curriculum before the always hectic rushing really begins. What is more important, this system avoids the innocuous and elaborate rules required by those schools with delayed rushing. Furthermore, in the light of the Council's favoring of the Psi U idea, and its affirmations concerning the need for more orientation, the above plan leaves little excuse for any lack of co-operation on the part of the houses.

Dr. Russell's Committee is currently working on recommendations for the six week period. If the two groups concerned display a similar cordiality in this area, the apprehensions of February will have been distilled, although their role in precipitating this more satisfactory result cannot be overlooked.

State's "Hand-maiden"

"Only less dangerous than our emphasis on science and technology is over-emphasis on the national character and national ends of education," said Henry Steele Commager in a recent article in the *Haddasah Newsletter*.

This, of course, is what the current ballyhoo has tended to bring about in terms of the public attitude and it is a dangerous trend, at that. Perhaps it seems quite remote from our own comfortable college corner but when you stop to consider what a gradual combination of a Federal subsidized program with a current of "education-as-a-weapon" feeling could do, it brings to mind the Nazi experience.

Not to be outdone by other countries, Mr. Commager also went back to our own past to furnish an example of what happens to learning "when it is required to be the hand-maiden of the state."

"The ante-bellum South," he said, "persuaded itself that slavery was not an evil but a positive good. It would not tolerate any criticism of that institution . . . (it) silenced criticism of all kinds . . . it required schools to teach that slavery was a blessing . . . It closed the doors to disinterested research in the history, the economy, the sociology, or the science of slavery and of race . . . therefore . . . it was not possible for education to raise up a generation able to deal with slavery by any means except that of violence and counter violence."

Only one additional subject to be added to the many facets of the mind of the South, but surely a "loaded" one.

Art Show

The Student Union Committee and Guy Davis deserve congratulations for the sponsorship of the Student-Faculty Art show currently on view in the Union dining room. It seems only right that student artists should have an outlet for their works on their campus. It is commendable that the realization of this came through the students themselves and the fact that students are producing is easily visible to anyone who passes from the hectic coffee break to look around. Comments and criticism of what has been produced do not belong here but we can say that the works now hanging are a bit more stimulating than the old aquatints. It is difficult even to remember them, while some of the works now on display may prove hard to forget.

One thing the show has done is to hand back to the faculty that weary catch-all word "apathy." It would now seem up to the Art Department to assist and encourage continuance of the show. One means might be through judging of the student works with prize-money going to the winner. It should be within the scope and art of the department to secure funds and since prizes are available for excellence in almost every other variety of student activity, and further since the students have demonstrated an interest in such a show it remains for the administration to demonstrate interest in the students and this partly through aid and comfort which the student deserves.

Test your personality power

(Taboo or not taboo - that is the question)

1. Do you feel unqualified to judge a campus beauty contest? (For men only.) YES NO
2. Do you think going to a big party the night before is the best way to overcome pre-exam jitters?
3. Do you find the company of the opposite sex annoying?
4. Do you think fads and fancy stuff can give you the full tobacco flavor of a real cigarette?
5. Whenever one of your professors makes a grammatical error, do you call it to his attention?
6. Do you and your date sit in the back row of the balcony only because you're both farsighted?
7. Do you think cowboy shows will ever be banned from television?
8. Do you consider *ibid.* the most quoted Latin author?

R. J. Bernbach Tobacco Company, Winston-Salem, N. C.

If you answered "No" to all questions, you obviously smoke Camels - a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to enjoy smoking as never before, switch to Camels. Nothing else tastes so rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco gives you the best smoke. Try Camels and you'll agree!

Have a real cigarette - have a Camel

Polar Bears and Nine Is Unsuccessful In Their First Three Tilts

BEARINGS

By Steve Frager

Recently the lacrosse squad has been beset by a rather common plague — lack of men at the practice sessions. Lacrosse is a sport that requires many different tricks and techniques and training schemes. It is an impossibility to improve such a squad if many of the men do not show up at the practice. When the call went out for lacrosse, there was a large turnout of over 40 men. At the last few practice sessions only 20 men have been present. The unfortunate part of this is that whatever one half of the squad learns one day must be retaught the next; and as a result, the team can only make little progress. It is impossible for a team to learn a good offensive or defensive pattern when there are only four attack men or defensive men at a practice session.

The men who are unaccounted for at each practice are, in essence, penalizing the entire squad and this is certainly unfair to the members who are at each session. In addition, it is equally unfair to the men who wanted to start lacrosse at Bowdoin and see it rise to a varsity level.

Coach Nels Corey and Athletic Director, Mal Morrell have promised to put lacrosse on a varsity level if the interest in the squad is high enough to warrant this action. Thus, the entire situation was left to the students. In this case, the undergraduates can not blame Mal Morrell or the athletic office if lacrosse is not made a varsity sport with a full playing schedule next year. Up to this time, it is not too late for a varsity rating; but it is entirely up to the members of the squad. They should realize that if they want to play on the varsity level with a full schedule, they must attend the workouts.

Baseball

After an excellent Southern tour, the baseball team came back and opened their season in a general slump. It is unfair to frown on any team after their opening games as it is to prejudice their abilities. Bowdoin knows that the squad is one of their strongest in several years and therefore the team should be completely supported by the undergraduates.

The team deserves student support and as soon as the squad gets on the right footing, it will make a strong comeback in the win column. Remember the plight of the Yankees during spring training!

Varsity Trackmen Edged By Amherst, White Takes Nine Firsts In Contest

On Boston College's sunny and warm Alumni Field last Saturday, Bowdoin opened the outdoor season by winning nine of the fifteen events on the program. The White still lost the meet by 4½ points to Amherst's lot of seconds, thirds, and fourths.

Big Bill McWilliams paced the Bowdoin varsity with firsts in the hammer, shot, and discus. Larry Voss scored 12 points by winning the hundred yard dash and hurdles, and placing third in the 180 yard dash. Bob Packer and Jay Green added the first two places in the mile.

John Green and Ron Tripp, won with an 180 foot heave, excellent for the first meet. Two Bowdoin sophomores scored mid upssets in winning their events. Steve Leach took a third in the 100 yard event and came back to win the 200 yard race. Leach showed his best form on the rough, slow, BC track, striking with a tremendous knee lift. In contrast, True Miller showed his Deaneys-like shuffle to take the neck in the 2 mile race. Miller led BC's Joyce by 5 yards at the start of the last lap. He then turned on his leg to lead by a good 70 yards at the finish line.

The Bowdoin yearlings had a disappointing day, winning only one to get 4 firsts, and in the process sprinter Dick Mestrom cracked a low back. Mestrom pulled leg muscles. Towle bettered the varsity time in the low hurdles, snapping his leg muscle on the last stride. Other winners for the frosh were Goran Stockstrom in the discus, Bill Skelton in the 440, and Jon Scarpino in the 180 dash.

Summary:
Varsity Summary:
1. Discus: Won by McWilliams (B).
2. Shot: Won by Voss (B).
3. Hammer: Won by Voss (B).
4. Mile: Won by Green (B).
5. 200 Yards: Won by Leach (B).
6. 100 Yards: Won by Leach (B).
7. 180 Yards: Won by Packer (B).
8. 440 Yards: Won by Skelton (B).
9. 180 Yards: Won by Scarpino (B).
10. 100 Yards: Won by Mestrom (B).
11. 200 Yards: Won by Mestrom (B).
12. 440 Yards: Won by Skelton (B).
13. 180 Yards: Won by Scarpino (B).
14. 100 Yards: Won by Mestrom (B).
15. 200 Yards: Won by Mestrom (B).

Varsity Admirals Drop First 2 Meets, Pyle Takes Second Place For Frosh

Over the weekend, fourteen colleges competed for the Boston Dinghy Cup. Defender MIT could easily manage a third this year.

Of the fourteen entries in the race, Tufts, McGill, and Toronto were the favorites. Bowdoin, Brown, U. of Cincinnati, Coast Guard, Loyola, Cornell, Harvard, Harvard, MIT, and Yale.

The winner, Harvard, tied with BU in the total number of points, but best BU in more races. The Bowdoin varsity were able to do no better than seventh.

The fact that the White Admirals finished in the middle of the pack, can be attributed to the lack of time in which the team had to practice. It was only the third time the White were on the water this year.

Results:
1. Harvard
2. Boston University
3. MIT
4. Yale
5. Brown
6. C.C. Academy
7. Bowdoin
8. Cornell
9. Fordham
10. U. of Cincinnati
11. Boston College
12. Tufts
13. McGill
14. Toronto

The varsity sailing team opened its spring season with a meet and this past weekend at the Coast Guard Academy in New London, Conn. Racing against the Yale team, Bowdoin was the victor. The Coast Guard itself, Providence College, Boston College, Tufts, and Maine.

The meet was held in near ideal conditions: warm favorable weather and a fresh breeze, held under that modulated and freshened periodically during the day. At times the

Polar Cubs Spill Deering, T. A. In First Two Starts

By Joel Sherman

The Bowdoin Freshmen took advantage of three errors in the 10th inning to down Deering High 3-2 in their season's opener.

The Polar Cubs had come from behind to score the tying run in the ninth when Dave Stern and Jon Oldham singled, and Deering hurler Ken Stone walked Dick Leeman and Mace Pratt to force in the center.

In the 10th, Deering came up with three costly errors. Deering shortstop Mike Simpson allowed Dave Carlisle's roller to get past him. Then pitcher John McKenman threw wild to first on a bunt by Charlie Ezrin and again to third on a bunt by Stern. Carlisle, who should have been forced at third, bawled home.

The Bowdoin Frosh opened with Bob Corvi on the mound and followed with Jim Dunn and Carlisle. They gave up four hits among them. Corvi walked Deering hitless over three innings, while Dunn yielded one in the fourth.

Deering countered single runs in the fourth and eighth. Bill Chad's single drove in Bubba Stewart with the first, following an error, steal, and two walks. Hal Reed's double scored Stewart with the other after he had been hit by a pitch and had stolen second.

Jon Oldham and Dick Leeman were the hitting stars for the Polar Cubs. Oldham went into the fourth for the afternoon, tripping home Bowdoin's first run in the seventh. Leeman hit two singles in two times at bat. First sacker Pete Scott and catcher Pete Berghe turned in excellent defensive performances, with Berholtz cutting down two Deering runners at second base.

Thornton Academy

The Polar Cubs won their second consecutive game, 3-1, in a contest against Thornton Academy by a score of 10-12.

The Commodore went into the last of the ninth trailing by a score of 12-8. Pinch hitter Pete Berghe opened the ninth with a hard-hit single to left followed by another base hit to right by Jim Scott. Pete Scott then brought in two runs with a one out single in the score 13-8. After Jack Baker reached on an error, Dave Corvi stroked a single to center bringing in Scott and Cummings to tie up the ball game.

Corvi was relieved by Dave Carter, who walked and John Smith was sent up to the plate to pinch. Smith lifted a single to right to produce the winning run.

Bob Corvi started on the mound for Bowdoin, giving up three hits during the first four innings. Corvi was relieved by Dave Carter, who walked and John Smith was sent up to the plate to pinch. Smith lifted a single to right to produce the winning run.

Errors on the part of the Polar Bears accounted for many of Thornton's runs.

Much credit should be given to Leeman, Cummings, and Oldham for their fine hitting in the first two games of the season.

Box score:

Bowdoin Freshmen
Pitching: 1. Corvi, 2. Dunn, 3. Carlisle, 4. Simpson, 5. McKenman, 6. Leeman, 7. Oldham, 8. Scott, 9. Berghe, 10. Ezrin, 11. Stern, 12. Pratt, 13. Chad, 14. Stewart, 15. Reed, 16. Smith, 17. Carter, 18. Baker, 19. Corvi, 20. Dunn, 21. Carlisle, 22. Simpson, 23. McKenman, 24. Leeman, 25. Oldham, 26. Scott, 27. Berghe, 28. Ezrin, 29. Stern, 30. Pratt, 31. Chad, 32. Stewart, 33. Reed, 34. Smith, 35. Carter, 36. Baker, 37. Corvi, 38. Dunn, 39. Carlisle, 40. Simpson, 41. McKenman, 42. Leeman, 43. Oldham, 44. Scott, 45. Berghe, 46. Ezrin, 47. Stern, 48. Pratt, 49. Chad, 50. Stewart, 51. Reed, 52. Smith, 53. Carter, 54. Baker, 55. Corvi, 56. Dunn, 57. Carlisle, 58. Simpson, 59. McKenman, 60. Leeman, 61. Oldham, 62. Scott, 63. Berghe, 64. Ezrin, 65. Stern, 66. Pratt, 67. Chad, 68. Stewart, 69. Reed, 70. Smith, 71. Carter, 72. Baker, 73. Corvi, 74. Dunn, 75. Carlisle, 76. Simpson, 77. McKenman, 78. Leeman, 79. Oldham, 80. Scott, 81. Berghe, 82. Ezrin, 83. Stern, 84. Pratt, 85. Chad, 86. Stewart, 87. Reed, 88. Smith, 89. Carter, 90. Baker, 91. Corvi, 92. Dunn, 93. Carlisle, 94. Simpson, 95. McKenman, 96. Leeman, 97. Oldham, 98. Scott, 99. Berghe, 100. Ezrin, 101. The Educator And The Educated

Vose Comments On Institutes; Discusses Supreme Court Writ

Professor Clement E. Vose, who described himself as more expert in NAACP and court problems than in Southern sociology, commented last week on the legal aspect of the recent Institute series, "The Mind of the South."

The acting chairman of the Department of Government discussed the varying interpretations placed on the 1954 Supreme Court decision on school integration. He upheld "the principle of national supremacy as in Article 6, applied by the Supreme Court since Chief Justice Marshall." Professor Vose took this stand in opposition to Donald Davidson, whom he described as a "romantic, conservative, bitter man to the changes around him" and quite similar to Willmore Kendall who spoke at the College last year. Davidson had advocated state review of Supreme Court decisions on the constitutionality of a law.

"Caucasians Only"
Vose, whose book "Caucasians Only: The Supreme Court, NAACP and Restrictive Covenants Cases" will be published in September, went on to say that "although the Supreme Court is not a representative institution it is not merely a Northern institution." He cited Black, Reed, and Clark are from Alabama, Kentucky, and Texas respectively and that all conformed in the 1954 decision. In addition there are 34 District Courts in the South which carry out the higher court's decisions and they are manned by Southerners.

Continuing in his remarks on the integration decision, Professor Vose noted that the side that loses is bound to be unhappy. But the Constitution is what the judges say it is and that is the price of the judicial review system. Judicial review is the most unusual political institution we have according to Mr. Vose, and it often goes counter to the majority. It has been an important part of the American legal tradition and there seems to be no valid reason to change it.

Effect Of Court Decision
The varying interpretation on the effect of the decision by Mrs. Carter and Professor Frazier were also a topic of interest to Vose. He pointed out that the Southern liberals tend to forget the effect that an unfavorable decision, contrary to Supreme Court actions taken since 1915, would have on the Negroes. If Negro pleas had been left to fall on the "dead ears" of the Congress and the Southern states, Vose predicted, we would have seen violent radical Negro movements. He said, "The Supreme Court response to Negro pleas is the same as the British accession to working class demands. Both have spared violent economic and political movements."

Contrary to the opinion of Southern liberals represented by Mrs. Carter, Professor Vose felt that the NAACP has taken a moderate course. They have only pushed their program where necessary, but some prior indication of success, thus not bringing up a

portion to its number, attempts to proselytize the entire South. Although this minority does not succeed, it sends glowing reports back to the North of accomplishments. In return, the North sends financial assistance to keep up the good work. Thus, "large scale misinformation is sent back to the North" which, in effect, is "buying out hypocrisy." Davidson speculated that "it is entirely possible that that Civil War would never have occurred if such misinformation had never been published."

Actual South
The fallacious New South idea gathers momentum until it finally clashes with the actual, which is generally considered to be conservative and conflict ensues. Although the details may change, the pattern remains the same, varying only in intensity. Davidson commented that the intensity was at a "maximum pitch" today.

Is the actual South liberal or conservative? Davidson felt it was difficult to say. For one thing, it was very hard to discern the actual within the false context of the New South. And, "conservative" and "liberal" have no fixed meanings, the lecturer claimed.

Southern Resistance Explained
Davidson concluded in an attempt to explain the Southern resistance to the Supreme Court decision on integration that

"A judicial decision that has the force of social legislation is the most tyrannical act of the simple reason that (1) the will of the millions of people concerned was previously ascertained through free public discussion, ballot, and action in Congress; and (2) on the mistaken decision has been made, it is not easily revocable."

"It is as pernicious as black-mail or threat to murder. That is the heart of the South's present ground of resistance to the Supreme Court."

Through the use of injunctions and contempt-of-court proceedings, a Federal District Judge on very thin excuse can throw citizens in jail for peaceful protest, can try and sentence them, in some cases, without a jury trial. He can, in effect, end the rights of assembly and free speech guaranteed under the First Amendment. He can do this as long as he holds a school desegregation case under jurisdiction, as the Supreme Court has empowered and directed him to do; and that may be years.

"And since there is already clear evidence that the judicial tyranny of our present Supreme Court will not stop with the school segregation cases, but will move on — it is moving on — to other matters, every community, every section, North or South, is under a threat that will not lift until we take thought together and after thought, take action. There lies one of the tasks of conservatism in our time."

Anderson Chosen ROTC "Best Cadet"

(Continued from page 1)

Cadet Peter A. Anderson '58 was selected as Best Cadet of the Week, April 14, 1958. Cadet Anderson is a member of the second year basic course Military Science Program at the college. The number of cadets enrolled in the basic course is 150. He is a member of Zeta Psi and also is First Sergeant of the Pershing Rifles. He was on the college rifle team and received his letter this year.

A judging committee composed of members of the ROTC and Cadet Staffs selected Cadet Anderson for his outstanding military knowledge and appearance from fifteen (15) other semi-finalists in a manual of arms drill down.

Federal Aid
"As citizens we fail. If in travail, we merely turn to the Federal Government to solve our problems of education. We fail if we see no solution outside of the Federal aid. We fail as citizens when we blame our President for lack of leadership in not outlining specifically a program to cure educational ills which, when carefully diagnosed, are best subject to local therapy."

"In general terms," he concluded, "it is my conviction that the Federal aid in the United States is in its ascendancy. This ascendancy can be accelerated by participation of all citizens in supporting school programs, in requiring high standards of performance by teachers, and also by giving individual effort and study on the part of the child."

"We see around the corner, but the full turn will not come until every intelligent person willingly gives time, thought, and effort."

Spotlight ...

(Continued from page 1)

ample of this and went on to support Mr. Copeland. Mr. Hall was insistent in agreeing that this is the solution. Mr. Fonteneau introduced the idea of a co-operative centralized library in Maine, whereupon Mr. Hall stressed the prohibitive time element present in such a system. The idea was aired with no concrete result.

In stating the immediate problem confronting the library, Mr. Boyer found three central depositories of the space, funds, and personnel create a problem that is growing as more books are needed and as those obtained require cataloguing. Questioned on the actual budget the library operates on, the librarian disclosed that in 1956-57, expenses totaled \$61,000. Only \$19,000 of that went into actual book purchase, binding, etc. Maintenance, salaries, and library expenses make up the remainder. It costs as much to catalogue and store a volume as it does originally to buy it. It was felt that an additional \$40,000 would be sufficient to improve the present standard. The addition of a new wing would incur a cost of approximately \$750,000, presenting a difficulty that the alumni would be less favorable to help alleviate because of the nature of the new buildings, rather than additions to present old ones.

Dick Morgan pointed out that we should, rather than simply speculate on existing conditions, determine a concrete and modest plan for immediate improvement. He suggested a student committee to look into just what they want, acquiring high standards of performance by teachers, and also by giving individual effort and study on the part of the child.

"We see around the corner, but the full turn will not come until every intelligent person willingly gives time, thought, and effort."

stated that while we have not settled anything significant, we have succeeded in arousing a great deal of interest in the college library among the student body.

Curtis String ...

(Continued from page 1)

and viola rush about, sounding considerably like a fast train. And yet, there appears above this urgent emotion a happy sounding melody in the violins. Sometimes one can detect little fragments which could be the makings of jazz.

The Prokofiev presents the listener with an exciting and moving work. The Curtis Quartet makes this work even more electrifying. There can be no doubt that this group is one of the finest in the country today. If not the finest. Their knowledge and enjoyment of music is tremendous, and every note is given its full meaning. Not a second passes in which there is not some new example of their ability and understanding.

Dvorak
The final work on the program, Dvorak's Piano Quintet in A major (1887), was one which the reviewer found to be most fun of all. A mixture of mood, gay and fast, slow and peaceful; a fine treatment of native folk music, particularly dances — these make the work one of stature and quality.

Professor Tilton joined J. J. Serratos (violin), Enrique Serratos (violin), Max Aronoff (viola), and Orlando Cole (cello) in performing this happy work. Professor Tilton was in exceptionally fine form, and played with superb understanding, facility, and ability. Some passages were ones of some difficulty, but no problems seemed of any consequence to this accomplished musician. As a member of the whole

Professor Tilton appeared as presentation of their blanket tax much at ease and at home as any of the others. General admission will be \$1.00.

Chicago - Boston - Los Angeles - San Francisco
Published weekly except during the Fall and Spring Semesters by the students of Bowdoin College. Address news communications to the Editor and subscription communications to the Business Manager, The Bowdoin Publishing Company at the ORIENT Office in Morse Hall, Brunswick, Maine. Entered as second class matter at the post office at Brunswick, Maine. The subscription rate for one year is three (\$3) dollars.

BUGLE Funds

The recent decision (announced Monday) to restrict the BUGLE from soliciting parents for funds comes as a surprise to those who have in any way been connected with this publication.

It is clear that a main source of financial aid has been this program; as a matter of fact, the great improvement in the BUGLE over the past two years can easily be attributed to the work involved in summing up the large quantities of money needed to put out this calibre of yearbook.

Mr. Norton, vice-president of the College, has explained this step as a move to avoid a disorganized approach to college funds. This, of course, is in many ways true. The argument of other organizations is also of immediate concern: why can't the Political Forum, or the BIF solicit parents for funds?

The whole problem resolves into the question of blanket tax allocations and the Blanket Tax system per se. The BUGLE must take this up with that committee, the only one completely devoted to the student financial situation. It must also remind that committee that the ORIENT, left with an inflexible source of income, will be compelled to ask for additional money. It must make it clear that WBOR is now only a skeleton of an extracurricular activity. It must, in other words, discuss the relative importance of some of the organizations on campus. Is the BUGLE worth more than \$6,000? Is it worth more than the \$1600 the ORIENT gets? Should the radio station be receiving more than the newspaper?

Once these questions are resolved, there is a good possibility that the members of such a conference will agree that an outside source such as the parents is very much required.

Thus, the essence of the BUGLE situation, at the present moment lies in the fact that there is a real need for a wholesale investigation of our financial system on campus.

Fraternity Orientation

Almost an entire semester has gone by with few improvements installed in the pledging system at Bowdoin.

The elimination of hazing, that opened the way to countless opportunities for revision, has accomplished, in fact, only one distinct change in campus or fraternity policy. The freshmen will now arrive on Friday instead of the traditional Saturday and will take their placement exams that afternoon.

While this compromise, as we have observed, allows for a sane, effective over-all college program, all parties concerned have let the more pressing need of fraternity orientation slide. This is tantamount to disaster. The bickerings over the "Friday question" have prevented the Student Council from taking any action in an area that will very probably cause much anxiety for house officers next fall.

A "vacuum," in spite of all those who dispel such a thought, was created with the abolition of hazing. Over one hundred years of fraternity tradition should prove any disputers wrong, if they care to believe that campus life will continue to run, or ought we say, will begin to run, smoothly and innocently without some form of social props — i.e. some form of inter- and intra-fraternity orientation.

Throughout this controversy the problem has been neglected, indeed, avoided, by the Student Council. Although, it essentially has no connection whatsoever with the pie-maturation week, the representatives chose to make the one contingent upon the other.

This, of course, is no way to prove Council responsibility. That could have been attained quite easily if a little more energy had been devoted to the situation in general, "pre-maturation orientation" AND the orientation that will cover the six weeks prior to homecoming.

Instead, as a result of the Council's failure to put their shoulders to the wheels of administrative action, they have left the fraternities in a sad quandary.

It is really too late to do anything about it, too. Whatever action occurs on the issue between now and finals will have to be conducted on a centralized plane, that is, from the "commanding heights."

One recommendation would be to once more summon the aid of the Student Life Committee. This group of professors has been a constant source of succor for the students, whether they know it or not. For any member of those fall gatherings concerning the hazing situation, it meant a discovery that some professors are even a little smarter and more level-headed than they're cracked up to be.

We believe that concerted efforts with such an agency so aware of the student, and his environment, will be the solution to an effective campus-wide orientation plan.

Quite By Accident

by RICHARD KENNEDY

Now that Winter's, I mean Ivy, is coming there should not be much surprise at seeing small clusters of men combining their sun and learning on the campus grounds. Outdoor classes are an old Bowdoin tradition in the spring and are held quite frequently on the days it doesn't snow. The decision to hold the class on the green is based entirely on the premise that it LOOKS like a nice day outside. There might very well be a whale of a Northeastern stirrin' up out there, but in the confines of Adams, Sills or Gibson it looks swell. Within seconds the decision to adjourn has been won by the affirmative and a little more than half the group is sitting on the Cleveland Slope. (The annual number of persons lost in the jaunt from Sills to Cleveland exceeds the total number of casualties in the Jamestown disaster.)

The larger classes, holding forth on the slope, look, to the visitor, very much like a tableau of the fishes and leaves parable. Such classes in the sun are always very pleasant, but I sometimes get a bit disconcerted. For some Freudian reason, no doubt, I no sooner find myself a comparatively dry, reasonably soft, litter-free spot than I begin to scan the area voraciously. I have a need to chew on a good solid strand of grass. Unfortunately the best piece in the plot is already being consumed by the lecturer at a disarming clip. (Probably for vastly different Freudian reasons.) A few moments later having settled for a second-rate strand, I spy one of the campus hounds a good bit away which leads me to think better of the whole idea and discard the grass in favor of old reliable Ticonderoga. This action seriously incapacitates my, noting.

The major problem in attending an outdoor class in the spring at Bowdoin (outside of dressing warmly) is how to sit. Not just sitting sit, but classroom sit. This requires one to look interested while taking notes in a position of relative comfort. It is next to impossible for a non-Arthropod to do. Sitting with the legs stretched out offers comfort but not writing surface; the legs drawn up produces a stand for note taking but increases discomfort. The yogi-like twist, which is gaining in popularity, puts the notebook between the kneecaps, but requires a back support before the lecture's conclusion.

The most satisfactory method is to realize that all three requirements can not be met and stretch out comfortably with an intelligent look. You can remember it and write the stuff down later. The problem is simply a matter of concentration. Don't let your eyes wander. Just watch that little breath of a cloud in the blue up there and listen to what he's saying. . . . The next thing you'll know will be that it's time for supper.

P. S. Wilder Is Chairman At Conclave Of Nat'l. Foreign Student Advisers

Philip S. Wilder, Assistant to the President at Bowdoin College, will serve as chairman of one of the sessions at the tenth annual conference of the National Association of Foreign Student Advisers, to be held at the University of Michigan in Ann Arbor from Sunday through Wednesday, April 27-30. The theme of the conference is "International Education Exchange in the Next Decade." It is expected that about four hundred people will attend the sessions.

Mr. Wilder will serve as chairman of a session concerned with the problems of foreign student advisers at institutions which have small numbers of foreign students. Since World War II he has been Veterans Adviser and Foreign Students Adviser at Bowdoin. Each year twelve foreign students come to the College under the terms of the Bowdoin Plan, now in use at more than sixty colleges and universities in the United States.

Catacombs Reveal College Catalogue

Searching through the dusty but boneless catacombs of Hubbard Hall, Richard Leigh Chittim, Professor of Mathematics, came upon a moldy and ancient volume, the Bowdoin College catalogue of 1850.

Finding a myriad of fascinating material among its aged pages, he compiled these into a chapel speech of twenty minutes, containing among other pertinent facts: the brilliant comprehension of Greek, Hebrew and Latin by the graduates of 1850; the problems of student Post Office workers of 1868 during the Yule season; the unhealthiness of the College before the introduction of the aspirin dispensary and the balconied dust bowl beside it; the expenses of education before the Civil War, \$135; the heart attack and death of an esteemed faculty member at the corner stone ceremony of Memorial Hall; and the coinciding spring vacations of Bowdoin and Wellesley.

These facts were gathered to explain the present day plight of the Student-Faculty Calendar Committee. Professor Chittim remarked that in 1850 the "vacationless, athleticless, ivyless year" had no need for a calendar committee, but that the present day institution required impossible planning and engineering to fit the demands of the classroom and the baseball season.

Sympathy To Comm. He asked that the students be sympathetic with the committee and forgive them for a forthcoming shortened exam schedule.

Fuller Elected To Top Beta Office

Peter Fuller was chosen Beta President and Bob Garrett Vice-President in the recent elections in that House. Ray Babinneau is the new Student Council representative, while Peter Bennett will fill the treasury post. Art Van de Water is the new Secretary with Dix Griffin as Steward. Dave Towner is to serve as Recording Secretary.

Fuller has served as President of the Student Union Committee and the Campus Chess Committee. Garrett is Assistant Manager of the Glee Club and has been Vice-President of the Young Republicans and Secretary of the BIF. Babinneau has been a member of the Hazing, Curriculum, and Orientation Committees, as well as house Steward. Bennett is in the Glee Club. Van de Water is also a member of the Glee Club, while Griffin has played varsity hockey. Towner has played baseball and participated in the Glee Club.

Other officers include Fred Johnson, Student Union, Ted Sarquist, White Key, and Chris Siebert as house manager.

The present officers succeed Dick Allen, President, Dick Morgan, Student Council, Bill Daley, Vice-President, Bob Garrett, Secretary, and Carl Russell, Treasurer.

Most other houses are slated to hold elections this week during the Wednesday meetings. The TD's have already chosen their leaders for the coming year with Raymond to be President.

A Naval Aviation Cadet Information Team will be in conference B in the Moulton Union on April 30 & May 1 to interview interested students.

Evidence that this state is as cockeyed as it is cracked up to be (weathervise we mean). The two stalwarts on the left were under great delusions last Friday that this vacationland was on its way to replacing Florida (or at least Puerto Rico, that lovely island, island of tropical splendor). That is at least until the gods from above called for some variety as spice. . . . This slight whim has not been appreciated.

Polar Cub Nine Win 3, Pitchers Give One Run

By Joel Sherman
The Bowdoin freshmen overpowered a weak Westbrook nine to gain their third victory of the season with a score of 11-1.

The Polar Cubs were never in trouble as Dave Corvi whirled three hit balls striking out 13 batters. John Oldham continued to pace the combination in hitting as he connected for two home runs. Bill Green also contributed to the onslaught with a four bagger in the eighth.

Dave Stern started off the Bowdoin attack by cracking a single to right in the first inning. With two outs, Oldham stepped up and smashed the ball over the right field fence to score two runs.

Oldham's second home run came in the fourth frame with a man on. This time the hit was an inside the park home run.

Green's home run came in the eighth after Norm Dionne opened up with a ground single to center. Oldham, Cummings, Dionne, and Dave Corvini each had two hits for the afternoon. Westbrook's lone counter came in the sixth.

The Polar Cubs won their second game of the week against the High School team.

Bob Corvi opened on the mound for the Cubs and pitched two hit balls for the first two innings.

Norm Dionne opened the game with a single to right, followed by Westbrook's base runner Green. Both men scored on two errors by the Blue nine. Dick Leeman then singled and scored on Dave Corvini's double to left.

White Defeat Northeastern, 3-2, Linscott Hits First Home Run

By Al Payson
Bowdoin took its annual trip to the greater Boston area and could manage only a narrow victory in three starts. The game the White had scheduled at UNH was postponed and will be rescheduled for a later date.

The first game saw the Branded Judges rally for two runs in the fourth on hard luck pitcher Ror Woods. The damage started in the eighth inning when Bren Teel dropped a pop-up in fair territory, hit by leadoff batter Arnie Taul. A hit batsman, walk, infield hit and wild throw brought in two runs that cost Woods a hard-earned victory.

The White started off the game with a three run rally in the first inning. Pete Reile led off with a base on balls and went to third when catcher Taul tossed Macey Rosenbaum's bunt into center field. Rosenbaum was erased as he made the turn and slid into second base. Bill Linscott dashed a ground ball at Judge's shortstop Dave Walker. Walker rolled to Taul who tagged Reile and then dropped the ball which allowed Reile to be declared safe. Linscott stole second and continued to third on Taul's third error an errant arse that attempted to nip Linscott at second. Bruer Stover hit an infield roller, which was picked up by Hal Parmelee then walked, stole second, and scored off Fred Hall's line double to right center.

In the fifth frame, the Polar Bears increased their lead to 4-0 when Stover walked, took second on an infield roller, and crossed the plate of shortstop Walker's overthrow at first.

Until the last of the fifth, Woods was sailing along on a no-hit. Two walks, an infield hit, and two singles cut the Polar Bears lead to 4-3, at which it remained until the last of the eighth.

This ran the MacPayden men's losses to four straight.

The Bears eked out a 3-2 decision over the Huskies as sophomore pitcher Bob Swenson made his first start an impressive one. He went 8 2/3 innings before he ran into tough luck. In the ninth, he gave way to Marty Rop who ended the threat.

The White tallied three times in the sixth when Bob Kennedy walked and Linscott lined a shot over the 340 mark in left field. Stover followed with a line single to center, stole second and went to third on an infield bobbie, and scored on Swenson's hit-and-run single.

The White threatened in the ninth against reliever Bill Nicolson. A 2-4 score by the Polar Bears was enough to keep the game from going to extra innings.

Bruer Stover

Pete Reile

curvedball hit way to the victory. A football rival, Joe Crowley, provided the offensive punch with a pair of home runs both of which sailed a few country miles over the head of Bill Linscott and Pete Papazoglou.

Bowdoin got both of its runs in the eighth when Macey Rosenbaum hit a hot ground ball past third base for a double. Three singles by Linscott, Stover, and Rick Morse brought home two runs for the White.

Stover got three singles in three trips providing the main Polar Bear punch. Phil Rose sparked

in relief as he struck out 4 in 2 innings and gave up only one unearned run.

Next week the varsity moves to Colby for their third State Series game. The White has lost its first two series encounters.

Bowdoin has won 18 State Series titles and been in 10 ties. This rivalry has gone on since 1875 when Bates won the first Series title.

Varsity Trackmen Win 12 Events

With a squad of only 20 men, the varsity trackmen won twelve of fifteen events at the University of Vermont to decisively defeat the Green Mountain Boys. Larry Wilkins and Bill McWilliams were triple winners for the White. Bowdoin swept the first two places in five events. Sophomores Steve Leeb and John Doherty backed the rickid wind in the backstretch to a photo finish in an excellent 51.8. With the wind at his back, Larry Wilkins breezed through a 22.2 furlong with Leeb in second place. Captain Bob Hinckley went out fast from the gun to lead teammate Ed Bean to a sweep of the 880. Hinckley's time of 1:59.4 was impressive considering the cold wind. McWilliams and John Vette swept the shot and high jump winner Roger Titus teamed up with McWilliams to sew up the hammer throw.

Ed Dunn won the broad jump and took thirds in the 100 and pole vault. In the distance, Bob Packard won the mile and Tru Miller came on top in the 2 mile run in 10:30.6.

The Educator And The Educated Relic Cites Student Attitude As Judiciary Body Strength

"This year there have been an unusually large number of cases before the Student Judiciary Committee, especially in the last semester. I think there probably have been more cases than any other year. We have had," said Pete Relic '58, chairman of the Student Judiciary Committee.

"I don't mean to say there is any great crime wave, but I do feel that the Student Judiciary Committee is better organized than it has been in the past. Of course, it does not initiate action by itself. Cases are brought to its attention by the administration."

Subject to Controversy
With regard to the necessity of a student judicial body, Pete said, "I am convinced of the necessity of something like the Student Judiciary Committee, and I think it does work very well. We've been subject to a lot of controversy, especially after we've been forced to suspend a man for a year."

"The thing that has impressed me most is the attitude of the man who has been suspended. He exhibits a very mature attitude and doesn't harbor any gripes. The students I think would rather have discipline handled by a student body rather than by some administrative committee. The effect of student discipline is lost if the student feels that his rights have been taken away. I think the fact that most men do have an attitude of acceptance toward the Committee shows that it is a working thing."

SJC and Fraternities

"This year there has been an unprecedented degree of interest in the relationship between the Student Judiciary Committee and the fraternities. Several occasions house officers have come to the Committee asking for interpretation of articles of constitutions."

"I think that the SJC-fraternity relationship is another wholesome sign of the strength of the Student Judiciary Committee."

We wondered if there were any areas where the Student Judiciary Committee could be strengthened, and Pete stated that he felt that "there should be a closer tie between the SJC and the administrative committees on the administrative level. Very infrequently do in itself not necessarily progress."

Critic Praises Interfraternity Sing As "Exciting And Rewarding" Program

By Stephen W. Rale
Thursday night in Pickard Theater was a big one for six enthusiastic fraternity choruses and for many interested spectators.

Thursday night was the occasion of the Finals of the twenty-third annual Interfraternity Sing Contest.

Winners of the Preliminaries of the night before, the six houses all faced stiff competition for one of the six places. Thursday afternoon favorites, the Betas, under the leadership of their conductor, the Zeta, the AD's and Chi Psi's seemed not far behind.

And the Delta Sigma and Kappa Sigmas were out in fine form.

A contest of this nature is a wonderful experience. It generates enthusiasm of the highest quality, and consequently, an evening of very fine singing. Making out his own score sheet, the writer sympathized with the judges in their task of rating one of the six the best.

Alpha Delta Phi took the stage first. Under the energetic direction of Gordon Page they sang a lively version of You Gotta Have Religion, and handled it well indeed. Excellent diction, and very fine interpretation were the outstanding features. The famous and popular Marching Song, appearing in a medley, this year, was equally well handled. This number always should be watched carefully. So many people know it too well.

Ray Doucette and the Kappa Sigmas were second on the program. Winners last year of the improvement award, the quarter-winners this year, this house group certainly did a fine job. Their non-college or fraternity number, Ain't-That Good News, was charming and nicely sung. Unfortunately, they fell down considerably on Bowdon Beats, with an interpretation that hurt one's feelings, and pride.

Delta Sigma, under the capable direction of Stephen Johnson, appeared next, presenting a spiritual and a fraternity song. The spiritual, inspired by Adele Addison's concert last fall, fell far short of her interpretation. Granted the difference in one professional voice and a large relatively untrained chorus, the matter of interpretation poses some problems. The spark and life so present with the solo voice were sadly in absence with the large collection of voices. But the fraternity song was well done and perhaps suffered as little as any other fraternity song does from constant and undirected singing.

Among the many Robert Shaw arrangements presented this year, the Chi Psi's choice one of the

finest, Seeing Nellie Home. With Fred Meyer, a most enthusiastic and energetic conductor, on the podium, the interpretation was excellent. The ensemble magnificent, and the diction too good. A rather heavy emphasis on I and on I, very noticeable. But this sort of thing does not hurt the final result. The Chi Psi favorite, Alpha Nu, was sung smartly done.

A very careful and excellently performed fascinator, Elijah Rock, was one of the Zeta Psi entries. Under the extremely capable direction of Oley Sawyer, the Zeta chorus performed with knowledge and ability. The build-up to a climax of volume in the middle from a piano entrance was expertly carried out. An added feature was the use of a laparator for a little added rhythm. And the fraternity song was equally well handled.

The sixth and last (but not least, as the cliché runs) house was Beta Theta Pi. Bill McCarty on the podium, the Betas presented another Shaw arrangement, "Lige Lige Jane, which was wonderfully handled in every way. If the final decision had been made upon this one number, it would have been almost impossible to decide one way or another. Unfortunately for the Betas, their performance in their charming Old Porch Chairs was not as sharp and sparkling. A touch of pitch difficulty and one or two spots elsewhere somewhat spoiled the total effect.

A final word of gratitude is due Professor Beckwith who planned and directed the contest with skill and efficiency. And thanks are due to all participants for their cooperation with him, and for making both evenings run smoothly and quickly. The twenty-third contest may go down in the books as one of the best ever.

effectiveness of the staging if some arrangement might be made which would allow the front part of the house to see the actors during the scenes in the officers quarters below decks. This handicap was particularly frustrating when it prevented several "side-viewers" from witnessing Desjardins' farewell tilt. It was a poignant one and worthy to be seen. The scene of Pulver's und

Definitive programs should be set up before any changes are made. In the zeal of some to change they lack definitive programs which could assure definite progress."

"Student government has a very definite function. (We were needing Pete now) Very often students are closer to a situation than any other body in the College, and as students they must necessarily voice their opinions on these matters. Also student government is valuable training for those who may want to go into the law, and is a practical way for the democratic way of life."

FCG and WBOR
Pete is also SJC director of WBOR-FM, and there was a certain sarcastic twist put on that part part. Guessing that he probably hit a sore point we continued with anticipatory glee. To the

recent FCC decision putting WBOR off AM radio affected you? we got the answer. "I know that decision. Practically the same as far as getting across to students. WBOR-FM has cut the service (at Bowdon) for I would say, we got the answer."

The discussion moved on to the field of student government in general, and when we inquired as to Pete's views on the tradition or lack of tradition of student government at Bowdon, he commented: "I think there are a great many people who do think that student government is too conservative (at Bowdon) for I would say to those people that change is necessary. Very infrequently do in itself not necessarily progress."

Change Last Progress
The discussion moved on to the field of student government in general, and when we inquired as to Pete's views on the tradition or lack of tradition of student government at Bowdon, he commented: "I think there are a great many people who do think that student government is too conservative (at Bowdon) for I would say to those people that change is necessary. Very infrequently do in itself not necessarily progress."

College Radio Station
The "College radio station" is a great experience," Pete continued, "especially in the sports department. I have a better sports staff this year than in four years at Bowdon."

Blanket Talk
We began to think about now that we had run out of questions, but Pete was quick to answer. He is currently the director of the Harvard Research Center in Altruism. Sorokin has written many books including Leaves From a Russian Diary and Crisis of Our Age.

Fraternity participation in "Mister Roberts." This was an encouraging statement of the increasing popularity of the Masque and Gown as a campus activity. With Pickard Theater and this revitalized interest, Bowdon College should have an enviable future.

"Mister Roberts" is fine entertainment. To anyone who missed Tuesday's performance, it is heartily advised that you plan to be aboard May 10. You won't regret the trip and you'll be aloft with a corking good crew!"

Glee Club To Give Concert On Campus
The Glee Club will present its annual concert on Friday, May 2, at 8:15 p.m. in Pickard Theater. Along with the Club, the Vespers Choir will also sing two selections.

The concert will feature many of the traditional Glee Club songs such as "Glorious Apollo," "Land, Sea, and Sky," "Jesus Walked This Lonesome Valley," "Fore Jud," and "Marry A Woman Uglier Than You."

Soloists include Peter Potter, Jim Cohen, Donald Hovey, Alan Bernstein, Cam Smith, and Jim Howard. Two new American selections have been added: "Wait for the Wagon" with a tenor solo by Carl Krueger and "Vespers An American Work Song," with Al Woodruff doing a baritone solo.

The Meddies as custom, will harmonize for the boys during intermission.

Letter To The Editor
To the Editor,
In reference to your last week's article on the college radio station, WBOR, I would like to correct what I suppose is a typographical error.

The new console which we hope to have by next fall is not being purchased for the station by the class of 1952, but rather by the class of 1954.

I know I am speaking for the whole staff of WBOR when I say that we are indebted to the class of 1954 for making WBOR, and WBOR possible. We all appreciate the radio experience in all the various fields and the financial help which Mel Morrell and the class of 1954 has given us to make us a well-equipped and a more professional radio station for the Bowdon College community.

Wayne H. Smith
Program Director

There will be a meeting of the Bowdon Wives April 29 at Mary Lou Curtis's house at 8:00 p.m.

College To Choose Two Sloan Scholars

Bowdon College has been selected as one of six New England colleges which will share in the 1958-59 Sloan scholarship program of the Alfred P. Sloan Foundation.

Hubert S. Shaw, Director of Admissions recently announced. Two members of Bowdon's next freshman class will be designated Alfred P. Sloan National Scholars.

There are no geographical restrictions on the awards. The Sloan scholarships will go to men who "have established a record of high character, leadership potential, and scholarly promise."

A scholarship may be renewed each year during the regular undergraduate course provided that the recipient continues to meet the necessary requirements. The institutions themselves have complete responsibility for selecting the recipients.

The purpose of the Sloan awards is to find and help provide an education for "outstanding representatives of American youth, regardless of their economic background, who show exceptional promise of becoming leaders in their chosen careers and of fully participating in community life."

Two new American selections have been added: "Wait for the Wagon" with a tenor solo by Carl Krueger and "Vespers An American Work Song," with Al Woodruff doing a baritone solo.

The Meddies as custom, will harmonize for the boys during intermission.

The Saturday morning exercises have been pushed up a half hour, from 10:00 to 10:30 a.m., it was announced by Junior class President Gene Waters.

For those who cherish their sleep, or what-have-you, this comes as a welcome change. The ceremonies will, as in the past, be held on the Walker Art Museum steps.

Warburg ...
(Continued from page 1)
Free-Lance
A free-lance reporter and commentator devoted to international affairs, Mr. Warburg has been a frequent critic of both Democratic and Republican administrations. His long series of books, pamphlets, and magazine articles "have expressed a growing dissent from a foreign policy which has seemed to me too negatively occupied with Russia, too unimaginative and too inflexible." The titles of some of his more recent books include: Peace in Our Time, Foreign Policy Begins at Home, Victory Without War, How to Exist, Germany Key To Peace, and The U. S. in a Changing World. His latest volume is Agenda For Action.

Bank Director
Mr. Warburg is still active in his business and financial interests. He is a director of The Bank of the Manhattan Co., the Bydale Co., and the Polaroid Corporation. He is a director of the New York Philharmonic Society and among his other activities he is the writer of poetry and popular songs, "Fine and Dandy." During his career in the Navy during the First World War, Mr. Warburg invented a new type of compass for use in aircraft.

The Weekends
The Weekends officially begins when the Boston Pops will give its annual "Bowdon Night" at Symphony Hall in the Hub. The Glee Club will perform as well as the "meddies" and very probably Dr. Frederic Tilton.

Friday afternoon there is a scheduled nine-inning duel with Trinity. Friday night Bob Bachelder will provide the entertainment at the gym in the Ivy Forum. Tickets are \$4.75 this year. The Ivy Queen is also to be chosen during intermission.

Last week the juniors held elections for the recipient of the Wooden Spoon. The prize, annually given to the "most popular" junior, will again be presented during the Ivy ceremonies on Saturday morning.

In case of rain... well, what's to spoil this shining.

THE BOWDOIN COLLEGE

Deeds Every To Arouse Bowdoin

Whit Presented Award For His "Big Story"

Last week in an exclusive interview with the Dean at Brunswick Jail the College position on Dr. Whit was revealed to reporter Whit. Whit, who had been detained by police. This opportunity to break through the wall of secrecy surrounding Mass Hall was seized by Whitney to discover the actual standing of the Administration on the alcohol situation. In line with his plot this entertaining Orient reporter first scented his breath with a light touch of Pernod and then disposed ("I can't remember, just where") of the contents. With bottle in hand he searched out an officer of the law and uttered uncomplimentary epithets in reference to same.

Whit claims to have said nothing stronger than "You are a weak minded job," when first accused but when the grip of the hand of the law tightened he became voracious in his denunciations of the Police Department. As he explained later: "I knew if I could get him to arrest me I could get the story. He."

We at the Orient are proud of Whit and his noble efforts on behalf of the newspaper and take firm opposition to the Administration concerning his dismissal. (See editorial "The Bowdoin Zenger" on page 3.) For his story we are presenting Whit with The Orient Award of a lifetime subscription for his "His Big Story!"

Hereafter follows whitneys report on Alcohol Policy in Mass Hall as he wrote it and lived it. It was midnight. We were feigning drunkenness on Main Street in a desperate attempt to get the truth of rumors emanating from Administration mouthpieces. We were intoxicated by the bold designs of our plan and staggered a little as we passed the brightly lit haunt of tobacco, exotics, Kennebec Fruit store.

Council, Dean, Overseer, Evaluate Co-Education At Bowdoin In Future

With all the Student Council members, some of whom were artistically inclined demanded to know why there had been no effort to ascertain student opinion concerning a co-educational Bowdoin. Results are not complete yet, but some of the more articulate expressed their views in Ivy fashion.

Some raised objections on purely feminine grounds. For them the typical college girl had the trustworthiness of Bathsheba, the worldliness of Mademoiselle Muller, and to many designs on males with bank accounts. Others observed that "a college girl is a hypocrite with an Italian haircut, breaking the hearts of would be lovers." A third group expressed concern over her love of cosmetics, new clothes, telephone, athletics, Liqueur and spicy books. A final group were appreciative over her high IQ and her two-faced nature.

In response to these charges, several young females have written the council and our West Coast news office. While flatly denying all the assertions, they seemed to mention some of their own. They complained of his shyness and taste for bad, as well as his liquor. Some observed that he had the aspirations of a cavewoman and when he wants something it is usually money.

Despite all these misunderstandings, the Council has reported that a reconciliation is presently being effected. As we go to press, the telephone wires are humming and it is expected that all will be well. It seems that neither sex can do without the other. As our Arizona correspondent stated, "you can lock him out of your heart, but not out of your bank account." From our Wesleyan reporter, these words of wisdom flowed: "Despite

We bravely and with slurred tongue insulted a cop. The next thing we knew we were in jail. The Dean was there.

"What," we asked, "is the official policy of the Administration on drinking?"

"He's been babbling like that for an hour," a cop interrupted in an attempt to convince him of our drunkenness. We wiped off a streak of saliva which had gathered at the corner of our editorially "public" mouth. The question was repeated.

"Collective drinking," Dean Kendrick responded, "is contrary to the law of the state of Maine. This includes..."

He was unfortunately interrupted at the point of making we were sure would be an exposing statement by a dry gasp and gag from our throat. We knew we were about to find out what course of action the College would take when the law of the State of Maine was violated.

"This is the fifth time I've had to tell you about Schickelgruber," is an approximation of his mumble. "Dean, I'm doing it for the Orient," we answered foggy.

"Sorry to do this but I warned you before." Now we were getting to the core of this situation. "My dear," in the editorial columns of the College Newspaper, "are you threatening me?"

"We are — I am only out to get a story. Look at what Drew Pearson," (one of our journalistic heroes and a master of libelous attack)

(Continued on page 2)

her insidious disguises, she (the college girl) is irresistible and indisputable." The Council stated that any request for an referendum in the future to consider the possibility of a co-educational Bowdoin would be subject to the Dean's approval and Ivy fashion.

CO-EDUCATION??

It is felt that, in the light of the coming weekend, it not only would be highly irregular to hold such a vote, but that he would have to turn the matter over to the overseers.

certain amount of interest in chemistry. Those that remain can then be called upon to participate in the chemistry department shuffle. In a new plan to separate the chemistry from the boys, the chemistry department will require that all freshmen even vaguely interested in this discipline begin with Physical Chemistry in the freshman year. In the belief that the really worthwhile student will pick up the necessary rudiments of Thermodynamics, Quantum Theory, and the like as the year goes on. This will weed out those who lack a

YOUNGEST OVERSEER

Here is Hiram Deceport '94 (1794) a member of the Bowdoin "Team" which addressed the graduating seniors. Note that the youngest Chairman of the Overseers in the History of the College (92 years old) is carrying the official equipment used to increase the endowment.

upon weekly radiation checks. In conclusion the Board wished to refute the rumor that a radiation leak from the Beach is causing the binding of books in the library to crack. We suggest that it is heat of an internal nature that is giving such a lethal effect on the splendid collection of Eric Stanley Gardner's.

Sincerely,
Maine Truckers Union

To The Editor:

I think it's about time the U.S. did something to end this internationalism. These Commies we mean business. Drop a bomb on Moscow or Peiping — a big bomb. That'll show 'em.

Sincerely,
Pittirn Sorokin

To The Editor:

I don't think people are happy enough. Why is it that everyone goes around all the time with a frown instead of a grin? I think the world situation would be half as grim if we all would smile once in a while. I try, but I can't be everywhere.

Sincerely,
Mona Lisa

Please allow this letter to serve as a statement of public policy for the Dudley Coe Memorial Beach. As a result of its overwhelming popularity the Board of Commissioners feel it their duty to make definite rules regarding its use. Henceforth, scheduled appointments will be a necessity. While we do not wish to hinder anyone in the attainment of the proper shade of tan for Ivy we must give our nurses a rest. No more evening appointments.

The Beach will be closed on Mondays. This move is necessitated by regulation of the Atomic Energy Commission which insists

Library Orgies Held Honoring Ancient Tomes

By Cyril St. Georgy

Although unconfirmed by official library sources, rumor has leaked out that the wild celebrations held behind the massive walls of Hubbard Hall last week were due to the fact that another book had been joyfully added to the "hundred year club."

Coveted Award
This reporter was able to discover that to get the coveted hundred year award, a book must be circulated for this period of time. An employee who wishes to remain anonymous, who is approached said: "Oh yes, this is indeed a happy time for all of us and it just makes us look forward to the day when the library ideal can be fulfilled — when all the books can be neatly shelved, with none of the inconvenience of having them circulate."

The title of this most recent addition was prudently withheld because it was felt that publicity would only do this but I warned you before." Now we were getting to the core of this situation. "My dear," in the editorial columns of the College Newspaper, "are you threatening me?"

"We are — I am only out to get a story. Look at what Drew Pearson," (one of our journalistic heroes and a master of libelous attack)

This Ivy-lawn-and-porch party shot shows Dekes and companions aroused by the seasonal festivities, 1957. With aid from the weather gods, Pan, and Bacchus at the annual sacre du printemps all should go well for the Brunswick equivalents of Arcadian shepherd swain and nymph. To simplify: Let the lowest common denominator of Nature reign, Ivy '58, Best Ever.

Lumpkin's "Hilarity House" Book Of Week: Reviewed By Terry Lumpkin Formula For Compatability

By Terry Lumpkin
Last night the Masque and Gown of Bowdoin College gave an initial pre-Ivy performance of their Ivy production for this year. The show, *Hilarity House*, was performed in Pickard Theatre. It was written by Terence Lumpkin.

The delay of the curtain going up for eight minutes after the house lights had been turned off is a minor flaw and should be corrected by the final show. Dramatic Director Bruce said that the set should be completed by that time also.

By Terence Lumpkin
Hilarity House by Terence Lumpkin is a murder melodrama dealing with a wife who has an insane husband. (At least we feel that he is insane for the first three acts, but the fourth act contains a true Lumpkin twist: it is really she who is insane and her husband was normal all the time.) I should keep the audience enthralled and excited — but then again it might not.

In general the acting was quite good. Larry Levisol '52 was perfectly cast as the idiotic husband, John Weewick was generally good as his later-proven-insane wife. Bill Roberts '60 as the policeman was briefly effective in his walk-on, but his uniform didn't fit very well. As the gossip neighbor, Zeldi Poole was delightful — in her way. Others who acted were Grud Mullens '59, Joel Smithman, Paul Zachery, Peter Pulin all of '61 and Smedley Thirst who was

PROGRAM
Thursday, May 8
"Pops" at Bowdoin Symphony Hall

3:00 Baseball vs. Trinity
9:00 Ivy Formal, Bob Bachelor and his Orchestra.
Saturday, May 10
State Track Meet at Whitfield
10:30 Ivy Ceremonies.
John Christie and Professor Brown, speakers.

The curtain calls were very clever, particularly original being the dramatic Director's emerging from the secret closet at the end. In general, it was sheer magic with still a week in which to learn the lines, "Hilarity House" should be another delightful Ivy production.

(Continued on page 2)

We at the Orient in line with our policy of stirring up strife and creating issues with no basis in reality now turn our eyes for a one week series toward that bugaboo pudicity. Pudicity is defined by Webster's Collegiate as being: or rather since our Definitions Editor can not locate the word is defined by our Definitions Editor as being misspelled. Seward Marsh, Alumni secretary said when asked what he thought of pudicity: "Not Quote me but I never heard of it." Mr. Marsh then revealed that he was not a graduate of Bowdoin but was presently employed by Bates College as a subversive. Naturally this was all off the record. When asked what he thought of the Presidents policies Mr. Marsh replied: "I back 'K. C.' to the sticking place."

The Quarterly
This reminded us to ask Prof. Brown his opinion in Pudicity and we did. "Herbie" as he is affectionately called by all his students behind his back smiled and laughed. "Ha-Ha-choke-Haw Guffaw chorally" he responded. We left him rolling in glee through the dusty floor of the New England Quarterly office, and searched for a student who might have an opinion. We searched long.

And finally found the ubiquitous Peter Smith in the Union. Pete, we made the mistake of asking. What do you think of pudicity? Flushed to a lousie wall as we were it was impossible to take notes to Peters hour long harangue is lost

Formal Features Bachelor Band, Meddie Melodies

Exodus To Beeches

"Mister Roberts" Is

Dramatic Diversion

Saturday Evening

Ivy Weekend will officially

begin tomorrow evening at

8:30 p.m. when the Boston

Pops conducts its traditional

Bowdoin Night" at Symphony

Hall in the Hub City.

For many the weekend com-

mences earlier with fratern-

ity elections, senior "blasts"

and "pre-Ivy" ceremonies.

Ivy Day itself, will again be

held on Saturday morning but

will be held on Friday night at

the usual 10:00 o'clock time. High-

lighting the ceremonies will be

done by Professor Herbert Ross

Brown of the English department

and John Christie, a member of

Psi Upsilon.

The Wooden Spoon will again

be presented at the ceremonies,

which will be held on the steps

of the Walker Art Museum.

This year Bob Bachelor and

Orchestra will provide the enter-

tainment on Friday night at

the Ivy Formal. The Formal be-

gins at 9:00 p.m. Tickets for the

dance are to cost only \$4.75 this

time.

Heggen Comedy

On Saturday evening at 7:15

p.m. Thomas Jagger, prize-win-

ning "Mr. Roberts" will be pre-

sented by the Masque and Gown.

The production, which received a

rather pleasing review from the

ORIENT critic, features Ronnie

Desjardins in the leading role. The

cast includes a number of new

faces to the Pickard Theater stage

and they add vitality to this some-

times naughty satire on naval life

during the war.

Saturday evening is always re-

served for the respective House-

parties and this year is no excep-

tion. All fraternities plan on do-

ing it up big for the last Weekend

of the year.

The Psi Psi's will have Ralph

Stuart for their band after an

afternoon at either Popham or

Small Point.

The Upsilon's are planning to have

neither a band or a beach party

although they

Boothbay Party

The Delta Sigma will be at Ted

Rinley's Boothbay home in the

afternoon. The Delta Sigma Nu's

undergraduate, Pertti Lipas will

provide their music at night.

The Sigma Nu's are going to

Popham, too. Dick Doane from

Portland is slated to play his own

inimitable jazz for the boys (and

females) on Saturday night.

The Betas are going to Sebago

and are having a U of M band at

night. The ATC's are at the Reister

Park, and are having Lou Lemon

from Portland. Lemon will also play

at the Psi U House. The Psi U's are

spending the afternoon at the Out-

look in Boothbay.

The ARU's are having Preston

Sandford (who?) on Saturday

night. They, too, are going to

Popham. The AD's are going to

have Harry Marchand for Saturday

night, the Zeta's and RPI jazz

bands, the Kappa Sig's, the

Polar Bear Five.

That's the rundown. It is not ex-

pected that many will last it

through to Sunday.

Bug Dept. Not To Make Mincemeat From Students

The biology department has categorically denied that it plans to dissect any of its students next year. A faculty spokesman was heard to say — "The anti-vivisectionists can relax, we like our boys pretty much the way they are. Besides, the rumors that have been held in the shadow of the walls of the monolithic Searles Scientific Quadrangle give us plenty of organic material to analyze. By the way, did you see the Madagascarian Monarchs Rumble it out with the Brunswick Blivets last week? You get a terrific view from the splendorous astronomical platform and launching pad on the roof."

It is apparent to this reporter that these rumors hurled against this department are fringe effects of the hysteria caused by the chemistry department shuffle. In a new plan to separate the chemistry from the boys, the chemistry department will require that all freshmen even vaguely interested in this discipline begin with Physical Chemistry in the freshman year. In the belief that the really worthwhile student will pick up the necessary rudiments of Thermodynamics, Quantum Theory, and the like as the year goes on. This will weed out those who lack a

J. Stompinato Grants Interview, Gives Hints To Amateur Gigolos

(In the past our "Man of the Week" column has attempted to bring to our readers the thoughts and opinions of some of the leading men in the news. This week is no exception. We print the following exclusive interview with John Stompinato.)

Mr. Stompinato we would—
Please, call me Johnny.
Very well, Johnny. We'll run this interview very simply. I'll ask you questions and you answer them.
I don't give a — how you do it. Just get it over with.
Okay. Now then, Johnny, would you like to tell our readers how you feel about Lana?
Lana who?
Lana Turner — Lana! She gives you a good time.
What do you mean, "a good time"?
Oh, come now, this is a family newspaper.

Cheryl?
How do you feel about Cheryl?
She digs me the most.
That's a good answer.
Thank you Mr. Wallace. This is Nightbeat, isn't it?
ER, no. Well Mr. Stompinato, — Johnny, please! Or you can call me Stompinato, if you so choose. This is what Lana always calls me. But come on with the interview.

Do you like movies?
Yes, I do. Graumann's Chinese is my favorite theatre. I left my fingerprints in the cement there once. That was when I decided to go straight.

Chosen Profession
Straight?
Yeah, straight into my chosen profession.
And what was that Profession?
I was what is called a gigolo in the trade — whatever the trade might be. I understand it's a very old profession.

What were your functions?
Hey, that's pretty personal, talk about my functions.
I mean your job — what did it consist of?

It's kind of hard to put into words. I used to fly around to London, Acapulco, all over, making money, making love, making Lana.

I see. I see. What is your present occupation?
Corse.
Speaking about that, do you harbor any grudge against Cheryl?
It ain't exactly a grudge. It's like a cut. I thought it was her finger.

Would you like to tell us about the aching?
We were discussing the recession. Lana and I, in her bedroom. Things ain't so good in the business world, you know.

So I've heard.
Well ain't you the smarty-pants? Anyway, I sort of slapped Lana once or twice — just to make

Johnito as candidly seen in an antehumous supine position within an unidentified boudoir. He holds a prepublication copy of his autobiography.

a point — when this girl, Cheryl, comes in, walks over to me and sticks her finger in my stomach. Sharpest finger you ever saw.

Everything goes black. Just before I hit the carpet, though, I could hear Lana say, "Taxes should be cut!"
Do you believe Lana should have custody of Cheryl?
I think someone ought to run today that girl right in the jaw. Confidentially, who's your favorite movie star?

You mean, you don't like Miss Turner's work?
Oh, I like her work fine! She does good work.

These letters of yours that have recently been published. But why do you didn't write them.
I don't know how to write.

Can you read?
Italian, yes.
Who read Lana's letters to you?
Elsa Maxwell, a family friend.

I would like to say in passing that I ain't exactly a gigolo. Bowdoin College endowing a bed lecture in my honor.

A bird lecture?
Yeah — the John Stompinato Lecture on Jail Birds.

For a final question, Johnito, what do you think of Ivy weekend?
I think it's a good institution. And it's good for all those budding young gigolos. But why do they get all those lights there all over the campus?

Thank you, Mr. Stompinato.

CALENDAR

Wednesday, May 7
Chapel. Norman Vincent Pease speaking on "Anti-Materialism" 2:00-4:00 p.m. Mrs. Coles' Birthday Party. Bring gift.
8:15 p.m. Nikita Krushchev, L.L.B., L.L.D., L.L.D., S.O.B. speaking on "Maine Politics." 11:45 p.m. Orientation Committee Meeting.

Thursday, May 8
1:00 a.m. Orientation Committee Meeting.

9:00 p.m. Orientation Committee Meeting.

9:30 p.m. Special session of the Orientation Committee.

News From Other Colleges
The dropout rate in Russian universities is extremely low because of a careful secondary school selection system which is a matter of Soviet national policy.

Dean C. D. Harris of the University of Chicago said that the attrition rate is only one per cent per year over the five-year undergraduate program.

(Continued from page 1)

following is an example of this genre:
Rain Is Made Of Memory
The sound of rain is laughter on the wind
from somewhere far away —
The rain moves like quiet tears down windows dark against the night
The touch of rain is tender like her hand —
And the sweet spring smell of rain like that delicious hollow just beneath her ear.
Follow through: No holds barred.

CXIV
Situation: This thing has dragged on and on. The phases of elation and joy unbowed, the mellow glow, playful suspicion, fearful accusation, and horrible apprehension have been passed. The wound has been staunch. It is now time to terminate things with a final cauterization. The Collegian may find the following selection helpful:

Apology
The wine is gone;
I have no more to offer.
The music stops;
I can no longer play.

CXV
Situation: If, in later years and as a result of a depressed or maudlin mood, the Collegian should find himself thinking of some former Young Lady, a degree of relief may be experienced by indulging in the following measure. As a coda to this long dead relationship, a single sofelet letter may be sent. It should be brief, poignant, and non-committal. Example:

Two Gifts (With Reservations . . .)
I can bring you
The name of a star
long burnt to an ash of light
But no measure more near that star

(Between us there is silence. Thoughts wander in the darkness

of memory.
Afraid to cry out.
The last of love is spent!

Follow-through: The accompanying letter may be cheerful and chatty, tender, or terse as the Collegian's mood may dictate. If he has not already done so, he should cheerfully and chatty, tenderly, or tersely as his mood may dictate) ask for his pin etc. back. Inform the Young Lady that she may keep all letters, poems and other printed matter as a carbon copy has been kept against this eventuality. As in letter 1, a simple signature will suffice to close.

But
no measure more near than time
than now
Follow through: Don't bother to sign it. She'll know.

Board Reviews Revamped Relics; Collect Salaries, Reassurance

Unfamiliar faces on campus last week included two small underfed gentlemen eaking out the remnants of tweed topcoats and outmoded Ivy League bermudas. They arrived in a well used continental in seeking audience with the President, Dean, Trustees and BURSAR, they stressed financial embarrassment with consequent lowered status in their respective constituencies.

When identities were determined (two of the oldest in the alumni and three retired janitors, upon careful scrutiny, qualified the stated claims of the personnel) by the end of the week, and credit will be fully accorded these absentia in later columns.

The gentlemen in question were making a formal request for the lamented salaries of seven years of service in and for the college. One position held was ascertained as third assistant to the second accompanist to the surveymaster of the Bowdoin College Department of Grounds and Buildings.

The present assistant to the college Historian releases the fact that this man fills a chair in the basement of the music building in his leisure hours "due to the nature of his salaried post." The exact nature of this "post" is being tactfully withheld.

The remaining unfamiliar is more obscure in occupying himself. Evidently a man of some little talent, a controversial amount of "what it took," and additional undetermined qualifications which the Boards deemed prudent to retain, this man is being considered for pension material. Yes, it is established beyond the shades of the dubious that he was, (and consequently remains, and shall remain), a sub-assistant lamp-illuminator of the above named department. The staff of this paper joins the rest of the Ivy celebrants in a plea for the preservation of this vital administrator for all subsequent Spring Weekends.

To The Editor:
Words, words, words, I'm so sick of words. I get words all day long first from him, now from you. Is that all you brighteners can do?

Signed

There's an important future ahead for the men who wear these wings

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air — and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for

an important career in the new Age of Space. As a college graduate, you will be given priority consideration for the Air Force Aviation Cadet Program. While openings are limited, you will be tested and advised immediately of qualification status. Find out if you measure up. Paste the attached coupon on a post card and mail it now.

MAIL THIS COUPON TODAY

Justice Burton Wins Bowdoin Prize

5 Year Award Given To Douglas, Sills Macmillan In Past

Associate Justice Harold H. Burton of the United States Supreme Court will receive the Bowdoin Prize for 1958 at a special convocation to be held on September 23.

The selection of Justice Burton was made by a committee consisting of the Presidents of Harvard and Yale Universities and the Chief Justice of the Supreme Judicial Court of Maine.

Mayor of Cleveland
A magna cum laude graduate of Bowdoin in 1909, Justice Burton was Mayor of Cleveland from 1935 until 1940 and then served in the United States Senate until President Truman appointed him to the Supreme Court in 1945. He has been a member of the Bowdoin Board of Overseers since 1936. The Bowdoin Prize is awarded not often than "once in each five years to that graduate or former member of Bowdoin College, or member of its Faculty at the time of the award, who shall have made during the period the most distinctive contribution in any field of human endeavor. The Prize shall be awarded only to one who shall, in the judgment of the Committee of Award, be recognized as having won national and not merely local distinction, or who, in the judgment of the committee, is fairly entitled to be so recognized."

Justice Harold H. Burton
1958 Bowdoin Prize Recipient

Houses To Be Off-Limits For Frosh On Friday, September 19

In a regulation passed by the Student-Council last week all Fraternity Houses will be off-limits to incoming freshmen next fall from the time of their arrival until 5 p.m. Friday, September 19. This move will permit several hours of College Orientation as a part of the joint student-administration program.

Another meeting between the Student Orientation Committee and the Student Orientation Committee on Tuesday, May 20, at 8 p.m. Individual house orientation reports are due on May 19. Further regulations prevent upper classmen from presence in buildings where Orientation programs are taking place from 1 to 5 p.m. on Friday. To effect this ruling, Council members will be present during the Orientation to prevent any violations.

Letter To Freshmen
The Student-Council, to further aid freshmen in becoming aware of what happens during the College rushing system, has prepared a letter which will be sent to all students matriculating in the fall. This letter, in addition to clarifying certain rushing procedures, makes clear that no freshmen are allowed in Fraternity Houses until 5 p.m. on Friday. The Council issued a rule recently which states that all Fraternities shall be off-limits to Freshmen from the time of their arrival until Friday at 5 p.m. This will enable the administration to carry out a few hours of college orientation activities which it has planned for Friday afternoon.

The Student Orientation Committee is further decided to meet on Thursday evening before the freshmen arrive to review rushing policies and the rushing situation.

Council Amendments
Amendment to the Council Constitution read as follows: Section 17: Part A. "Each Fraternity will be held accountable to the rules and regulations as set forth by the Student Council. Part B. 1. No irregular activity shall be required of Freshmen except signs and banners. Said signs shall not be in excess of 8 by 12 inches. 2. No freshmen shall be required to work in excess of three (3) hours

WarburgPans Orient Selects O'Neal As Editor; In Bird To Preside Over Council Interim Session

"I do not know what it takes to wake up our government," said James P. Warburg, 1958 Delta Sigma Lecturer, last night "if you want peace." He continued, "gang up with others who want peace; you won't get it any other way."

Mr. Warburg further said that to find a comparable period of "weak, unimaginative leadership" it is necessary to go back to the days of President James Buchanan. The fact that the citizenry does not seem to be concerned about the lack of American leadership Mr. Warburg attributed to "simultaneous acute anxiety and almost somnambulistic euphoria."

"When people are in euphoria they tend to elect to office men of a pleasing nature," Mr. Warburg also blamed current issues of only superficial importance like "mink-skin-mania," and more recently, "the wholly unnecessary signing of the economy" as extraneous to the fact that our foreign policy is "tetering on the brink of disaster."

"Since," it seems unlikely that we won't meet Soviet Russia in a summit conference before year's end," Mr. Warburg outlined an agenda for such a meeting. Middle East disengagement using a basis proposed made by Russia in 1957, agreement to ban nuclear weapons with some type of inspection, and disengagement of Europe would be three possible items of discussion.

Part D. "The Student Judiciary Committee shall hold the House Presidents responsible for the above in conjunction with the Student Orientation Committee. Any activities by the Fraternities involving their Freshmen delegations which the Student Orientation Committee determines to be contrary to the spirit of the College Orientation Program, will be subject to review by the Student Orientation Committee and/or action by the Student Judiciary Committee."

Members of the Student Orientation Committee are C. Raymond Babineau '59, chairman; Daniel G. Calder '60, Robert W. Clifford '59, Jay R. Goldstein '60, David A. Krasne '59.

Two Operas To Be Presented Friday, Saturday Evenings

The Bowdoin Music Club, under the direction of Prof. Robert K. Beckwith, will present two one-act operas on Friday and Saturday evenings, May 16 and 17.

The first of these operas, AGE OF ICE, was written by Fred Wilkins '56 with libretto by Robley Wilson '52. Staged by Benjamin E. M. Priest and designed by Ed Groder, the cast includes Pete Potter, Cam Smith, Ruth Powers, and David Kramer.

This opera, which is of a serious nature, will be contrasted by the second production, MARION, Dan Calder is staging this opera and Guy Davis has designed the production. The cast includes Pete Potter, Cam Smith and Ruth Powers, augmented by Al Woodard, David McKean, Jack Reynolds, and Dave Krasne.

Both of these operas, produced under the auspices of the Bowdoin Music Club with the assistance of the Music and Gown, will have the musical direction by Prof. Robert K. Beckwith.

THE BOWDOIN MUSIC CLUB assisted by MASQUE AND GOWN presents a new opera

AGE OF ICE
They were Harold Aldrich, Libretto by Robley Wilson, Jr. Ruth Powers, Barbara Hardy, Peter Potter, Cameron Smith, Benjamin E. M. Priest designed by Edward Groder and David Kramer.

Calder, Brightman Lindsay On Revised Editorial Board

Roland O'Neal of the Class of 1959 was elected to lead the ORIENT for the academic year 1958-59, it was announced today by the present editor, Paul Lewis.

O'Neal, who recently received the Franklin D. Roosevelt Cup, was the chairman of the Campus Chest Committee, secretary of the Student Council, and is currently serving as managing editor of the paper. He is an Alpha Phi member.

This is his third year of newspaper activity; he has been a member of the news department since first beginning work downstairs in Moore Hall.

Revised Editorial Structure
The Bowdoin Publishing Company will announce yesterday morning at its meeting, that a slightly revised system of editorial structure would be instituted next year. Three editors will be rotated in the managing editor capacity: Tom Lindsay, Dan Calder and Jon Brightman. Each of these men will be responsible for various issues of the paper.

The Business Staff continues in tact. They revise their slate with the change of volume each year, which normally occurs in April.

The new-style Editor-in-Chief is Stephen Wilcox, a Zeta sophomore. The Publishing Company discussed plans for the Commencement issue. The paper will again be distributed on Saturday morning, June 14.

Orient Prize
An ORIENT Prize Committee was set up by the Company consisting of Professors Herbert R. Brown, Louis Cox and Paul Hazel. They will choose the best news story, feature story, editorial, photograph, sports story, and cartoon. Winners will receive a ten dollar award. They will be announced during the first week of June.

Waters Wins Wooden Spoon; Couples Stranded By Tide

On Thursday evening, "Tilly" gave a rousing demonstration of the competence of the Glee Club. Along with Fiedler's robust conducting it was very much a colorful night for the thousands who attended Symphony Hall in Boston. The "Tops" as usual, did some neat variations on popular classics including "Rhapsody in Blue" (Leo Litwin at the piano) and a dance

There were tense moments for four Sigma Nu students and a dog this week.

During the icy Saturday afternoon beach parties at Popham Beach they meandered out to the rock, the end of the beach and returned stranded there until the Coast Guard picked them in a few chilly hours later.

Frenchie Taylor, Tom Crocker, and a dog.

Both of these operas, produced under the auspices of the Bowdoin Music Club with the assistance of the Music and Gown, will have the musical direction by Prof. Robert K. Beckwith.

Free
The award, in 1953, was worth \$4,900 tax free. The donors intend that the prize would eventually be worth \$10,000.

The first recipient was Dr. Fred Albee of the Class of 1899, Interim.

Critic Finds Quill Worthwhile Effort

Whenever I am asked to say something about the Quill, I find myself feeling much as the man must have who first suggested that the Quill be published. I know I have an insufferable lack of interest in the lives of others, and I find the Quill's editorial inadequate in my conclusions, anyway. Criticism is a subjective thing and it is not my intention to criticize to agree, at least in particular. Then, too, in the case of the Quill, the criticism is not intended to reflect the early writings of many people who have been later recognized as writers of first quality, but rather the understandable traits of immaturity.

And, of course, the work of any man has its undesirable areas. No one is at his best every morning.

Poetry Varied
The poetry in this collection is highly varied in form and subject and the contributors are to be congratulated for their versatility. To me, the most awakening lines are those which are the least successful.

"You must die this country... And yet you love it!"

A Proposal For Gifts

During the next two weeks over twenty-five seniors will be wrapping up their Honors projects for their respective departments.

The Honors Program, thoroughly revised by the school on the recommendation of the Ford Foundation Report of 1955, has become one of the most rewarding academic features of the Bowdoin curricula. The opportunity of engaging in Honors work has become a goal of many serious-minded undergraduates. The benefits that accrue to candidate, department, and major students alike are certainly unlimited.

Yet in one respect the Honors Program is very much limited. The expenses incurred by conscientious candidates in their attempts to track down information and source material for their papers has been, in many cases, overwhelming. There is no question, however, of the value of such trips to the candidate. Often he is faced with having to dip up material of considerable importance that can be found in such centers as New York, Boston, Quebec, Baltimore or what have you.

Travel of this kind is very much a part of the educational experience inherent to the honors program and we feel worthy of investment by alumni and friends of the College. Many other institutions are endowed with such gifts and they have been put to excellent use. Now that Bowdoin has revamped its Honors system it seems quite likely that it, too, can benefit from this financial increment.

Not Here

In the innumerable sessions over coffee in the union, the topic of conformity in the undergraduate body sometimes switches to that of conformity in our faculty. There are fears (over coffee) that the day of a faceless faculty is approaching.

The situation has become ludicrous in some of the state universities. Similar to the questionnaires of the large corporations intended to screen and find the good "company man," these universities are distributing questionnaires to prospective instructors designed to mark the good "university man." To be acceptable, the candidate merely has to have no heterodox views on motherhood, the government, teaching, life and love; he must be friendly, sociable, and should be married to a woman who will "fit-in" with the other faculty wives. Of paramount importance is that he must publish — no matter what — so long as it is often.

While the situation has not reached the questionnaire stage here, certain administrative rumblings indicate that the philosophy is beginning to lean toward a weeding out of unforming faculty members in the best interests of a more "harmonious" academic community.

So we drink our coffee. What would have happened if Socrates had taught here? He wouldn't have lasted a year — never published — spent all his time talking to his students. Do you think St. Augustine would be interesting as a religionist? Are you kidding? don't you know about that man's past? Pretty immoral — and very heterodox besides. How about a couple of semesters with Thoreau? He'd never last either. Probably would be remiss about faculty meetings and social gatherings. He had no feeling at all togetherness.

The examples are facetious. We finished our coffee. It could never happen here.

Lost! Mergendahl, '41 To Write Movie

The following is taken from the University of North Carolina Daily Tar Heel. We thought for those who still consider themselves a part of the "Aspirin Age" this might strike home. The problem, if you read anything out of Princeton, is universal.

Why is this generation different from any other generation? Why is the delinquency rate higher now than before? Why do some people apply the appellation "Beat" to a large segment of the population or the United States?

Why are things reputedly so much worse in this generation when the motivating cause of this deterioration is the same as the cause for any human thing in previous generations — people?

What has happened? What has gone wrong? And how are people now different from people then? Perhaps an answer can be put in one word — security.

There is no age in history when security was so much prized as it is today, and there is no age in history when security was so inaccessible as it is today.

In times past there were many avenues to security. Isolation was one of those avenues. An individual could be a hermit, find himself a cave, and isolate himself from the worries of organized or disorganized society.

A nation might surround a hermit's cave with a wall of isolation, and not be involved in the troubles of other nations.

An individual might surround his hermit's cave with rubble from many miles away, and the lines of communication and contact with other men and nations have made isolation a policy of the past.

Even an idea such as Laissez-Faire, which is a relatively modern notion, has no credence with national economies so intricately bound up and dependent on one another.

Numbers used to mean security to many people. It used to be true that if you had more than the other guy, you were safer than the other guy, for your numbers would shield you.

It now takes one man pushing one button to destroy one city. The value of numbers is little in the modern age.

Money used to bring security. In any era, a person could accumulate wealth, at sea, in a cave, free from the cares of society, and maintain a certain amount of isolation from society. A person could be wealthy and derive pleasures which would relieve any feeling of insecurity that he might harbor.

The possession of wealth no longer brings security. A person can be wealthy and be vulnerable. Pleasures that used to take one's mind away from troubles have become a relatively secure period has gone. Money is no longer a protection against even from debt. For in this era financial fluctuations are common.

But the world has become more fearful. Financial depression, moreover, earned wealth is not wholly certain. The earning power of the individual is decreasing, and the percentage of this wealth goes to government, which in turn distributes it to the masses, including the poorer.

Religion was once, not long ago, a panacea for insecurity. One could clutch religious tenets with a grip of iron, and God would protect one from troubles. One could go into seclusion to God and governments listed these as financial and legal untouchables.

One could search the scriptures and find meaning to life. One could have faith and not worry. But the annihilation of religion, the million Jews in World War II led many to ponder the value of holding to religious principles, or of having a religion at all. The actions of many "Christians" who were wont to kill and maim, in the course of the war, brought more than a few to wonder whether Christianity was good or not.

There are also many individuals in the world who can go to church every Sunday and be faithful in their devotion, and still be insecure as to the here and now. To many the after life is a long way off, and these individuals would want to keep it that way. Moreover, there is today more doubt than ever before as to the existence of such an afterlife, and if it does not exist, what purpose has life. These people look to others to give them that answer, and if others are still asking the question.

Furthermore, religion has tied itself into the secular further and further, until now the problems of the world are today's sermon and tomorrow's "get out the vote" campaign. No longer can a man find sanctity in the church, and no longer is man able to rely on the Bible in the face of the hydrogen bomb.

There have been other avenues to security. Many have led through the road of unreality. Honor and other carnal pleasures have been sought, and success is not security. A successful man is today dependent on the party in power, the government in general, the financial stability of the world, and that one man who could crush the nation and annihilate him and a million of his brethren in a matter of minutes. Achieved ambition is not sufficient from the insomnia of world troubles.

Thus, the traditional avenues are closed. Isolation is a thing of the past, and religion is the same. That it is known today is broken down, because which never really existed, does not exist now.

What is significant about these avenues is that they are all external to the individual, and the individual is even more helpless to avoid outside forces than he is to avoid the forces of nature. He is only more helpless of others when he is forced to lead him to that mythical world of security.

(Continued on page 4)

BOR Manager Hits Brown Criticizes Recent Changes

To the editor:
I consider your editorial of last week in extremely bad taste and written in a very un-Bowdoin style. Your implications for the most part are unfounded and demonstrate an apparent unawareness of facts of the extra-curricular at the College.

Your reference to WBOR as a "kaleidoscope of extra-curricular activity" is as far from the truth as your sly remark to the effect that certain activities were "getting blanket tax funds. I do not believe that you are aware of the financial conditions of the other extra-curriculars at Bowdoin; for it is a known fact that the radio station for one has always received just enough funds to operate on from the Blanket Tax committee and has never had an excess that allows them to pay their officials as I believe the Orient does.

Two weeks ago in the Orient the station asked the Bowdoin Board as follows: \$750 to the Budget, \$200 to the Orient, \$14.50 to athletics. These amounts for the Budget and Orient had been requested by the students; the amount for athletics was a decision of the Board.

As a result the Blanket Tax Committee had control over only \$14.50 per student. This was allocated to the other organizations approved by the Student Council for Blanket Tax support. The committee attempted to make the best possible division of the available funds and always considered the recommendations of its student members.

Each organization which receives Blanket Tax support has a faculty advisor and no part of the appropriation is paid out by the Bureau's office without the approval of this advisor. If Mr. Relic, or any other student, has evidence of irregularities, I hope the Committee will be informed immediately. We shall then investigate the complaint.

Sincerely yours,
Philip M. Brown
Chairman
Blanket Tax Committee

NEW LIBRARY BOOKS

The following list of new books is part of gift of \$5 volumes recently presented to the library by Mr. George H. Bailey, of Lockport, N. Y., father of George Bailey, '58. Most of the volumes are first editions, in excellent condition, of the works of three prominent English writers of the early years of the century. The library is most grateful to Mr. Bailey for this generous gift.

Burton . . .
(Continued from page 1)
nationally recognized as an outstanding orthopedic surgeon. Credited with performing more than 30,000 operations to restore the limbs of amputees, he was particularly noted during the World War for invaluable pioneer work in the field of plastic surgery. Albee died in 1945.

MacMillan
The second award, given in 1938, was shared by the late Harvey Dow Gibson, '02, and Paul Douglas, '13. Gibson was for many years President of the Manufacturers' Trust Co. in New York, Douglas, in 1938 was a Professor of Economics at the University of Chicago. He is now the senior senator from Illinois.

Silas
In 1948 the Bowdoin Prize went to President Silas, the Dean of American College Presidents. He has received many medals and recognition including a Congressional medal for his part in Peary's discovery of the Pole.

MacMillan
In 1953 Commander MacMillan was selected by the committee. He is the famous Arctic explorer, a graduate of the class of 1898. He has received many medals and recognition including a Congressional medal for his part in Peary's discovery of the Pole.

COMING EVENTS
Below is a list of some of the events open to the College Community during the period preceding graduation.

May 15: The Department of Romance Languages will present a film at 7:00 and 8:30 in Smith Auditorium entitled "The Young and the Damned."

May 19: Professor Minot will speak on the "Techniques of Intellectual Suicide" at the Zele house at 8:15.

May 21: At 8:15 in Richard Thayer Foster, baritone, William McCarthy, pianist, and Claude Miquel, pianist, will present a Graduation recital.

May 22: Charles Abrams, the Chairman of the New York State Commission against Discrimination, will speak on "Legislation against Discrimination" under the auspices of the political forum in the Union lounge at 8:15.

REFERENCE BOOK OF WEEK
Statistical Abstract of the United States
The Statistical Abstract is an indispensable handbook of quantitative summary statistics on the political, social, industrial and economic organization of the United States. It serves not only as a source of statistics of national importance, but, through references, as a guide to further information. It is published each year.

Letters To The Editor

BOR Manager Hits Brown Criticizes Recent Changes

To the editor:
I consider your editorial of last week in extremely bad taste and written in a very un-Bowdoin style. Your implications for the most part are unfounded and demonstrate an apparent unawareness of facts of the extra-curricular at the College.

Your reference to WBOR as a "kaleidoscope of extra-curricular activity" is as far from the truth as your sly remark to the effect that certain activities were "getting blanket tax funds. I do not believe that you are aware of the financial conditions of the other extra-curriculars at Bowdoin; for it is a known fact that the radio station for one has always received just enough funds to operate on from the Blanket Tax committee and has never had an excess that allows them to pay their officials as I believe the Orient does.

Two weeks ago in the Orient the station asked the Bowdoin Board as follows: \$750 to the Budget, \$200 to the Orient, \$14.50 to athletics. These amounts for the Budget and Orient had been requested by the students; the amount for athletics was a decision of the Board.

As a result the Blanket Tax Committee had control over only \$14.50 per student. This was allocated to the other organizations approved by the Student Council for Blanket Tax support. The committee attempted to make the best possible division of the available funds and always considered the recommendations of its student members.

Each organization which receives Blanket Tax support has a faculty advisor and no part of the appropriation is paid out by the Bureau's office without the approval of this advisor. If Mr. Relic, or any other student, has evidence of irregularities, I hope the Committee will be informed immediately. We shall then investigate the complaint.

Sincerely yours,
Philip M. Brown
Chairman
Blanket Tax Committee

Born Elected To Chairmanship Of Curriculum Comm.
Yesterday the Student Curriculum Committee held elections for the coming term in Conference A. Wilson Born, Sigma Nu, representative was chosen Chairman to replace outgoing Chairman Mark Smith, Theta Delta Chi. David Lovell, Independent representative on the committee, was elected Secretary and will succeed Bud Boucher in that position.

The Committee's plans for next year are as yet indefinite. The major proposal of the Spring session group, the Great Books Course, has been refused by the Administration and Faculty. The major reasons for opposition seemed to be the current availability of studies of Great Books in present courses and a feeling that the books proposed are ones which should be read by the student on his own.

Russell S. Douglas '49, Mgr.

Science Award To Ralph Westwig, '58

Bowdoin College senior Ralph A. Westwig of South Portland has been accorded Honorable Mention in the National Science Foundation's predoctoral fellowship program for 1958-59. It was recently announced.

A graduate of South Portland High School in 1954, Westwig came to Bowdoin as the recipient of a competitive State of Maine scholarship. He is majoring in physics, is a member of Psi Upsilon fraternity, and has twice been named a James Bowdoin Scholar. As a freshman he won the Edwin Herbert Hall Physics Prize for excellence in physics.

WHY DOES THE 'LEAGUE' WEEKEND AT THE HOTEL NEW YORKER?

Varsity Trackmen Take Third in State Series Meet

White Down Trinity 3-2 In 10th Inning On Teeling's Single

Hohfelder Scores 7 In Lacrosse Win

Varsity Scores 37.7 Points As McWilliams, Wilkins Cop First

Runners Win Two Meets On Road Trip

BEARINGS
by Steve Frager

The varsity baseball team which is still in the midst of a dreadful slump is certainly having its share of troubles. Although it was considered one of the strongest teams in years, the squad has found going ever since it returned from the southern tour. The main problem seems to be the fact that the big hit does not come with the runners on base. Call it bad luck, sloppy fielding or anything else, it is still bad for the Bowdoin athletic program.

A multitude of sins could be forgiven if the varsity could win the coveted State Series title. In these contests the White are at a decided disadvantage with a 1-3 record. This leaves the baseball team only four games in which to make a bid for the crown.

State Series Statistics
In State Series battles since 1875, Bowdoin has won 16 titles and 10 ties. A breakdown of the statistics show that Colby, the present champions and leaders, has the most wins with 22 titles and 8 ties. Bowdoin is second, Bates is third with 18 titles and 4 ties, and Maine is last with 10 titles and 9 ties. The longest Bowdoin winning streak was five years from 1949-1953. The only four way tie was in 1909.

Final Touches
Although this is the last issue of the Orient, there are many athletic contests left in the next three weeks. Included among these games are some lacrosse contests which should prove very interesting. The baseball team has several games left and still could come up with a successful season.

Credits
With this last issue, I would like to extend my thanks to the members of my sports staff. It is an exceedingly difficult job to get all the different stories in, proof-read and edited. Without the help of this staff the page would seldom come out. This staff has been fairly reliable, coming through when necessary. Almost every sport has been covered this year and it is a massive job.

My special thanks go to Al Payson who has come through time and time again with football, basketball, and baseball stories. Also thanks go to Ed Bean who certainly has seen that the track teams have received the coverage that it deserves. Included among this list are the "trouble-shooters" Mickey Coughlin, Joel Sherman, Charlie Lanigan, and Jerry Isenberg who have covered everything from cigarette-smoking contests to fishing derbies. Last, but not least, my thanks to Dave Zolov who has usually managed to come up with headlines in the early hours of the morning.

Varsity Loses To Colby In 17th As Swenson Pitches All The Way

Two weeks ago the varsity netted Colby for a State Series contest. The varsity blew a five run lead and dropped the game in the 17th for their third consecutive Series loss.

The White received two runs in the second frame on Hal Parmelee's double, a walk to Fred Hill, and Tony Berlandi's double to center. In the 7th inning, the varsity received three more walks and Pete Relic batted a two run single to center. A successful double steal sent the Bears another run and a 5-4 lead.

In the fifth inning, Colby got their first safety and began to give them three runs. A relay peg to the plate by Macey Rosenthal got by Berlandi to bring in the other tally. Colby received another run to tie the game in the eighth on a walk, a double, and an infield error.

The contest continued as a tie until the 17th inning. This game was marked by many exceptional plays and near fights as nerves got on edge and tempers flared.

Bowdoin To Participate In Weightlifting Test

The 1958 Maine State A.A.U. Weightlifting Championships will be held at Bowdoin College on Friday, May 23, at 7:30 p.m.

Lifters will compete in the three standard two-arm lifts (military press, snatch, and clean and jerk) for the Maine A.A.U. weightlifting titles in the following eight classes:

- 120 lbs. and under
- 135 lbs. and under
- 150 lbs. and under
- 165 lbs. and under
- 180 lbs. and under
- 200 lbs. and under
- 225 lbs. and under
- Super heavyweight unlimited

Trophies will be awarded winners in each class and certificates will go to second and third place finishers.

The competition is open only to Maine A.A.U. registered athletes. Contestants may register with the A.A.U. Secretary at the meet before weighing in at 6:30 p.m. on the 23rd. The registration fee is 15 cents a year. There is no entry or admission fee for contestants, but a lifter must be able to clean and jerk his own body weight in order to qualify for competition.

Entry applications must be sent before May 20 to David L. Russell, Athletic Department, Bowdoin College, Brunswick.

Future Home Game

The remaining games for Bowdoin athletic teams at home are:

- Thurs. May 15, Freshman tennis vs. Hebron
- Fri. May 16, Baseball vs. MIT
- Sat. May 17, Freshman tennis vs. Brunswick
- Sat. May 17, Baseball vs. Colby
- Freshman baseball vs. Colby
- Thurs. May 22, Baseball vs. U. of Maine
- Freshman baseball vs. U. of Maine
- Sat. May 24, Golf vs. UNH; Tennis vs. UNH
- On May 13, the State tennis tournament will be played at Colby. The following day the golf tournament will be held at Orono.

Brenden Teeling's single past short after Bob Kennedy had advanced with a base hit and Hal Parmelee, gave Bowdoin a 10th inning victory over Trinity, 4-3.

The Polar Bears, held to only three hits and no runs for the first seven innings by Trinity starter Jim Canavan, scored three runs on six walks in the eighth to get a 2-2 tie only to see the Nuts break it with three hits and a walk to tie the game up in the ninth.

Don Woods came to starter Marty Rood's aid with one out and bases loaded in the ninth, and forced Bill Fowler to smother a double to the mound to set up a back to back.

In the ninth, Rood pitched very well and had excellent support. Perfect throws by outfielders Bill Linacott and Bob Kennedy cut down two Trinity runs at the plate and catcher Tony Berlandi picked off two base runners on attempted steals.

Rood gave up single runs in the sixth and eighth on a ninth walking Trinity leadoff batter, Ron Reipel and giving up singles to pinch hitter Ray Rorden and Bill Reipel.

Trinity played it safe, with only one out holding it in the tying run. The men held on John Kennedy's sharp single to short right home run. Bowdoin missed a chance to win it.

Pete Relic sacrificed Woods to going ahead in the eighth on a ninth walking in the ninth inning. Rosenthal, Teeling, and Parmelee all turned in fine fielding plays behind the plate was outstanding.

Summary:

	Colby	Bowdoin
Runs	5	4
Hits	12	10
Errors	1	0
Left on base	8	6
Stolen bases	1	0
Double plays	2	1
Fielding %	.965	.975

The winning blow was Golden's fourth hit and second double of the game. It came after Norm Gilson reached second on Teeling's overthrow on a slow roller to third. Ed Burke singled to right center to set the stage for Golden's cut. However, Golden was cut down trying to take an extra base by Rust Stover's peg.

The victory gave Colby its second State Series win over the White and kept their record intact at nine wins and no losses. It also brought the White record to 5-8 for the season.

Summary:

	Colby	Bowdoin
Runs	5	4
Hits	12	10
Errors	1	0
Left on base	8	6
Stolen bases	1	0
Double plays	2	1
Fielding %	.965	.975

Admirals Defeated In Marblehead Race

Sailing at Boston Yacht Club in Marblehead against the keenest competition in the New England states, and, indeed, some of the best sailers in the nation, the team of Carl Olson, with crew Earl Miller, and Joe Carven, with crew Paul Galanti, placed seventh in a field of nine schools: MIT, Boston University, Harvard, Yale, Brown, Coast Guard, Dartmouth, and Trinity.

In spite of the apparent poor placing, the team fared well, when experience is taken into account. (There was but one other sophomore skippering in the meet). Earl Miller, a new-comer to the sailing team, filled in for Olson's absence, and, after having lost a notice, and proved to be a useful addition to the team.

The races were sailed as a double-round-robin in two different classes: the Tech dinghies and the tricky Fireflys.

The RESTLESS GUY

Despite heavy rain before the meet, the track, Whittier Field, this past Saturday was pounded by some of the most talented runners ever to step on it, as a by-product of State records felt. The varsity team honors went right down to the last event when Bates' sensational Rudy Smith snatched a record-breaking 220 as a fitting climax to a thrilling meet. Maine's diminutive Dan Reierick won the Alan Hillman trophy the outstanding competitor of the meet. Reierick broke a 43 year old record in the mile run and came back to tie the two mile run in excellent time. Bowdoin's 37.7 points in third place were bought with blood, for in this meet their were no easy places.

In the first period, Bowdoin got off to a fast start as they hit for six goals. Mickelson scored first on a pass from Bob Smith. Mickelson hit the field on the cross for the second tally. Smith scored on a pass from Mick. Andy Marcotte set Hoffholder up for the fourth goal and later scored the final goal of the period on a pass from Mickelson.

In the third period, Bowdoin continued its attack with playon getting too, Ed March and Dave Muddari got one each. Bob Hoffholder got three goals in this period to bring his total for the game to 7. Also in this period, Brown scored the first goal for the visitors.

In the second game for the lacrosse squad, the team captured a victory over the visiting team. The game showed a marked improvement over their opening contest. The Bears were well set and the team played smoothly. The squad has two more games left, one at home and one away, to be an equally interesting contest.

Cub Courtmen Split First Two Matches

In their first two matches, the Freshmen "Courtmen" split, bowing to a powerful Hebron squad, and pummeling a weak Portland High team.

In the first match against perennially strong Hebron, the "Cubs" went down 7-2. A main cause of the defeat was the lack of the fast that the poor weather conditions have held practice down to a minimum. Thus the Hebron team was able to take advantage of indoor practice under their belts made short work of the match.

The second Bowdoin points were scored by Mike Polet, playing fourth singles, and Roy Weymouth, playing fifth singles. The Polet match provided the highlight of the day as he beat Hebron's Darsh O'Leary 6-1. After having lost the first set love, Polet was behind 0-4 in the second when he found his form and won the next five games and went on to win the set 7-5. The third set was no match as Polet turned the tables on Darsh 6-1.

Paul Matheos
The squad has two matches left, one a return match against Hebron in which the Cubs should make a much better showing, and the second against the powerful Brunswick High squad.

SHOW STARTS AT DUSK

With a squad of only 20 men, the varsity trackmen won twelve of fifteen events at the University of Vermont. Larry Wilkins and Bill McWilliams were triple winners for the White. Bowdoin swept the first two places in five events, Sophomores Steve Loeb and John Doherty bucked the frigid wind up the backstretch to a photo finish in an excellent 51.8. With the wind at his back, Larry Wilkins breezed through a 22.2 furlong with Loeb in second place. Captain Bob Hinkley went out fast from the gun to lead teammate Ed Bean to a sweep of the 800. Hinkley's time of 1:59.4 was impressive considering the cold wind. McWilliams and John Vette swept the shot, and high jump winner Roger Titus teamed up with McWilliams to sew up the hammer throw. Ed Dunn won the broad jump and took third in the 100 and pole vault. In the distance, Bob Packard won the mile and True Miller came out on top in the 2 mile run in 10:20.6.

On May third, the varsity track squad overpowered UNH and MIT at Cambridge on the rain soaked, wind-swept MIT track. As usual, al Bill McWilliams piled up points in the weights. His 42.2" put in the shot was especially good for the bad weather conditions. Larry Wilkins ran an excellent 25.1 over the low hurdles, and also won the 220 and placed second in the 100. Ron Tripp won the javelin with McWilliams second. In the mile, Bob Packard and Jay Green romped to an easy sweep of the first two places. Roger Titus in the high jumps and Tom Reiger in the pole vault were also winners for the White.

Summary:
Hampton won by McWilliams (B); Swenson (B); Titus (B); 2. Nicholas (MIT); 3. Dunn won; 4. Swenson (MIT); 5. Titus (B); 6. Swenson (MIT); 7. Titus (B); 8. Swenson (MIT); 9. Titus (B); 10. Swenson (MIT); 11. Titus (B); 12. Swenson (MIT); 13. Titus (B); 14. Swenson (MIT); 15. Titus (B); 16. Swenson (MIT); 17. Titus (B); 18. Swenson (MIT); 19. Titus (B); 20. Swenson (MIT); 21. The Educator And The Educated Bogy Supplies Observations On Rebel Year In Yankeeeland

When we entered Pete Bogy's room we found it strewn with the remains of Ivy, most notably a mattress covering half the floor space. We circled the bedding and asked "Have a good Ivy, Pete?" A positive response was forthcoming and he agreed with us that it was a success, going on to say "Of course when party weekends roll around, you haven't seen a girl for so long that anything would seem successful." This came out in the Little Rock-Memphis drawl which, according to Pete, won him his two roles in Masque and Gown Productions this year. We were still on the subject of Ivy which is a hard topic to escape and Pete (or Boge as he has been dubbed) proffered other reasons for the weekend's success. "It seems that the college combines with the Fraternities to put Ivy over. Or maybe it's a success because the Fraternities combine against the college," Bogy chuckled heartily.

Northern Quality
We remembered that Pete is a Freshman and that we were here to get his opinion of Bowdoin after one year. We started at the beginning and questioned his reasons for making the trek from Little Rock to Brunswick. "Well," he began, "First I wanted to go to a good, small college and second I regret to say the South doesn't come close to the quality of school in the North." Continuing conscious of college publicity we went on to inquire where Pete had heard of Bowdoin. He was pretty vague in answering but when asked how well Bowdoin is known generally in Arkansas he said "I don't know." In his answer: "Of course you can't expect the hillbillies to have heard of the college but when I decided to come I was constantly explaining that Bowdoin was a small college in Maine, to my friends." He went on to say that he felt one of the best ways of getting the Bowdoin name before the people of the South would be through a winning sports record: "Sad to say in the South the best thing to make a school known is sports."

Eh-Yeh
With these thoughts and that Dixie dialect (or perhaps rhetoric) in our ears we turned to thoughts of geographical distribution. Pete commented succinctly at first: "Distribution? There isn't any." Then he chuckled, and continued "Everyone up here says 'I'm going to make a sheep raft and peak in Haavard yad.' Either that or 'Eh-yeh!'" It is impossible to approximate typographically the collision of accents which takes place when Bogy imitates a New Englander.

Pete went to the phonograph and put on a new release of "The Desert Song and Nelson Eddie boomed out with 'My desert is...'" (at this point the roar became unintelligible and we turned the machine down). Bogy pulled out a copy of his High School Newspaper which describing him as being located in "Yankeeeland and showed it to us. "How do you like 'Yankeeeland' we asked. "Oh just fine. Hey," (a familiar exclamation) I really like winter sports and I thought I'd like snow but enough's enough."

Comparing Schools
Trying to get the interview into a more serious track, we asked Pete to elaborate on his previous comment that schools in the North are better than those in the South. He began by explaining his close

contact with colleges in the South through his friends and the University of Little Rock. "When I went home Christmas I found that my classmates who went to Southern schools, one, didn't receive as good and well rounded English course as I'm required to take here; two, they don't cover as much material. For instance, I know the Sociology Department at Bowdoin covers the material in one book in a semester which they take a year to cover in the University of Arkansas; three, we have Ph.D. teaching courses up here that would be taught by a new college graduate down in the South; and four, Faculty-Student relationships are a lot better here. At a school like this, good friends of mine have gone to these schools sleeping late in the morn, we left."

Profile in Courage
Pete Bogy
Pete Bogy is a native of Mansfield, Pa., and a graduate of Columbia. He holds honorary doctor of laws degrees from both Brown and the University of Maine. He is a member of the Advisory Committee on Education of the United States National Committee for the International Geophysical Year and is a trustee of Woods Hole Oceanographic Institution, Woods Hole, Mass. Since 1955 he has been a member of the Brunswick School Committee and is currently President of the Pine Tree Society for Crippled Children and Adults, Inc.

Coles To Receive Honorary Degree

President James S. Coles will receive an honorary doctor of science degree at the University of New Brunswick's Encenia Exercises in Fredericton, N. B., on Thursday.

Other honorary degrees will be conferred upon David Low of London, one of the world's outstanding political cartoonists and caricaturists; J. Herbert Smith, President of Canadian General Electric Company; Robert L. Stanfield, premier of Nova Scotia; Joseph R. Smallwood, premier of Newfoundland; and Alexander W. Matheson, premier of Prince Edward Island.

Native Of Penn.
President of Bowdoin since 1952, Dr. Coles is a native of Mansfield, Pa., and a graduate of Columbia. He holds honorary doctor of laws degrees from both Brown and the University of Maine. He is a member of the Advisory Committee on Education of the United States National Committee for the International Geophysical Year and is a trustee of Woods Hole Oceanographic Institution, Woods Hole, Mass. Since 1955 he has been a member of the Brunswick School Committee and is currently President of the Pine Tree Society for Crippled Children and Adults, Inc.

and I know how they have spent their first year and comparing it to my first year I have been fortunate. Nelson Eddy was still singing when Bogy finished.

We were of the opinion that this comparison was pretty well completed and introducing a new topic, Bogy said that while he was a Freshman down and put him where he belongs after a weekend of being rushed and mowed and treated like kings. He felt that this "toning down" as part of orientation is necessary for incoming Freshmen.

Pete also favors an Unlimited Cut system. "And not because I like to sleep late in the morning. I think at Bowdoin the student is given great social responsibility and I'd like to see this extended more into the academic side." At this point someone came in the room to remind Bogy of his beach towel which his Ivy date ran off with. Fearing another rehearsal of the weekend and wondering about the weekend and wondering about the weekend, we left.

Dunlap Winners Awarded Book

The award to each fraternity and to the independents of a copy of Erica Anderson's book "The World of Albert Schweitzer" (as the General Robert Henry Dunlap prize for this year) was announced in Chapel today by Professor Hazelton.

The Dunlap Prize has been established by Mrs. Robert Dunlap, the wife of the late General Dunlap. It is intended to be a means of drawing to the attention of Bowdoin undergraduates the concept of service, "the obligations that are fastened on anyone's life for the mere fact of living in a world of fellow men."

General Dunlap was a member of a prominent Brunswick and Bowdoin family who joined the Marine Corps during the Spanish-American War. Until his death, he served with great distinction in various parts of the world. His decorations are on permanent exhibit in the Alumni Reading Room in Hubbard Hall. In 1930 General Dunlap died in an act of heroism while saving the life of a French woman in a rural France.

The Dunlap Prize was awarded last year to Donald Henry '55 for his leadership in establishing the Morgan Cushing Blood Bank. The faculty committee making this year's award is composed of Professors Goegegan, Gresson, and Hazelton.

This will be the last issue of the ORIENT until the Commencement issue on June 14. The editors and J. C. Carter will, of course, after this hits the stands, pick up their checks of not more than a thousand dollars. You believe it, man, you believe it.

We were of the opinion that this comparison was pretty well completed and introducing a new topic, Bogy said that while he was a Freshman down and put him where he belongs after a weekend of being rushed and mowed and treated like kings. He felt that this "toning down" as part of orientation is necessary for incoming Freshmen.

Pete also favors an Unlimited Cut system. "And not because I like to sleep late in the morning. I think at Bowdoin the student is given great social responsibility and I'd like to see this extended more into the academic side." At this point someone came in the room to remind Bogy of his beach towel which his Ivy date ran off with. Fearing another rehearsal of the weekend and wondering about the weekend and wondering about the weekend, we left.

College Gets Grant

The Betterment Fund, created by the will of the late William Bingham, 2nd, of Bethel, has made a grant of \$1,000 to Bowdoin College for the year 1958-59. President James S. Coles announced.

The grant will be used for scholarship purposes, with preference given to candidates for admission to Bowdoin from the town of Bethel, from other towns in Oxford County, and from elsewhere in the State of Maine. The awards are known as William Bingham, 2nd, Scholarships.

The Betterment Fund established the Bingham Foundation at Bowdoin in 1956 with an initial grant of \$1,000. It plans to make like grants to the College during the next three years, with the hope eventually of establishing at Bowdoin a principal fund, the income from which will be used to make the scholarship awards.

Bingham Associates
Mr. Bingham, who died in Miami Beach, Fla., on February 17, 1955, was senior trustee of Gould Academy at Bethel, which was one of the chief beneficiaries of his philanthropy. In 1932 he organized the Bingham Associates Fund, with which some forty Maine hospitals are affiliated. Allied with Tufts Medical School, it has pioneered in regional medicine.

Mr. Bingham's gifts to the New England Center Hospital in Boston included funds to build the Joseph H. Pratt Diagnostic Hospital and the Farnsworth Surgical Wing. Other generous gifts provided buildings, endowment, and scholarships in medicine both in this country and abroad.

Trustees of The Betterment Fund are Mr. Sidney W. Davidson of New York, Dr. Arthur L. Walters of Miami Beach, Fla., Mr. Ralph Lowell, President of the Boston Safe Deposit and Trust Company, and the United States Trust Company of New York.

0 Lost . . .

(Continued from page 3)

It is here that modern man distinguishes himself. He looks to outside sources and comes up wanting. In this he should see at least a partial answer — to consult himself — to look within his own resources to find answers.

The art of self-government and self determination has been lost for a long time, but faith is one's self, perhaps is the key to emotional, if not physical, security in the future.

The Oakes Center

The Oakes Center of Bowdoin College at Bar Harbor, given to the College last December by Lady Eunice Oakes, will be the location of a six-weeks' Speech Workshop for Teachers this summer. President James S. Coles announced today. Professor Albert R. Thayer of Bowdoin will serve as director of the program.

Workshop
Twenty teachers or teachers-in-training will be chosen to study at the Speech Workshop between July 7 and August 15 and to live at The Oakes Center. In addition, non-resident students will be enrolled. Among the visiting lecturers will be Dr. Louise Ames, Director of Research at the Cessell Institute of Child Development in New Haven, Conn., and Dr. Peter W. Bowman, Superintendent of the Pineland Hospital and Training Center at Fowling.

Two Courses
Two courses will be offered at the Speech Workshop for Teachers, each providing three semester hours of academic credit. One is "Speech Development, Normal and Abnormal," and the other, "Speech Research and Program Building."

Lady Oakes' husband, the late Sir Harry Oakes, Bart., was graduated from Bowdoin in 1896. The Oakes Center occupies the property formerly known as "The Willows."

Congratulations — and good luck!

To the thousands of young people who have completed high school driver-training courses and qualified for licenses, congratulations! The "good luck" is up to you.

Because safe driving is not just "luck." It's obeying speed limits, warning-signs. It's staying alert at all times — not taking chances. It's doing the things driver-training taught you — always.

The really good driver — novice or veteran — practices

safety every time he steps into his car. This, he knows, is the way to reduce the number of traffic accidents which last year took nearly 40,000 lives.

With more cars on the road and car-miles of travel increased by millions, it is remarkable that the toll is no higher. So congratulations to all of you who helped! Just remember, we can do better . . . and we will, if every driver does his part.

BOWDOIN ORIENT

173 SENIORS RECEIVE BACHELORS DEGREES AT COMMENCEMENT; 153RD GRADUATION HELD AT CHURCH

Feature Senior Speeches

Marking Culmination Of Festivities

Commencement Exercises

Feature Senior Speeches

"Newspaper editorials need to flannel in the wardrobe of guide rather than echo the attitudes of their respective papers."

Lewis '58 of Sunnyside, N. Y., said this morning at the 153rd Commencement exercises, held in the First Parish Church in Brunswick. In keeping with Bowdoin tradition, the only speakers at the exercises this morning were four members of the senior class. In addition to Lewis, they were Edward L. Baxter of Rockland, Alan D. Wooley, Jr. of East Port, and David C. Young of Pound Ridge, N. Y.

Something to Sell or Say?

"Newspapers which were started because they had something to say are now being carried on by people who merely have something to sell," according to Lewis. "Newspaper sponsors begin to eye dividends on investments with more suspicion than the paper's impact on the public, and money on the editorial page finds itself catering to every faction in an effort to maintain circulation figures."

Speaking on "Exit: The Editor," Lewis, who was editor-in-chief of the Bowdoin Orient, the college graduate weekly newspaper, during the spring semester, asserted that the editor "can not, he must not, merely sit in judgment on the events of mankind. He must also participate in them."

"Too many editors wait for political power to be usurped by that 'local machine, accidents to be caused by that faulty traffic system, or a mass of ten crimes to break out resulting from the lack of recreational facilities. Reactions that should have been lashed many months earlier. Not a page one display of banner headlines on what has by that time become a News item. He must feel that he is not a part of the stand that then amounts to nothing more than newspaper."

Lewis, who was editor-in-chief of the Bowdoin Orient, the college graduate weekly newspaper, during the spring semester, asserted that the editor "can not, he must not, merely sit in judgment on the events of mankind. He must also participate in them."

"An editorial page," Lewis continued, "which attempts to be all things to all men is like a man losing not only his best readers but his character and influence as well."

Baxter took as his subject "Fine Town and Providence: A Re-evaluation of Maine." He stated that Maine's chief export to the country was and is the finest of her youth.

Maine people, he said, are moderate in many respects. "You won't find the national optimism being confined to in Maine, for we retain our individuality. I believe that one would find more red than gray."

Class Of 1948 Reviews Past Ten Years' Record

Yes, what has happened to us in the last decade?

Well, a quarter of us live in Maine; in towns like Cape Elizabeth, Norway, Cumberland Head, and Fort Kent. Another quarter of the class live elsewhere in New England; in Essex, Juneau, Weymouth, Grafton, Nantucket, and the other half live elsewhere in the United States and in eight foreign countries, in Tennessee, Backus, Idaho, Toledo, and in the West, in Wawa, Mobile, Palo Alto, Tulsa, and Hopewell Junction.

A third of us are in insurance, sales, or teaching; 10% are lawyers and 6% are doctors. We have four clergymen; others are in business, research, architecture, publishing and politics. We spend an average of 46 hours a week on the job, though 11% put in more than 60 hours.

Our average income is \$2980 (we guessed it to be \$2789); 6% of them \$3500 or more a year; 13% make from \$3500 to \$5000; 43% earn \$5000 to \$8000; 25% earn \$8000 to \$12,000; and a fortunate 13% are in the more than \$12,000 category. Men located in the Maine average \$2700, those in other parts of New England make about \$3500, and classmates outside New England make about \$4000 with a little less than \$2800.

As far as occupations go, the seniors are making the most cash (\$18,000), followed closely by advertising men (\$15,000). Then come lawyers (\$12,000), Engineers (\$10,000), Insurance men (\$8600), Salesmen (\$8700), and Manufacturers (\$8600). The Military (\$7900), Scientists (\$6500), and Teachers (\$6300). Financiers (\$4768) are at the bottom of the heap. Generally, we are satisfied with our progress and we don't encourage our wives to work. In fact 15% of us don't even have a wife.

At the age of 50 we expect to be at the top of our occupations and earning \$20,000 a year. Our own homes valued at \$10,000 to \$20,000; 10% of the class value their homes at more than \$20,000. About 50% of us do not own a car.

Maine people seldom hurry to catch a new bandwagon and you seldom see a mass movement sweep the state.

Maine people seldom hurry to catch a new bandwagon and you seldom see a mass movement sweep the state. Many other states, including our neighbor New Hampshire, have gone along with the national red hunt, often beyond limits that are essential to our democracy, but Maine has had none of it.

"Maine people dislike change for change's sake or for any reason that is not clear of substance. They follow the old adage of 'looking at a horse at both ends.'"

"We shall always welcome the plump, Bermuda-shorted summer visitors," Baxter concluded, "and sell their money to the Maine paper sponsors begin to eye dividends on investments with more suspicion than the paper's impact on the public, and money on the editorial page finds itself catering to every faction in an effort to maintain circulation figures."

Humaniety Will Not Fall

Woolley, speaking on "The Humanities and Inner Growth," said, "We must continually strive to be better human beings."

Priest, Perkins Star In Jonson Comedy Volpone

Volpone, Ben Jonson's satirical comedy, was presented on Friday evening at the Elizabethan Theatre in Memorial Hall, directed by Professor George H. "Pat" Perkins.

The play was directed on an approximation of the Elizabethan stage and featured some of the outstanding actors in the graduate class. Ben Jonson was recently awarded the Alice Merrill Mitchell Prize for acting played Volpone, the Venetian magnifico who weaves plot after plot to taunt his supposed heirs.

Don Perkins, who plays the role of the miserly Volpone, was recently awarded the Alice Merrill Mitchell Prize for acting played Volpone, the Venetian magnifico who weaves plot after plot to taunt his supposed heirs.

Phi Beta Kappa Elects Eleven From '58 & '59

Nine seniors and two juniors have been elected to membership in the Bowdoin College chapter of Phi Beta Kappa. It was announced Thursday by Professor Nathan Dane, Secretary of the group.

The eleven men were initiated into this coveted society yesterday afternoon at the semi-annual meeting of the group.

Elected from the Class of 1958 are: Kenneth E. Carpenter, Presque Isle; John P. Field, New Brunswick, N. J.; and Ralph A. Westwood, Portland, Me.

Elected from the Class of 1959 are: John P. Field, New Brunswick, N. J.; and Ralph A. Westwood, Portland, Me.

Elected from the Class of 1959 are: John P. Field, New Brunswick, N. J.; and Ralph A. Westwood, Portland, Me.

The 1957-58 Athletic Season Shows Disappointing Records; Outlook Is Dark As Teams Lose Several Outstanding Seniors

Bob Plourde

This year marks the culmination of sports careers for five outstanding seniors. Bud Stover of Bath has compiled records in the three major sports — baseball, basketball, and football — during his four years. This year he was named to the All-Maine football and basketball teams and nearly topped a position on the All-Maine baseball team.

Bill McWilliams of Dorchester, Mass., is probably Bowdoins' greatest track star. Two years ago he was the top hammer thrower in the ICAAs. This spring after a full year out of competition, he finished second in the same ICAAs. Also this spring he scored sixteen points in the State Meet, bringing his point totals for three years of competition to nine firsts and three seconds in the Meet.

Bob Plourde of Falmouth, R.I., has been an All-American swimmer for three consecutive years and is one of the top backstrokers in the country, finishing fifth in the Nationals this year. He holds the New England record in the two hundred yard backstroke.

Bill Lincoett has received an offer to play baseball for the Red Sox after two years on the All-Maine gridiron squad. Ernie Belforti has earned himself a place among Bowdoins' athletic best.

Hats off for five great performers!

beginning with restraint and precision, a cultivated, concentrated power. For the Wedding of the Phoenix is something that must be perceived.

Some Active Verbs

As is not my New England! I cannot recall any testament to the spirit of the minor poets, and I consider all candidly and with considerable force. It is devoid of the incantation of regional symbols. Happily, too, it is able to say something other poets have found desperately to say or become contemptuous to say.

I find at Wolf's Neck Graveyard less successful. Why did Mr. Lind say he compelled himself to make that nauseous House - that Jack-bill plethora at the end? Lobster is a metaphor of active verbs, a whirlwind of verbs, a whirlwind of verbs in the wrong exhausts the poem. It is jaggedly impressionistic, to make this point. What is said at length could be said more economically, and with a more steadfast regard for every shadow of sound in the poem.

Not without merit is Mr. Priest's short poem, Two Gifts. One need feel no shame about writing poor, inelegant poetry anymore. The fragrant love lyrics of an earlier era can be seen for what they were and what they are. The poem of Ernest Dowson's excesses. Poets have taken a meditative, quiet turn from the noisy, noisy, noisy, noisy, noisy territory is forbidden it, so why bar love! In a few lines Mr. Priest

10 Receive Honorary Degrees This Morning

Rufus E. Stearns
... fellow of the International College of Surgeons, pioneer in the field of blood transfusion and hematology and staff member of New York's finest hospitals for many years.
HONORIS CAUSA
DOCTOR OF SCIENCE
(Continued from page 1)
skill, and integrity necessary for a great judge, but the courage of conscience vigorously to dissent. His fearlessness has proved his mettle to the people of Rhode Island, who, as we, hold him in high regard. Proudly we hail him, a son of Bowdoin who has more than fulfilled his "peculiar obligations to exert his talents for the public good."
HONORIS CAUSA
DOCTOR OF LAWS

Joseph B. Chaplin
"Principal of the Bangor High School, outstanding exemplar of the sturdy fibre of Maine stock, the quality of Maine schooling, and the opportunities Maine offers her able sons."
HONORIS CAUSA
MASTER OF ARTS

William Zorach
"... sculptor and artist of international acclaim... he has never lost his inherent humility before the awesome nature of art as a 'universal expression of the soul of man.'
HONORIS CAUSA
MASTER OF ARTS

William McC. Martin, Jr.
"... His brilliance and dedication early recognized in the reorganization of a score of years ago of the New York Stock Exchange... since 1951 Chairman of the Federal Reserve Board."
HONORIS CAUSA
DOCTOR OF LAWS

Hugh Joseph Chisholm, a graduate of Yale College and Harvard Law School, enlightened industrialist, patron of Bowdoin, member of a family long friendly to the College, son of an honorary alumnus. With great success and distinction, he has continued pioneering, as his father before him, in an industry that is a bulwark to the economy of Maine. Despite the heavy demands made upon his time and energy by far-reaching enterprises, his unflinching devotion to his native State and its progress has helped in many ways with the trying problems Maine faces today, and contributed to its industrial development as well as enriching the lives of its people.
HONORIS CAUSA
DOCTOR OF LAWS

Alan T. Waterman
"Scientist and scientific administrator PAR EXCELLENCE... able work for the Office of Scientific Research and Development brought him the nation's highest civilian award the Medal of Merit... named the first Director of the newly created National Science Foundation."
HONORIS CAUSA
DOCTOR OF SCIENCE

Hugh J. Chisholm
"... he has continued pioneering in an industry that is a bulwark to the economy of Maine... his unflinching devotion to his native State and its progress has helped in many ways with the trying problems Maine faces today."
HONORIS CAUSA
DOCTOR OF LAWS

Clarence Lloyd Claff
"... manufacturer and research scientist. This lively and conscientious community citizen has turned an intellectual curiosity to the study of biology... Fellow of the New York Academy of Sciences... he serves as Trustee of the Marine Biological Laboratory at Woods Hole."
HONORIS CAUSA
DOCTOR OF SCIENCE

William Zorach, adopted by America and the State of Maine, sculptor and artist of international acclaim. Despite the accolade of success, he has never lost his inherent humility before the awesome nature of art as a "universal and cosmic expression of the soul of man." He combines the "calm meditative spirit of the ancients" with a lively wit and interest in contemporary development.
HONORIS CAUSA
DOCTOR OF LAWS

Clarence Lloyd Claff, of the Class of 1918, manufacturer, and research scientist. This combination of successful business man and brilliant scientific worker, this lively and conscientious community citizen has turned an intellectual curiosity to the study of biology, and an inventive mind to the creation of instruments which not only let us better understand life, but save it. Fellow of the New York Academy of Sciences, and holding research appointments at both Harvard and Brown Universities, he proves himself a keen observer and an outstanding instrumentalist — his inventions of ingenious and widely-used surgical devices rivaled only by his numerous published papers. His enthusiasm promotes all achievement as he serves as a Trustee of the Marine Biological Laboratory and as a member of the Corporation of the Woods Hole Oceanographic Institution. Recognized often for scientific merit, his College recognizes him now as exemplifying the proper function of education.
HONORIS CAUSA
DOCTOR OF SCIENCE

David Rockefeller, economist, banker, civic leader, financier. His doctoral dissertation at Chicago, "Unused Resources and Economic Waste," presaged the insistent motivations of his later career. Initiated into a perturbed world as secretary to the dynamic Mayor LaGuardia, following the same precepts with the Army of the United States during the War brought him the Legion of Honor and the Legion of Merit. With tenacious skill, he strives to save the Morningside Heights churches from stragulation by slum encroachment, and now he essays for downtown Manhattan a residential renaissance. Equally, in other ways and in other areas he has prevented waste of many valuable human intellectual resources, not the least of which are his own. Concerned with the fuller utilization of economic exchange through the enhanced contribution of a notable banking institution, the obligations he has assumed as a trustee and director assure him a true patron of art, of science, of international understanding, and of education.
HONORIS CAUSA
DOCTOR OF LAWS

John James Pullen, native of Ansonia, Conn., graduate of Colby College, even the busy life of the advertising world could not subdue the urge of scholarly research and creative literary effort. Keeping faith with the highest ideal of the liberally educated man, with the memory of his Maine forebears, and with his experience as Private and Captain in the United States Army, his remarkable history of a famous group's heroic defense of Little Round Top, saving the Union Army in the Battle of Gettysburg, is but a part of a portrait which is lively from the first masterstrokes of the magnificent tribute paid a surrendering army through Joshua Chamberlain's command, "Present arms." He has earned a deserved place in this company of scholars. Itself, once headed by the Twentieth's famous leader.

realize the highest level of existence of which we believe our lives to be capable. The humanities will not fail us. A work of art is much more than words and rhythm, sound and color, and surface; it is the inspired imagination of genius which carries the treasure of its sensitivity and insight to us.

By itself, Woolley stated, "Life grows chaotic and meaningless. We must find some orientation, some pattern or purpose for our life. The humanities are the expression of man's striving for inner growth wherein a disciplined imagination organizes and intensifies the experience of reality and then adds its own unique dimension."

Snails and Scholars
Young spoke on "Snails and Scholars." Just as the snail "patiently suffers rude bumps and frustrations," he stated, "so the scholar finds that many deceptive appearances, blind alleys, insurmountable obstacles, and hazardous places beset his path."

"The head of the snail and the head of the scholar both ache, but this is preferable to having a snail's head because it kept its soft, vulnerable body within the protective shell and this is preferable to having an intelligent mind within the protective shell, and this is preferable to having an intelligent mind without the shell because it sheltered itself with the warmth and coziness of commonly-accepted ideas."

"The snail can make only limited progress away from his shell, and he can search even farther ahead, far into new territory. When the snail finds a promising path, he pulls the shell forward so that he can search even farther ahead. Likewise, the scholar must bend his efforts to pulling civilization forward in order that he and others after him will be able to strike deeper in the intellectual wilderness."

of economic exchange through the enhanced contribution of a notable banking institution, the obligations he has assumed as a trustee and director assure him a true patron of art, of science, of international understanding, and of education.

Ladd Reports Increase In Demand For Grads

"Industry is confident concerning the future economy of our country, and all signs point to a continuing demand for college graduates in the year ahead," Samuel A. Ladd, Jr., Placement Director observed last Saturday in his annual report to President James S. Coles.

Demand To Rise
Mr. Ladd's report shows that demand for good candidates will rise in 1958-59 to equal that of the year 1956-57, beginning another accelerated curve with the 1957-58 plateau considered a brief respite.

Mr. Ladd's report shows that more than 120 business and industrial officers visited the Bowdoin campus this year to interview seniors. The interview schedule averaged 15 to 18 interviews per company and reached a high of 46 for one firm. During the season more than 1500 individual appointments were made and over 1000 interviews were conducted in the office of the Placement Bureau. In addition, more than 2000 letters were mailed and over 1000 interviews were conducted for both undergraduates and alumni. The average senior experience was 1.5 years.

"The spotty nature of the current economic trend," Mr. Ladd stated, "indicated by the fact that although the number of job offers was curtailed notably in the heavy durable goods industries,

there was little reduction in the number of opportunities in the consumer or soft goods field. The automobile firms, the metal industry, some manufacturing concerns, and certain research organizations are not hiring as many college graduates as in the past. Over-hiring in the last few years in certain electronics and technical fields has resulted in fewer job offers to candidates seeking opportunities. Considerable confidence is being expressed in the demand for candidates in the fields of banking, insurance, retailing, accounting, and sales. Service companies and light industry seem to be seeking the same or in some cases a slightly higher number of graduates."

Starting salary offers to Bowdoin seniors, 130 of whom registered with the Placement Bureau, ranged from \$4000 to \$5400 a year, a slight increase over the 1957 figures. "During the fall of 1957," according to Mr. Ladd, "it became evident that a change in the recruiting practices of the past would prevail... Seniors suddenly became aware that the pink ink cloud on which they had been floating had developed a slow leak. The change is definitely healthy."

"The period of indiscriminate making and accepting employment offers is over. Better counseling, more efficient recruiting, new and improved placement techniques with an ever-increasing demand for well-trained college graduates will result. Graduates will obtain employment, but for the most part they will have fewer opportunities from which to choose. Adjustments are being made in terms of fewer job offers rather than reduced starting salaries."

Mr. Ladd pointed out that recruiters may find in the average Bowdoin senior class a higher percentage of science-trained majors than in many other New England colleges and universities. "Business needs the specialist," he declared, "but industry is also aware that this specialist must have the broad knowledge, adaptability, background to think and to exercise good judgment."

"Management considers the ability to write as important as the ability to read, for much of business today depends upon the art of communication."

Well, we've tried to indicate a portion of the Class Profile that may be drawn by the 1958 Survey of our Class. Of course, all percentages are necessarily percentages of those replying. Of the 172 questionnaires mailed out, 95 were returned. We wish to express our appreciation to the men who made this report possible by taking time to fill out and return their survey forms.

Mathematicians To Assemble Here
Under a grant of \$30,000 from the National Science Foundation, the American Mathematical Society will hold a six-week Summer Research Institute here, beginning June 16 and running through July 12. Fifteen mathematicians and ten graduate students have been invited to be participants.

Fifth Institute
The Institute will be concerned with the subject, "Surface Area and Related Topics." It is the fifth such institute in a particular aspect of mathematics. The members of the group hold informal seminars and study sessions.

The American Mathematical Society is a professional group organized to promote the interests of mathematical scholarship and research. It has always been concerned with fundamental research. In recent years, in recognition of the ever more important role of mathematics in practical affairs, the Society has been giving increased attention to a variety of applications of mathematics.

Professor Tibor Rado of the Ohio State University mathematics department is chairman of the Invitations Committee for the Summer Institute.

Concepts Of Surface
"The concepts of 'surface' and 'surface area' are fundamental in many fields of mathematics," according to the prospectus for the Institute. "During the past several decades it has become more and more apparent that in order to achieve adequate generality in such fields, it is necessary to develop a comprehensive theory of surface area."

"While this research in surface area, theory was motivated to a large extent by pressing needs in other fields, it became increasingly evident in the course of the past fifty years that the concepts of 'surface' and 'surface area' are in themselves extremely elusive and intriguing. Accordingly, a great deal of research was motivated by the desire to achieve a satisfactory understanding of these basic concepts."

"Progress in surface area theory and its applications has been truly impressive in recent decades, but almost every major problem solved gave rise to new and more difficult problems, and almost every major advance was achieved at a heavy price in increasing technical and conceptual complexity."

THE BOWDOIN ORIENT
House Orientation
Favors Academic
Aspect Of College

All freshmen are required by Col-
lege rules to don ties and signs.
Of course, all the members of the
class of 1962 are wearing pledge
ties. But what are the individual
fraternities doing on their own to
contribute to an over-all program
of freshman orientation to college
life?

Based upon the plans submitted
last spring to the Student Orienta-
tion Committee all of the fraternities
are following programs which are
remarkably similar. The only ma-
jor differences lie in the degree of
orientation. Some houses, accord-
ing to their plans, are seemingly
content to pass off the scholarship
aspect of orientation with but the
merest mention of a big brother
system. One house made no men-
tion in its program of attention to
freshman scholastic matters. This
house stated that "the goal of the
new orientation program is to ac-
complish the traditional aims of
the hazing program through con-
structive means."

Study Halls
One of these extremes, however,
one house is holding three hour
evening study halls for its pledges.
In yet a third plan it was stated:
"We have discussed the idea of
study halls at the fraternity and
have decided against them because
we believe they are not in the best
interests of the freshmen."

Secondly, a number of houses
stated their intention to either in-
stitute or continue the so-called "big
brother" system whereby each
freshman is assigned a big brother
who is supposed to watch over
him and give advice. In several of
the houses marks were collected
at regular intervals from the
pledges and aid will be given those
who need it. One house even
went so far as to tabulate all the
grades of its pledges and inform
them as to what standing they are
within their delegation. Two
houses are awarding scholarships
to freshmen and a number of
houses are inviting their faculty
advisers to talk to the freshmen
throughout the orientation period.

Substantive Requirements
Curiously enough only one house,
in its orientation program, stated
any definite requirements for in-
stitutional membership. This house
was concerned, although sev-
eral reserved the right to refuse
initiation to any freshman whom
it felt did not measure up to its
standards.

Early all the houses stated that
the learning of fraternity lore and
songs was a requirement. College
lore and songs were also included
in the traditional hazing displays
and skits have been retained,
and for the most part freshmen
names of upperclassmen are still a
prerequisite as are paddles for
big brothers. The institution of
the "big brother" in the freshman
class remains.

Definite Rules
Few of the houses stated any
definite freshman rules outside of
the above, but one house did go
so far as to say that "freshmen
will not be allowed to smoke, or
to drink during the week." One
house stated that it would cancel
week-end privileges to those fresh-
men who appear to be uncoop-
erative. Required participation in at
least one extra-curricular activity
was specified by one house. Another
required participation in inter-
fraternity athletic events.

Freshmen At Meals
A curious difference of opinion
exists apparently about where
freshmen should sit at mealtime.
One house felt that all its fresh-
men should sit together at meals.
Another took the position that they
should sit together at noon, but
not at night. Still another felt that
every freshman should be required
to sit in a different spot each meal.
A fourth house stated that there
should be no more than three
freshmen per table at meals.

Punishments
In all cases where the subject
was mentioned, the responsibility
for the implementation of the pro-
gram was placed with the House
Orientation Committee. Suggested
possible punishments for the
failure of freshmen to cooperate
were the restriction of weekend
privileges, extra work assignments
and delay or refusal to initiate.

Responsibility

After much debate last spring, the student body finally
decided to abolish one of Bowdoin's "anachronisms," hazing.
The entire student body was not in favor of this move as was
demonstrated by the subsequent referendum, but an overwhelming
majority of the undergraduates showed a willingness to
co-operate in an effort to end the barbaric practices traditionally
associated with hazing. All agreed that hazing possessed many
undesirable features. However those who opposed the aboli-
tion of it repeatedly expressed concern over what would replace
it, because they felt, as faculty and students do now, that the
learning of lore gave a desirable goal.

Now the time to learn the lore has arrived and many are
asking how this can be accomplished without hazing. The
fraternities have submitted programs to the Orientation Com-
mittee which are strikingly similar and have been approved.

Co-operation and responsibility are the only solutions for
success. For those who are concerned whether or not hazing
will go underground this is the only answer. Surely it is not de-
sirable to set up police patrols checking the fraternities to see if
they are abiding by the rules. It is in our hands. First, it rests
with the freshmen who must learn the lore if Bowdoin is to re-
main a fraternity college, and secondly, with the upperclassmen
who must be just in their interpretation of what constitutes
hazing.

The Watchful Poker Chip

By Penn Fuller

Snow falls all year at Bow-
doin. The freshmen arrived in a
chaperoned vehicle, they know it
not. My roommate has been con-
firmed the rumor that classes
have started. They are fortunate
this year in having the choice of
some 89 different cut systems. We
hope that the professors will ex-
ercise their individuality and cre-
ative ability in devising these sys-
tems. Professor Herbert Brown
would the Zeros please let me
know the Leopard got his spots?
The Dalmatian had graduated.
Professor Brown had not met Deke's
replacement at that time. A ru-
mor started on this side of cam-
pus that the faculty is making
some pledge paddles stay buried
by increasing assignments.
Would the Zeros please let me
know when this rumor reaches
their Whispering Plains. If any-
one else has a nasty tale they
would like to time cross cam-
pus, time trials are being run on
the 25th. (Monday after Tufts).

Secondly, a number of houses
stated their intention to either in-
stitute or continue the so-called "big
brother" system whereby each
freshman is assigned a big brother
who is supposed to watch over
him and give advice. In several of
the houses marks were collected

'62 Experience New Fraternity, College Orientation Program

Orientation, last year's most
controversial subject, is now in
operation on the Campus as well
as in the respective Fraternity
houses. This was approved by the
Student Body in a referendum
last year, following a great deal
of discussion concerning the stu-
dent Council's vote to abolish
hazing. The College Orientation
Program, which was designed to
acquaint the incoming Freshmen
with the College and its intentions,
before the individual fraternities
are allowed to engage in the "tra-
ditional" Bowdoin style rushing.

Under the Chairmanship of Dr.
David Russell, the Student-Faculty
Orientation Committee drew up
detailed plans in preparation for
the Class of 1962. Mainly this com-
mitted a formation of a Faculty
forum, explaining the academic
nature of Bowdoin's Curriculum.
This forum, which was given on
the Friday afternoon of the
Freshmen's arrival, was divided in-
to three sections, with members
of the three curriculum divisions
speaking at each of the meetings.

These professors included Green-
shaw, Cox, Christa, Gustafson,
Dawson, Storer, Leith, Holmes,
Moulton, Whitestone, Darling, Rus-
sell, Dane, Beam, Kernerling,
Chittin, Heimreich, and Taylor.

The week of orientation follow-
ed much the same plan as in pre-
vious years, with batteries of
placement tests, medical exams,
and smokers, sponsored by the
various Campus organizations.

The continuation of the Orienta-
tion Program now rests in the
hands of the Student Orientation
Committee, which plans to inte-
grate its program with the tradi-
tional fraternities.

Un's death was an occasion of
great sorrow since the method of
his passing rendered the body
unfit for consumption. He remains
in the College, his white bear
in the funeral parlor which also
served as a kitchen on
feast days. Ung had met his death
when he was returning to the Dur-
able Oak, having forgotten his Law
book. He began to read the new
first physics book expecting
for the fact that the bear's IQ was
an improper fraction. The white
bear came back while Ung was
reading, translated the warning in
Russian and ate Ung.

POLAR BEARINGS

By Mickey Coughlin

With the 1958 edition of Bowdoin football history just about to begin, the usual question of "what will Bowdoin's team be like this year?" is foremost in the mind of all loyal Bowdoinians. To be sure, teams like Maine and Bates, which have some forty to fifty players, have a definite advantage over the thirty-man Bowdoin squad. This advantage made little difference in a recent scrimmage against Bates, when Bowdoin's footballers bucked up and held their own after loosening to Bates' offense. Several players showed signs of promise and the team fared better than expected against a supposedly better Bates squad.

The White will be operating without two key men, Bob Hawkes and George Entin, both top flight backs, in Saturday's opener against Tufts. These and other minor but painful injuries are plaguing the small Polar Bear team. However, some bright spots are evident and Bowdoin football may be on the upswing as a large group of Sophomores are contending for game positions and Freshman coach Ed Combs reports a turnout of some forty eager Frosh. Although Old Man Time will be the tell-tale factor, the best way to see what Bowdoin's team is really like is to attend as many games as possible.

Soccer is at present not in full swing, but both Varsity and Freshman cross country teams are working in earnest to prepare for a rugged schedule that begins for both with an interclass meet on October third. Coach Frank Sabasteanski reports prospects look better than expected at this early date and the harriers are anxious to give their foes much trouble.

Other sports underway at present are sailing, lacrosse, and aspirants for swimming and hockey teams will soon head early practice calls. The class of 1962 is reportedly loaded with swimmers and hockey players and many are eager to begin workouts. Ice will be in the arena very soon and will undoubtedly be covered by Bowdoin hockey enthusiasts. A few swimmers are already in the water preparing for the oncoming season.

A note from the Sports Department: In recent years, there has been criticism that some sports events are not well covered. If some members of the college community would like to give their valuable assistance to sports coverage, just let the Orient Sports Department know. We would be more than glad to have you.

Will This Be Bowdoin???

What About This??

Polar Bear Gridders' Initiate '58 Season Against Jumbo Eleven

Several Members From '61 Lead Young Bear Club

Cummings, Haviland, Prince, Finlayson Are Game Starters

A large number of sophomores are not only holding their own as members of Coach Adams Walsh's varsity football team, but are providing the starting lineup with at least four of its members. And three or four more sophomores with present second team status are showing first teamers that they are in not contention for positions.

Gerry Haviland is holding down state that Haviland has intense desire to prove himself and is touted one of the better linemen on the squad. His weight coupled with surprising speed and a fighting aggressiveness will make him more than dangerous to opposing backs. A stalwart on last year's Frosh team, Haviland looks forward to three good years of varsity football.

One of the most promising backs on the team is Jack Cummings, slated to be in the opening game lineup at right halfback. Even though hampered at present by a hairline fracture of the right thumb, his driving power and much more than adequate speed should prove capable of springing Cummings loose on many long dashes. Offense is not Cummings' only desire. A lover of contact, he moves up fast and has been seen making more than one bowling tackle. One of the most versatile backs on the team, he is also adept at both pass receiving and punting. Cummings was co-captain of the 1957 Frosh team.

Charley Finlayson is proving his prowess by holding onto a starting end position through virtue of his aggressive play. An able pass receiver, his speed enables him to outmaneuver many defenders. Sharp blocking and always-alert defensive tactics, however, have earned him a place on the starting eleven. Finlayson was an able performer for the 1957 Frosh club and the coaching staff holds him in high regard as Head Coach Walsh looks for Finlayson to continue sparkling play for three years to come.

Don Prince, one of the starting guards, is one of the most aggressive members of the team and is eagerly awaiting his turn at opposing runners. A recent report the Coach Walsh expects Prince to "be a good player as he gains experience" will certainly be fulfilled if Don has anything to do with it. Even though a hard blocker, Prince prefers defensive play where he can show better his effectiveness. Another standout on last year's Frosh team, Prince has the desire needed to become an outstanding lineman.

To be sure, other sophomores are pressing hard for starting positions. End Bill Widmer and tackle Dave Cole will see much action right from the beginning. As a matter of fact, the starting lineup could very well include these two men on September 27, they are both very able and willing. Guard Rick DelPrete, converted from center, will undoubtedly see action, as will tackle Burt Needham, who is also pressing hard, and backs Don Reid, Dick Seavey, Charley Prince, and Bob Corvi. Corvi may see more action than scheduled as George Entin, first-string quarterback, is hobbling around with a bruised knee.

Sophomores will see much action as the thinly populated Bowdoin bench will probably have plenty of room. Along with a bonus crop of freshman players and transfer Ted Gardner, Bowdoin football should be on the upswing the next and succeeding years.

NOTICE

"On the evenings of October 5th and 6th, from 9:00 to 10:00 in the Union, the Faculty and their wives will be at home to all students who are attending classes at Bowdoin this year for the first time. All whose last names fall between A and L included are requested to attend Sunday night, those from M through Z, Monday night."

Harriers Ready For Tough Year

By William Skelton
With nine harriers practicing hard, Coach Frank Sabasteanski has high hopes for his varsity cross-country squad in spite of the loss of last year's captain Dave Young and ace runner Bob Packard. Bowdoin can look forward hopefully to a winning season. Captain Tom McGovern, one of the hardest workers on the team, is fast rounding into his usual top form and should soon be ready for the tough schedule which opens October 13 in Brunswick. True Miller, one of last year's standouts, has been working hard during the summer and is in fine condition. He should prove McGovern for top spot on the team. Veterans Ed Bean, John Doherty, and Bill Skelton are reaching top form and are definite threats to back up Miller and McGovern. Last year's freshman captain Ted Richards and another standout, Squint Moran, have both been hampered by injuries this year but are due to return in time for the first meet. Dick Fogg and Sam Elliot round out the squad. Although lacking experience, they are working hard and will be able to hold their own in meet competition.

Schedule	Home	Away
Oct. 3 Interclass meet	4:00 p.m.	
Oct. 11 Amherst, Coast Guard, W.P.I.	1:00 p.m.

Thin Squad Fails To Dim High White Expectations Of Improvement Over '57

The 1958 edition of the Bowdoin Polar Bears, led by Captain Gene Waters, reported to Coach Adams Walsh on August 31, ready to begin another season of hard work. With only 35 men reporting, the squad appeared thin, but willing. The spirit in the early workouts seemed to be improved over past years due to the large number of sophomores fighting for starting berths. The schedule includes all the 1957 opponents with Wesleyan replacing Trinity.

Injuries have hampered the White considerably. Bowdoin lost one veteran when halfback Bob Kennedy, counted on for yeoman duty, decided to have an old baseball injury treated during the fall junior quarterback George Entin will be unavailable for the opener because of a badly bruised knee, while junior end Phil Verry, a letterman who was slated to see a lot of duty, is out with a torn thigh muscle. Both men should be ready for the Wesleyan contest. Probably the biggest blow to the White eleven will be the loss of one of the state's finest halfbacks, Junior Bob Hawkes, for the opener against the Jumbos.

Coach Walsh has made several changes in the line where a lack of manpower is noticeable. Carl Smith, 196, a third-stringer last year, seems to have taken a lot of the play away from senior letterman, Rick Hurl, 196, on the center squad. A new addition is former guard, Seth Baldwin, 196. The ends are light, but fast, yet here too, there is a lack of depth. The Polar Bears have two returning lettermen at these crucial spots. Jim Carnathan, 190, looks like a starter, but Al Merritt, 196, is getting a lot of stiff competition from the two starting flankers on last year's team, Charlie Finlayson, 180, a sharp blocking, aggressive end, has earned himself a starting spot on the 1958 eleven, while Bill Widmer, 175, who has a great pair of hands, should see a lot of action. John Miller, 195, should be in there a good deal, despite his weight.

Seniors Dick Adams, 205, is the only veteran tackle, and he'll be a starter. Sophomore Gerry Haviland, the heaviest man on the Po-

lars, is the best team tackle.

College's Famous Alumni Leaders In Varied Fields

In this critical era, which transpired in the 1960s, the College's status is indeed refreshing to note the College's history. In this respect, the College is one of the most distinguished colleges in the country, for she has produced more than 100 graduates who are of campus than any other rival. Of our graduates 42 percent have received doctorate degrees, 30 percent went on to law, 15 percent became engineers, 12 percent took medical degrees, and 6 percent joined the ministry.

Fifty-seven of the educators before us were graduates of the College and colleges and universities; we have

the King of Hawaii; Robert Peary, the first man to reach the North Pole; the American's outstanding poets; Alfred Kinsey (1916) conducted the first scientific study of sex and women; Rear Admiral Don. R. MacMillan (1968) extensive exploration of Antarctica.

A Bowdoin man conducted the funeral services of John Brown, the abolitionist, in 1860. The two chemists who were instrumental in the development of the atomic bomb were Bowdoin as were the three men who developed the contact lens, the microscope was invented by a Bowdoin man.

[illegible]

ment in Congress by Paul H. Douglas in 1935. He was elected to the U. S. House of Representatives from Illinois in 1936. Congressman Robert Hale (1910); Associate Justice Harold H. Burton graduated from Bowdoin in 1915 and later Chairman of the Atomic Energy Commission, Sumner T. Pike received his diploma from Bowdoin in 1916.

The diversity of our Alumni's occupations and achievements is startling. Robert C. Anderson (1907) is a member of the North Pole; Cyrus Hamlin (1824) founded and was president of Robert College in Constantinople; the first class of 1916 organized and conducted an arctic research laboratory for the Navy. There is a member of a somewhat earlier class served as Secretary to

tribution to all classes of copies of a mimeographed pamphlet, "Cadet's Guide to the Rules and Regulations," which sets forth general policy on such subjects as Honors and Awards, Military Training, Physical Training, Merit Awards, and Information on the Advanced Course. It is the first time that such a copy of the regulations has been available in printed form. The publication of the Regulations in this form will make the Program as an introduction to the rules and strictures necessary in the Army.

Open to freshmen, sophomores and juniors is the Alexander Prize of \$75. This contest will also serve as the first round of the Maine Forensic Debate Contest. Contestants will be considered for assignment to the State of Maine Interpretation Festival held at Colby College, March 12; and to the New England Forensic Debate Contest, April 12. Finals will be held Thursday, November 6, 107 State Hall, 5-8:45 and 7:30-8:30 p.m. Contestants will be given 15 minutes for a part of one hour and 15 minutes for the other not exceeding five minutes speaking time. Finals will be on Monday, December 8, Pickard Theater, 8:15 p.m. Contestants are to have memorized material. Time allowed is not to be more than ten minutes in length. Advisor for the Alexander contest is Mr. London.

Open to freshmen, original and spoken composition in the English (Continued on page 4)

As of June 30, 1958, endowed funds of Bowdoin totaled \$1,838,994, a net increase during the year. The total of the first sixteen new endowment funds were established, including a bequest of \$100,000 from the Henry Johnson Professorship of Art and Archaeology. Several scholarship funds aggregating \$55,000 were established.

Major gifts enabling new building in accordance with the current development program include the \$100,000 gift from the Coleman Hall by Mrs. Frederick W. Pickard of Greenville, Delaware, and the \$100,000 gift from the Shumway of Los Angeles, Calif., made possible an addition to and renovation of the Dudley House Memorial Infirmary.

To the guller. Soon he came to the notice of the Society of Gulliarists and studied with their president, D. Perrot. At thirteen he was brought to the attention of Segovia, who helped him and gave him the name of Brean. He also won a scholarship to the Royal College of Music.

The gulliarist's professional debut was at Cheltenham, England in 1947, and in 1949 he made a

NOTICE

The first major meetings of the 1958 Fall Meeting will be held on Tuesday evening, October 7. All Juniors and Seniors should contact their advisors in the major departments immediately.

Said The Times of London after a recent Wigmore Hall concert: "Apart from the all-round musical qualities with which Mr. Bream's playing is invested, his technical command of varied tone-colour, clear part-playing and precise articulation continue to provide both astonishment and delight."

not long ago, Mr. Christian explained the reasons for such a course being offered: "Printing ranks sixth among the industries in the United States. In many pursuits, a knowledge of good standards of printing is of value — as in editorial work, publishing, advertising, institutional promotion, and the production of fine printing itself. Even a limited

On Saturday, Oct. 11, the Agents and Directors will attend the morning chapel service before meeting with Dr. James S. Coles, for a question and answer period.

While on sabbatical leave from Bates in 1949-50, Professor Myhrman taught at the Swedish University of Avo in Finland and also at the University of Hawaii.

For abandoning political life to take up his court position Justice Burton had no regrets. An area of common disagreement is the question of justices appointed to the Court without having had any previous experience on the bench. (Justice Burton, like many of his associates and predecessors on the

POLAR BEARINGS

By Joel Sherman

Captain Gene Waters deserves a pat on the back for the spirit and courage he displayed during last Saturday's loss to the Jumbos. Waters gained 44 yards on 11 carries for an average of four yards a carry. However, even more important than his field play was the leadership he provided throughout the afternoon. From the stands the fans could hear Waters yelling individual words of encouragement to each of his players as they dug in on defense. This inspirational leadership is something which has been lacking in the Polar Bear make-up for many years.

New Men Outstanding

The showing of several of the White sophomores and first year Varsity participants was particularly outstanding. Sophomore Jack Cummings brought in the only Bowdoin tally of the afternoon as he sprinted 85 yards with the aid of a key block by fellow-classmate Charlie Finlayson. Cummings also broke up many a Tufts' drive with his head-up defensive play. Guard Don Prince played hard on both offense and defense, while little quarterback Bob Corvi displayed a lot of poise during the short time he saw action. Outstanding sophomore tackle Gerry Haviland played well until receiving a bad kick in the left leg. Burt Needham, although seeing limited action, performed his task very well. Seniors Dick Tuttle and Ronnie Tripp, who have been absent from the football scene for the past three years, contributed a great deal to the Polar Bear cause with their all-around aggressiveness.

Condon

Quarterback Jack Condon also should be commended for the way he handled the team throughout the game, and especially for his pin-point passing during the last quarter.

Rally

The turnout of Bowdoin upperclassmen at the rally Friday night left something to be desired. Although the freshman class was there in both spirit and entirety, there was a noticeable lack of upperclass participation.

Enthusiasm

Despite the rain, there was a great deal of support registered for the White eleven Saturday afternoon. As the rain became worse at halftime, the crowd slowly started to disperse and return to the fraternity houses. However, many loyal students and alumni weathered the storm showing a great deal of enthusiasm. Both the cheerleaders and the band should be praised for their fine performances at both the rally and the game.

Wesleyan

Speaking at the rally, Captain Waters remarked that a little bit of spirit on the part of the students can go a long way. The first away game of the season will be played this weekend at Wesleyan. Campus rumors have it that there will be a large aggregation of Bowdoin men traveling down to Middletown to give their support to the White. If these rumors are well-founded, both the players and coaches will be given an added boost knowing that the school is behind them.

Tufts Quarterback

In case any of you are wondering, the quarterback listed as number 12 in the Jumbo lineup was Dick Levine, brother of last year's outstanding Polar Bear end, Matt. Incidentally, Matt was recently married and is now attending Tufts Medical School.

Sailing

Congratulations to the Sailing Team who came back from the University of Maine with an impressive win in the championship eliminations of the New England Intercollegiate Sailing Association. This victory entitles Bowdoin to participate in the finals on Homecoming. The Sailing Team has always been amongst the top winners on campus.

Sailors Capture State Series Win By Seven Points

The Bowdoin Sailing Team launched its initial thrust in a victorious meet against the University of Maine on Saturday, the 27th. While the college body fought to find seats in the Bowdoin grandstands, the Varsity sailors warded off the cold, the Black Bears of Maine, and the University in the seclusion of Coldstream Pond. In a tight, cold drizzle and extremely gentle, shifting winds, the team again took the Maine State Sailing Championship, doing so Bowdoin retained the Class of 30 Trophy (Bowdoin) and maintained a championship never yet lost. Skipping for Bowdoin were Commodore Ronald H. Dyer and Lance Lee with crews Temple Bayles and Skelton Williams respectively. The old winning combination of Dyer-Williams was broken up to even up the experience quotient in the two boats. In a six race series, racing in two divisions, Bowdoin won both the "A" and "B" divisions to emerge the victors by a margin of seven points of a score of 22-15. The following day Bowdoin again took all honors winning two straight in a two-out-of-three series of team races. Sailing again in light winds, the team found conditions ideal, and maintained a first and second place lead in both races. Sailing again against the University of Maine, Bowdoin made work of the series as Colby College and Dartmouth did not report.

White Key Raps

White Key representatives met for the first time this week to determine interfraternity football leagues. It is hoped that the White Key will provide its usual help in interfraternity sports. The representatives are:

- Beta Theta Pi Ted Sandquist
- Alpha Rho Upsilon Mack Gray
- Alpha Delta Phi Morgan Lamarche
- Zeta Psi Henry Dowd
- Sigma Nu Bob Hawkes
- Theta Delta Chi Pete Brown
- Alpha Tau Omega Tom Saxton
- Chi Psi Dave Smith
- Psi Upsilon Charley Long
- Delta Kappa Epsilon Terry Sheehan
- Kappa Sigma Dick Willey
- Delta Sigma Walt O'Neil

Bowdoin's invitation to the finals for the Leonard M. Towle Trophy. The race was a championship elimination for the New England Intercollegiate Sailing Association. Bowdoin has qualified for the finals to be held over November 7-8 on the Charles River in Boston.

Scrappy White Succumbs To Powerful Jumbos

Bob Hawkes is shown making a sizeable gain after pulling in a Jack Condon aerial in the final quarter of Jumbo contest. Charley Finlayson, left, is about to make a crucial block on Tufts' guard, Ray Zaleski. Other players in picture are John Marshall (64), Mark Lydon (41), and Andy Kerr (86).

VARSITY ELEVEN STUNNED 26-6

By Ed Bean

The football team began its 1958 season by losing to Tufts, 26-6, on rain-soaked Whittier Field. Despite the sudden playing conditions, there was plenty of wide-open action, estimated for Bowdoin fans by an 85 yard punt return for a touchdown by sophomore back Jack Cummings. In the first quarter play the White Team contained Tufts well. The Jumbos penetrated to the White 10 yard line, but at that point failed to make two yards on three attempts for the first down. With the ball in their hands for the first time, Captain Gene Waters and Jack Cummings snapped up two first downs before Dave Cole was on the Tufts one foot line. The Jumbos just missed being thrown for a safety on their first try to get the ball out, but they were more successful on the second attempt as Tufts' Mark Lydon broke loose with a sensational 99 yard run for a touchdown. The Jumbos added two more points on a pass from Levine to Finigold under the new conversion rule.

Tufts received a shock, and the Polar Bears a flash of hope on the next play as Jack Cummings took a kick on the 15 yard line and raced 88 yards for Bowdoin's only score. Another sophomore, Charlie Finlayson, provided a key block to spring Cummings loose. Bob Hawkes attempted to convert with a rush, but fell short. In the second quarter an exchange of fumbles on Bowdoin's 15 left Tufts with the ball. Pick-

ing up a first down on the two yard line, Lydon backed over to score for the Jumbos. Tufts scored again on the fourth quarter on a 19 yard pass from Levine to Cahill. At the start of the third quarter Tufts launched a drive that ended in a 25 yard touchdown run by Dave Fox. This final touchdown came with three minutes and 50 seconds gone in the period. In the final quarter, quarterbacks Jack Condon and Bob Corvi went to the air with some success, but not enough to score again. The White attack was as in recent years more successful in the air, 131 yards passing as against only 44 yards rushing. The team showed less evidence of inexperience than might be expected of a squad with five sophomores starting. Their consistent aggressiveness left no room for complaint. Naturally one would expect the sophomores to be enthusiastic in their first varsity game, but veterans Waters, Merritt, and Karavetso showed that three years of coming out on the short end of the score has not killed their desire to win.

Summary:

Harriers Work

The varsity cross country team will compete in seven meets this fall. Coach Frank Sabastanski is working with a squad of nine men, including four lettermen, four sophomores, and a senior who is out for the squad for the first time. The returning veterans are Captain Tom McGovern, a two year letterman, who finished 28th in the New England in 1957; Ed Burt, John Doherty, and True Miller. McGovern is a senior, and the other three are juniors. Up from last year's freshmen are Sam Elliot, Les Moran, Ted Richards, and Bill Skelton. Senior Dick Fox is in for cross country for the first time.

The harriers open their schedule with an intercollegiate meet on October 8, followed by a four-cornered affair with Amherst, Coast Guard, and Worcester Tech on October 11. Dual meets are scheduled against Williams on October 18, Boston College on October 24, Bates on November 1, and Vermont on November 7. All will be run at Bowdoin except for the Bates meet, which will be at Levinson.

The Polar Bears will close their season at the New England in Boston on November 10.

HELP WANTED

Excellent opportunity for a wide-awake, aggressive student interested in earning extra cash while learning business management and salesmanship as an "on campus" agent for one of America's leading college men's apparel manufacturers. Offers top-drawer opportunity and pleasant association with a firm in a desirable field at which you can be proud. Profer students in sophomore or junior year. Write, giving brief resume of your college activities, to P. O. Box 291, Camp Hill, Pa.

Former College Track Star's Mark Accepted Tying Fifty-Nine Year Record Of 9.8 In Dash After Six Years Milliken Gains Acclaim

Six and one-half years after he ran the 100 yard dash in 9.8 seconds, former Bowdoin College track star Gordie Milliken has received official credit for tying a Bowdoin record first set nearly sixty years ago. On the afternoon of May 4, 1953, Bowdoin scored 67 points in a triangular meet at Springfield, Mass., to defeat Springfield College with 60 1/4 points and the University of Connecticut with 27 3/8. Milliken and his classmate Dick Getchell were the high scorers with 18 and 15 points respectively. Milliken won the 100 in 9.8, the 440 in 52.3, and the broad jump with a leap of 21' 9/8" and took a second in the 220. Getchell won in the 130 yard high hurdles, the 220 low hurdles, and the 220 yard dash. Following the meet Bowdoin had to leave in a hurry for a previously scheduled meet. Springfield's Coach Judd agreed to get the referee's ruling on Milliken's record and get in touch with Jack Magee, then coaching Bowdoin. For one reason or another, no word was ever heard from him and he retired the next year, in 1953. Vernon Cox, Springfield's new coach, in checking the files and the records, noticed that Milliken's mark equaled the Pratt Field record for the 100. From there on it was simply a matter of cutting all the official red tape at Bowdoin and Springfield — getting the okay of the meet referees, Coach Mudd, Coach Cox, Jack Magee, and Bowdoin's Director of Athletics, Mal Morrell. So now Gordie Milliken, who was graduated from Bowdoin five years ago, officially shares the College's 100 yard dash record of 9.8 seconds with Harry Coudman, who set the original record in 1899, and with Howard Mootrom, who tied the record in 1928.

Walshmen Move To Middletown Face Cardinals In High Spirit

Coach Adam Walsh's Polar Bears and Norm Daniels' Wesleyan University Cardinals will renew their football rivalry this coming Saturday at Middletown, Conn., in the resumption of a series started in 1908. The two teams have not played since 1953, when Bowdoin took an 18 to 0 decision. During the 29 years that Coach Walsh has been at Bowdoin, the White has defeated the Cardinals ten times while losing only four. The first game between the two teams, back in 1908, ended in a scoreless deadlock. The last Wesleyan win came in 1932, by a score of 27-7. This season is Daniels' 18th season as head coach. Since taking over the reins in 1945, his teams have won 52, lost 42, and tied 8. A year ago Wesleyan won four and lost four, defeating Coast Guard, Haverford, Worcester Tech, and Swarthmore and losing to Middlebury, Amherst, Williams, and Trinity. The 1958 squad features a veteran line and a backfield with more depth than in 1957. The fourteen returning lettermen have been bolstered by sixteen newcomers from the undefeated, Little Three championship freshman team. Daniels himself says of this year's squad, "Our 1958 club will be stronger in depth and ability than last year's club. We have more lettermen, more experience, and excellent freshman prospects coming up. If we develop a well-balanced club, Wesleyan could give our major opponents a lot of difficulty."

Frosh Runners Prepare, Show Promise

Fifteen candidates for the Freshman Cross Country team are working out daily as Coach Frank Sabastanski prepares the yearlings for a fall schedule of seven meets. Squad members, who reported for their first workout late last week, include Rod Beaulieu, Phil Boulier, Bob Burnett, Eldon Craig, Pete Gillies, Leonard Lee, Peter McGuire, Bob Miller, Allen Prince, Roger Rieder, Schuyler Sampson, Wendell Sides and Mark Yarnum. The Freshmen will open their season with an intercollegiate meet on October 3, followed on October 8 with a triangular affair against Cheverus High School and Thornton Academy. They will face Lincoln Academy on October 17, Waterville and Gorham High Schools on October 28, and Portland and Deering High Schools on November 6. Along with the Polar Bear varsity, the Freshmen will also compete in the New England at Franklin Park in Boston on November 16.

Bob Hawkes is about to pull down Jumbo halfback Bob McLeane after a 7 yard snapper. Coming in to give assistance are left, Bill Widmer and center, Bob Hoffkirk. Umpire Fred Harlow is seen in foreground moving in on play.

Soccer

Soccer is now a full-fledged varsity sport at Bowdoin. According to Mal Morrell, "Soccer will be a fully credited varsity sport at Bowdoin and varsity letters will be awarded." Four games with Bates and Colby, on a home and home basis, have already been booked with more possibilities on the book. The team will be coached by Lieutenant Ben Levine of the Brunswick Air Base. He will also coach the freshman team. A recent turnout saw more than thirty five candidates for the new sport.

Van Nort Reports' N.A.A.C.P. Disturbed By Court Ruling Sanctioning Special Criteria

(This is the second of two reports from Richmond, Virginia, dealing with the desegregation problem, by Prof. Leighton van Nort of the Bowdoin Sociology Department.)

RICHMOND, VA., — Oct. 2 — According to William Graham Sumner's famous dictum, "stateways cannot change folkways," the great social Darwinist's insistence that laws alone cannot

The key decision was handed down by Judge Albert V. Bryant in the Arlington County case of September 17th. Unfortunately, it has received little publicity outside Virginia. Only the N.A.A.C.P. seems to have appreciated its full significance — that organization recently appealed Judge Bryant's decision to the U.S. Supreme Court. The hope is that he ordered four Negroes admitted to the previously all-white Stratford Junior High School.

The N.A.A.C.P. is disturbed because the District Court Judge explicitly sanctioned the use of special criteria for screening students seeking transfer from one school to another, e.g., from a Negro

Genuine Fear
Scratch almost any white Virginian during the present crisis

and you will find just beneath the surface of his opposition to desegregation the fear of intermarriage. It is easy for Northerners to dismiss this as a rationalization for other types of prejudice, but it is genuine. U. S. A. fear

which is found at every level of the population, including the most virulent

Thus it is not so much the sharing of classrooms by Negroes and whites, which arouses Southern fears, but the resulting social contacts between adolescents of the two races. Associated with this

of differences in health, in academic achievement, in crime rates, in sexual behavior. The average Virginian does not pause to recognize that these differences are the result of differences paralleled by similar differences within all-white populations elsewhere. He believes that these differences are the fault of the black people, and he would argue, they still exist. The flaw in this argument is, of course, that these very close similarities are perpetuated by segregation.

Court Killea Hope

Against this background, Monday's editorial in the *Washington Post* opinion-barring "evasive schemes" designed to avoid desegregation in the South. The editorial, written by a white Southerner, has apparently persuaded themselves that the Supreme Court's decision is the result of a largely imaginary wave of Northern pro-segregation sentiment. The editorial concludes that there is now desegregation in the South. That hope is now dead.

Meanwhile, the pattern of further desegregation in the South is expected amid much less fanfare in the District Courts. It is a pattern of desegregation by local action, one which takes account of

existing differences between the the Negroes' bitterest fight is races. Only a few of the very ahead."

ENOIT & COMPANY
BRUNSWICK

Library Report

(Continued from page 1)

Clarke assured us that inevitably there will be need to expand the main reading room periodically.

(b) A Map-room. The library now lacks a good map room. The heavy cases at present in the old Room 100, which will be moved shortly, for longland plans call for turning this room into a general reading room. That courses in general history will be added to the curriculum before the year 2000 seems more in the line of common sense than policy.

(c) A listening-room. The Committee on Library Standards states that in a listening room, as we are presently set up, the room would probably not be used for listening to music, but rather to poetry readings, the addresses of famous historical figures, etc. The advantages of having students listen on their own time or even in classroom hours to speeches by Bryan, Churchill, Roosevelt, Hitler seems obvious, if they are to discover how these men wielded their great influence. Some members of the foreign language departments have expressed great interest in a listening room. We have done little so far to record discs or tapes of important events in the history of the college. The library seems the most fitting place to store these records when they come into the library.

(d) Special collection rooms. The need for space to house special gift collections seems obvious. It may be necessary to exercise caution in this respect, but no library would like to turn down a gift as the Stefani collection donated to the Dartmouth Library.

The existing library can probably provide most of the reading room space needed. Plans are already being developed to expand the table space in the main reading room. As has been mentioned above, the old Debetting Room will also provide additional space. Students have in recent years agitated for the provision of an all-night reading room, such as at Wesleyan and Amherst. Such a room should be situated so that it could be locked off from the rest of the library for the protection of the collections.

Alternative Solutions

With these needs of the library before them the members of the Committee discussed various ways of meeting them.

(1) They have considered carefully the system of compact storage devised at Wesleyan and Amherst. They were not in favor of adopting this system. On the other hand they look favorably on another system of compact storage which involves, when space becomes crowded, eventual rearrangement of shelves in a modern-built stack. This entails narrowing of aisles, which can be done in the less used sections of the stacks. This system of more compact storage cannot be applied in our present stacks.

(2) They considered the question of possible cooperative storage arrangements with other Maine libraries, similar to the Hampshire Library Center (Amherst), the University of Massachusetts (Amherst), and the University of New Hampshire (Durham). Judging by the experience of these colleges most of the books, which would be available for such storage are already housed in the basement of the Chapel. For this reason and many others the committee believes that such a cooperative storage center would be a solution of our library problem.

(3) The committee went over the whole library building, and considered certain rearrangements. While some additional space might be obtained by making alterations in the building, these alterations would be exceedingly costly, the space gained would not be particularly desirable, and would fall short of meeting our needs. It seems to the committee — although admittedly they are not architects, engineers or experts on building costs — that here the money would be better spent on a new building.

(4) The committee went over carefully the proposed plans which were drawn up for an addition to the east side of the present stacks, extending out towards Coleman Hall. They found that this would furnish less than half of the additional room needed and advise strongly against undertaking this project.

(5) The committee feels that the best solution to our library needs is the building of an additional Hall which will parallel the present front of the library and will be joined to the south end of the present stacks; in short we recommend converting the present T into an H shaped building. Our proposal makes it possible for our successors in the 21st Century to make additions to the library if they so desire.

The members of the committee feel that only in erecting this new Hall can the library's needs be met. They have had the benefit of some preliminary studies by the Remington Rand Company of Boston, which specializes in library stack construction. The

Amann

(Continued from page 1)

committee feels that the new addition need not be built with much costly trim as the old building. Whether it should be five, six or seven floors high, whether it can be built with a flat roof to harmonize with neighboring Coleman Hall, and other matters must be left to the architect.

It is obvious that a building which will provide space beyond the year 2000, for some years may be used for other than definite library purposes. This building should be so constructed that it would eventually be possible to reclaim a goodly portion of this space for the library, particularly book stacks.

The committee suggests using both ends of the building at present for other than stack purposes. The walls separating these rooms from the stacks would be of such a nature that they could be removed, or doors could be cut through. We feel that this arrangement offers great flexibility. The drawing shows a width of 23 feet for these "ends." This seems suitable at least for the east end, which will be needed for a while, whether the west end should be a little wider is again a question for the architects.

The main part of the new Hall would be reserved for stack space, which should be adequate to take care of book acquisitions beyond the year 2000. It is estimated that each floor will shelter approximately 75,000 volumes. Without reaching a definite conclusion, the committee has considered concentrating all bound material in the stacks, leaving the stacks, the installation of closed and open carrels along one side of each floor would provide needed study space. By installing some lockers adjacent to open carrels students would be able to lock up partially finished manuscripts, notes, etc.

It feels, however, that its basic recommendation is sound; that the long-term needs of the library can only be met by the construction of a new Hall and that the College should proceed with this as soon as possible.

Members of the committee are Kenneth J. Boyer, Librarian, William D. Williams, Jr., Dean of the College, Lawrence S. Hall, Eaton Leith, William C. Rogg, Clement E. Vose, and Ernest C. Helmreich.

Wilders Visits Indianapolis Via Conference

Philip S. Wilder, Assistant to the President attended the annual meeting of the National Association of Foreign Student Advisers, held on October 4, 5, and 6 at the University of Indiana in Indianapolis.

Mr. Wilder, who is Foreign Student Adviser and Fulbright Adviser here, is a member of the Institute of International Education, Liaison Committee and Committee on Constitution and By-Laws of the American Association of University Men.

Mr. Wilder, who is Foreign Student Adviser and Fulbright Adviser here, is a member of the Institute of International Education, Liaison Committee and Committee on Constitution and By-Laws of the American Association of University Men.

For eighteen years taught education courses and was Alumni Secretary. Since 1948 he has been Assistant to the President.

During World War II he served as a special services officer with the Army Air Corps and was also with the Army Service Forces School for Personnel Services in Lexington, Va. He has been a member of the Red Cross since 1946 and has also served in many other community causes, including the Community Chest, the Boy Scouts, and the American Red Cross. He is chairman of the fund-raising campaign for the Regional Memorial Hospital in Brunswick.

Whiteside

(Continued from page 1)

Whiteside then reflected that this hangs upon Amann's use of the word "adapt," which, that as used, "constituted a hard, realistic compromise to grips with the society of which we are a part." Here he withdrew his suggestion that Amann wished to replace education with indoctrination.

"Two questions remain," he said, "which seem to me crucial." The first of these was "If we grant that the present offers such sharp contrast to the past that we cannot apply the lessons of History with any hope that conditions in the future will be reasonably similar, might we not conclude that it is still essential that an educated person have a sense of tradition?" This was illustrated when he commented that Mr. Amann had demonstrated effectively his sense of the increased pace of change which distinguished the present generation from all those past. "Would he or would anyone appreciate that difference and be in a position to ponder its implications if our generation cut itself off from the past altogether?"

The second question was concerned with Bowdoin itself. "Does our college conceive of its function as the preservation of the established order?" He then requested that Mr. Amann "crack the covers of that self study report." And after exposing some disagreement of his own with the report, stated the text of the report makes clear enough that the tradition meriting conservation is not society as it now exists. "Rather the 'conservative tradition' is regarded as the maintenance of the values of liberal education in spite of pressures to move toward an occasional training. . . . The tradition is also regarded as Bowdoin's resistance to the postwar fad of curriculum change and teaching method innovation. Bowdoin may well have been unnecessarily conservative in some of these directions, but this is not conservative as Mr. Amann used the word. . . . Rather the 'conservative tradition' in education has, as such, nothing to do with the established order."

"I end on an ironic note," Bowdoin seems to have been seeking for a long time to do what Mr. Amann would have the college of the future do. The essential difference is that the Self Study committee called it a "Conservative" goal and Mr. Amann prefers to call it a "radical" one. He is quoted by saying "The goal, whatever the label, I take to be the production of informed graduates and among them as many as possible of those rare individuals, desperately needed in Athens long ago and desperately needed here today, who can hold up our notions and subject them to rigorous critical examination and then tell us where we are being wise and where foolish. Let us consider the problems of education at Bowdoin and elsewhere in terms of achieving greater effectiveness in working toward this vitally important goal."

Education is only one small part in the labyrinth of mass communication and mass persuasion. Most of us, sooner or later, will fall victim to the conventional wisdom and the propaganda of the day. Education, as I see it, is to nurture the little boy who will cry "But the communists don't have any clothes on" rather than to tell him that this kind of thing just isn't done.

Expenses Paid For Sixty-Five To Tour Post

(Continued from page 1)

Approximately sixty-five ROTC cadets have indicated a desire to visit a military installation, according to Captain W. J. Leachy of the Department of Military Science. This is the first time that such a trip has been available to cadets in both the basic and advanced courses.

The ROTC students will choose their weekend and travel to Fort Devens, with travelling expenses paid by the U. S. Army. Upon arrival they will be assigned to an escort officer and have a first hand opportunity to understand the life of an Army officer. They will have the use of the post commissary and officers' club, as well as visit the homes of young officers. The purpose is to acquaint the cadets with the life they will lead as commissioned Second Lieutenants upon graduation from Bowdoin.

The advanced course ROTC students at the college are now fitted with the new Army green officers' uniforms. Next year these uniforms will be available for all the students in the program, including the freshmen enrollees.

Corcino Comes To Make Study View America

Mr. Ernesto I. Corcino of Manila, Philippines, arrived here on October 3 to spend ten days in the area as part of an orientation program for foreign employees of overseas United States Information Centers.

The U. S. Information Agency each year brings key foreign employees to this country to visit representative areas of the United States. They have an opportunity to see all aspects of American life, to meet and talk with many people, to visit in private homes, and to observe and participate in educational, religious, civic, and social activities.

Dr. James A. Storey of Topekan, Associate Professor of Economics is serving as adviser in the area for Mr. Corcino and is helping him plan his itinerary and activities. Before accepting his present position, he was a city policeman with the U. S. Army, a reporter for The Davao Examiner and The Mindanao Times, and a case worker for the Philippine National Red Cross.

CAMPUS REPRESENTATIVE BOB LEMIEUX, DKE, '60

General W. Wyman Retires As Continental Commander, Ending Forty Years of Service

(Continued from page 1)

Last July 31, Bowdoin's highest ranking officer retired from the active army after forty years of devoted service. William D. Wyman, USA, a four-star General and member of the Class of 1920 relinquished his position as commanding general of the United States Continental Army Command at the howitzers boomed out a 17-gun salute at Fort Monroe, Virginia.

A relative of Maine, General Wyman led his troops in the Gobi Desert, through Burma, onto the beaches at Normandy on D-Day, and against the Communists in Korea. In 1957 he returned to Bowdoin to commission sixty-four members of the graduating class.

The project that the General considers his most significant accomplishment is the Combat Development Experimentation Center at Fort Ord, California. Here he combined what he considered the two most essential elements of learning. Here scientists developed possible operational concepts and troops give them practical application.

His sentiments on the need for future leaders are summarized in the following statement: "On the tactical battlefield, no commander is going to have the time and proximity to make all the crucial decisions. We must have leaders at every echelon in the chain of command with the professional competence and imagination to recognize opportunity and the initiative to act upon it without orders."

Noted for his faith in the individual soldier, General Wyman made frequent visits to the troops in the field, including a trip to the ROTC encampment at Fort Devens in the summer of 1957 where the Bowdoin detachment was stationed. General Wyman said: "The Army is just people with weapons in their hands. The weapons come and go in an unending procession at a rate in keeping with the times. But people remain and always will — the decisive element in war."

One of the most memorable occasions in his brilliant career came when he mapped almost 1,000 square miles of uncharted territory in Mongolia for Dr. Roy Chapman Andrews. Another unusual situation found him serving as "Vinegar Joe" Stilwell's "first sergeant" (Stilwell was a Lt. General and in an expedition through the Burma jungles for some 140 miles. General Wyman's greatest hours, however, were on the Omaha Beach. There Associated Press correspondent, Don Whitehead, reported his actions: "He studied

Attend Conference

(Continued from page 1)

Recently attending the 101st annual meeting of the Association of New England Colleges in Worcester, Mass., are President James S. Cole, Dean Nathaniel C. Kendrick and Professor Cecil T. Holmes. They are meeting with the administrative heads of four other New England colleges. The general topics up for consideration according to Dean Kendrick, are admissions, enrollment, curriculum, faculty, scholarship, loans, and tuition.

Amherst has inaugurated a new system of intellectual responsibility for the student body. At the beginning of the freshman year, the undergraduate pledges to uphold his intellectual integrity. As is usual, there is no proctoring. What is unusual is that there is no cumbersome honor code enforcement agency. The faculty has stated that it is not going to be responsible for a man who will not educate himself."

As a commander, to the Chief of Staff of the Army, included among his many other tasks is the supervision of an educational plant encompassing over three quarters of a million men, making him dean of the world's largest educational system.

POLAR BEARINGS

By Joel Sherman

It is interesting to note that the Polar Bears will face Williams in the 1958 Parents' Weekend clash. It was on this same weekend two years ago that the White eleven lined up against the Ephemen who were considered at that time to be the finest small school power in the East. Bowdoin, rated at least a three touchdown underdog, would not give up as they stubbornly fought the men from Williamstown finally coming out on the short end of a respectable 13-7 score.

Bowdoin again did credit to itself last year on another memorable Parents' Day. Facing a highly-touted Trinity club, the Polar Bears pulled off one of last fall's major upsets. With Captain Bud Stover behind the reins, the Walsham continually moved the ball up the length of Whittier Field to take a 13-6 decision from the Gold and White, thus winning their first game in two years.

With Williams traveling to Brunswick this coming weekend, when parents will again be present on the campus, we can only hope that history will repeat itself. A display of student enthusiasm, along with that of their relatives, should make for a very interesting contest.

Rally

Friday night marked the second rally of the football season. There was an apparent lack of student participation as well as enthusiasm. When thirty-four students can give their all for Bowdoin every weekday afternoon as well as on Saturdays, there is no reason why the College cannot give up a half hour once a week to cheer its team on at a rally. Many seniors who were present remarked that last Friday night was the first time that both freshmen and upperclassmen had left a rally while the fire was still blazing high.

Fresh

The White football future was brightened Friday afternoon as the freshman football team trounced a weak Hebron club by a score of 58-0. Coaches Combs, Donham, and Gibbons should be given credit for the fine way they whipped the freshmen into shape for this clash. Under the direction of able quarterback Tommy Behan, the Cubs looked sharp on both offense and defense. Offensively, Alvino, Roberts, Field, Mone, Magee, and Barron all turned in fine performances, while the Hebron offense was stymied by defensive linemen Tolan, Hall, Cunningham, Speletis, Bucklin, and Fernald.

Incidentally, both the frosh soccer and cross country teams were in the spotlight this weekend as both clubs won their events. Past experience was the determining factor on the cross country as well as the soccer field. The White varieties should receive a depth of material from this outstanding freshman class.

Sailing

Bowdoin's sailing team again brought much credit upon itself as it took a second to Boston University in the finals of the NEISA Stoop Regatta held at Coast Guard. These boys give up many weekends on their own to represent Bowdoin in all sailing events. It is the hope of the Orient sports department that the student body recognizes their achievements.

Dick Balboni, number 21, drives toward the freshman line in the first quarter of last week's varsity-freshman soccer tilt. George Glover, left, comes up to aid Balboni, while freshman Thor Akerstrom, in the background, prepares to stop the charge.

Frosh Down Varsity Kickers

By Mickey Conklin

The freshman soccer team, behind the tutelage of Coach Dudas, and Paul Constantino, showed a lot of hustle and experience as they overcame the varsity 4-0 last Friday.

Dudas, a native of Hungary, led the frosh with three goals. His hustle and driving play earned him the title of honorary team captain for the Cubs. The other goal, scored by Constantino, came on a beautiful angle shot late in the game. Goalsie Steve Eller also played an outstanding game, as did the majority of the team, which is largely made up of players with soccer experience.

The varsity, after a slow start, came back to hold their own in the second half. Game captain John Evans, Ted Sandquist, and Bruce Beckmann led the White throughout the game. Although the varsity lacks experience, the team is beginning to round into shape and hopes to gain a few victories. Coach Ben Levine states that "after the team began to pass the ball, they definitely looked like a ball club."

The White varsity opens their schedule this Friday at Pickard Field with a match against Colby. The Polar Cubs travel to Hebron

By Neil Millman

The Polar Bears lost their third game of the young season, Saturday, at Whittier Field, to a strong and highly-rated Amherst team. Amherst, fresh from their trouncing of Union, 38-0, was expected to equal their former tally against the Bears, but the Polar Bears spirit prevented the onslaught with Amherst prevailing 34-0.

In the first quarter, Amherst elected to kick-off, but got possession of the ball after downs had followed for the Polar Bears. The visitors marched 77 yards in the series for the first scoring of the day, as John Delcorge scored from the three. Previously, a forward pass good for ten had brought the ball to the Bowdoin three. A completed pass to Shields accounted for the extra two points.

In the second quarter, Amherst marched 56 yards for their second TD. Again, Delcorge scored for the Bears. A completed pass before from Leach to Shields, covering 37 yards, set the stage for the score. Amherst missed the extra two on an attempted pass which fell incomplete in the end zone.

Hawkes intercepted an Amherst pass which started a Big Black threat. The Bears got as far as Amherst's 25 yard line as four passes by quarterback John Condon failed to hit their mark. Bowdoin looked promising in passing the first half, but their ground attack was far below par as they gained only 19 yards on the ground. The Bear line was hitting hard, but too high, to be effective against the Amherst back carriers.

At the start of the second half, Amherst kicked-off, with Bob Hawkes returning the ball 29 yards. The White eleven got as far as Amherst's 25 yard line when Amherst took over on downs. The left halfback Close then threw to Shields who gained 19 yards before he was stopped. Shields then scored to make it 22-0. The right halfback Fernald then kicked the right end for a brilliant gain of

VARSITY THINCLADS GATHER SECOND-SPOT IN TRIANGULAR MEET

The varsity cross-country team opened its campaign last week at the annual Golf Course with a three-way meet against a strong experienced Amherst team. The final score was Amherst 25, Bowdoin 42 and W.B.U. 73.

Individual honors were won by Amherst co-captains Joe Moran and Ted Green, who were closely followed by Bowdoin sophomore Lester "Squint" Moran. The winning time was 20:36 with a brisk wind to contend with.

Moran Finishes Strong
Moran ran an excellent race, going out fast with the closely

oumched Amherst pack; he must be given credit due to the fact that he has returned from a series of early season foot injuries. True Miller, team man in for the white, along with the leaders until the last mile when the wind began to tell on his 6'1", 135 pound frame. It was definitely a day for the more powerful runners. Captain McGovern fell too far back in the first part of the race to finish better than sixth. The rest of the Bowdoin team was too far spread out to be effective in the fourth and fifth men finished too far down the line.

The Summary:
Amherst: Morton and Green tied for first; J. Shoemaker 9th; 8th; T. Shoemaker 9th. Bowdoin: Moran 3rd; Miller 4th; McGovern 6th; Lester Moran 7th; W.P. Buske 7th; Skelton 20th. W.B.U.: Berthume 7th.

"Distance": 4.1 miles. Winning time 20 minutes 54 seconds.

McElroy, Bruce Appleby, Ted Sandquist, and Bob Smith, Freshmen team members, are: Thor Akerstrom, Terry Allen, Wayne Barnes, Paul Constantino, Larry Dudas, Steve Eller, Bob Freeman, Bill Greeley, Harold Heggendogen, Steve Hyland, Dave Klingman, Marc Merriman, Don Parker, Gavin Pilon, Steve Piper, Fred Rohlman, John Sack, Michael Sherman, Steve Jansson, and Norm Holden.

AMHERST WALLEPS WHITE

Lord Jeffs Run Wild Over Underdog Bears

24 yards down to the Bowdoin 19. On the next play, however, the Bowdoin line rubbed the passer loose for a nine yard loss. But on the next play, the deficit was erased as a pitch-out from Willis brought the ball back to the line of scrimmage. Walter then ran option through the left tackle spot down to the Bowdoin one. A minute later McLean scored. The conversion was no good as McLean tried to bull over from the three and failed. This made the score 28-0.

Amherst again took the offensive in the last period as they got as far as the Bowdoin thirteen when the Bears took over. Four plays and eight yards later, Amherst took over on downs on the Bowdoin 21. A goal-line stand by the White line was successful as Amherst was stopped cold on the three. Bowdoin took over again, but fumbled away all hope for a TD on the five. Gates of Amherst went as far as the two yard line when he was stopped on the next play through the right tackle position. Bowdoin's long scoring chance came when the Bears threw his big receiver who was in the open downfield.

Bowdoin's five first downs were accounted for by the passing of Condon and Enlin, who entered the game in the waning moments. The duo threw 36 passes, completing only 11. Condon passed for all eleven completions for a total of 144 yards. The starting line looked better than against all previous assignments as they threw several key blocks, though good for only short gains. Amherst displayed an excellent ground attack, but was not able to break through the Bowdoin line in the third and fourth quarters, as they completed eight for a total of 25 yards. The Bears looked as a whole extremely confident against such a top team as Amherst and faced better than was expected. But Amherst's all-around class and experience proved too much for the struggling White eleven, to handle.

The White "Admirals" skippered by Ron Dyer, capped a second place in a seven crew sailing regatta held last Sunday on the Thames River in New London, Conn. Actually, there was a four way tie for first place between Bowdoin, Dartmouth, Dartmouth, and Trinity. But because they are always resolved, either by counting up the number of points, or by comparing the individual performances as far as which team beat the other the most times, B.U. was awarded first place with two points to Bowdoin's one first place. Trinity was awarded third place and Dartmouth had to settle for fourth, even though they scored the same number of points as the other three crews.

The Bowdoin crew, which consisted of Ron Dyer, skipper, Carl Olson, skipper, and Bill Lundberg and Skel Williams, were unfamiliar with the large 24 foot Ravens as they had never sailed one as a crew, and hence were just coming into their own when the regatta was stopped with only five of the scheduled seven races completed. If the final two races had been run, the up and coming Bowdoin crew might have pulled away and topped the top spot. Ironically enough, Coast Guard, which drove the host, came in a poor sixth, seventeen points off the four leaders. Brown University took fifth place with 24 points, and the University of Rhode Is-

land came in last with twelve points. The final standings were as follows:

1. B.U. 30
2. Bowdoin 30
3. Trinity 30
4. Dartmouth 30
5. Brown 24
6. Coast Guard Academy 13
7. U.R.I. 12

This Sunday, the White seamen took on the Colby and Maine sailors in a triangular regatta on the New Meadows River. In contrast to the last meet, the boys were sailing the light "tech dinghies" in a gusty 35 m.p.h. wind. In the first race of the day in Class A, the Bowdoin crew of Dyer and Williams took the honors, with Maine coming in second, and Colby bringing up the rear. The second race of the day, Class B, provided these onlookers from the shore with the thrill of the afternoon. With the Bowdoin crew of Carl Olson and Charlie Wing well in the lead, the wind began to play games with the hapless sailors, with the result that they took an unexpected dip in the cool waters. No sooner had they fished our crew out of the water when the Maine crew, jealous of the refreshing dip enjoyed by the two Bowdoin members, joined the game and went swimming.

At this point, the judges called a quick meeting and, fearful of the increasing winds, closed the regatta. As of now, no date has been set for a rematch.

Frosh Harriers Take Seasonal Opener; Promising As Down Thornton, Cheverus

Our scorers, in the order that they came in, were Marc Youmans, Wendell Sides, Eldon Craig, Sid Wollacott and Phil Boulter. Cheverus' Tome Martin was the individual winner, with a time of 12:13, while Thornton's Jeff Griffith was the first score of the Froshmen team produced, see men who can run well under 14 minutes, they will be very stiff competition.

Although the Frosh did not take the first place consolation prize, they have five out of the first eight points. The ability of the team to stay together on the 2.4 mile course was a crucial factor in their victory.

Do you refuse to worry about things you can't do anything about?

Would you be completely at ease if you found yourself suddenly in the spotlight at a social gathering?

Would you vote for establishing an international language other than English?

Do you often dislike doing favors for others, even though you tell yourself you enjoy it?

Can you compete with another person without feeling hostile?

Do you ever say things you don't believe, just to start a discussion?

When you're very hungry, do you like to try out strange foods?

Do you enjoy being called upon as an umpire to settle disputes?

Now answer this one: Do you really think about the filter cigarette you choose? YES NO

If your answer is "Yes,"... well, you're the kind of person who thinks for himself. You can be depended on to use judgment in everything you do. The fact is, men and women who really think for themselves usually smoke VICEROY. Their reason? Best in the world. They know for a fact that only VICEROY—no other cigarette—has a thinking man's filter and a smoking man's taste.

MYHOM HAVE ANSWERED YES TO 6 OF THESE QUESTIONS. YOU ARE A PERSON WHO THINKS FOR HIMSELF!

Polar Bears To Meet Ephmen On Saturday

This Saturday the Polar Bears encounter a strong Williams team believed to be one of the best in the state. The Ephemen come to Brunswick on the crest of a high-scoring streak of wins which includes a 46-6 ramble over Colby and a 31-0 smash over previously unbeaten Middlebury.

A team which includes thirty-eight returning lettermen, the squad from Williamstown is picked to take the Little Three crown from Amherst. An assortment of sparkling runners and tacklers marks the team as a threat to any oncoming team. Fullback Bob

Cubs Smash Hebron In Runaway Opener

By Francis Mancini

One of the strongest Freshman squads in recent years stunned Hebron Academy, 58-0, at Pickard Field last Friday. The young Polar Bears exhibited a very strong defense. Center Dave Fernald and tackle John Tolan snarled in Hebron's offensive while the own six points. Roberts scooted around right end to give Bowdoin a 18-0 lead.

Hebron's only threat came when the troublemaker Schwartz intercepted a Polar Bear pass in the visitors' forty. Jim Fleming quickly ended this threat by recovering a fumble at midfield.

Second Half:
The Polar Cubs added a third score late in the third period. Left tackle Howie Hall broke through to intercept a pitchout on Hebron's forty. Fullback Alvino and running back Mone brought the ball to the ten yard line, where Behan punched over for the touchdown.

Mone took a pitchout around left end to make the score 24-0. Fullback Alvino's punt was deflected offside at the Hebron forty-five.

30 Points In Final Blows
In the fourth period, Coach Ed Combs chafes broke the game wide open with five touchdowns. On the third play of the final stanza, Jack Roberts slammed into the endzone from the three. Minutes later, Bill Luke slashed twenty yards through tackle for six points. Denter Mone galloped around left end to increase Bowdoin's lead to thirty-eight points. Fred Field made the best run of the game, breaking through the middle to score from midfield. Behan later threw a thirty yard scoring pass to Dave Barron. Field swept around right end for the fifty-second point. Quarterback Dexter Mone scored the final margin on a punce, after aggressive Pete Hebron had intercepted a pass on Hebron's twenty-five.

Field Scores
Once more the Black and White defense forced Hebron to punt. Halfback Fred Field was stopped on the Hebron forty-five after a thirty yard return. Flashy Jack Roberts, despite a severely sprained ankle, reared up the middle to the thirteen, but an offside penalty nullified the brilliant run. After a series of line plunges, Field took a pitchout ten yards around right end for the first score of the game. Tome Behan's aerial to Dave Barron added two points, as the period ended.

The Bowdoin Freshmen scored again early in the second period. After Fred Field intercepted a hook pass on Hebron's forty-two,

Fall Semester Arrives, Revealing Results Of Summer Work On Projects Long Underway; Gymnasium, Basketball Court rejuvenated

The physical features of a college are as important in establishing an impressive reputation as the quality of its instruction. During the summer, the Grounds and Buildings Department, under the direction of John Smith and Warren have given a face lifting to various sections and the campus as a whole. The newly constructed parking facilities represent the final step in the completion of the new wing.

Basketball Lights
The basketball players will have more than 100 new lights to use in the gym. Replacing the old incandescent lamps which yielded only 10 foot candles, there are now 100 foot candles which give 45 foot candles.

The new lighting system will be used during classes while the new system will be utilized during varsity games. In addition, there is an underground lighting system for illuminating the chapel spires at night.

Presently under order are combination lockers, mailboxes for the older dorms. Each dorm will have 32 boxes in one cabinet; thus each room will be allotted a specific box. Combination locks were substituted for the key boxes which proved rather unsatisfactory in Moore. These boxes will be installed before Christmas.

Also new to the campus this year is the special library located in the basement of Moore Hall. Additional storage space has also been provided for the Art Department in the basement of Adams Hall.

Man's obligation and his sense of duty, what man ought to do, what he feels is right, Anderson said that, the Bowdoin students have an obligation and duty to the world and to themselves to learn and gain as much as possible from our college.

Many people fight obligation because duty comes with it. Duty has been wrongly thought of as the result of doing wrong, but duty is the doing of good, the starting place for the strengthening of a man's inside. But duty should never be an end in itself. Religion, he went on to say, is the falling in with the best that is to be had—the glory, the goodness, and the mercy of God. First man must love God, then man will love his neighbor, and then to himself, he will be thought of, not as "What must I do?" but rather as "What may I do?"

Major Program . . .
(Continued from page 1)

Chemistry
Juniors beginning the major program in Chemistry will study chemical literature, methods of finding data, and approaches to chemical research. Juniors will also work on chemical research projects and historical material of importance to chemistry. The seniors will study chemical research projects and historical material of importance to chemistry. The seniors will study chemical research projects and historical material of importance to chemistry.

No real innovations have been made in the chemistry major program. Material that past programs have included will be presented in somewhat different order. Professor Kammiller, Chairman of the Department, said that he thought the Bowdoin major system was excellent. "I feel that it could be used to fuller advantage," he added.

Professor Munn, Chairman of the Department of Psychology, reported that the Psychology major program is centered around a book on the history of experimental psychology. It will deal with the philosophical and biological background of modern experimental psychology. An innovation in the program is the requirement that both Juniors and Seniors take hour examinations in January, covering the major work for the Fall semester. Juniors will also take such an exam in June, while Seniors, of course, will take their major examinations in May.

Professor Munn's chief comment on the system of majors was, "A lot of students do not take it seriously enough. They look upon it as merely an adjunct to their work, while it is really a major part of one's college program."

A Valuable Part
Professor Hammond, Chairman of the Department of Mathematics, called the major system a "valuable part of Bowdoin education." He said, however, that the student with the opportunity to round out his program with specialization in one field. The Mathematics major program offers a thorough coverage of the whole field. A man majoring in Physics engages in a similarly well-rounded program, with no particular stress upon a certain area of the subject. Hammond stated that he was Chairman of the Department.

Myer Original Fresser Scholar
Frederick G. Myer, Jr. of Beverly, Mass., has been selected as the first recipient of the Fresser Foundation Scholarship. He is a member of the Junior class.

Myer, a graduate of Beverly High School, is majoring in music at Bowdoin and is a member of Phi Psi fraternity. He entered college as the recipient of an Fresser Foundation Scholarship, has for three years been a member of the Phi Psi Club, and has also been active in the Music and Gown and the brass ensemble.

Theater Gives Educator Calls For End to Small Schools 30 Years Ago

James B. Conant, the former president of Harvard University, recently observed that the secondary school system in existence was the result of a series of "accidental" changes in its basic pattern. Speaking before a large group of educators at the University of Massachusetts, Conant urged that the secondary school be reorganized into a system of small schools.

Below we have reprinted a report from "The Amherst Student" whose correspondent attended the conference. Elimination of the small high schools, those with less than 100 students in the country would be the number one problem in some states. These schools are inadequate especially with respect to the "academically talented." With consolidation the number of high schools in the country would be cut from the present 23,000 to 8 or 9,000.

Group By Ability
In closing his remarks Conant made three final recommendations. The first was that students should be grouped according to ability, subject by subject, except for the second year social studies classes which should be heterogeneous because they can function well that way. The second was that all readers, ninth graders reading at the sixth grade level or below, should be instructed by special teachers and should follow an elective program for simple vocational work.

Finally, the top three or five percent of students, the "highly gifted" ones, deserve special attention. These students should be grouped together in small schools or in small classes within larger schools. Conant also criticized the building of selective academic high schools for the gifted in small cities with only two or three high schools.

Turning in the direction of the curriculum, Conant found that the curriculum of the secondary schools was too narrow and too rigid. He urged that the curriculum be broadened to include a wider range of subjects and that the curriculum be more flexible. He also urged that the curriculum be more practical and more relevant to the needs of the students.

Many people fight obligation because duty comes with it. Duty has been wrongly thought of as the result of doing wrong, but duty is the doing of good, the starting place for the strengthening of a man's inside. But duty should never be an end in itself. Religion, he went on to say, is the falling in with the best that is to be had—the glory, the goodness, and the mercy of God. First man must love God, then man will love his neighbor, and then to himself, he will be thought of, not as "What must I do?" but rather as "What may I do?"

Competition Announced For Civil Service, Danforth, Fulbright Scholarship Awards

Scheduled competitions for the Danforth Foundation, Fulbright Awards, and Civil Service Placement have been recently announced by the various controlling institutions. All scholarships are open to Bowdoin students possessing interest and qualifications.

The Danforth Foundation of St. Louis, Mo., invites applications for the 1959 class of Danforth Graduate Fellows from Bowdoin students who are presently preparing themselves for a career of college teaching, and are planning to enter graduate school in September, 1959, for their first year of graduate work.

President Coles has named Professor Benjamin as the liaison officer to nominate no more than three candidates for the fellowships. The size of the stipend is dependent upon the amount of financial need, and the maximum annual grant for single fellows is \$400 plus tuition and fees; for married fellows, \$1900 plus tuition and fees with an additional \$1000 for living expenses. Students without financial need are invited to apply. A Danforth Fellowship is awarded to every other scholarship appointments such as the Fulbright, although no stipend is awarded until other relationships are completed. All applications, including the recommendations, must be completed by November 1, 1958. Those wishing further information should contact Mr. Benjamin.

Fraternities Differ Says Author Wilson
Are college fraternities "stupid, harmful, and purposeless," as Sloan Wilson, author of "The Man in the Grey Flannel Suit," claims? Or are they, in the words of Dr. Milton Eisenhower, President of Johns Hopkins University, the only ones which the character of individuals may be fashioned? Stephen Birmingham, himself the author of a current novel, discusses the pros and cons of the question in the October issue of Holiday magazine.

Birmingham also notes the role of the National Inter-fraternity Conference, the "conscience" of American fraternities, as the organization which can "control" but not punish. "The greatest single truth," about college fraternities, writes Birmingham, "is that if you have seen one, you have not seen them all."

There were bands at the Delta A.D. Zeta and Beta House and various activities in all part of the campus. Several fraternities were also active in the local geographic area. THE BOWDOIN COLLEGE EXCELLENCE

Blanket Tax Appropriations Wait For Faculty Approval, Reserve Fund Subject To Cut

The Blanket Tax Committee has recommended appropriations for the 1958-59 school year for the various campus activities. These recommendations, which fulfill all organizational requests will be presented to the faculty for approval at its next meeting. The appropriations were decided upon by the Blanket Tax Committee, which was introduced by the Treasurer or Business Managers of each activity. Hearings were held on October 8th and 9th.

This year, for the first time in several years, requests for funds were fulfilled. This was possible due to the rather large reserve fund which was built up last year. The total appropriation for 1958-59 is \$13,864.77 while the income is only \$11,455.11. The deficit is made up from the reserve which the committee has voted to cut. This year the fund contains \$13,579.52 and the Blanket Tax Committee would like to see it at the end of the year.

Should any organization feel the need for extra funds during the year they may appeal for additional appropriations. If the request is judged valid the money will be taken from the reserve. The fund is also made use of in the case of extraordinary expenses such as the purchase of special equipment.

In this way a large expenditure can be absorbed over several years rather than all at once.

All Blanket Tax income is taken from the Student Activity Tax which is broken down into three separate groups: \$100,000; \$575, \$145.00; Blanket Tax. The Committee is planning a policy meeting in November. Any group or individual who has any question to ask may come to the meeting by contacting John Bird.

Blanket Tax income and recommended appropriations are listed below.

Niebuhr Book Topic Of Talk By Geoghegan

Speaking over WCHS in Portland last Sunday morning, President William D. Geoghegan, interviewed Reinhold Niebuhr's latest book, *The Self and the Dramas of History*, and characterized it as a "complex and interesting" work.

Geoghegan said that Niebuhr's book is a "complex and interesting" work, and that it is a "complex and interesting" work.

Geoghegan said that Niebuhr's book is a "complex and interesting" work, and that it is a "complex and interesting" work.

Council Tables Most Of Agenda In Long Session

A reflective mood was exhibited at Monday's Student Council meeting. The Council, which normally manages an effective and efficient resolution of its agenda, held an unusually long session, lasting from 8:00 a.m. to 1:00 p.m.

The Council did make one definite decision on a motion to the effect that assigned seats in Pickard Theatre be arranged on James Bowdoin Day to accommodate the freshmen delegation from their fraternity. The purpose of this motion was to provide an easy method for determining whether or not the freshmen delegation should be seated for the ceremonies. The Council voted against the motion for the reason that they would not have been enough time in which to make the necessary arrangements.

Wilson Born, Chairman, and David Lovell, Secretary, of the Student Curriculum Committee were present at the meeting. The purpose of the meeting was to discuss the proposed study of freshmen orientation.

Sen. Smith Defends Politics As Profession With Honor In Chapel Talk Last Monday

"I'm sure that most of you have often heard people denounce politics as a disreputable racket, and politicians as dishonorable persons to be shunned," the Honorable Margaret Chase Smith said in her Chapel address Monday. The senior Senator from the state of Maine continued, "You've heard other people who are a little more charitable say, holding public office isn't worth the headaches, the sneers and the personal attacks."

Senator Smith spoke of her personal experience with smear campaigns during the 1948 election. She said that she had been accused of being pro-Communism, and that she had been accused of being a traitor. She said that she had been accused of being a traitor, and that she had been accused of being a traitor.

Justice Williamson Exalts Law: Ray Babineau Explores Failure

Raymond Babineau '59, delivered the student response at James Bowdoin Day exercises today. His talk was entitled "The necessity of Law."

Although it is dangerous to generalize about an address which warned of the dangers of generalization, Babineau's thesis was that the undergraduate college has an obligation to graduate failures — a very special sort. These men must have failed in an area where success was anticipated as their motivation for coming to college. These men must fail to find answers — at least simple answers — to the complex problems which are the paragon of virtue. It is not enough for us to proclaim with piety and indignant self-righteousness that we are the paragon of virtue. We must have the proof by our actions, for our words will always be discounted to some degree as merely self-serving declarations."

Below are portions of the text: "The Rule of Law comes from the past, and is a living force for today and tomorrow. Without the Rule of Law, we are in a state of chaos. We must have the Rule of Law, and we must have the Rule of Law."

Coxe Examines 'Sacred Cows' Of Civilization

Professor Louis O. Coxe was the featured speaker at the luncheon, tendered James Bowdoin Scholars today. Mr. Coxe titled his talk "A Treatise on the Sacred Cows of Civilization."

Professor Coxe examined the "sacred cows" of civilization, which he defined as those things which are so deeply ingrained in our minds that we are unwilling to question them. He said that these "sacred cows" are the things which we hold dear, and which we are unwilling to question. He said that these "sacred cows" are the things which we hold dear, and which we are unwilling to question.

Miller Wins Philmont Trophy Williams Given Bowdoin Cup

"What do we mean by The Rule of Law? We mean, I think, a state where the individual is a free man with his rights protected fairly by courts devoted to justice and independent of the power of the sovereign," Justice Williamson noted in his address on The Rule of Law. For the student response, Raymond Babineau formulated the thesis that the undergraduate college has an obligation to graduate failures; in the ceremony, fifty undergraduates were honored at the eighteenth annual convocation in honor of the College's earliest and generous patron.

Me. Politicians Dispute Over State Election

Amidst the hubbub of campaign oratory, prepared statements, and shrill cries of "Breach of Faith," the rare occasion when the average layman gets an opportunity to witness the inner workings of the political hierarchy, the Maine State Election Commission has been called into session.

Critic Anastos Finds Bream's Concert Displayed 'Superb Skill' With 'Powerful Interpretive Sense' In Appealing Program

By Peter Anastos
Julian Bream, British luteist and guitarist, opened the 1958-59 season at the Pickard Theatre on Wednesday evening, October 15. He played to a full house; one of the largest gatherings at such an event in several years.

In Mr. Bream one finds a happy combination of superb technical ability and a powerful interpretive sense. Not only does he know his instruments, but he knows the music. He knows the music, and he knows the music.

Undergraduate Response

The undergraduate response at the convention was delivered by Raymond Babineau '59, who called his address "The Necessity for Failure."

Lunch

A luncheon for the James Bowdoin Scholars and invited guests was held in the Moulton Union.

Professor Louis O. Coze of the Department of English was the guest speaker.

The James Bowdoin Scholars were established in 1941 to honor recognition to those undergraduates who distinguish themselves by excellence in scholarship.

They carry no stipend, and are awarded to undergraduates in recognition of high average in college to date (\$800).

This year, 22 are seniors, 18 juniors and 18 sophomores. They represent eleven states.

James Bowdoin Scholars

Reid Simpson Appleby, Jr. '59; Morris Malcolm Ainslie, Jr. '59; George Raymond Babineau '59; Donald Martin Bloch '60; Richard Gordon Briggs '59; Stephen H. Burns '60; James Gilbert Carnahan '59; James Joseph Carney '59; Alfred Chase '60; Douglas Everett Crabtree '60; Guy-Michael Benedict Davis '59; Richard D. Deily '59; Henry Louis Epstein '59; Steven Harvey Frazer '59; Edward Ivan Garick '59; Edwin Clifford Hamilton '59; Robert Milne Hemenway '60; Robert Hertz '60; Peter Holbrook Hickory '59; Edward Michael Kaplan '59; Robert William Kaschub, Jr. '59; Robert Earle Knowlton '60; Bruce Douglas McCombe '60; Robert Kent McNeill '61; Howard Robert Mitchell '59; Reginald William Mitchell '58; John Sylvester Moore '61; Richard Morgan '59; Bruce David Nelson '59; Carl Alfred Olson '60; William Stanton Page '60; Pierre Ludolph Paradis '60; Carleton Everett Perrin '60; Theodore Anthony '59; Robert William Ruland '59; Alfred Emil Schretter '59; Herman Benjamin Segal '61; Sidney Albert Slobodkin '59; Richard Goodenough Staples '60; Jon Tewksbury Staples '61; Brendan James Teeling '59; Philip Stearns '59; Joseph Joseph Vachol '59; Saulius Vasydas '60; Christian Joseph Vester '59; George Arthur White '59; John Skeel William '59; Charles Goddard Willing '61; Robert Tow Yee '59.

Interfraternities

(Continued from page 1)

Gray, Slavet, Sherman, Rish, Levitt, and Friedman; Pollett, Gordon, Hertz, and Gold.

Theta Delta Chi 6 - Players: Trump, Beggs, Sloan, Smith, Albin, Martindale; Love, Craig, Corbin.

Heat Wednesday afternoon Rishman and Friedman shared the honors in A.R.U.'s win over the T.D.'s, scoring touchdowns. The A.D.'s countered with a score by Slavet, but weren't able to muster another one as the final score ended 14-0.

Delta Phi 34 - Players: Macdonald, Prior, Lamarche, Gaudin, Vette, Woods; Keefe, McIntosh, and Sawyer.

Delta Kappa Epsilon 13 - Players: Drowne, Heselt, Thresher, Bunker, Medvedy, Mason, and Smith.

This fast moving, high scoring game saw the A.D.'s run over the T.D.'s 34-12. For the A.D.'s, Lamarche and Woods each scored two touchdowns. Prior added another, and the extra points were good on all but one TD. For the T.D.'s, Drowne scored both touchdowns.

October 18

Sigma Nu 33 - Players: Hall, Gaudin, Gorra, Beckwith, Clifford, Papazoglu; Rook, Taylor, Blair.

Kappa Sigma 9 - Players: Rosenthal, Powers, Gili, Turner, Willy, Roach, and Rosenfeld.

Sigma Nu strategy prevailed in their win over Kappa Sig last Thursday. Their two-planet system worked out well, and enabled them to take a 33-0 win in the game. Leading the scorers for the Sigma Nu was Papazoglu with two T.D.'s, Hall, Gorra, and Beckwith each added one, and all but two extra points were good.

October 19

Alpha Tau Omega 8 - Players: Chandler, Tams, Briggs, Chishman, White, and Mylander.

Delta Sig was the winner last Thursday's game, 19-3. This score, however, is quite deceptive as they won it by scoring in the last period. A.T.O.'s only touchdown came about on a pass from Chandler to Tams. Two more points were added on a touchback.

October 20

Alpha Tau Omega 8 - Players: Chandler, Tams, Briggs, Chishman, White, and Mylander.

Delta Sig was the winner last Thursday's game, 19-3. This score, however, is quite deceptive as they won it by scoring in the last period. A.T.O.'s only touchdown came about on a pass from Chandler to Tams. Two more points were added on a touchback.

Babineau Response

(Continued from page 1)

Professor Minot as furnishing one of the best illustrations for this tendency toward intellectualism. Minot had attributed a dislike on the part of freshmen for "The Education of Henry Adams" as an evidence that there is a feeling of malaise when we read a book which raises more problems than it solves, and sketches simple answers.

The freshman for upperclassman, or alumnus, prefers often an escape to something like the western movies. Here a dilemma can be reduced to black and white terms. Values of good and evil are clear cut and justice always triumphs. There is always a success in terms of a simple set of values being justified. It is a comforting experience to read the "Antigone" of Sophocles and discover that evil and chaos can spring at times from a conflict between two forces of good.

It is this failure then to be content with simple answers which is the cause of the malaise. There must be the willingness to tackle complex problems. But the outcome of the malaise is not easily reducing the problem, but rather a healthy respect for its complexity, and a concomitant mistrust of "clear-cut" answers to it.

Geoghegan Talk

(Continued from page 1)

front of vigorous critics of Communism as a false religion which have abandoned the traditional conception of God, manufactured the idea of a false deity, and in perfect perfection in history, the heaven of a classless society upon earth."

"Against the West and the Communist stands the third position of Biblical faith represented by Judaism, while the Christian faith, that man's basic problem is not the overcoming of his fortitude, but the forgiveness of his sin, his pretension of claiming too much for himself.

The third part of the book, Mr. Geoghegan pointed out, makes practical application of the foregoing discussion. "In a dynamic and an expanding society, the Christian faith with a transcendent point of reference in God the Creator is a bulwark against idolatry, especially Communist fanaticism.

Two closely-related points were used to summarize the book. "First: since the universe is a fact (our virtues can betray us more than our vices) we must not think of ourselves more highly than we ought to think. We are men, not gods. Second: on the other hand, and at the same time while we are not gods, we are men; and as men we are free. Because we are free we are open to the truth given in secret about ourselves; we can be genuinely open to other men; we can be open to the mystery of divine grace which will sustain our fragmentary lives."

Williamson Speech

(Continued from page 1)

each originating in litigation was carried to this country."

"A third and ever increasing number of laws is found in legislation. Action in the future is governed by statutes enacted by the representatives of the people. The statute affects all. The lawsuit for its part directly acts only upon the litigants. The value of the law as a precedent in strengthening or altering the accepted law remains in the future. Our statute in Maine grows by hundreds of pages, it seems, in each revision. All legislatures and the Congress pour forth a voluminous stream of new laws. Paradoxically the more freedom we possess as individuals, the more we need the will of the people enacted into law to control us in our living with one another. The importance of the Congress and of the Legislature, I believe, will increase in the future, and the content of our law will grow relatively less. Insofar as the making of new law is concerned, I suggest the statutes are more fertile soil than the common law. New statutes create a new legal interpretation, and their fair meaning must be determined. It is the Courts that are going on at all times. There we seek the intention and enforce the intention of the law. The common law is the long leap over the stream into the future. The common law is not equity as well — searches along the bank to find a bridge over the stream, or at the least a raft to carry us across."

"The new day, I turn from the common law with its slow process of change, to the new day with its methods and techniques of change through analogy with de-"

velopments. The common law builds not on theory, but on practice. It is no code brought down from the gods, but a body of law which is the result of the settlement of their controversies in courts of justice. I said little about equity. I say no more of legislation which creates new law to be ground in the judicial system. The fourth source of law is in the written constitutions, state and federal. Here we find in broad strokes not only the form of government with the separation of powers, but of more immediate interest to us, the declaration of the rights of the individual. The state and federal constitutions are much alike. For the most part, they are the same, and are faced with the need to in-"

terpret the language of the constitution, to use the language of Mr. Justice Brandeis, must give its interpretation to the Supreme Court of the United States. To a lesser extent the state courts pass on constitutional issues arising from both the state and the federal constitutions. Only a small fraction of issues, however, in the state courts involve the constitutional questions in contrast to the Court in Washington. There are then four main sources from which emerge the Rule of Law: the common law, equity, legislation, and the constitution. What do we mean by The Rule of Law?

We mean, I think, a state where the individual is a free man with his rights protected fairly by courts devoted to justice and independence of the power of the sovereign; a state in which the laws of law apply with equal vigor to all men; a state in which the greatest and the least has reason to respect the law and its application."

"However we may define the Rule of Law, there are, I submit, certain necessary conditions. First, the Rules of Law must be equally applied — and applied with reason. To the Rule of Law, we call it. Second, there must be freedom for the individual consistent of course with the freedom of one's fellows. There are moments in history that illustrate with clarity the force and need of the Rule of Law. We are the beneficiaries of the action taken. We accept it and make use of it, as though we had won that for which others fought. Each of us has his own perspective of the law that appeal to him. Your list may be quite different from mine, and mine may change with tomorrow."

"The Supreme Court is the arbiter of our constitutional law. It is essential and right that this should be so. Nothing could do more harm to the unity and strength of our nation, in my opinion, than to withdraw power from the Court. The authority of the highest court in the land must not be impaired in the slightest degree. The principles underlying the supremacy of the law in the field of the constitution are at work in all other areas of the law. There must be law. There must be courts to interpret and declare the law, and to decide the issues. There must be obedience to the Law. The Supreme Court of Law, in my view, rests ultimately on the respect of the people for Law. This in turn is based in part at least upon the recognition that today's civilization with its increasing complexity for each of us, which creates with the hard won liberties marking the dignity of the free man, requires a written constitution and justice that come through law."

"The men of Bowdoin, and the men and women in the colleges throughout the land — have a responsibility, it seems to me, to understand the meaning of law and the need to sustain the Supremacy of Law. The opportunity is given you to explore the wisdom of the past, to adventure on the 'frontiers of knowledge.' You are only a tentative indication of achievement preliminary investigation shows that low grades are comparatively few."

Preliminary investigation reveals that only three freshmen have over two failing grades; approximately ten men have warning grades. Fewer men than usual, it is felt, are starting with academic difficulties, but according to the mean a careful analysis will be made of this class' grades in order to determine whether the impression that this is a better freshman class than in previous years is justified."

She closed on the thought, "It is admirable to be a statesman; it is gratifying to be called one, but the people deserve to have a right to be thought of currently as the politician thinks of me. I am proud to be a politician."

NEWS FROM OTHER COLLEGES

University of Maine. Last Friday nearly 600 persons formed a procession into the Alumni Memorial Gymnasium of the University of Maine to witness the installation of Dr. Lloyd Hartman Elliott as the ninth president of the State University.

Dr. Elliott replaced Dr. Arthur Hawk who served as president of the University of Maine for nearly 30 years. Representatives of about 100 colleges and universities from sections of the nation, including twenty college and university presidents were members of the academic procession. Others in the long line of marchers were sixty representatives of academic and professional societies and other organizations, a dozen or more distinguished guests, 95 students representing campus organizations, and 300 University of Maine faculty members.

Among the honored guests present for the ceremony were two of the past presidents of the University of Maine, Harold Sherburne Boardman and Clarence C. Little.

Dean Emeritus James N. Hart, 97 years old, served as honorary marshal. He was escorted by Dr. J. W. McNeary and several aides. Dr. Raymond H. Folger from Hastings-on-Hudson, N. Y., president of the Board of trustees presided at the ceremony. The installation was officiated by Rev. Frederick Harold Thompson, minister of the Woodlands Congregational Church in Portland, class of 1928.

Dr. Fogler, class of 1915 installed Dr. Elliott as the ninth president of the University and presented him to the audience.

Fraternity Expulsion. The National Phi Delta Theta fraternity revoked the charter of the Swarthmore chapter at its annual convention in Asheville, North Carolina. Last spring the chapter threatened to withdraw from the national if the race clause was not deleted at the next convention. The national field secretary, with authority promptly suspended them, and the chapter charter was unanimously revoked at the convention. This time the Swarthmore chapter has been fighting for deletion of the clause which excludes the membership of Orientals or Negroes for 18 years.

Wesleyan University's chapter of the Chi Rho fraternity was suspended from the national fraternity for modification of the national fraternity ritual. According to the president of the social club formed after the expulsion, "a strict interpretation of our constitution is against diversity of membership. Such discrimination is, we feel, in opposition to our ideals and also to those of Wesleyan University."

Princeton ROTC. Princeton University's Department of Military Science has completely revised its program for Army ROTC students so that all but three one-term courses are now given by the regular academic department of the University.

The new sequence of ROTC courses is designed to provide a solid grounding not only for the immediate military affairs throughout life but for a clear and challenging prospect of how his training and service as an officer are related to the whole effort of the United States to maintain peace through strength. "This, it is believed, is a proper function within a liberal university," said Dr. J. Douglas Brown, Dean of the Princeton Faculty.

In place of previously required courses in Military Science, freshmen ROTC students will take a two-term course in "Introductory Physics" with special attention to material on mechanics, ballistics, fluid dynamics, optics and nuclear physics.

Sophomores will study "Psychological Aspects of Group Organization and Operations" during the first term and "A History of Military Affairs in Western So-

ciety Since the 18th Century" during the second term. In the final term of the senior year, students have a choice of two courses, "The Economics of National Security" or "Military Strategy and National Security Policy."

Preparation for immediate military service is assured in the program through the afternoon laboratory period, the military courses given by the department in the junior year and the first term of the senior year, and the six-week summer camp training period provided at the end of the junior year.

Lafayette Radio. The Student Council refused to appropriate funds for the college radio station at Lafayette. A study of the conditions proved that the station could be better adapted to the needs and desires of the student body and funds are being withheld pending a re-examination of the staff.

In the following open letter to the students of the University of Virginia, Dean of the College William L. Duren emphasized that the station should be kept open and towards a condition of voluntary attendance rather than compulsory attendance. He is trying to work out a solution of the attendance problem.

In order to be honest, I have to say that the above remarks by the students of the University of Virginia are long enough to say the least. The individual self-interest in extending their attendance has begun to add up to a serious interference with University work.

Therefore, we decided that the only way to do was to be hard-boiled and rigid about it. We are going to keep on doing this until at least anybody who is going to blame me for this, we have granted him for reasons of common sense and good working or for genuine personal hardship, not flat tires or running out of gas.

W. Va. Cuts. I also want to reemphasize that so far as I am concerned, we have no "cut system." I can think of nothing more futile than a system of cutting students out of school for no reason. We look at total absences, and we don't care how many students are in the spirit of the Honor System, though all the students made with reference to illness do not come under the jurisdiction of the Honor System itself. But you should permit to all concerned to be sure of being too sick to come to class without considering it an affront to your honor.

When a man says: "I'll get that paper in tomorrow, professor," then a week later only the professor points out that he did not do it, there is no feeling on either side that the professor's statement implies an accusation of lying. The excuses we make for our past behavior are not very similar.

When a man says: "I was sick on October 23 from 10:00 to 11:27 a.m.," he is telling the truth. He thinks he was sick, and he is not lying.

But, nevertheless, you and I know it isn't necessarily so. This being sick is not an all or none effect. It is a matter of judgment whether he was too sick to take the quiz, and under the circumstances his judgment might be questioned without questioning his honor.

Human nature being what it is, we will be wiser if we keep our honor as gentlemen and our Honor System out of this.

Chem. Leader Plays Role In Examination

Professor Samuel E. Kammerling, Chairman of the Department of Chemistry, participated in the preparation of the recently published American Chemical Society examination in organic chemistry, used in over 1,600 schools and colleges in the United States and foreign countries.

Dr. Kammerling, who has taught here since 1934, is now Charles Weston Pickard Professor of Chemistry. He is a native of Paterson, N. J., and was graduated from New York University in 1926. The following year he received a master's degree from New York U. and in 1932 was granted a doctor of philosophy degree by Princeton University.

From 1930 until 1932 he was research assistant at Harvard University and spent the next two years doing research with the Rockefeller Institute for Medical Research in New York. He is past chairman of the Maine Section of the American Chemical Society and a Fellow of the American Association for the Advancement of Science.

A member of Phi Beta Kappa and Phi Kappa Tau fraternities, Dr. Kammerling is a consultant to the chemical section for the Maine Civil Defense organization.

Carelessness Deplored By Post Office

The United States Post Office of Brunswick, Maine has urged the college students to keep the dormitory mail boxes locked and in proper order. A letter was sent to President Coles from which the following quotation is taken:

"Recently an Inspector notified me of 20 boxes unlocked in Moore Hall. Quite obviously the cause of this condition is negligence. The Postal Manual regulations covering these boxes provide in part as follows: 'Failure to keep boxes locked or in proper repair as directed by Postmasters is sufficient justification for withholding delivery of the mail and requiring occupants of the apartments to call for their mail at the Post Office. If this action is believed advisable for safety reasons.' This office does consider the system advisable and delivery will not be required."

"This office is providing good service at a college and making many more delivery stops than are made at other colleges according to the Inspector. We get from the Inspection Service the cooperation of all concerned and therefore there may be no unnecessary interruption in the service."

NOTICE. QUILT DEADLINE. Friday, October 31 is the deadline for manuscripts to be submitted to the Quilt, the College literary publication. In the past the magazine has published short stories, poetry, essays and short plays. All work may be turned into the desk in the College Library downstairs in Moulton Union, or to the editors: Pete Amatas, Dave Krupke, Floyd Harbour, or Tom Lindsay.

Don't be left here during the holiday. Make your reservations early.

Bickerstaff Returns From Illness To Express Candid Comments On Fall College Calendar

By Isaac Bickerstaff

The Orient, taking advantage of advance information gleaned through its own official channels, seized the opportunity to serve your every need. This week, having recently obtained the college calendar for 1958-1959, is released in the new College Bulletin, we give you current comments, professional proposals and just plain unnecessary advice concerning the various events to come. We clutter up the mind, our desks and wastebaskets and the occasional reader's time with facts.

November 4: An outlier for the pent up argumentative streaks of a select minority has been brought fully provided by factions of the student body. On Tuesday evening a gathering of intelligence will discuss, contend, haggle and otherwise follow up an age old formula of problem-solving in the timeless manner of their predecessors. In short: debating. Finals in the Achorn Prize debate will hold forth in a verbal squabble to decide whether or not the further development of nuclear weapons should be prohibited by international agreement. Just what weight the decision of the students debating will carry with the minds entrusted with the ultimate decision - destruction or efficiency - is a risky speculation better put off until a week from some Tuesday.

November 11, Tuesday: In an attempt to keep the ever rising surge of intellectual curiosity satisfied and to spur the sluggish, stagnant element to frenetic heights of last-minute learning there will be - intense gatherings upon selected topics - "Evening Major Meetings."

November 26, Wednesday: In order to let all the nuptial daisies and otherwise follow up the older professors time to unwind and catch up on "weekending," themselves, and to make the undergraduate body ever-mindful of the advantages of continuous sessions and appreciative of the offer of "free college," Bowdoin will disband for the Thanksgiving recess.

December 1, Monday: In response to popular demand and various parental appeals this date will mark the termination of frivolous behavior and irresponsible action. In place of these diversions additional entertainment. The Class of 1968 Prize Speaking has been postponed to Friday at 8 evening. Freshmen and Members of the Class of 1968 are required to be in attendance.

December 8, Saturday: Again stressing the emphasis upon oratorical superiority and debatable proficiency, the powers that have been able to arrange The Bowdoin Interscholastic Debate Tournament.

December 9, Tuesday: And it is further written in the bylaws, annual and college calendars, that the major courses shall consist of at least four seminars or conferences in each of the last four Semesters, and shall include...

December 17, Wednesday: Those that want to can return, while those that don't may feel free to consult the Bureau upon delayed arrival. Those undecided may consult their advisors. Prof. Thayer of the fast-track department, or in a pinch their consciences.

January 19, January 31, Monday-Saturday: Leisure provided in which to tear up irrelevant material and to question the validity of among stacks of facts, and speculate upon possible subsequent questioning periods. Those in the know will seclude themselves from the mob, and bury their recurrent forms in slumber preparatory to the coming ordeal.

January 31, Saturday: Governmental Boards to convene, confer and confound.

B.F. NOTICE. At 8 o'clock tonight in the small lounge of the Union the Interfaith Forum will sponsor a discussion led by Victor Ford, Rev. Ford, the Assistant Minister at the First Parish Church, has chosen as his topic "Conflicting Views on the Nature of Man" and will include a report on the implications of the "Horror Movies" as it falls within the scope of his subject. Also on the program is a lecture by Swami Akhandana of the Ramakrishna Society of Boston.

NOTICE. Members of the Gov 13 course will participate in a forum designed to analyze a dozen major political campaigns in the Moulton Union Lounge this Friday at 8 p.m. The Forum is entitled "Political Outlook - '58" and will be broadcast over WBOB.

Guaranty Fund Allows Student To Pay Later

"Go Now - Pay Later" is the advice given more and more college students, according to a study published today by The College Life Insurance Company of America. The study concerned itself with student guaranty funds recently created in Massachusetts, Maine, and New York, and concluded that the establishment of private and governmental funds to guarantee long-term, low-cost, unsecured bank loans to college students is a new and revolutionary development.

The Massachusetts Higher Education Assistance Corporation, which did not begin operations until March 1957, now guarantees more than \$1,463,000 in loans to 3,385 students. The maximum loan in any one year is \$500 and the maximum total \$1,500. The New York plan, which did not begin operations until the current school year, by October 9 already has guaranteed 2,311 loans for \$1,700,000. It permits up to \$1,000 in annual loans and up to \$5,000 in total loans for any one student.

Loans in both states are made directly by participating banks. Loan repayments under the three plans typically begin rather soon after graduation and may be spread over a three-to-six-year period. Interest rates range from 4 1/2% to 5 1/2%. Special legislation enacted in these states gives minors full legal capacity to act in their own behalf and to be bound by their debt.

Commenting on the study, John Burkhardt, president of College Life, stated that borrowing for the Colby Zetes, was that the chief means by which this college was a red-headed, eye-goggled Bowdoin folk, such as a sticker had been displayed on the window of the get-away car, in the spirit of fair play. A group of Colby Zetes, as a result, politely called on the

senior of exclusive reliance on scholarships and as proving correspondingly larger sums for payment of faculty salaries and improvement of educational service.

A CAMPUS-TO-CAREER CASE HISTORY. "I have 43,000 reasons why I'm sold on my job"

Emil R. San Soucie got his A.B. degree from Harvard in 1954. He joined the Bell Telephone Company of Pennsylvania in early 1955. Today, three short years later, he's in charge of 35 employees in a West Philadelphia business office serving 43,000 customers.

"It's an interesting job," says Emil. "I guess that's because people are interesting. Every day, I talk with customers - and no two are alike. They all have different problems and service needs. That makes every working day different and stimulating for me."

"There's also a great sales opportunity. Homes and businesses need the convenience and efficiency that up-to-date telephone facilities offer. It's a

Betas Triumph

(Continued from page 1) and asked, "Can I help you?" Seemingly to be on the higher side, his response was no, but that the 17 members of the Beta Zetes (on the fire escape?). Dealing always to assist fellow college students, this beneficent Zetes showed them to the parlor where the friend would most probably be. Not wanting to desert the assistant, who had so kindly escorted them downstairs, as to the imaginary idea of the "friend," this unique pair made a wild dash to their waiting automobile in front of the house. One was nearly caught, but twisted away and the escape was made good, except for the fact that the two who were waiting outside were still waiting, as their comrades sped around the corner as the Zetes, having been tried in vain to hold on. The escaping pair ran into a few Stones, but soon outdistanced all pursuers. The get-away car, a '51 Nash, made a near record run to Augusta, where the flag was safely stashed at the group's hideout. Here the escaping couple received an S.O.S. message from the stranded ones, who called from the renowned "Window Diner." "Pick us up!" There followed a quick trip to the eating establishment and a return to the whispering pines of Alna Meter deer. Thus ended one half of this exciting adventure.

The only clue as to the identity of the Beta heroes, sarcastically referred to as culprits by the Colby Zetes, was that the chief means by which this college was a red-headed, eye-goggled Bowdoin folk, such as a sticker had been displayed on the window of the get-away car, in the spirit of fair play. A group of Colby Zetes, as a result, politely called on the

senior of exclusive reliance on scholarships and as proving correspondingly larger sums for payment of faculty salaries and improvement of educational service.

BOBSECOD, HALF-SIZE, BATES FAVOR REBATES 4-G REGISTRATION, COACHES TRINITY, YEARS OF COACH WAIVE GATE, ALUMNI, TO HIGHLIGHT WEEKEND

Alumni Dance, Meddies, Snow To Add Flavor

As in the past the traditional Homecoming game with Maine will be the high point of the weekend. Last week Bowdoin tied Bates and Maine was upset by Colby; so this week's game looks to be even more of a toss up. The two men to watch during the contest are Bowdoin's fullback, Gene Waters, and Maine's quarterback, Bob Dickett, both have proved invaluable during this year's season.

Besides the game, there are many other features which will make this weekend as successful as the homecomings of the past.

Reports indicate an increase in alumni participation and many are expected to turn out for the pre-inflation celebration, initiation ceremonies, and the festivities that have traditionally marked every alumni weekend. A particular attempt is being made this year on the part of several houses to have recent graduates return for the occasion.

Of particular interest to the undergraduate body is a recent decrease from Maine Hall that has nothing to do with tolerance, discrimination, or the conservative tradition. Rather it is the new and radical movement to abolish classes for the Saturday of Homecoming, a practice which, needless to say, will become an unquestioned portion of the long established tradition of the college.

Predominant features of the weekend will be the game against the University of Maine, the presentation of the 1956 Polar Ice Capades in the arena, and the Alumni Dance in the Gymnasium. In addition there will be the inter-fraternity display which has been the highlight of the campus debut of the college Meddiebampers and the various fraternal celebrations, the culmination of twelve months of preparation, and anticipation.

The official event of the weekend will be the selection of the winners in the fraternity contest. The Student Union Committee will be Messrs. William D. George, Samuel E. Goss, and Peter H. Batcher. In the past this annual event has been the highlight of the weekend on the part of the fraternities. The trophy last year was awarded to Zeta Zeta.

The Maine game will be the occasion of the first deep snow of the season and a snow storm is blowing into our state. Offsetting the cold will be the high spirit engendered by last week's 14-14 tie with Bates.

The Skating Club of Boston will again present their program of the Polar Ice Capades in the rink at 7:30 on Saturday evening. New stars have been added to the show to make it the finest presentation to date in the rink at Bowdoin. The Olympic and world champion skater will be joined by a cast of twenty-five of the finest in the business. The Master of Ceremonies will be a Bowdoin graduate, Carl De Suse, Class of '38, who is currently a disk jockey on radio station WBZ in Boston.

The Alumni Day Dance, under (Continued on page 3)

Skating Stars Present Arena Entertainment

Maribel Owen and Dudley Richards, the first pair to achieve the United States Figure Skating Association Gold Medal, Eastern Senior Pair champions, will join Olympic champion Hayes Alan Jenkins and other stand-out skaters in the 1956 Polar Ice Capades at the Bowdoin College rink on Saturday, Nov. 8, at 7:30 p.m. Dan MacFadyen, Director of the Arena, reported today.

Twenty-five figure skaters will appear in the ice show. Montgomery Wilson, Director of the Ice Rink of 1956, will be both director and producer, and Carl De Suse, Boston radio and T.V. personality, will be master of ceremonies.

The first part of Saturday's program will be "The Greatest Show on Earth." It will include many acts, among them the make-chinners, the wild man, clown, the two-headed girl, the headless man, the bearded lady, and many more. The show will be performed by Judy Lamar and Ronald Ludington, 1956 Skating Champions. Maribel Owen and Dudley Richards will appear in "A Sparkling Pair."

Olympic Champions Jenkins, 1956 Olympic champion at four times world champion, will make two individual appearances, as will Bradley Lord, a member of the 1956 World Team and National Junior Men's champion.

Devotion, Value Of Association Cited By Coach

Adam Walsh, Coach of Football here since 1935, has resigned the position. The resignation will be effective at the end of the calendar year.

In his letter of resignation, dated October 28, Walsh wrote to President Colby:

"Many of the best years of my life have been devoted to Bowdoin College. The welfare of the College, as well as the welfare of the fine young men it has been my privilege to have entrusted with, I have always tried to place above self benefit. This fine and friendly association with Bowdoin College has been and will continue to be, of great value to me as well as my family. For this we are indeed grateful."

"On numerous occasions I have publicly stated, in all sincerity, that I would voluntarily and gladly resign from my position when I thought it would be of benefit to Bowdoin. Deep down in my heart, President Colby, I feel that time has now arrived, and I am glad to make at your earliest convenience."

President Colby in his reply, dated October 30, wrote as follows:

"Only with regret and out of respect for your position can I accept your resignation as Coach of Football. From the time you joined the Bowdoin staff in 1935 your abilities and energies have been devoted to the interests of the College and its students. You have also ably and appropriately represented Bowdoin on many occasions and in many ways. You have accomplished all this in many respects, and have steadfastly given the welfare and the improvement of the students your own personal attention. You have been a constant presence in the life of the college, and your efforts have always been for the good of the sport."

"Beyond this, you have accepted a many responsibilities as a citizen of Brunswick and the State of Maine. You have made a place for yourself among us in Brunswick and in Maine, and your legions of warm friends attest to this."

Expectations Of Bobcats Overruled

On a day completely unsuitable for a football contest, Bowdoin tied Bates College Saturday. This particular weekend was Bates' Homecoming. The score—14 up, marked the first time that the Polar Bears have equaled or surpassed the score of the opposition since the Trinity game one year ago.

In the first period, there was no scoring, though there were a few breakaways for long yards. Near the end of the period, Vana of Bates ran 22 yards through the center on a handoff. QB Heidi, on the single wing formation, threw to the single wing, the left end, and Heidi converted the score Bates 8, Bowdoin 0.

The kick-off after the touchdown was short, with Carven picking it up on the thirty yard line. Hawkes then raced around the end after receiving a pitch-out for a nine yard gain. Bob Cummings, on the next play, tore up seven more yards as he reached the 46. The kick-off after the touchdown was short, with Carven picking it up on the thirty yard line. National Fraternity Presidents Highlight Initiation For Over Two Hundred Freshmen

Tonight two fraternity presidents, N. L. Millman, B. J. Richman, P. R. Rieman, S. S. Sampson, Jr., T. Yamamoto, G. E. Zetkins, R. Slatky, T. E. Adams, Jr., T. R. Allen, A. R. Baker, T. P. Barton, G. C. Blaisdell, D. P. Blodgett, F. A. Constant, E. N. Evans, R. F. Farnigletti, R. W. Ferrell, Jr., E. Fisher, G. R. Giese, W. B. Gillespie, H. A. Hamilton, J. S. Haskins, J. W. Marlin, J. P. Oasinski, A. M. Paul, L. J. Schoenwald, D. Shepley, S. Storch, E. C. Uehlein, Jr., P. J. Weston.

Other initiations tonight will be at the DEKE house, where Prof. Thomas Means will speak; and at Alpha Delta Phi, where Wesley E. Bevin, Jr., '40 of the Harvard Law School will preside. Also at Sigma Xi, where Prof. H. H. Harvey will once again feature in the initiation procedures. Professor Herbert Brown, who presided at this evening's toastmaster at the Zeta house. Also on the program are Zeta alumni, Mike Sussman, pledge king, Rev. John Fitzsimmons, father of one of the brothers, will give the featured talk at the banquet.

The other seven fraternities held their banquets last night. Cabot Easton, Delta Sigma '48 and the Alumni Office, gave the charge to the Initiates. Prof. Merle J. Moskowitz of the Psychology Department was the ARU speaker. Richard Goddard spoke at the ATO house. Listed below are the probable initiates:

ALPHA DELTA PHI
H. N. Gabel, (S. P. Sweeten), T. S. Curtis, Jr., J. S. Rice, D. T. DeVino, O. F. Pomeroy, W. K. Deesley, E. S. Greenway, W. C. Todd, C. A. Tilton, J. L. Swift, G. D. Kirk, J. F. Garland, B. U. Livingston, J. F. DeVoreaux, L. T. G. Prior, S. W. Woodcock, T. N. Clark, J. T. Sack, S. W. Hilyard, T. D. Holman, R. E. Haggerty, L. A. Heald, D. B. Klingman, R. S. Pulsifer, R. D. Burnette.

ALPHA RHO EPSILON
R. Beaulieu, R. E. Burleigh, R. C. Carlson, A. H. Freedman, R. M. Geller, S. M. Ginsburg, R. E. Glick, J. W. Goldstein, D. H. Hall, T. H. Hoxington, P. S. Karofsky.

Distinguished Banker Clark Dies, College Treasurer

Roland F. Clark, Treasurer of the College, died Saturday night. He was 79 years old. He was a native of Portland and had been employed as an official in a Portland bank.

Mr. Clark, who was a native of Houlton, was vice president of the trust department of the National Bank of Commerce from 1933 to 1958. As president of the trust division of the American Bankers Association in 1959, he was the first Maine banker to be so honored. The College awarded Mr. Clark an honorary master of arts degree in 1952. He was a member of the board of overseers from 1939 to 1949 when he was elected treasurer of the college.

Niven, Jr. CBS Commentator, To Give First Council Lecture At Pickard On December 2

Mr. Paul Niven, Jr. has formally accepted the Student Council's invitation to deliver the 1958 Student Council Lecture. Mr. Niven, a Bowdoin graduate and resident of Brunswick, has just returned from Moscow where he served as a news commentator for the Columbia Broadcasting System. After a televised CBS production "The Day Stalin Died" Moscow officials began the analysis of the issues and men concerned in this week's Congressional elections.

The program was divided into two sections. The first dealt with key races and specific factors concerning the election; the second part was a panel which dealt with the general situation in the different sections of the country.

Kent Spriggs was the moderator and master of ceremonies for the show. Jack McLean spoke on Modern Republicanism and its effect on the campaigns in the different parts of the country.

Steve Silverman followed Mr. McLean and discussed the effect of the New York and California campaigns. Silverman predicted that Mr. Harriman would pick votes because of Rockefeller's being linked with the President.

Jack Condon predicted that John Kennedy would win in Massachusetts and he was followed by Bill Lincoln who discussed the two leading New York races. The election story in the East was concluded with Jim Dickin's analysis of the Senatorial race in New Jersey.

Joe Schlotman predicted that the Right to Work movement would be followed by Dave Parnell who predicted that the Democrats would win in Michigan.

The first part of the Program was concluded by Dave Parnell and John MacDonald who spoke on Iowa and California respectively.

The second part of the program was taken by a panel consisting of Jack McLean, Nick Monsour, Don Bloch, Joe Schlotman, and John MacDonald.

These five discussed the trends in the East, Midwest, and West. After their reports, each member of the panel answered questions from the floor.

The program was concluded by a final speech by the moderator, Mr. Spriggs. Spriggs felt that on Nov. 5, 1958 the Democrats would be the favored party in the House and 59 seats in the Senate.

Vincent Here To Lecture On East Policies

Expected to lash out at the Dulles Far Eastern Policy is John Carter Vincent at 8:30, Monday night. Mr. Vincent for many years was considered the State Department's expert on the Far East and served in that capacity as head of the Bureau of Far Eastern Affairs.

Mr. Vincent served for twenty-eight years, half of them in China, where Chiang Kai-shek made his triumphant march Northward in 1948-49. Mr. Vincent was stationed at Nanjing from 1931-1935, while the Japanese took Manchuria and began the absorption of North China, he was at Mykden and Daien. He observed the Sino-Japanese war from Chungking.

When he was finally called back from China, he spent eight years in the Far Eastern Division of the State Department. He was appointed director of the Bureau of Far Eastern Affairs in 1949 and served this office until 1947. During this time he was very often critical of Chiang Kai-shek.

Mr. Carter was appointed Minister to Switzerland and in 1951 during a controversy over China policy, Secretary of State Dean Acheson appointed him Minister to Tangiers. However, shortly after the outbreak of the Korean war, he was accused of being a Communist. Of this charge he has been cleared.

Mr. Vincent had been accused of engaging in "studied praise of the Communists and equally studied criticism of the United States Government throughout a period when it was the declared policy of the United States to support Chiang Kai-shek's Government." Today Mr. Vincent is still highly critical of the U. S. policy in the Far East.

There is a display in the Library of Bowdoin College and about Mr. Vincent and his dealings with the State Department.

Storer Awarded With Fulbright Leaves In June

Professor James A. Storer has been awarded a Fulbright grant for the academic year 1956-60 and will leave Bowdoin for the University of the Philippines.

Dr. Storer, who is Associate Professor of Economics, will lecture at the University of the Philippines and at the Institute of Economic Research of the University of the Philippines. He will graduate students there to carry on their research. In addition, he will conduct research in the economic development of the Philippines.

Professor Storer also spent the year 1951-52 in the Philippines under a Fulbright grant, teaching at the University of the Philippines and conducting research on the foreign trade of the Islands since 1948.

A native of Waterville, N. Y., Dr. Storer was graduated from Bard College in 1943. During World War II he served as a supply officer in the United States Navy, with the rank of Lieutenant. He also served in the Pacific with the 63rd Naval Construction Battalion. He joined the faculty in 1948, following his service at Harvard University, from which he received master of arts and doctorate degrees.

He is editor of "Maine Business Index," published under the Maine Economic Development Council program, which is sponsored by the Committee for Economic Development.

Dr. Storer is also a member of the Bowdoin Economics Department, which has been engaged in a study of the fishing industry in Maine under a grant from the federal government.

Research Committee of the Brunswick Chamber of Commerce, Dr. Storer is also a member of the Maine Economic Development Council, which is sponsored by the Committee for Economic Development.

A member of Phi Beta Kappa at Bowdoin, Dr. Storer is also a member of the American Association of University Professors, the American Economic Association, and the American Political Science Association.

Tryouts To Be Held For Public Speaking Fest

Trials for the Stanley Plummer Prize of \$50 will be held Wednesday afternoon in 107 Sills. The hours of the trials are 4:30 to 5:30 and 7 to 8 p.m. The contest is for excellence in original and spoken composition in the English language on the part of members of the Junior Class. Each contestant may read his manuscript, which is not to exceed 1500 words. The trials will be held November 24.

Trials for the Class of 1958 Prize, awarded to that member of the Senior Class who wrote and deliver the best oration, will also be held on November 12 in 107 Sills at the same hour as above. Each contestant, as in the Plummer Prize, may read his manuscript which is not to exceed 1500 words.

Notice

John Carter Vincent, former State Department official, dismissed by the department in 1948, will speak on "American Foreign Policy in the Far East." Monday evening at 8:15 in the Mount Union.

The Political Forum is sponsoring Mr. Vincent who was formerly Minister to Tangier as well as ambassador to the Philippines in Washington. He was dismissed from his job in the wave of loyalty concerns which swept the State Department at that time. It is since generally accepted that he has been vindicated.

Nine Selected To Deliver Orations

Nine men have been selected as orators for the Alexander Pease speaking contest which will be held Monday, Dec. 8 in Pickard Theater.

The men are: P. R. Austin, T. S. Curtis, Jr., P. F. McGuire, N. E. Monson, D. N. Porter, T. A. Perry, N. A. Powers, L. J. Schoenwald, P. S. Smith. The contest is open to all sophomores and juniors.

By December each contestant will have memorized his selection which will not exceed 10 minutes in length.

Arthurs Debate

An affirmative debate consisting of Jim Rice and Steve Silverman was victorious in the Arthurs Debate. The debate was held Monday evening at 8:15 in the Mount Union.

The further development of nuclear weapons would be prohibited by an international agreement.

Allen Baker, '53, returned last speaking night while Charles E. Pease, '54, and Ted Curtis followed respectively.

The debate was debated by Lt. Col. Louis P. McCuller and Professors Arthurs P. Dargatz and Co. (Continued on page 5)

ACTORIAL RECORD OF A DISTINGUISHED, DEVOTED PASTOR

Walsh Zenith History Of A Master Player

In an attempt to piece together the record of Bowdoin's most distinguished coach, we discovered the following.

Once there was the new coach named Adam Walsh, former captain of the greatest of all Rockne teams — the Four Horsemen and the Seven Mules. He had served as head coach of Santa Clara on the West Coast for four years, Director of Athletics the last two years.

Then there were the five years as line coach at Yale. A year later he became the first man to coach both Harvard and the Eli.

As we reviewed our comments on the scene of yesterday, the following gems were discovered. We present those scattered memories in an effort to reconstruct a brilliant career. November 20 '55. "Remember that meeting in the Union last spring when Adam Walsh made his introductory speech to the prospective football squad? Remember his saying 'We're going to shoot for the moon no matter where we land?' Now with the 1955 season drawn to a successful and brilliant close, we found that Bowdoin not only shot for the moon but captured it and brought it home in the form of their first state championship in 14 years."

Broken Bands
On that same date, commenting on the joint rally between the town and the College, he observed that the "team deserved full credit for its spirit in the successful season." Listed among the "highlights" of the same issue, we came across the note that "Walsh walked the length of the bench in the last period and sent in every man who made the trip except Bill Shaw, who was suffering from a severely injured leg."

Then there was the tribute paid to him by Eddie Dooley, the former All-American quarterback. "Just ten years ago, Notre Dame was slashing into Army's ranks at Ebbets Field. The Cadets were holding their own against the regular thrusts of the South Bend ball carriers, and it began to look as though the winning streak of the greatest team the immortal Rockne ever had was in for a trimming. The Ramblers went in to the huddle. Adam Walsh, the great South Bend center, had been putting up a bang in game at the pivot position, despite the handicap of two broken hands. Unconsciously he raised his bandage-swathed hands and said pleading, 'C'mon, fellows, we've gotta go. We're gonna go! The sight of his battered hands reminded the players of Adams' plight and recalled the kind of game he was playing on the line despite his handicap. They snapped out of the huddle with increased zest, and went through Army's ranks with a 'lilt' that nothing could stop."

Hats Off
The first season's success bred numerous applause. But the first term's annuals had barely passed into the books when hats were off once more. "The College hat is officially off to Adam Walsh and his courageous Polar Bears for a well earned victory over the New England small college champions," the October 21, '55 issue stated. For these rhetoricians Bowdoin's hopes were based on much firmer grounds than had been the case in the past because of the "Walshian doctrine of 'liking it when the going is the toughest.'"

The "Sports Sidelights" for the Nov. 18 copy stated enthusiastically that the Bears were a second half team due to Coach Walsh's blood and thunder inspiration between halves. And yet it was quick to point out that "if Bowdoin had not had a team which fought from the opening whistle, such tears as Williams and Maine would surely have totaled more than six or seven points. Even in such comeback thrillers as the Bates game the Polar Bears' Coach's tactics were a good rest for the players, plus a quiet blackboard drill in glaring mistakes and suggestions."

This same feature spot carried the observation that the "Polar Bears again reign supreme in Maine's animal kingdom, thanks to Coach Adam Walsh, his charges, and his assistant coaching staff."

Then One Day
But there were other times. Like the one afternoon at Lewiston. "In the surprise of the Bates' victory the two Bowdoin marches in the first half are nearly forgotten, the fine work of Broe, Denham, and Webster in the line and the determined efforts of Bowson, Legate, and Karoskas are somewhat shut out; but the sportsmanship and composure of Adam Walsh, who had to sit and watch his team drop its first State Series game since he has taken over, remains unequalled and unchallenged."

These columns indicated, in the first November number of '55, that many of the Coach must have died a thousand deaths. If we may borrow a phrase, "Take the Williams game of 1940 for instance. 'In a 13-13 tie game filled with thrills reminiscent of Ned Brown and Carter, a fighting underdog Bowdoin team saw victory snatched from its grasp in the last two minutes of play when a desperate Williams pass from behind their goal line was good for 39 yards and a game tying touchdown.' Any resemblance between this and the same game played between these two schools two years ago is not purely coincidental, as the Brunswick team lost 13-7 in the last minute."

New Rhythm
But those rewarding Saturdays were always around the corner. Two weeks later our pages carried this comment: "A re-awakened Bowdoin team by a quintet of feet backs running behind a bare-charging, sharp-blocking line completely overran an outclassed Bates team 22-2 last Saturday at Lewiston. Before a large rain-

Walsh Became Invaluable To College Town

By Stephen Wilcox

On March 6, 1955 a young man named Adam Walsh swept onto a Bowdoin campus whose athletic situation was so bad that three separate committees were studying the situation. The football team of the 1954 season had not won a single game and in the previous fourteen years Bowdoin had not won the States Series title once. Everyone was of course anxious to know what manner of man this was, and they were not long in finding out.

Newspaper accounts of the day told of the new coach arriving on campus at noon and having lunch with football captain Albert Putnam, Athletic Director Mal Morrell, who had been instrumental in getting the former Notre Dame great, and Donovan Lancaster, who was the coach of freshman football at the time. "After lunch," the press said, "Walsh met several of the football players and the general opinion on the campus during the afternoon was that the college's choice was very popular."

"A Regular Fellow"
Another newspaper said "He comes onto the job with a complete knowledge of the grid game and judging from the cry that went up from Harvard students to have him named successor to Eddie Casey, he must be popular with the boys — a regular fellow."

"Bowdoin undergraduates," said the Boston Herald, "hailed the appointment of Adam Walsh, head grid coach, as an important step toward the revival of football at Bowdoin."

It is hard to imagine today what the arrival of this man meant to the college. Reading the old newspaper clippings and there were many of them it is impossible to miss the real enthusiasm which swept the campus in both students and faculty alike. A large, bold headline in the Boston Herald announced: BOWDOIN ALL HOT, BOTHERED OVER ITS FOOTBALL ELEVEN. The accompanying article went on to tell of large masses of students turning out late one Sunday evening to welcome the team back from Wesleyan. The story further pointed out that the loud cheering and general gaiety was not confined only to members of the undergraduate body, but several members of the faculty were also in the crowd enjoying themselves immensely and hailing Bowdoin's new hero.

Wins State Series
The Polar Bears won the State Series in 1955 to the amazement of sports fans all over the state. In the Bowdoin-Bates game the White were victorious by a score of 14-0 and not once during the entire course of the game did Bates set inside the Bowdoin 40 yard line. After the season was over Adam Walsh went hunting for a week. He returned, as Harry Shulman of the Portland Press Herald put it, rested but not having seen a single deer.

The win-loss record frequently speaks for itself, but what sort of man could evoke such enthusiasm? Clues to the nature of the new coach may be found anywhere. One newspaper said, "Walsh has brought to the Bowdoin campus a new spirit of inspiration. It is evident in the squad as well as in the athletic staff. It has been years since the entire athletic staff appeared on the field every day to lend a hand wherever needed."

The students were sold on Adam for a number of reasons not the least of which was the warm greeting they received. One account of the first few days Adam spent on campus put the thing this way: "Some of them he had met two weeks ago when he visited the campus. They (the students) were amazed that he could call them by their first names without any prompting by Mal Morrell. It was 'Hello, George' or 'Hello, Carl' and never once did he cross up Carl with George. All of which may mean very little to an outsider, but to a team it means everything. An impartial observer had little difficulty in reaching the conclusion that Adam Walsh will be a popular addition to the athletic staff at Bowdoin."

"Aim For The Moon"
"Aim for the moon," the new coach told his candidates at their first meeting of the year. "Then if you land only halfway, you will have succeeded in dragging yourself out of the mud."

It was soon obvious that this new coach meant business, and he characterized himself before a crowd in Lewiston as a "football child in Maine" to be seen and not heard. Bowdoin teams were seen very much in the next three years, as they went on to win the State series in 1955-57. The next three teams tied for the State Series title.

Adam's love for sports was shown by a little story he told in his early days here. He said: "Suppose Mal and I go out and play a round of golf. Suppose there is a cent bet on the game. I get just a much of a kick out of beating him as he does out of beating me."

Or, "Take for instance, a fishing trip, and I love that sport too. Mal and I are in the same boat, fishing in the same place. I catch a six pounder and his best is a four pounder. Noting that the next on which gets the biggest one, but isn't it a fact that I'll get a great kick out of getting a better catch than he does?"

Civic Responsibilities
Walsh continued to become an amazing record. When Bowdoin resumed football in 1947 Walsh was not only a member of the community. During the war he and Mal Morrell spent endless hours organizing and training the men and women of Brunswick for the war defense team. For years he served as a voluntary fireman, taking a day but through his quarters pay check back into town funds. He served on numerous

(Continued on page 5)

ALUMNUS ANALYZES ADAM'S CAREER

By William Ireland, Jr., '49

The request to write this column bothered me for a while, as I thought that those now on the Campus would be much closer to the scene and I felt, therefore, that a much better job could be done. Then the thought occurred to me that the students now in school have never experienced in their undergraduate days a winning football team. In fact, the Seniors have only seen two victories. This is not the fault of Adam Walsh. Twenty-three years ago, Adam Walsh came to Bowdoin with a reputation as a good coach. Last week he announced his resignation and he will leave Bowdoin with a reputation as an outstanding coach and a great leader of men; in this case, Bowdoin men.

Adam's ability as a football coach has been demonstrated over these twenty-three years. Up until the time he returned to Bowdoin in January of 1947, his Bowdoin teams showed a total of 34 wins, 16 defeats, and 6 ties. They had rolled up 687 points against 492 by the opposition. The teams won five straight over University of Maine, compiled a 7-1 record against Wesleyan, 4-2-2 against Williams, 6-1-1 with Colby, 6-2 with Bates, 4-2-2 against Maine, 4-3-1 against Tufts and 0-3 against Amherst.

When Bowdoin discontinued football in 1942, Adam then coached at other schools and in 1945-46 he coached the Cleveland Rams, now Los Angeles Rams, in the National Football League championships; the only coach in the history of the League to do so in his freshman year, and the next year coached the same team to a second place finish. With this performance, he was named coach of the year in 1946.

After he returned to Bowdoin in 1947, Adam continued to turn out what could be termed very representative Bowdoin teams. Although they lost as many games as they won, they were always only a short way from victory. In these days, Adam was winning the alumni and the student body thought that the material was not coming to Bowdoin to produce winning teams, and a brief respite from the poor seasons which have recently come was obtained from the free substitution rule. This allowed Adam with an excellent handling of personnel to get the maximum effort available from every man on the squad. However, when the rules were changed to limited substitution, Bowdoin was faced with the almost impossible task of playing teams with vastly superior manpower.

Throughout these many years, Adam Walsh has been more than a football coach at Bowdoin College. He has been a representative of that College in many public affairs in the State of Maine and in these associations has greatly aided and abetted Bowdoin College's status with the state. In 1952-53 he headed the Maine Cancer Crusade Fund Raising Campaign, netting new totals in each year. He has served as Trustee of the Brunswick Sewer District and is Clerk of that same organization. He has been a member of the Town Finance Committee for the Town of Brunswick and is currently the Chairman. He has represented Brunswick in the Maine Legislature for two terms, serving as Minority Floor Leader in 1957 and 1958. For many years he has been a volunteer fireman for the Brunswick Fire Department, never having collected his pay for this service. He has served on numerous town committees and during the second world war turned his talents to Civil Defense.

With this background of service and of almost continuous success as a player and coach, those last few years must have been a nightmare for a man with the insatiable desire to win and who usually did as a player and coach. I have been asked by many over the last few years "Has he lost his ability?" A man doesn't lose his ability and all Adam Walsh has lost is the support of the College, from the governing boards, the administration, and alumni tight down to the newest freshmen. We all took it for granted that this outstanding coach could continue to build winning teams forever, and we set back to watch what no man can do and that is, win football games without the proper material. The only thing wrong with Bowdoin football is a few more boys with ability and we, the alumni and the students, are the only ones to help provide these players.

I write this article as a Bowdoin man, a former football player, and I think a close friend of Adam Walsh, as Adam has always been a close friend of every Bowdoin man. He came in contact on a daily basis each year with about 20 men in every class and he has effected the lives of every undergraduate and friend of the College since 1935. No man that ever played football for Adam Walsh could say that he hadn't learned something about life from his experiences in this association and that Adam Walsh hadn't played a big part in his life and training over and above football.

The Man...

(Continued from page 4)

committees. He has been a trustee of the Brunswick Sewer District since its founding in 1947. In 1952 and 1953 he headed the Maine Cancer Crusade and in both years won record sums of money. He served two terms in the Maine Legislature and was a member of the Maine House of Representatives in 1952-53. He is currently chairman of the Town Finance Committee. He unsuccessfully sought the Democratic nomination for Congress from the First District this year.

Walsh remained an outspoken defender of free substitution, and his Ministry of Education was abolished. Walsh told a group of six hundred businessmen at the Springfield Industrial Association that it wasn't down to help small colleges but that it was "restrained through for just one reason. I am an athlete." This move was necessitated because some colleges and universities couldn't afford to go on paying two teams and two staffs. "Don't let them tell you that the two-phased system is a mistake," he said. "It is driven through because large universities with superior resources couldn't afford to pay for it."

"I'd like to see the man," Walsh said, "who can afford to pay for it. You just can't get away with it for long." Walsh had told his first team in 1935 that "We will not have an 11 man football team." Some had been sitting on the bench for a while, but he said, "I understood they were being referred to as 'judges.' When limited substitution came in, Walsh objected partially because it gives fewer players a chance to see action.

One of the first insights into Adam Walsh—the man—was in Sports Illustrated when they carried the account of the scene in the Bowdoin dressing room after a disastrous loss to Maine. "There was neither defeat nor resignation in the strident Walsh voice that cut through the yelling of celebration from the adjoining locker room."

"I was here... see here, Steve, come here. In the win and lost column we had a lousy average. But I want you to know that I am a coach in the country. You never quit trying this year."

"Nobody, nobody leaves this room with a chin drooping. When you go out of here, with your head to the other room and shake hands with the Maine football team and their coach, Hal Westernman. But nobody is ashamed. Remember, nobody's ashamed. You don't ever leave here with your head down. That's all."

"There was a noticeable tightening of the lips. Bowdoin players who had sat dejected and not busy and stripped themselves for the showers."

"Wrong Philosophy. 'Coach Walsh turned to the small crowd at the door of the locker room and said: 'You know the thing I'm really worried about. The few young men who love victory, they're coming in from new numbers every year. The competition to get those boys has increased unbelievably. Why are there fewer and fewer youngsters who love to compete in body-contact sports? Why?'"

"I'll tell you why. A good share of the blame must be placed right on the shoulders of the physical education curriculum at the teacher-training institutions. Particularly at those institutions where the philosophy is: 'If the activity has no carry-over value into the life of the student, it has no place in the educational system.'"

"This terrible approach is drilled into them. They go out and enter the physical education field and the pupils become parents in time and what happens to their youngsters?"

"That Extra Effort. 'All youngsters like a little extra effort. As President Cohen said in his letter to coach Walsh, 'You have exemplified all this in athletics, and have steadfastly given the welfare and development of the students your best and best priority above all other considerations. You have always stood for the good of the school.'"

As Adam himself once said over twenty years ago: "No matter what it bothers me we like to do it better than someone else. If a game is worth winning it is worth fighting for as long as the tactics used are fair and honest."

This is it that the man who coached football at Bowdoin over four times as long as any other ends his last season.

THE RECORD: 1935-1958

The Coach...

(Continued from page 4)

coached crowd a Bowdoin team that had been named by Coach Adam Walsh since the beginning of the season finally came into its own, while the spectators with as flashy a running attack has been let loose in the State Series in the past few years.

On the lighter side, one columnist analyzed the success in terms of "The Seven Mules of Notre Dame." The reporter then observed, "Sometimes strong and sturdy, like the heavy classes; sometimes more shifty and cunning, like the lighter arms; and still occasionally in the fast tempo of the modern swing play named after him. Walsh has been able to vary his rhythm to the complete bewilderment of many of the leading teams makers of rival eleven."

"The Master. 'The difference between the variety and freshness among the outstanding stars from high schools and prep schools, but don't ever kid yourself, or don't ever let your own mind kid itself, is a long way to go. That rhythm and the precision which naturally goes with it follows perfectly and comes slowly to some and more quickly to others. Therefore, the man who is a coach must be able to lead and start 'telling this game of football. They needn't be afraid of the 'Y' or 'H' around end, but they can keep the beat and get the rhythm of the quarter back count. The Walsh rhythm has carried the Polar Bears to the top.'"

"The article concludes: 'By November '42 some were suggesting that the big "A" should receive some sort of "distinction." Service men, especially, as he pulled a "rabbit-hole" out of his hat this season. The Bowdoin backfield defense briefly opened holes in the opponents' lines brought to mind the tactics of the Polar Bears as they so doing proved to our friends that the Maine state grid championship merely left Brunswick for a much deserved subliminal leave."

Walsh Coached Teams. In that same issue the Orient reported that "before a crowd of 500 a baffled University of Maine team 12-6 clinched the State Series for the seventh time in Adam Walsh's brilliant career."

The Bowdoin team was well-coached and always on the alert. The backs were swift and the line held like a stone wall.

There were always the acute and skillful maneuvers that contributed to this remarkable success. As the paper reported in its first game of '38 against Maine State: "Bowdoin's 'unknown' (X) team of varying caliber was a first class team."

More than thirty men in action against the Statesmen and they all appeared to have the Walsh genius, some not as polished as others, but all showing promising signs.

"Wesleyan used a five-four-two defense all the time; Walsh realized this and let his team follow the game changed Dolan's path on a pass play so that he would catch the pass in the center, which was open. And it worked for two touchdowns," another writer observed later in the year. In an interview later year, when asked about the current edition of football, he said, "Improving feature writer observed that 'It was interesting to note the way Adam shifted his team in the quarter against Bates. At the start of the second quarter, a new man, with the exception of Hal and Austin, was inserted in the game."

Players, Coaches Cite Football Mentor's Past

(Courtesy of Portland Press Herald)

FRED BRICE, retired University of Maine coach who faced six Walsh-coached eleven, gained a single victory and two ties: "I'm sorry to hear Adam's resigned. I consider myself a personal friend and great admirer. A good technical coach, he wins with the proper material. Sportsmanship and relations between Bowdoin and Maine were never better during those six years. I wish him the best."

BOB HARRIS, Bates coach, "I've enjoyed coaching against Adam for the past ten years. I consider him a fine coach and have felt badly for him the past few years, although I know Bowdoin had built up a big backlog of wins over Bates. He's certainly done a lot for the young men under him. He's a man of high ideals and I consider it quite an accomplishment for him or anyone to coach 33 years, let alone to coach with such distinction."

HAL WESTERMAN, University of Maine coach: "Don't let the record of recent years fool you. Adam is still one of the best and can do the job with the right material. Our association has been about as fine and friendly a one as there can be between rival coaches."

BOB CLIFFORD, Colby coach: "It's a tremendous surprise to me. Adam has done a great job when he had the people to work with. I've only opposed him three years but we had to work awfully hard for each victory, and feared him and Bowdoin this year, even though the score ran up. I've had the greatest respect for Adam since I was an assistant at Williams. Relations have been most pleasant. Football will sorely miss him, far beyond the State of Maine."

MAI MORRELL, Bowdoin athletic director, instrumental in getting Walsh to come to Bowdoin: "The outstanding service that Adam Walsh gave to Bowdoin College over a period of many years was never confined to his work with the football squad even when his teams were winning championships regularly. I know how frustrating the past few years have been for him... He is taking action that he believes is in the best interest of the college, and I respect him for it."

College Experienced Unsuccessful Decade In Athletics Prior To Walsh's Appearance

The ten years before Adam Walsh came to Bowdoin as football coach were turbulent and troublesome on the athletic front. All college sports were under the control of the Athletic Council, which was a band of outspoken alumni. Mai Morrell told football coach Walsh that he was replaced by Bill Bower who lost far more to the Council's will in the end killed by internal dissension and President Sills. And Adam led a team continuously defeated under Bower, to the State Championship his first year as Coach.

An Orient editorial in November 1929 commended, "Bowdoin's failure on the gridiron last Saturday is still unexplained." In this writing a long list of troubles has been compiled, among which the following protrude slightly: the team, the coach, the line, the field, the other team, the other coach..."

As a result of the Council's failure, Sills inaugurated student and faculty committees to investigate the athletic situation. The result of the former committee was Elmer Hutchinson '35 and Prof. Herbert Bower '36, who were in control of the faculty group. Editor Barnes of the college paper reported on student: "No doubt that that dissension will remain as long as the present football coach does. From a hundred applications for the vacant job, the faculty group, which would extend far beyond the athletic problem..."

It is obvious that the Athletic Council cannot settle the case itself. It signed its own death warrant on December 8 when it battled for twelve vain hours without reaching a single conclusion worthy of the name."

As a result of the Council's failure, Sills inaugurated student and faculty committees to investigate the athletic situation. The result of the former committee was Elmer Hutchinson '35 and Prof. Herbert Bower '36, who were in control of the faculty group. Editor Barnes of the college paper reported on student: "No doubt that that dissension will remain as long as the present football coach does. From a hundred applications for the vacant job, the faculty group, which would extend far beyond the athletic problem..."

Bower resigned the next week, and Mai Morrell was swamped with a hundred applications for the vacant job. The editor called Bowers' resignation a "healthy" move, and said that the faculty group, which would extend far beyond the athletic problem..."

On March 6th of 1935 the still extant Athletic Council selected Adam Walsh for the position of football coach. Three months later, an outcome of the faculty committee report, the Council lost its power and Adam was to remain for twenty-three calm years.

Another earthquake shook Brunswick and Mai Morrell resigned as football coach, retaining his position as Director of Athletics. The Alumni Athletic Council, which paid for and controlled sports at the school immediately moved into action. By February of 1930 the Athletic Council was a hybrid of faculty, student, and alumni representatives. We feel that the alumni have no more place in the administration of athletics than they have in the other departments of the college, and feel that the events have proved the impracticability of the present system."

Though Adam Walsh has refused to comment on his future plans, rumors are in circulation that he has received a flood of job offers many of which are significant. He has been asked to accept as soon as his football duties are over. Most of the valuable opportunities have been extended by Bowdoin graduates. Considering Adam's political background, after two terms in the state legislature the possibility of a political appointment has been much discussed. Adam is close to Governor Muskie and there is a chance that he will be chosen to fill the vacancy on the Maine Public Utilities Commission.

Further talk has centered on the possibility of the Maine Senate electing Adam to be his administrative assistant in Washington when the next session of Congress opens. The only rumor which it seems can be totally discounted are those to the effect that Adam will accept an offer to coach football. He has indicated that he will never take on such a job again after he completes his twenty-third year in service to the college. Though nothing specific can be said until Adam finds time to follow up the offers it is apparent that he is in demand and has no future worries.

POLAR BEARS SPURRED THE LOSS TO BLACKBERRIES 37-0

By Joel Kishner

Friday afternoon, two rare events took place as the Polar Bears started their final pre-game workout at Whittier Field. For the first time, the White saw their coach running from the pivot spot which he once held down regularly while captaining Notre Dame's famous Seven Mules and Four Horsemen club. Because starting center Rick Hurlt was unable to attend practice, the squad was left with only one center; so Adam filled in. From all available reports he did an admirable job keeping up with his youthful players even though his wind wasn't quite what it used to be.

Presentation

Just before the calisthenics got under way, Captain Gene Waters presented Adam with a football which was autographed by every member of the squad. "Gene had talked the officials from Bates into turning over to him the football used in the 14-14 deadlock.

"You keep the ball Gene," Adam urged his captain. "You're the one who deserves and should have it."

However, Gene insisted that his coach accept the football. "The boys want you to have it, Adam. And they want me to assure you that we're going to give it everything we have against Maine. And if we turn the trick and win, it will be a victory for you."

Here was an example of the spirit which both Gene and the entire squad have shown throughout the season, as well as the feeling which all the boys who have ever played for Adam had for him. No finer tribute could have been paid to the man who has devoted over twenty years to Bowdoin football.

Alumni Award

The Bowdoin Alumni Council cited Coach Walsh at their meeting Saturday with the following resolution:

"On this, the day of your last game as Bowdoin's football coach, we extend on behalf of Bowdoin men everywhere a heartfelt thanks to you, Adam Walsh, for all you have done to bring credit to our college. In your years as a courageous player and coach, you have earned the cheers of football lovers in stadiums far larger than our own. Yet even as you were named National Football League coach of the year, you came back to Bowdoin."

President Cotes in making his pre-game presentation said to Walsh: "Adam, this game today is significant in the history of Bowdoin football. Your association with the college and the college's association with you, are far too close to let it pass unnoticed. Therefore, the college marks it with this token of appreciation, which carries with it our affection and esteem."

The coach in response called upon the 8,000 fans who were attending to pay homage to the boys from all four Maine colleges who did not return from World War II by bowing their heads in one minute of silence.

This response was symbolic of the type of man Adam Walsh is — always dedicated to the boys who played under or against him.

SIGMA NU'S WIN FINALS OVER KAPPA SIGS 39-13

By Reed Hamilton

November 4
Hopes of a Beta win were smashed in the first quarter as Sigma Nu ran wild. The score, however, doesn't illustrate the tremendous comeback the Betas staged in the second half of the game, particularly in the last quarter. The very disputed game saw a high amount of scoring. For the Sigma Nus, Papazoglu and Gorra each scored two touchdowns and three extra points. Gorra then scored another t.d. to bring the score to 33. For the Betas, Bob Hunt was the hero of the day as he scored two of their three touchdowns, one on a fabulous runback of an intercepted pass. Pete Bogy then went downfield and pulled one in from McDonough. The Sigma Nus then scored the extra points and a two-point safety brought the Betas score to 22. Mention must be made of the tremendous job done on defense by Wick Gaines and Bill Phillips. They repeatedly stopped the Sigma Nu offense in their tracks.

Sigma Nu 33 — Players: Hall, Beckwith, Gardner, Papazoglu, Blair, Gorra, Taylor, Roop, Clifford.

Beta Theta Pi 24 — Players: McDonough, Fisk, Hunt, Dowd, Bogy, Scholtman, Phillips, Gaines, Loeb.

Final Standings
First: Sigma Nu
Second: Kappa Sigma
Third: Beta Theta Pi
Fourth: Psi Upsilon

The 1958-59 edition of the NCAA Official Basketball Guide, the oldest national basketball publication, is now available locally for one dollar.

Sigma Nu 33 — Players: Hall, Beckwith, Gardner, Papazoglu, Blair, Gorra, Taylor, Roop, Clifford.

Beta Theta Pi 24 — Players: McDonough, Fisk, Hunt, Dowd, Bogy, Scholtman, Phillips, Gaines, Loeb.

In this game, much the same as the Beta game, things weren't looking too good for Kappa Sig at the half. The Psi U's were ahead 12-6. The score remained 12-6 until there were about three minutes left to play in the game. At this time Rosenthal, who had scored once earlier in the game, came alive and scored twice in the short space of three minutes. After the second t.d., the team went wild and there was a riot. The Psi U's simply couldn't stop the Kappa Sig's once they got going.

Kappa Sigma 19 — Players: Rosenthal, Powers, Turner, Gill, MacDonald, Roach, Zuckerman, Macdonald, Lincoln, Stuart.

Psi Upsilon 13 — Players: Flynn, Carlisle, Teeling, Brown, McLean, Brown, Cousins, Wyman, Sweeney.

The second quarter was the big one for the Sigma Nus as they scored over the Kappa Sig's 38-13. Four of their six touchdowns were scored in this quarter. They relied heavily on Hall's passing throughout the game. The Kappa Sig's

Shown here carrying the ball in the first quarter of the Maine contest is Polar Bear halfback Bob Hawkins (38) about to be tackled by a Maine defender (40) after having made a stealable gain. Running in background are White players Don Prince (94), Dave Cole (51), Joe Carven (53), Bert Needham (56), and Dick Seavey (23).

Powerful Maine Runs Over Bears As 8,000 Fans Take In Contest

By Gerry Leisberg

Last Saturday, before a Alumni Day crowd, the Polar Bears bowed to a strong, determined Maine team, 37-0. The game, characterized by fumbles and electrifying runs, was the last game played under the coaching of Adam Walsh, who recently handed in his resignation, and gave the White a 0-6-1 record for the year.

The White had many chances to score, but couldn't seem to capitalize on any of the seven Maine fumbles that they recovered. On the contrary, the inspired Black Bears, rebounding after last week's upset loss to Colby, converted almost every Bowdoin mistake into points. Special credit must be given to the Maine ends who were so successful in stopping the Bowdoin aerial attack that the White only completed five out of twenty-five pass attempts.

Credit must also go to Captain Gene Waters for an outstanding game, and to Joe Carven, Don Prince and Al Merritt. This game was the last for Captain Waters, halfback Mike Karavassos, and Jim Carnahan, center Rick Hurlt, tackle Dick Tuttle and Ron Tripp, end Al Merritt, and halfback Rod Collette and tackle Dick Adams.

First Quarter
Bowdoin received the kickoff and returned it to about the 25, where after three downs the White punted. Randy White took Condon's punt on the Maine 29, and slipping by two would be tacklers, raced towards his right. A bone crushing block by teammate Roger Ellis on Jack Condon set him free, and he romped the remaining 60 yards to make the score 6-0. A few seconds later, Wayne Champion rushed around the left end for the extra two points.

Later, Sophomore tackle Bert Needham recovered a Maine fumble on Maine's 5 yard line. But the White attack could not get started and on the fourth down, quarterback George Enfin fumbled and Maine recovered on their own 31 yard line. Still later another fumble put Bowdoin deep in Maine territory but to no avail as the Maine ends made any passing attack by the White futile and the Black Bears took over on downs. Most of the period in between the first Maine TD and the second Maine fumble, the teams tested each other for possible weak points. The period ended with Maine in front 8-0.

Second Quarter
Early in the second quarter, a beautiful punt by Enfin rolled to a stop on the Maine three yard line, where after 3 unsuccessful attempts to get from within the shadow of their own goal posts, Maine was forced to kick. Theri-

Early in the fourth period, Mike Karavassos recovered a Maine fumble on the opposition's 20. After moving the ball seven yards in three plays, Condon was thrown back to the Maine 2 while trying to find a receiver.

No sooner had Maine received the ball, than Bob Bragg burst through the center of the Bowdoin line and lashed straight downfield for a 77 yard touchdown. The Polar Bears defense almost caught up to the feet-footed visitor, but it was useless and Maine took a 31 point lead as they

Vermont Racks Perfect Score Over Runners

The University of Vermont cross-country team, which became Yankee Conference champions last week, romped to a perfect score over Bowdoin's varsity at the Brunswick Golf Club Friday. Despite the fact that the Sabermen turned in their best performance of the year, the first six Vermont runners crossed the finish line in hand. Bowdoin sophomore Lester Moran ran 20:45, by far the best time of the season by any Bowdoin runner. Moran has developed consistently over the season. Another sophomore who has made good progress, Sam Elliot, worked hard to stay with the leaders and broke into the Bowdoin first five.

Summary of Vermont: The first five were: Moran, 20:45; Cotta, Perkins, 21:10; Elliot, 21:15; Berr, 21:20; 11th Dushan. Bowdoin's first five were: Moran, 20:45; Cotta, Perkins, 21:10; Elliot, 21:15; Berr, 21:20; 11th Dushan.

On Homecoming Day the varsity soccer team scored its first victory of the first Intercollegiate season of the College in defeating Bates 2-1 at Pickard Field. The weather was perfect for a game, and the numerous fans that attended the game were undoubtedly pleased by the aggressive play and hustling drive of the host Polar Bears.

From the beginning of the game, the White controlled the play. An abrupt turnaround from previous games, the Bears kept the ball in Bobcat territory for the majority of the playing time. With a few changes in the lineup, the team seemed to play a lot better together and showed much more spirit. Coach Ben Levine, after more urging his charges in game the White was pleased with the play of all members of the team and glad to see that the team finally showed what they could give. The team showed much cohesive striking power as the number of shots taken increased with every quarter.

Bates led at halftime, 1-0. Shortly after the beginning of the second half, George Glover scored for Bowdoin with a nice head shot that made the score all. Then the White increased the pressure that they had been applying throughout the game and with eight minutes left to play, Bill Bowman drove a shot into the Bates goal to force the White ahead 2-1. This fired up the team to unprecedented heights as they scrapped and held Bates from scoring to register the first victory in the team's history. The line played well and played together for the first time this year, and coupled with a fine defense that came up with a lot of good kicks that got the ball out of dangerous territory, provided the impetus for the team's comeback.

The victory was a simple thing; hustle. The Polar Bears hustled the visitors out of the game. Co-captains for the game were wingman Ben Holden and fullback Mickey McKeen.

Starting Lineup
Goalie — Dave Farnie
Right Halfback — Mickey Coughlin (Co-Capt.)
Left Halfback — Bruce Appleby
Right Halfback — Paul Gardner
Center Halfback — Bruce Appleby
Left Halfback — Dick Balboni
Right Wing — Ben Holden (Co-Capt.)
Right Forward — George Glover
Center Forward — Bill Bowman
Left Inner — John Evans
Left Wing — John McKinnis

Do You Think for Yourself? (THESE QUESTIONS WILL TELL YOU!)*

1. Do you find going "off the beaten track" on a trip (A) interesting and constructive, or (B) merely inconvenient? ☐ A ☐ B

2. In a heated discussion would you rather (A) be the "moderator," or (B) jump in on a side using any argument to win? ☐ A ☐ B

3. Before making a complex decision, is your first move (A) to marshal the facts, or (B) to ask the advice of a respected friend? ☐ A ☐ B

4. Do you (A) try to figure out ahead what each day will bring, or (B) face problems as they come along? ☐ A ☐ B

5. When writing a letter applying for job, would you try to make it (A) original and off-beat, or (B) factual and concise? ☐ A ☐ B

6. If you were getting furniture for a room, would you look first for (A) something comfortable, or (B) something colorful and unusual? ☐ A ☐ B

7. Would you prefer a job (A) in an old established firm offering security, or (B) a small company which could extend rapidly? ☐ A ☐ B

8. Would you rather be known as a person who (A) works well with others, or (B) accepts responsibility on his own? ☐ A ☐ B

9. When you step up to a cigarette counter, are you (A) confused by all the conflicting filter claims you've seen, or (B) sure of what you want because you've thought things through? ☐ A ☐ B

You will notice that men and women who think for themselves usually choose VICEROY. Why? Because they've thought it through—they know what they want in a filter cigarette. And VICEROY gives it to them: a thinking man's filter and a smoking man's taste.

*If you have checked (A) on 3 out of the first 4 questions, and (B) on 4 out of the last 5... you think for yourself!

NEWS FROM OTHER COLLEGES

This year, in cooperation with the National and International Affairs Committee, Swarthmore College plans to begin a tape exchange with a prominent teachers institute in Moscow. The idea behind this project is that Russian and Swarthmore students, through recording tapes, will receive a glimpse of life on each other's campus. The proposed Swarthmore tape would be composed of segments of last year's folk festival. The first tape will be entirely musical so as not to appear a vehicle of propaganda. A later tape may attempt to present life at Swarthmore by following a student through his daily activities.

George Washington University experienced one of the most tragic events in its history. The Delta Tau Delta fraternity, one of the leading houses on campus, burned. In the wake of this disaster, which included the complete destruction of the house, two brothers were burned to death and a score of others received minor injuries. The cause of the fire was not determined. However, according to the president of the house, the Delta held a party earlier in the evening centered around a "mining" theme. The parties were covered with tapers, and the floor was littered with wood shavings which probably aided the fire.

Many Headers
The record of undergraduates accepted into medical school shows that the percentage of pre-med accepted at outstanding medical schools has fluctuated between 90 and 96%. In 1958, 91 out of 93 were accepted.

Salary Rises At Princeton
Dr. Robert F. Goheen, President of Princeton University, has just

announced an annual salary increase for its professors and associate professors. The salaries of the former will be raised \$1,000 per year while those of the latter will be increased by \$500. At their annual fall meeting, the trustees also voted on a minimum wage for professors — \$11,000 and \$8,000. This salary increase will affect 280 persons.

Change In ROTC
Effective in the fall of 1959, the Air Force ROTC program at Colby will be voluntary. This announcement came from the Dean of Faculty early this week.

Dean Strider explained that some confusion had arisen over the ROTC program as a result of last spring's decision to alter the requirement that all men take two years of Air Science. A discussion followed at a recent faculty meeting to determine whether or not the ROTC courses would become voluntary at once or as of the class of '63 entering in the fall of 1959. The latter alternative was decided upon.

As required under the former ROTC program, the men of the class of 1960, the Delta held a party earlier in the evening centered around a "mining" theme. The parties were covered with tapers, and the floor was littered with wood shavings which probably aided the fire.

The ROTC course consists of Air Science I (221, 222) and Air Science II (223, 224). The latter is also Philosophy 211, 212 with additional air science content and the former is also Philosophy 211, 212 with additional air science content and the former is also Philosophy 211, 212 with additional air science content.

Student Council
(Continued from page 1)

Orientation
Interested in evaluating Bowdoin's orientation program as pursued by the several fraternities, the Student Council, in a recent discussion by stating that the Psi Upsilon was very pleased with the results of the orientation. He commented that this year's orientation had even been more successful than last year's. The dean emphasized that this year's orientation had even been more successful than last year's. The dean emphasized that this year's orientation had even been more successful than last year's.

The William J. Reardon Memorial Football Award will keep alive the name of that man who died April 4 in Boston of leukemia, a disease involving excess formation of white blood corpuscles. At Bowdoin, Reardon was an outstanding football player, being chosen as captain of the 1949 All-Maine team selected by the football coaches. He was president of Alpha Delta, chairman of the Ivy Day Committee, and the Student Judiciary Committee, and served on the student Council Disciplinary Committee.

The trophy will be given each year to that Senior on the Varsity football team who has made an outstanding contribution to his team and college as a man, honor, courage, and ability. The recipient must be held in respect on campus as well as on the football team.

The Reardon Trophy, given in honor of the man by members of his family and by his friends both inside and outside of Bowdoin, will be fifteen inches high, consisting of a regulation size football in silver on a rubbed mahogany base. The final details of the trophy have not yet been determined.

from Steinbeck's "Of Mice and Men." When "Streetcar" opened in 1947, Brooks Atkinson of the "Times" said: "Williams has brought up a superb drama. And it reveals him as a genuinely poetic playwright whose knowledge of people is honest and thorough and whose sympathy is profoundly human." The play is scheduled for 8:15 p.m. in Pickard Hall.

4. No work submitted for one course may be submitted also for credit in another course except with the explicit approval of both instructors.

The Consequences of Dishonesty
A student who has been dishonest in his academic work is asked to appear before the Administrative Committee of the Faculty. The Committee attempts to judge each student individually, but generally the minimum penalty for dishonesty is an administrative "F" in the course in which the student cheated and the maximum penalty is dismissal from College.

Peking Graduate
Mr. Vincent is a native of Senegal, Kan, and a graduate of Mercer University in Georgia. He did graduate work at the Peking Language School in China and at Georgetown University. From 1925 until 1935 he was a diplomatic and consular officer in China, at Changsha, Hankow, Peking, and Tientsin. He was in Nanking. For the next five years he served with the Division of Far Eastern Affairs of the State Department in Washington.

Vincent ...

(Continued from page 1)

This bombardment soon revealed a military build-up on Quemoy and Matsu, which the U. S. State Department had announced. Mr. Vincent criticized our wavering policy in the area, and pictured the present crisis as a case in which the Communists are the aggressors on alternate days and offer supplies on peaceful days.

U. S. Should Get Out
Mr. Vincent went on to suggest 1) Chiang is not going to return to the mainland in the foreseeable future; 2) the islands are not really essential; and 3) the Communist shelling seems to be psychological — that we turn the situation over to a United Nations committee, composed of India, Pakistan, Japan, Indonesia, and the Philippines, perhaps, Canada and Australia, if western powers are desired.

Quemoy is only the most recent evidence of single-handed U. S. action in the Far East. The Southeastern Asia Treaty Organization (SEATO) should have had more eastern members. Mr. Vincent approved of the move the U. S. met the Communist threat in Korea, but warned against overhauling military considerations and defense pacts designed to show our superiority. "In the eyes of allies, the United States has tended, since Korea, to proceed only on our own evaluations, whereas we should consult others, particularly the eastern nations." He also warned against our presumption to speak for the free world.

Religion And Politics
There has always been a good deal of speculation as to how much of a factor being of a minority religion plays in one's chances. The blame for the loss of the 1952 election was erroneously placed on Al Smith's Roman Catholicism. Since then such notable Jewish men as Herbert Lehman, Richard Neuberger, and Jacob Javits have won places in the United States Senate. The 1958 campaign gave further evidence to the absence of religious prejudices from American politics.

European Outlook
It was interesting to note the reports of the elections from London to Paris. There was more than the usual vague interest in what happens in our political campaign. The great interest was attributed to the Democratic sweep. It was interpreted as a vote of no confidence which shows both the influence of the parliamentary system on their thinking and their misconceptions about American government.

1960
1960 brings the Presidential election, and in 1958 voluminous speculation. One thing that requires no speculation, if the sun stays in the sky, the Democrats will maintain control of the Senate on the strength of their margin of gain this year. This will be so even if such stalwarts as Humphrey and Douglas lose. But what about the Presidency?

The South
The South finished its off-year political life in the middle of August with the end of the primaries. The big issue this year in the primaries was that of moderate versus reactionary civil rights. There was no decision. The reactionaries can point with glee to the gubernatorial victories of Faubus and Buford Ellington. But the moderates can boast of the return to the Senate of Ralph Yarborough (Tex.) and Albert Gore (Tenn.). Both voted for the Civil Rights Act of 1957 and yet have survived.

Alaska
One of the interesting peculiarities of this campaign is that it marks the first addition to the Senate since Arizona joined the Union in 1912. The 49th state will make an upper house of 98 members. In the light that Alaska will have to have one seat in the House, and that it is not fair to take away from one of the 48 without a census, they are going to stipend the law-established quota of 433 and add one to Alaska until the results of the 1960 census are recorded. Alaska went to the polls on November 25.

'Democratic Groundswell'

(Continued from page 1)

A Fight For Nixon
To the glory of many Republicans and even some Democrats there is now a strong contender for Mr. Nixon as self-appointed head of the Republican Party and nominee for the Presidency in 1960. Nixon was hurt also by the complete loss of California. Many even think Mr. Rockefeller is ahead in the race for the laurals of 1960, but Nixon can not be denied in position of power. The Republican Convention in 1960 looks like a real horse race.

The Galaxy
As there are two Republicans in the running, there are at least half a dozen Democrats in a mad scramble. Kennedy made the country look up when he won Massachusetts with a plurality of 570,000, but people out of the area seem to forget that "you can't beat somebody with nobody." Mr. Celeste was not much more than a nobody in politics. Of the same breed is Gov. Minor of New Jersey whose chances were helped by the election of his man, Harrison Williams to the Senate. Symington won big. Lyndon Johnson is a compromise, a "Soppy" Williams, though he did win by too big a margin, has been calling himself a candidate for some time behind his back. Some say that Brown, but most admit that he is not the caliber. If the party splits and the liberals run the show a Douglas or Humphrey could get it so you pay your money and ...

Right To Work
The right to work issue was significant in many respects. The referendum in six states lost except for agrarian Kansas. In industrial Ohio and California it added to the Democratic landslide, and the fact that Knowland ran far behind Knight in California made the latter's refusal to associate himself with the issue of his running mate who supported the anti-unionism of those of Dewey.

POLAR BEARINGS

By Mickey Coughlin

This column is to be dedicated to the fall teams: a thank you note for the bygone season.

Football

Although the football season saw no victories, a lot of good play was flashed here and there. Much of the play was given by eight seniors who have competed in their last game of Bowdoin football. Their stick-to-it attitude is surely evident as they went through three seasons with one victory and never gave up the ghost. The captain, one of the most hustling and driving players to don a Bowdoin uniform, deserves a special pat on the back. The day Gene Waters gives up will be the day when there is a foot of ice on the Bowdoin campus in mid-July. A gentleman in every respect, he is to be commended for his spirited play. Other seniors deserving more than a kind word or a pat on the back are Al Merritt, Mike Karavatos, Rick Hurll, Jim Carathan, Dick Adams, Ron Tripp, and Rod Collette. To these eight men, Bowdoin says a word of thanks.

However, next season the prospects are quite a lot brighter. With a lot of sophomores playing this year, a number of good juniors, and a banner freshman crew coming up, the new football coach should be ready to mold a winning team. Seasonal stalwarts as Bob Hawkes, Don Prince, Jack Condon, Joe Carven, Gerry Haviland, and Jack Cummings, along with late season comers Burt Needham and Terry Sheehan, will return next year to be challenged by some good men from this year's edition of Polar Cub football.

An interesting note is that the state's leading yardage gainer on passing, Polar Bear quarterback Jack Condon, had a net yardage of thirty nine less than the nation's leader in that field, Huntington of Arizona, who had a total of 887 yards gained in eight games. Condon passed for 848 in seven games! The second highest on the national rating, according to Sports Illustrated, was Humphrey of Baylor, with 740 in seven games. Just think of all the Condon aerials that were dropped, too. . . . Congrats to Condon, who made our second All Maine team.

Cross Country

Another fall sport deserving mention is cross country. Again not faring so well, the runners from the freshman team will be a decided asset come next fall. The only grudging member of the team is Captain Tom McGovern, who will be definitely missed by the harriers in the next campaign. Six members of the varsity will return next fall along with some seven or eight sophomores who this fall lost only one meet.

Soccer

The last fall sport to be mentioned is not necessarily the least. The first season in Bowdoin's history was climaxed by a 2-1 victory over Bates on Homecoming day, and the interest for soccer is high among Bowdoin students. The varsity will lose only two members, and the unbeaten, unscored upon freshman team will move up en masse next fall.

Two Games Per Week?

Last week I read in the Bangor Daily News that Bates coach of football, Bob Hatch, thought it a good idea for Maine college football teams to play two games per week. "To be sure, this setup would give more men a chance to play, and would cut down the dreary practice sessions, but would it really attract more men, as the Bates coach seems to think?"

Above left is indoor track Captain Larry Wilkins displaying the form he will use in leading the Polar Bear trackmen. On right is Basketball Captain Dick Willey preparing for a foul shot. Below is Hockey Captain Roger Cox preparing to stop the incoming puck. These three men, plus Bruce Chalmers and Bob Kaseh, Captains of the Ski and Swimming teams respectively, will lead the White winter sports.

Also outstanding is Bill Riley, a pool record-holder in the hundred yard butterfly. He will be next year to add much in his events. Looking good in the distance events, Tony Young and John Under will hold down this position. Pete Boy and Dick Lowell, are two other freestylers that should add points for the team this year. The only "orthodox" man on the team this year, Charlie Mylander will be swimming all the conventional breaststroke events. Working hard to replace the New England record holder, Bob Plourde, is Jon Scarpino, a hard working sophomore backstroke. George and John Frost will be holding down the freestyle positions. Entin is a returning letterman from last year's team.

The Freshman team may be able to look forward to quite a good season this year. The Frosh are well distributed as far as freestyle, but they are lacking in the backstroke. Miller stated that he is looking forward to next year when he will be able to combine the two squads. This will give him more depth and should strengthen the team in the years to come.

The Freshman have a good schedule and will swim at Portland, Deering, South Portland, Cheverus, Edward Little, Exeter, and Hebron. The opening meet will be an informal one against Brunswick High School at our pool on Dec. 12.

Candidates for this year's Freshman team are: Lennie Lee, Walter Davis, Terry Allen, Bryan McSweeney, Reed Hamilton, Boyd Finch, Dick Merrill, Chip Hastings, Steve Lipert, Curtis Eiton, George Christopher, Phil Austin, and Tony Davis.

The Varsity hockey team, which is to open its season with Merrimack here on Dec. 3, is working in earnest for the opening season. Coach Neil Corey reports that the Polar Bears will have a scrimmage this Friday and Saturday with Providence College at the arena. Friday night scrimmage will be 7-30 and Saturday afternoon will be in the afternoon. Corey states that "this scrimmage will show us how much and how fast we are going to have to skate to be in contention this year."

At present, no starting lineup is certain as practice has just recently begun. Players slated to see action are Captain Roger Cox, Bob Firo, Rose Hawk, Ted Sandquist, the two Mactrom Griffin, and others.

Although 32 of 60 representative institutions compelled all students to attend chapel in 1913, in the same year several prominent institutions such as Harvard, Johns Hopkins, and Cornell had voluntary chapel attendance.

Critic Finds Curtis String Provides Precision, Alacrity

Two of the outstanding performers at last Monday's Curtis String Concert.

The Curtis String Quartet presented its annual Bowdoin concert in the Pickard Theater Monday night before a large and enthusiastic audience. The group, Jascha Brodsky and Enrique Serratos, by Professor Frederic Tilton at the piano.

Presenting a thoroughly enjoyable and varied program, the artists performed with precision ensemble, laudable tone quality, and overall musical alacrity.

The first half of the program consisted of the Quartet in F major, Opus 15, No. 1, by Ludwig van Beethoven and Bela Bartok's Quartet No. 2, Opus 17. The Beethoven Quartet is in the strict Classical style and is a delightful and happy creation. The first movement, Allegro con brio, provided an excellent chance for the performing quartet to make fine use of interpretation of dynamics and levels of tone. The tender Adagio second movement rose to brilliant climax followed by a gradual and almost sorrowful descent. The cello passages in this movement were particularly riveting. In contrast to this serious and slow movement, the Scherzo was light and gay. Orlando Cole, the cellist, aptly illustrated the general feeling of this movement with his swinging motion. The very spirit of the music, the final movement, Allegro, had a clear and sharp quality in each note, combined and reflected in the harmony and beauty of the whole effect.

The second quartet performed was a definite contrast to the Beethoven. That the Bartok Quartet would be different was admitted and anticipated. This writer has often looked with some distaste at the music of this twentieth-century composer, but the visiting artists' performance of this composition was a revelation. The music was played with a technical standard of perfection. The music was magnificent. It is by no means a simple composition, but the Curtis Quartet presented ample evidence for their fine reputation with their handling of this distinctly "modern" piece.

The first of the three movements, Moderato, is intensely dramatic with terrific changes in texture and startling harmonic patterns. The second movement however, was the most impressive insofar as the "difference" of the composition was concerned. The sound-injection of this movement were electrifying. It was thrilling by virtue of its noise, strong, dissonance, and tense harmony. There seemed to be great energy and terrific urgency in the playing as well as the music itself. Dissonance again, but of less violent nature was found in the third movement, Lento. It was slow and full of pathos, oppressive rather than violent. The gradual increase in volume was most effective in creating and maintaining this oppressiveness. Despite the non-conformity of this particular quartet, the audience was evidently quite pleased and excited by both the work and the performance.

The second half of the program was devoted to the Quintet in E-flat major, Opus 44 by Robert Schumann. In the opinion of one writer, this quintet is "one of the consummate masterpieces of all chamber music." While the Beethoven quartet was happy, the Schumann different and sometimes violent, the Schumann is serious

Streetcar . . .

(Continued from page 1)

too. To convey these weaving impressions, sharply takes a deep understanding of the character and his happy to report that Kramas did an admirable job. The opening scenes which are perhaps the hardest for the actor and where faltering might occur, Kramas exuded not only the almost unnatural loyalty felt by Mitch for his mother, but the brooding quietness inherent in his nature. He was in turns delightful, impulsive, rejected, and even passionate in the scene where he brings Blanche back home. The character of Mitch is further made difficult by an absence of props on the part of the playwright in several key scenes. It was in Mitch's last scene that I decided once and for all that Kramas was to be congratulated, when one could sense merely by the actor's face the horror Mitch feels from Blanche's words.

SUPPORTING PLAYERS:

The minor parts were handled with just as much skill as the leads. Steve and Eugene Hubbell, Rod Forgan and Mary Chittum made a sparkling duo. That Forgan was not always pleasing to the ear, having a voice too often peevish, was exonerated by the force and decisiveness in which he portrayed the Kramas' upstairs neighbor. He did as much with Steve as could be done. In the role of his wife, Mrs. Chittum turned in a colorful performance. She has the attribute of always BEING on stage when she is on stage. I particularly enjoyed the way in which she vented her venom on Stan in the scene of the masterly theatrical imagination where Stella edges her way down the stairs to her husband.

The Allegro brilliant first movement has a sturdy and colorful dominant theme which was very effectively interpreted by the piano. The entire composition is stately, but this staidness is perhaps best evident in the second movement, in modo d'un Marcia, which was thrilling in its majesty of homophonic chords alternating with brilliant counterpoint. The Molto vivace third movement in its Scherzo form and is characterized by rapid ascents and descents which have a fulness creating a total effect of clarity, speed and vitality. The artists again here, as so often during the concert, exhibited a real feeling for the work. By far, the finest opportunity to appreciate the excellence of the piano performance was afforded in the final movement, Allegro ma non troppo. The recurrent theme here continues and enhances the majesty of dynamics, texture, blend, and virtuosity all combined in this last movement. With Professor Tilton's handling the piano part with skillful technique and magnificent artistry of interpretation, the composition took on an emotional quality and great beauty which provided a stirring climax to a memorable concert.

IMPORTANT NOTICE

SENIORS!

The Placement Bureau wishes to remind those who have taken registration forms from the Bureau that the deadline date for returning completed applications for December 1. This is imperative if you wish to take advantage of the industrial interviews to follow. No applicant will be considered a candidate for an industrial interview unless his form has been completed and returned to this office prior to interview date.

Union Movies Reviewed For Entire Season

The Student Union Committee presents a selection of the movies this year, among which are such immortal greats as *Anastasia*, *All Quiet on the Western Front*, and *Quo Vadis*.

In detail, the movies are as follows:

Nov. 22 Mr. Roberts, with Henry Ford, James Cagney, William Powell, Jack Lemmon. A delightful comedy about the crew of the USS Reluctant and their executive officer.

Dec. 5 *Anastasia*, with Ingrid Bergman, Yvonne De Carlo, and Helen Hayes. A fascinating dramatic story of the search for the surviving member of the Russian Imperial family.

Jan. 10 *Quo Vadis*, with Humphrey Bogart, Joe Ferrer, Van Johnson, and Fred MacMurray. This all-star cast superbly enacts the love emotions and drama beneath the decks of the combat vessel *Caine* in the Pacific in World War II.

Jan. 17 *High Noon*, with Gary Cooper and Grace Kelly. An Academy award winner that should not be missed.

Feb. 14 *The Detective*, with Alec Guinness, Joan Greenwood, Peter Finch and Cecil Parker. Father Brown pursues criminals to reform their souls.

Feb. 21 *All Quiet on the Western Front*, with Lew Ayres, and Louis Wolheim. This movie traces the adventures of seven young school boys who enter the Imperial Army in 1914, and learn of fear, filth and destruction during four long years of combat.

Feb. 28 *Death of a Salesman*, with Frederic March, Mildred Dumtrach, Kevin McCarthy, and Cameron Mitchell. Frederic March as Willy Loman, the salesman who believed and taught his sons that a person's personality was the key to success, is unforgettable in one of the most difficult and demanding roles of his career.

March 7 *Quo Vadis*, with Robert Taylor, Deborah Kerr, Leo Genn. A thrilling story of the birth of Christianity together with the spectacle that was Rome.

March 14 *April Love* (Campus Chest) with Pat Boone, Shirley Jones, Arthur O'Connell. An entertaining story of a big town boy who comes to his uncle's farm in Kentucky and learns the ways of farm life and in an exciting climax wins the local stakes race.

April 4 *Rebel Without a Cause* with James Dean, Natalie Wood, Sal Mineo. A story about a boy who becomes a juvenile delinquent, his relationship with his family, and how he finally straightens himself out.

April 11 *Blackboard Jungle* with Glenn Ford, Anne Francis, Louis Calhern. A dramatization of the experiences of an earnest teacher who finds himself terrified when his school is turned into a blackboard jungle.

April 18 *It Happens Every Spring* with Ray Milland, Paul Douglas, Jean Peters. The delightful story of a chemistry professor who discovers a fluid which makes everything allergic to wood. The shy professor does not only become a great baseball player, but also finds out what love is all about.

Schretter Seeks Annual Victory At Vt. Debate

Senior Alfred E. Schretter of Florham Park, N. J., will attempt to set a rare individual record this weekend as he and seven other Bowdoin debaters take part in the annual University of Vermont Debate Tournament on Friday and Saturday, Nov. 21 and 22.

Last November for the third consecutive year the Bowdoin team of Richard E. Morgan of Hemenway, N. Y., and Schretter compiled an all-winning record in the Vermont tournament, giving them a mark of fifteen consecutive victories there. This year Schretter will team up with Theodore A. Perry '60 of Waterville, who won four of five debates at Vermont in 1967, as he tries to make it twenty in a row.

Schretter and Perry will defend the position that there should be an international agreement to prohibit the development of nuclear weapons, as will Bowdoin's second affirmative team of John W. Condon '60 of Brockton, Mass., and Stephen W. Silverman '61 of Dover, N. H.

Frank C. Mahneke '60 of Morristown, N. J., and Peter S. Smith '60 of Danbury, N. H., will form one negative team, and Alan R. Baker '62 of Great Neck, N. Y., and Peter S. Smith '60 of Danbury, N. H., will form another.

A year ago at Vermont debaters had an overall record of 10 wins out of 20 debates, a mark that was unsurpassed by any of the other 45 participating colleges and universities.

Schretter, a graduate of Keene (N. H.) High School, is president of the Debating Council this year. He won a plaque last March as the best individual speaker among the 250 who took part in the Brooklyn College tournament. He has won first place in both the Scholastic and the New England Association of Collegiate Registrars and Admissions Officers.

In his capacity as president at the Association's annual meeting, November 13th and 14th, at Northampton, The New England Association, which is the regional branch of the National Association, promotes the exchange of information and ideas regarding admission techniques among the colleges of the area.

April 25 *The Thing with Two Heads*, with Margaret Sheridan and James Arness. A masterful science-fiction thriller, fully plausible, about a group of scientists in the far north who discover a being increased in a block of ice.

College Registrar Presides At Meeting

Miss Helen Johnson, the College Registrar, has for the past year been president of the New England Association of Collegiate Registrars and Admissions Officers.

In his capacity as president at the Association's annual meeting, November 13th and 14th, at Northampton, The New England Association, which is the regional branch of the National Association, promotes the exchange of information and ideas regarding admission techniques among the colleges of the area.

Quimby Speech Twenty-three Analyzes New Schools Enter Debate Trials

In his chapel talk of November 15, Professor Quimby highly commended all the various men who produced and starred in the college's production of "Streetcar Named Desire."

Professor Quimby then went on to discuss the lives of the three debaters who were giving the lecture series on the American theater this week and their work with the American stage.

He also brought to the attention of the students the proposal that in forty different cities across America, forty different professional theaters be established. These forty groups would tour the country, staying at each of the cities one week. This would give to these cities a full forty-week season of all manner of drama, what the professor called a "rich diet of classic and experimental plays. It would also provide a 'training' operation for the young desire of acting, writing and producing."

Clarence Derwent was classed in the talk as the "ideal person to open our series of lectures." Mr. Derwent presented his talk in the Pickard Theater on Sunday, November 18. He discussed the relationship between the academic theater and the professional theater, and he is an internationally recognized figure on the scene of the American stage, being a noted actor in England as well as America.

"A triple find" is Howard Lindsay, said the professor. "He is a producer, actor, playwright, and perhaps the most active member of the American stage since 1909." In the past years, Mr. Lindsay has spent a great deal of time assisting young playwrights through an organization of which he is president—the New Dramatists Committee. He has a "particular interest in the playwright." Mr. Lindsay is to speak tomorrow in the Pickard Theater, 8:15.

The third speaker will be Miss Jean Darville, who "began acting in her teens, and took on the difficult task of reviving hit shows at popular prices in the New York City area." She will speak in the Pickard Theater on November 21, being the concluding speaker of the series.

"The American theater at the Brussels Fair is an example of how the theater acts as a part of our efforts to bring better understanding between men."

Hawkes, Sheehan, Downes Elected To Junior Class Offices

"Swede" Nelson Speaks At Walsh's Final Football Banquet

**Famed Speaker
Lauds Adam's
Past Career
Walsh Cites Need
For Football
In Future**

Beginning the program for Adam Walsh's last football banquet, President James Coles expressed his "appreciation to Adam for the year he has given Bowdoin College."

Following this Walsh was presented a lifetime pass to all Bowdoin College Athletic events by Director of Athletics, Malcolm Morrill. Mr. Morrill said that he desired to have winning teams that not overcome the colleges overall program. Citing Harvard as a school which has managed to keep a high scholastic rating and yet improve its athletic team, Morrill said, "We can do what they can do."

On his last occasion in an official capacity, Walsh expressed his desire to see football remain in its present position as a bulwark of men. Quoting Teddy Roosevelt, he said "The credit belongs to the man who was actually in the arena." Walsh complimented this with words from famed sports writer, Grantland Rice—Football "is the maker of a man." It is necessary, Walsh said, for the college man of today to be better than the average individual.

In presenting the new Gordon Trophy to Captain Gene Waters, Walsh expressed his heartfelt thanks to all those who played under him, and stated that Waters was one of the greatest players of all time. The Gordon Trophy, presented in honor of William Gordon '50, is to be given each year to the football player who has been an outstanding sportsman and student.

Captain Waters expressed his appreciation for the award and cited that the football team overcame adversity to obtain a high level of spirit. He said, "It is a measure of heart, spirit, and fight."

Captains of next year, Bob Hawkes and Joe Carven, spoke shortly in response for the underclassmen of the football team.

The main speaker of the evening, Nils Nelson, introduced by known as "Swede," was introduced by Master of Ceremonies, Dr. Han-

correspondent To Give Views On New Russia

At 8:00 on Monday, December 15, Paul Niven, Jr., '47, CBS News correspondent who was recently expelled from Russia, will speak in the "Swedish Society." The lecture is being sponsored by the Student Council.

Niven covered the Moscow beat for CBS News for 10 months, until October 8, 1956, when he was expelled and his news bureau was shut down. He has since been re-admitted to his present position as Washington bureau. A Bowdoin graduate, he has covered the British portion of the program from 1951 and 1953; the coronation of Queen Elizabeth II in 1953; the detention, arrest and release of Gerhart Eder, after his flight to England from the U. S.; United Nations Assembly meetings in France; and the saga of the Flying Enterprise, in which he broadcast an exclusive "live" interview with Capt. Kurt Carlsen as he landed at Palmout after his ship had gone down. More recently, Mr. Niven has covered the elections in Poland, the Nikita Khrushchev and the Russian triumph of American pianist Van Cliburn. He has also reported for the "See It Now" series in the Far East.

The smashing triumph of America's Van Cliburn and the adoration of the Russian people reminded Niven of American "bobby-soxers" and their swooning over Frank Sinatra in an earlier day. Renowned composer Dmitri Shostakovich found himself unable to enter the concert hall readily and had to wait in line with hundreds of other eager Muscovites.

Western nation tourists are having a field day in the Soviet Union, and a visa can walk into most of the diplomatic parties at the previous embassies with few restrictions.

The picture of party boss Khrushchev, "who was well informed on every imaginable topic, an adroit politician." At several embassy parties, the Communist leader dashed out into the crowd, shook hands and kissed the women with tremendous enthusiasm. When his chauffeurless limousine pulled up, he hopped into the front seat next to the driver and waved wildly to the crowd as the car drove away. When Niven asked an officer of the MVD if it was dangerous for the press to mix

Edward Coombs, Nils Nelson, Adam Walsh, Dr. Hanley (behind trophy), and President Coles, as they appeared at Adam Walsh's testimonial banquet last Tuesday evening, December 2, 1958.

Nelson played fullback on the championship team of Harvard in 1915, was coach of the College All-Stars for three years, served as a backfield coach for Harvard for ten years, and served in the U. S. Navy in World War II. He is the founder of the Nelson Award of Sportsmanship.

Nelson stated that not only was Walsh a great athlete in his day, but also that he "treated every body like a gentleman." Adam is a complete success as a human being. He said that "Athletics is a yardstick of all life, and that without enthusiasm life is not worth living. This requires a courage received often by a football player."

Nelson pointed out that it takes a backbone, a funhouse, and a willingness to be not only a successful football player but also to be a success at life.

Glee Club Gives Joint Concerts With Smith Club

On the evenings of Dec. 5th and 6th, the Bowdoin College Glee Club and the Smith Club gave joint concerts in Worcester and Portland.

The Smith Glee Club, under the direction of Miss Ida Dee Hatt, is truly one of the finest women's choruses in the country. This fact was made clearly evident at the joint concert with the members of the Bowdoin group last weekend, as they were given the opportunity to hear.

Joined with the celebrated Northamptonites, the latter possessed a remarkable repertoire of songs, and singing, in addition to an equally amazing tone, made possible by a strong alto section and a nearly perfect gathering of sopranos. The Bowdoin Club, this year under Mr. Robert K. Beckwith, was unusual in good for this entry in the concert season; a large number of freshmen promises much for the club this year.

The program for both nights was the same; undoubtedly the vocal concert was far superior to that in Worcester, the conditions under which the groups sang being better. Three numbers were sung jointly: "The Song," "Purcell's 'Jubilate in D,'" directed by Miss Hatt. The solos were Virginia Knap and Judith Wolfe of Smith, and Clayton Bennett '59, members of the Portland Symphony Orchestra accompanied.

The success of this piece can be attributed to Miss Hatt's enthusiastic leadership, the superb vocal performance, and to blend the elements of two Glee Clubs into one, the music into a unified whole. Her goal was certainly achieved.

Balancing this 17th century composition was Gerald Finzi's "Magnificat," written in 1952 for Miss Hatt and Mr. Beckwith. With the latter's direction, the potential of the piece for inspiration was realized. The final joint number was "Fantasia of Christmas," with Clayton Bennett as soloist. This work captured the English carol, the weekend a whole fitting and to an evening of song.

The highlights of the Bowdoin portion of the program were Debussy's "Invocation," with Ray Demers as soloist, and two arrangements by Dan Bernstein, "Plenty Good Room" and "Great Day." Though these last two are light numbers, they provide a strong test for the club, and were done correctly (as they were in their first performances), are hailed as the weekend's whole was one of the most enjoyable ever experienced by the Bowdoin Club, judging by its performance with the Smith Club and by its own numbers, this year will produce one of the finest Glee Clubs to exist on the Bowdoin campus.

Lindsay Proud Of Theatre; Dalrymple At World's Fair

"Although the professional theatre has ceased to be a mass medium, the American theatre is flourishing." Howard Lindsay, well known playwright, producer, director, and actor, declared on November 20 in Pickard Theatre.

"The New York theatre is supported today in great part," according to Mr. Lindsay, "by the charity benefit and by the business executives' expense accounts. The theatre lover of ordinary means sees fewer plays and shops for those more carefully."

"But without the loyalty of the theatre lover, there would be no theatre. Nothing has replaced the theatre at its best is still better than any of the other fields."

"As the number of road theatres and touring companies has declined," Mr. Lindsay continued, "the number of non-professional theatre, and the thousands of amateur organizations throughout the country. Therefore, looking at the whole picture, the American theatre is flourishing."

Television and the motion picture are now aimed at the individual, Mr. Lindsay said. "These two media of mass entertainment, therefore, have to aim at a larger, if not lower, common denominator. Beyond the competition which the theatre has suffered at the hands of these expensive forms of entertainment, rising production costs have priced the theatre out of the market."

Mr. Lindsay's talk was the second in a series of three lectures on "The Modern American Theatre."

Smith, Perry Take Honors In Alexanders

Peter Smith and Theodore Perry took first and second places respectively, in the Alexander Prize Speaking Contest presented before the Bowdoin Club, Monday evening. Smith's selection, a humorous piece called "The Patriotic Sermon," was delivered in a part of the Calne Muttiny Court. He portrayed Captain Curlew in his defense of himself before the military tribunal.

Other contestants included Nick Monsour performing "Light in August" by Faulkner, Phil Austin performing "The Snow," and Larry Schenwald in Zola's "An Apostle for Dreyfus." Don Parker and "Ladies" by Bencher. Also, Peter McGuire presented "The Snow Goose" by Gellison. Tony Powers with Parkhurst's "The Snow Goose" and Ted Curtis giving Aeschylus' Memo to a Hungarian Patriot.

The Zeta Psi quartet provided a rare combination of humor and singing during the intermissions. Dean Kendrick, presided at the event. The program was under the direction of Norman T. London of the English department.

ORIENT Reveals Need For Greater Financial Support

"During last year the Orient incurred a deficit of \$1,000 approximately. This was largely the result of increased printing costs. In the past two years printing costs have risen over \$2,300."

At the commencement of the current year the Bowdoin Publishing Company, anticipating a loss of \$1,300, increased the subscription cost from \$3 to \$4 and raised the cost of advertising for local merchants by 25 cents per column inch, bringing the total cost to 75 cents per inch. Plans were formulated to ask the Blanket Tax for an increase from the present \$1,600 allocation by approximately \$1,000.

However, during the fall the cost per issue rose in the vicinity of \$20 over last year. This made the anticipated deficit rise by another \$1,400 making the anticipated deficit about \$2,300. Thus the demands for an increase in Blanket Tax became a necessity.

In several meetings the Publishing Company discussed the two possibilities—increasing revenue and decreasing costs—to meet the crisis. Two of the three sources of income, it was concluded, had been fully exploited—the subscription and the advertising rate. However, it was felt that the advertising department should work toward increasing the quantity of local advertising. There has been a marked improvement in this area over the past year. Local advertising has increased from 80 inches on the average two years ago to over 100 inches this year.

On the cost side, the possibility of decreasing the size of the cost somewhat, perhaps as much as \$15 per issue, according to Jerry Wilkes of the Record.

It must be remembered that a paper of this size would decrease the advertising potential.

Printing costs of other concerns have been studied and, although there is some difference on the cheaper side, this economy was felt to be unproportional to the convenience and quality of the present publication.

Other expenses, such as telephone calls have been placed at a minimum in the hopes of saving between \$100 and \$200.

Thus the final area which the Orient can exploit is the Student Body. The Student Body, which receives \$5,700 and the Orient \$1,600, Crum and O'Neal went before the Student Council with an explanation of the situation and a proposal to increase the Orient allocation from the activities fund by three dollars. "This would mean an increase in the current rate by the three dollars. The individual houses must now vote on the proposal and then it will go to the Blanket Tax Committee."

Masque & Gown To Present Shaw Play On Friday

George Bernard Shaw's "The Apple Cart" will be presented Friday, December 12 at 8:15 in Pickard Theatre. Prof. George Quinby is directing the Masque and Gown production. The play, which will be a reading, was a popular success a few seasons back on Broadway with Maurice Evans and Signe Hasso playing the major parts.

In the role of King, Quinby was on the production end of the production. The play, which will be a reading, was a popular success a few seasons back on Broadway with Maurice Evans and Signe Hasso playing the major parts.

Football Captain Assumes Role As President
Ivy Day Ceremonies First Obligation
For New Heads

The Juniors elected Bob Hawkes President of their class in their recent class election. Terry Sheehan was elected vice-president, and Dick Downs will assume the role of secretary-treasurer. The election was held Monday and Tuesday, December 1 and 2, under the auspices of the Student Council.

Bob Hawkes, winning by a large majority, will remain permanent President of the class. His first and biggest job will be the organization of the Ivy Weekend ceremonies. Hawkes lives in Danvers, Massachusetts, and is a member of the Sigma Nu Fraternity. He was an Alumni Fund Scholar his first two years, and is majoring in Physics.

During his freshman year, Hawkes earned his numerals in basketball, football, and football. He has played first-string halfback for the football team the last two years, and has been elected Co-Captain for the coming season along with Joe Carven. This past year Hawkes was Bowdoin's high scorer, with 36 points. This season he was the second best Maine basketball player, catching 20 passes for a total of 324 yards. During the season he carried the ball 72 times for a distance of 232 yards and an average of 3.22 yards per carry. While at Danvers High School, Hawkes was a letterman in basketball, football, and football. He was a member of the Student Council, and worked on the school paper.

Terry Sheehan, as vice-president, will help President Hawkes in his duties. Sheehan is a member of Delta Kappa Epsilon and is majoring in Chemistry. He has been a member of the Student Council, and worked on the school paper.

Dick Downs, who was elected secretary-treasurer, has been on the team's list since his freshman year. He won his numerals in football, basketball, and football. He has earned his letter on the team's list since his freshman year. He won his numerals in football, basketball, and football. He has earned his letter on the team's list since his freshman year.

SOCKS CAPTURE TROPHY IN POTOMAC FROSTBITE REGATTA

Polar Bear Skaters Trample Merrimack: Stalemate Hamilton

A fast and strong Polar hockey team opened its season last Wednesday night by defeating Merrimack 6-1 at the arena. Featuring a powerful first line of the Mostroms and Ted Sandquist, the team displayed a surprising amount of depth and speed and shooting ability. Unfortunately, the game was marred by two fast fights as both teams were out to open the season with a win.

The starting lineup for Bowdoin placed Bob Fritz in the goal, Captain Roger Coe and Ross Hawkins on defense, and the Mostroms and Sandquist on the line. From the first few minutes it was evident that this was a White night. Only the superb playing, with a little help from Lady Luck, by the Merrimack goalie prevented the game from turning into a rout. At 8:32 of the first period the Pucksters broke into the scoring column as Tom Mostrom took a pass from Ross Hawkins and slammed it past the helpless Merrimack goalie from fifteen feet out as Merrimack was shorthanded.

Late in the period the White was two men short for over a minute as both Dave Cole and Tom Mostrom were sent out. But Merrimack was unable to score as Bob Fritz put on a sensational display of goalkeeping. Thus the first period ended with Bowdoin on the long end of a one to nothing score.

The second period opened with a goal by Tom Mostrom being nullified for a high stick, but shortly after, at 5:01, Dave Hunter scored from in close, the assist again going to Ross Hawkins. Two minutes later Roger Coe fed Rick Mostrom the puck at center ice and from there he outskated the defense, faked out the goalie, and sent the puck skidding in the corner as he flashed past the goal.

Late with only four minutes left in the period brother Rick scored his second from fifteen feet out on a beautiful feed from line mate Ted Sandquist, making the score 4-0 Bowdoin. Then with about three minutes left Dave Cole, Ted Sandquist and two Merrimack players were sent off for roughing as the gloves dropped and the boys squared off. But although there were only six players skating, neither team scored and the period ended with Bowdoin four goals to the good.

At 13:27 of the final period Ross Hawkins was sent off and a few seconds later O'Brien of Merrimack spoiled Fritz' shutout as he

poked in a rebound past the prone goalie.

But a few minutes later the White came back and on a beautiful exchange of passes starting in the Bowdoin end and culminating with brother Rick taking the pass from brother Tom and slapping it past the faked out Merrimack goalie. The White made it 5-1.

Shortly after there was a pileup in front of the White cage with Roger Coe coming out swinging but the refs quickly broke it up and Roger drew two minutes.

The final White goal came with only 1:24 left to play and Merrimack shorthanded. Tom Mostrom took a pass from Ted Sandquist and slung it past the Merrimack goalie before he had a chance to move. The final score, Bowdoin 5, Merrimack 1.

Special credit must go to Rick Mostrom who made the hat trick pass in his first varsity game. Tom Mostrom, who scored twice, and Goalie Bob Fritz who played an outstanding game in the nets.

Hamilton

The White lermen played their first game on the ice against Hamilton College Saturday night after Friday's scheduled game against Williams was rained out. The result was a 3-3 deadlock in overtime.

Three days on the road, the Polar Bears were outplayed by the Hamilton sextet in the opening period. Hamilton came up with two goals in the first marker. The second and third periods were a different story however, as the White outskated and outshot the Hamilton squad. Late in the second period, defenseman Ross Hawkins scored on a beautiful forty foot slapshot.

The third period started with Bowdoin on the short end of a 3-1 score. The White continued pressing and late in the period Ross Hawkins and Rick Mostrom scored to even the count at three to three. Only superb playing by the Hamilton goalie, Don Spencer, prevented the Polar Bears from winning in regulation time. He made 15 saves in the last period and robbed Captain Roger Coe, Rick and Tom Mostrom as each broke in alone.

The ten minute overtime found Hamilton putting pressure on as the Polar Bears were a man shy for part of the time. Goalie Bob Fritz made 11 out of his 42 saves in the ten minute period and both teams had to settle for a tie.

Jon Scarpino, shown here diving follows Dick Lowell (foreground) and Bill Riley (in water) in 400 yard relay which Bowdoin won in 4:55.2. The Polar Bears lost 53-58 despite four firsts.

VARSITY HOOPSTERS DOWNED AT M.I.T., U.N.H.: BOW TO TOWERING BU STRENGTH

by Frank Mancini

A large crowd of fans saw Coach Bob Donham's charges open their home season with a 93-55 loss to a big, veteran Boston University quintet, last Saturday night at Sargent Gymnasium.

The Terriers, led by towering Ed Washington's 22 points, toyed with a thoroughly outmanned Bowdoin team. Although the outcome was scarcely in doubt from the beginning, the Bowdoin team fought valiantly all the way. The hustling spirit of this year's squad was clearly shown when Tom McGovern came off the bench early in the fourth quarter. A victory for Bowdoin was out of reach at this point but the 2' 11" senior scored nine points to spark a resurgence that afforded the spectators with a rare opportunity to cheer.

Pete Scott, sophomore forward, was the only Bowdoin man who could match the visitors' giant forecourt. Pete scored 14 points and grabbed several rebounds, but he couldn't do it alone. From the opening period, when B. U. jumped to a 25-15 lead, it was evident that they had full control over both backboards. As a result, Bowdoin was forced to shoot sparingly in an attempt to make its shots more effective. Unfortunately, this strategy could not upset the clear superiority of the Terriers who are expected to make a strong bid for national tournaments this season.

The visitors combined their height advantage with a flashy back-court tandem of co-captain Jack Leaman and Bill Gates, both of whom scored 17 points. Even Coach Matt Zunic added to the spectators' enjoyment when he vehemently protested several decisions.

Eleven members of the varsity soccer team and their manager have been awarded letters. Four other men received varsity numerals.

Bruce Bookmann '60 of Belmont, Mass., and John Evans '61 of Rochester, N. Y., were elected captains for the 1959 season. In addition, Bookmann was named honorary captain for the past season.

The complete list of award winners is as follows:
Bruce Appleby '60, Watertown, Mass.; Bruce R. Bookmann '60, Belmont, Mass.; William F. Bowman '60, West Hartford, Conn.; D. Michael Coughlin '61, Augusta; John P. Evans '61, Rochester, N. Y.; Hilary P. Gardner '61, Garden City, N. Y.; George E. Glover '61, Philadelphia, Pa.; Norman L. Holden '61, Cardonville, Colo.; John F. Meekins '59, Foxboro, Mass.; David Parnie, Jr. '61, Menlo Park, Calif.; James L. Pulfner '61, Turner.

Varsity Manager's Letter: George D. Leavitt, '51, Elmwood, Mass.

Varsity Numerals: Richard G. Balboni '59, Danvers, Mass.; Lars C. Johnson '59, Wyncote, Pa.; Peter D. Sheldon '60, Chappaqua, N. Y.; Charles H. Towle, Jr. '61, Springfield.

Late Sunday evening, Commodore Carl Olsson relayed the good news via telephone that the Bowdoin sailing team had triumphed in the Potomac Frost-Bite Regatta held at Washington D.C. In doing so, the Polar Bear sailors retained the Marvin-Gorman Bird Trophy which they had won the year before.

The White led the pack of seven competing schools with a total of 82½ points. The closest rival was Lehigh with a total of 65 points. The participating colleges in the order that they finished is as follows:

1. Bowdoin
2. Lehigh
3. Georgetown
4. Fordham
5. Swarthmore
6. George Washington
7. Saint Joseph

White Wins D.C. Meet With Carven, Olsson High Point Skippers

Joe Carven was the high point skipper of the entire meet with 45 points. Carven and his crew Earl Miller were the winners of Division B.

Commodore Olsson was the second high point skipper of the meet with 38½ points. He was the winner in Division A, with his crew Charlie Wink.

FROSH SKATERS CUB HOOPSTERS BLAST HINGHAM OPEN SEASON; BY 6-1 MARGIN TAKE MIT FROSH

Bowdoin's Freshman Hockey team opened the season last Saturday by ripping up Hingham High School, 6 to 1. The team is expected to go undefeated through the entire season. Ken Bacon and Newt Stowell each scored two goals, both vying for honors in the goalkeeping. Balsank opened the scoring at 4:34 of the first period with an assist from Gavin Piton. Ronny Famiglietti accounted for the other score.

The frosh scored two in the first period, three more in the second period, and a final goal in the third period. The lone Hingham score was credited to Osborne who sank a five footer late in the first period.

Bowdoin Frosh (6): (1) Hingham, Mass. g. Shaughnessy, J. Chaff, J. Id. Eccleston, J. Famiglietti, c. Stowell, J. Bacon, rw. O'Brien, rw. Doyle. Bowdoin spars: Gresson, Blaseak, Piton, Barten, Adams, Marble, Berthel, Cochran, Adams, MacDonald.

Hingham spars: Vigneau, Delroy, Bennett, Leahy, Breen, Barry, Mahoney, McKay, Chase.

Bowdoin 2 3 1-6
Hingham 1 0 0-1

Carven, Hawkes Lead 1959 Cridiron Squad

Guard Joe Carven and halfback Bob Hawkes have been elected captains of the 1959 Bowdoin College football team. They will succeed fullback Gene Waters, captain during the past season. A True Miller '60 has been elected captain of the 1959 Cross Country Squad. He succeeds Tom McGovern '59.

Tom Belmont '60 has been named varsity football manager for 1959, and Lawrence C. Bickford '61 will be freshman manager.

Interclass Track Meet To Be Held Sat.; Close Competition In Events Expected

The coming of the annual Interclass meet this Saturday promises a lot of action and close contests. The Senior class with only a few competitors, cannot be counted out. Track captain Larry Wilkins will probably head the field in the dash, both hurdles, and the 300. Tom Reiger is not counted on being rushed by anyone in the pole vault and may score elsewhere.

The Junior class is literally loaded. A well-balanced unit, the team contains an array of sprinters,

A Campus-to-Career Case History

John O'Neill likes the interesting contacts his job gives him. At left, he talks with Bill Shaw, Manager of radio station KSTO, about the baseball reporting service John helped develop. At right, he discusses a private-line telephone service with R. E. Kasher, President of The Pacific Coast Stock Exchange, San Francisco Division.

He sells Ideas—to sell communications

San Francisco baseball fans don't know it, but they're indebted to John R. O'Neill of the Pacific Telephone and Telegraph Company.

John made it possible for them to get up-to-the-minute reports on Giants baseball games last season. He sold radio station KSTO on the idea of recording inning-by-inning announcements using automatic answering equipment. Fans would simply dial an advertised phone number. The service began last August, and was a big hit.

That's an example of the kind of creative selling John does. "We really sell an idea and then provide the equipment

to do the job." It's the way John puts it. John joined Pacific Telephone after graduating from the University of California with an A.B. degree in 1956. He wanted to work into management through Sales and was impressed with the training program and advancement opportunities offered by the Telephone Company.

"As a Telephone Company salesman, I deal with owners and managers of top-level businesses," John says. "Every contact is a challenge to solve a communication problem or to sell an idea for better service. What's more, I'm getting valuable experience that will help me move ahead in the telephone business."

John O'Neill is one of many young men who are finding interesting careers in the Bell Telephone Companies. Find out about the opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

ORIENT Situation

(Continued from page 1)

Thus the Orient has two deficits to face — \$982 from last year and the anticipated \$2300 for this year—with its sources of revenue. They can be paid up this year almost completely, or can be assimilated over several years.

To pay them up during the current academic year would require slightly more than a three dollar increase in Blanket Tax and a reduction in the publishing schedule.

Instead of 25 issues, as has been the custom in the past two years, the newspaper could publish 22 issues — until the past two years, 22 or 23 issues was normal. By reducing the publication schedule by 3 issues, and an increase in the Student Tax of \$3, the past deficit and the anticipated one could be remedied, for these two sources would net approximately \$3300, computing the average cost per issue at \$290.

The second alternative of paying in the future is possible, because the loan of the President does not necessarily have to be paid immediately (The Orient borrowed \$2050 from the College to get it over the current crisis). A gradual increase in the Orient allocation through re-working of Blanket Tax appropriations coupled with a small increase in the total Tax is a possibility.

The only problem is that the newspaper needs capital now. Receipts from advertising and subscriptions trickle in slowly throughout the year, while the publisher must be paid up within a month. Therefore, it would be preferable if the student body either accepted the \$3 hike, or made some concrete decision in relation to other possibilities mentioned above.

The facts of the current financial situation are listed below:

Last year's costs:		This year's estimates: (based on 21 issues, plus Commencement as listed)	
Printing	\$4,913.58	Printing	\$6,050.00
Postage	108.50	Postage (at \$290 an issue)	125.00
Telephone & Telegraph	247.08	Telephone & Telegraph	200.00
Stationery & Supplies	112.85	Stationery & Supplies	100.00
Photography	211.25	Photography	150.00
Repairs	55.48	Repairs	75.00
Transportation	55.48	Transportation	50.00
Miscellaneous	56.86	Miscellaneous	375.00
Commencement Issue	346.44	Commencement Issue	75.00
Staff Salaries	—	Staff Salaries	75.00
Prizes	90.00	Prizes	75.00
	\$6,189.54		\$7,200.00
Income	\$1,686.00	Income	\$7,200.00
Subscriptions	1,686.00	Blanket Tax	\$ 618.00
Advertising	1,851.82	Advertising	2,100.00
Blanket Tax	1,530.50	Subscription	\$2,000.00
Miscellaneous	18.40		
	\$5,186.72	Deficit	\$4,700.00
Deficit	\$982.82	Deficit	\$2,500.00
		Deficit of original \$1,600 went to pay last year's debt.	

West Point

(Continued from page 1)

Arthur Smithies, Chairman of the Department of Economics, Harvard.

This year the "Middle Billion" (that portion of humanity lying between the Communist Empire and the Free world labeled as "neutral, contested, or independent") will be of special concern to the policy-makers. Carlos Romulo stated his sentiments on the importance of this area in Boston seven months ago when said, "The United States... must understand that the real shape of the future of the world will be decided in the coming final decades of this century, by the evolution of the peoples of Asia and Africa, and by the role that the U. S. and the American people play in the course of that development."

Recommendations
As the founders of the Conference noted, "it is not expected that participants in SCUSA will solve major problems of U. S. national security in four days. It is hoped that conferees will examine such problems in light of: 1) National objectives; 2) The major obstacles to the attainment of these national objectives; 3) Alternative courses of action open to the U. S. in any security problem discussed; 4) Advantages and disadvantages of each course of action."

However, after such a consideration, the founders hoped that "conferees may be able to arrive at some concrete recommendations as to those courses of action which can make a contribution to the solution of the problems mentioned and the attainment of U. S. objectives."

Round-table topics have been defined by geographical areas. These include: the Moscow-Peking axis; East Asia; South and Southeast Asia; Middle East-North Africa; Africa South of the Sahara; Latin America. Both Morgan and O'Neal have been placed in the first category.

Charlie Graham as the American ambassador, Mr. Graham played Paris in last year's Winter House-party play and a major part in Priest's one-act, Bill Small, Ovid Pomeroy, Paul Dickey, and Nick Spoler are the other gentlemen.

Jean Cousins is Oribia. Mrs. Cousins has made several appearances on the Bowdoin stage.

Among these have been as the girl in Robley Wilson's "The Occupied Man" and the distraught Anna in "Tiger at the Gates".

Irma Black will be seen as the King's mistress. This will mark Mrs. Black's first time on the Bowdoin stage.

Howard Karlsberg is the stage manager. This will mark Mr. Karlsberg's first production job.

The play is open to the student body free with blanket tax and for a dollar for the community.

Masque and Gown announces

The executive committee of the Masque and Gown has announced a change in schedule. In place of Fielding's "Tom Thumb" has been chosen Sam and Bella Spewack's "My Three Angels." This play has seven male parts and three female.

It was a major hit a few seasons ago on Broadway and was made into the very successful movie "We're No Angels" starring Humphrey Bogart, Peter Ustinov and Aldo Ray.

Tickets for the play will be listed on the bulletin board. For information contact Prof. Quinby.

Koelln Tells Ancient Tale On Religion

Professor Fritz Koelln used an ancient tale, the story of The Three Rings, to demonstrate the constancy and truthfulness of religious intolerance.

Before the Monday, Dec. 8, Chapel audience, the professor of German told of a king, who was forced by tradition to choose the one he believed of his three sons to be gifted with a sacred ring and to be made heir to the throne. The king was unable to make a choice so he had two identical rings made and privately presented to each of his sons a ring; and then he died. The three sons each claimed to have the true ring bestowed by the father but their argument remained unsettled for even a tribunal was unable to distinguish the original ring. Finally one wise judge tells them "to take the mat-

Books are not passive companions, they contain the most unflinching statements of our humanity and require of the reader the courage of understanding. From these works vanity has been removed by time, the fragile artist is dead, his art lives and the reader is offered a moment of sharing, a glimpse of wisdom. Perhaps the dead hero is the noblest if he is left behind in a good book.

Fairfield's Book Shop

Brunswick

ter as it is. If each received his ring as testified then each believe the ring the genuine. Your father would not have tolerated this doubling. Let each of you aspire to your father's unprejudiced and impartial love. Let each attempt to let his powers shine forth to prove his ring to be genuine."

The professor explained that every religion believes its "ring" to be from the Father of the World; yet, in the Western world, religions have had to operate in an "open society" in which they all are peacefully side by side. Professor Koelln warned that this situation must continue if there is to be a "healthy development of spiritual life in any free society."

He mentioned that the "socialism" as such in Norway, Denmark and Sweden was merely an outgrowth of democracy similar to what we experience in the United States. That is to say that the Scandinavian countries are increasing rapidly along the sphere of industrial development and therefore must incorporate necessary security for the aged and coverage for workers through compulsory insurance. These three countries Norway, Denmark and Sweden are almost the only place where an American may go and really feel at ease, said Professor Koelln. They are really dependable allies of the Western World.

On the graphic side of Professor Koelln's lecture, the audience saw a wide variety of colored slides including everything from the suburban — like the city of Copenhagen to the grandeur of the fjords which are so characteristic to this part of the world. At the close of his presentation one felt that he had witnessed a superb meld of facts and romantic beauty presented by him at the Technical University of Denmark, the Institut des Sciences.

On Thursday evening, Professor Reinhard L. Koelln delivered an amusing as well as an informative lecture concerning Scandinavia.

Professor Koelln, graduate of Carleton College and Harvard University has lectured extensively in Europe and in Denmark. His theories on operations research were presented by him at the Technical University of Denmark, the Institut des Sciences.

Tryouts for the play will be listed on the bulletin board. For information contact Prof. Quinby.

Niven Lecture

(Continued from page 1)

with the multitudes so freely, the officer shrugged, "Just try and stop him."

Contrary to several news reports, Niven never encountered a "lippy" Comrade Khrushchev. The party boss was well able to handle his vodka and champagne. (When the reporter left Moscow, the citizens were concerned with the new government edict which forces all restaurants to limit each customer to one drink).

Following his lecture here, Niven will fly back to New York City where on Tuesday he will be a member of CBS correspondents participating in a year-end television news roundup. The hour-long program will be shown at 7:30 p.m. on Tuesday, Dec. 18. It can be seen here on Channel 13.

Trying to cover news in Russia is a thankless task. With a Russian interpreter assigned to each Western correspondent, the red-tape and restrictions are ponderous. Censorship, limited movement in the nation and press handouts are the order of the day. When a newsmen wishes to interview an official, or visit a particular government agency, he must file a formal petition in advance. To get any Soviet authority to talk without official clearance is a tough job. Obtaining news film and

Do You Think for Yourself? (HERE'S A TEST THAT WILL TELL YOU!*)

1. If the salaries were equal, would you rather be a college professor than a movie star? YES ☐ NO ☐

2. Would you rather borrow money from a bank or institution than from a friend? YES ☐ NO ☐

3. Would you rather have tests upon you than be warned about them in advance? YES ☐ NO ☐

4. Do you think it's foolish to daydream? YES ☐ NO ☐

5. Do you believe it unwise to eat at irregular hours, even though you're hungry? YES ☐ NO ☐

6. If you actually saw a "flying saucer" land, would you run for your life? YES ☐ NO ☐

7. Would you be inclined to follow the latest style in clothes regardless of how it looked to you? YES ☐ NO ☐

8. Would you feel badly if you thought nobody at all knew where you were? YES ☐ NO ☐

9. Are you confused by the clamor of conflicting claims so many filter cigarettes are making these days? YES ☐ NO ☐

The fact is, thinking men and women don't let themselves get pushed and pulled by all those filter claims. They know what they want in a filter cigarette. And they know only VICEROY gives it to them. A thinking man's filter, a smoking man's taste. Makes sense. Should you smoke VICEROY? If you think for yourself—chances are you do already!

*If you have answered Yes to two out of the first three questions, and No to five out of the last six... you think for yourself!

ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

Friedrich Discusses Probability Of Inevitable Peace In Union Talk

Uses Six Pillars Of Western Thought To Prove Thesis

"Inevitable Peace" — Its philosophical aspects was the topic of Dr. Carl J. Friedrich of Harvard University, who spoke at the Moulton Union on January 8 under the sponsorship of the Student Council and Political Forum.

In his lecture Dr. Friedrich discussed the probability of a coming universal order and peace, the ideas inherent in contemporary Western thought which may bring about such order and peace, and the theories of Immanuel Kant in which the speaker felt these ideas find their best expression.

Dr. Friedrich opened with a few remarks on the background of his subject. His own interest had begun in 1945, the year of both the founding of the United Nations and the 150th anniversary of the publication of Kant's book on eternal peace.

He admitted that the first volume of which was published in 1797, Dr. Friedrich entitled his pamphlet examining both these attempts at peace, but with enthusiasm avowed the pamphlet to be a "little inevitable."

He then turned to the six pillars of Western thought which he felt were the basis of Kant's philosophy. He admitted that these pillars were Kant's own, but he felt that they were the basis of Western thought.

Dr. Friedrich went on to discuss the six pillars of Western thought. He felt that these pillars were the basis of Kant's philosophy. He admitted that these pillars were Kant's own, but he felt that they were the basis of Western thought.

He then turned to the six pillars of Western thought. He felt that these pillars were the basis of Kant's philosophy. He admitted that these pillars were Kant's own, but he felt that they were the basis of Western thought.

Dick Morgan and Don Block are shown talking with Dr. Carl Friedrich.

Denzer Reviews Quill, States "None Of It Terribly Good"

EDITOR'S NOTE: Peter W. Denzer, who is reviewing the Quill, is a novelist now living in Brunswick. He has been a newspaperman for seven years, has held government positions, established an English language newspaper in occupied Germany, and has been a writer in Europe and this country and published three novels, the latest of which is "The Last Heron."

"None of it is terribly good. But your editors show much better taste than the publishers who brought out the works of Mickey Spillane. It is how easy it is to make comparisons if that's what you want."

"But we want criticism. Don't be easy on us. We want to learn. 'Nothing I can do for you, sorry. You're just going to have to suffer.' That's the attitude."

"When I was your age," the old writer began, "the old writer was a writer. But the aspirant interrupted again. 'I know, you got to be a writer.'"

"Stubbornness, sheer stubbornness, trying again and again and again against all advice. With all advice. By reading and not reading. By writing and not writing."

"And then?" "And then? I discovered that I really did not want to be a writer as I wanted to live a certain way. That is to say, I wanted to live a certain way that does not exist, a world which must be made. I wanted to be more human than seemed possible. I wanted to grow through all human experience — to create music, to bring forth crops from the earth, to carve wood and stone, to build a house, to be a wanderer, a husband and a father, a lover and a warrior."

"I think I have some reservations about poetry generally. I think, along with Paul Valery, that literature, particularly poetry, tends to be an exercise, or a game that is played with rules. With poetry the rules are left but the shining, lovely is played sometimes almost exclusively for the sake of the rules. The theory of poetry dominating the form muffles the content. I am more interested in the affect of content than in the form. The form is a primitive kind of expression, an attempt to generalize via a literary form experiences too unique to be generalized. Subtleties must be edited out of poetry until nothing is left but the shining, lovely skeleton — the form on which hangs a few tinkling words. With poetry the form has a specific, unique human event — an adventure — and the poet must be carefully selected details."

(Continued on page 4)

John Sils is the student council representative for Delta Delta Chi. Serving as new officers of Delta Delta Chi are: President, Ron Klipwood; Vice-President, Mason P. Kistner; Secretary, John Bradford, rushing chairman.

Mather Lecture Considers New Forces In World Finalists For Prize Debate Announced

Four undergraduates have been selected to take part in the Mather Prize Debate, February 12. They are Frank C. Mather, Jr., of Brunswick, N.J.; Alfred E. Schreiner, of Elm Park, N.J.; Peter S. Smith, of Durham, N.H.; and Karl B. Westberg, of Brunswick, N.J.

Dr. Mather pointed out that, although there are many "low order" signs of artificial intelligence, the 19th century, there are four basic points in which our world differs from the world of just a few decades ago. The first basic difference is the discovery of immense new sources of the material necessary to life. The limit of world population is now becoming a problem. "Inescapable interdependence, economic and political — between individuals and between nations was the second major discovery of the 19th century. Third was the fact that man now efficiently uses the materials he can distribute. The limit of man's power to get along with world society, which evolved provincially until 400 years ago, is now becoming more and more a world problem. The fourth and most important innovation is the development of 'horrible' new weapons which render it no longer possible for a government to protect its citizens. The means in the past. Now the only guarantee of peace and security is the threat of mutual annihilation and goodwill in the conduct of international relations, and the goal of every foreign policy."

Les Brown To New Laboratory Science Courses

Plays At Witter Houseparty '59

Time Magazine recently quoted Les Brown as saying, "We prefer sound to noise, we prefer the beat over effects, we prefer consonance to dissonance, and we like the melody if it's good." This seems to have been the formula of success for the Band of Renown and its personnel leader. Among the many honors accorded the group, the latest are:

- 1 - Voted #1 in DOWNBEATS annual readers poll.
- 2 - Voted by MESTRONE magazine as #1 big band of the year.
- 3 - Voted #1 dance band in the BILLBOARD magazine annual popularity poll.
- 4 - Voted #1 swing band by NATIONAL BALLROOM OPERATORS ASSOCIATION.

This follows the winning of all major or first place honors in 1953-1954, 1955-1956, and 1957-1958. There can be no doubt that the name Les Brown has become a symbol for the most desirable music throughout the continent.

Although the Band of Renown has played at colleges in the country, the Witter Houseparty 1959 will be its first visit to a New England college. It is a significant of Bowdoin's dealing with the best.

The annual winter house party will be held from 9:00 until 1:00 A.M. Deviating from the tradition of formal atmosphere of the Winter House party, this year's dance will be semi-formal. It was felt that more students would be able to enjoy the fine music of Les Brown if the often financially crippling necessity of a tuxedo were set aside. Tickets are \$6.00 per couple and can be purchased in the Union Bookstore or from any member of the Student Union Committee. Remember the time, Friday evening of Winter Houseparty, and the music, Les Brown and the Band of Renown.

Houses Elect Officers For Spring Term

Several of the fraternities on campus have recently held midyear elections. The officers of the fraternities are: Alpha Delta Phi: president, Jim Durkin; vice-president, Ronny B. Durkin; secretary, John Fuller; corresponding secretary, Dick Stout; and treasurer, Lance B. Durkin. The officers of the fraternities are: Alpha Delta Phi: president, Jim Durkin; vice-president, Ronny B. Durkin; secretary, John Fuller; corresponding secretary, Dick Stout; and treasurer, Lance B. Durkin.

Dr. J. A. Hynek will be a guest at the Bowdoin College on January 15 and 16 in connection with the Program of Visiting Professors of the American Astronomical Society.

Brighman Chosen Editor Of Orient; Council Votes To Increase Blanket Tax

West Point Forum Discussed, Date Set For Spring Elections

The Student Council has voted a temporary one dollar increase in the Blanket Tax fee for the spring semester, to be allocated by the Council according to the needs of the Blanket Tax Committee to the Orient Fund. At the same time the Council also voted to increase the Blanket Tax Committee to over \$800.00 to the Orient from its surplus funds. This action, which represents a compromise reached between members of the Council, the Orient business staff, and the Blanket Tax Committee, is expected to receive full student support in elections being held in the fraternities.

It was also felt that the Governing Boards would give their approval to this emergency action, aimed at stabilizing the Orient's shaken financial position, in time for Mr. McIntire, the Bursar, to place the decision on the spring semester bill.

At its last meeting of the semester, the Council also welcomed new representatives from the T.D. and P.U. fraternities and was told by President Bird that the Dean recommended the Council for further information regarding the West Point Forum, including the dates of the forum, the location, and the participation of students interested in attending these meetings.

The Council's first meeting of the second term will be held on February 2nd. Election of spring semester officers is set for February 9th.

Gustafson To Study At Cal Next Autumn

Dr. Alton H. Gustafson, Chairman of the Department of Biology, will carry on research in genetics at the University of California, Berkeley next year under a Science Faculty Fellowship grant from the National Science Foundation.

The award to Dr. Gustafson is the only one made in Maine this year. Throughout the country 200 fellowships were granted. They are offered as a means of improvement in the field of biology, mathematics, and engineering in American colleges and universities.

A native of Brunswick, Mass., Dr. Gustafson was graduated from the University of Massachusetts in 1926 and holds master's degrees from Harvard University. He taught at Williams College for sixteen years, and is now on the faculty at Bowdoin in 1946.

The Watchful Poker Chip

By Fraa Fuller

Then in a Winter moment, He wakes to look To the ice-blue eye Of morning, To see the shade of sky Spilled down across old stars, And she knows a school-cold day.	Think summer thoughts, But you will breathe A winter breath of frozen m and walk a winter step On rock-like sand and salt And crusted paths of ice.
How skating past the chapel elms To hear them groan	Turn up high collars, Squint from parka hoods Into the ice-bright snow

And, bowing to the wind,
Watch the boots that march
To class on cold clear days
Of Bowdoin winter.

and out upon the mall
and try to draw
out one degree of warmth
from all the study lamps
Winthrop, Maine, and Coleman
Hyde and Appleton,
you will stay cold.

Captain Johns Brings Tank To College

Many prominent New England colleges. The new scheme is called "The New England Plan." Burnhill himself is an educational expert who realized that the economic difficulties in that they have refused to recognize the fact that the new plan is entirely no different than the one already used by U. S. Steel and others.

Although some faculty resistance to this plan must be forced on professors. It is only their help that from acknowledging the

of this plan, the Bunnell Institute's director, John H. Bunnell, Jr., says that the administrators agree of erasing debts and raising faculty salaries. The plan also provides that credits are pooled and a full program receives \$100,000 a year. Bunnell, who is a professor, who will economically capture to the entire college community. The plan is set aside for administrative assistance can undoubtedly gotten from graduate students and faculty. Bunnell and his hawks. Administrators praise the program because it has worked.

POLAR BEARS CELEBRATE.

Scott, Willey Click As Trinity, Tufts Win Over White Hoopsters

The Polar Bears were handed their sixteenth defeat in seventeen games by Trinity, 63-49, in the Winter House Party game at Sargent Gymnasium.

The first half saw the teams even until Trinity, with Anderson and Tatterfield scoring heavily, moved into a ten point lead with only ten minutes remaining. Pete Scott then led the White Hoopsters into a spirited comeback to close the gap to three points as the half ended with the score Trinity 28, Bowdoin 23.

Immediately after the start of the final period, Trinity moved in, to a comfortable 12 point lead and the White Hoopsters could never quite catch them from that point. With seven minutes remaining, the White Hoopsters again led by the scoring and rebounding of center Pete Scott, drew to within five points and momentarily threatened to overtake the Trinity lead. At this point Trinity caught fire and pulled away to a fourteen point lead as the game ended with the Polar Bears on the short end of a 63-49 score.

Aside from Scott, who finished with seventeen points, and Willey, who finished with eight, no other players able to score with any consistency were Captain Dick Willey, who hit for twelve, and Bob Gorra.

Regulars Bearce, Simonds, and Walsh were able to score only four points between them, and Coach Donham was forced to go to his bench.

With seven games remaining, four against Maine competition, the teams performance will play

a big part in the final standings of the State Series.

Tufts
The Polar Bears invaded Cullen Gymnasium in Medford obsessed with victory in their reach. However, Pete Donoghue, Winthrop, Mass.'s representative on the Tufts team, bore the deciding hand as he scored two baskets to give his team the edge in a close game, 67 to 63.

Captain Dick Willey was the lone Bowdoin standout as he scored twenty points while Pete Scott chipped in sixteen points. Idle of Tufts was the game's high scorer as he netted twenty-five.

The White, upon entering the game was carrying a 1-14 win-loss record while Tufts was displaying a 1-13 record. Bowdoin led at the half by one point, but soon fell behind to stay at the 13 minute mark of the second half by a Tufts surge spear-headed by Jim Miller.

Capt. Roger Coe here slips between two U. of Mass. defensemen as he lets fly one of his patented shots. The White triumphed 6-4.

Varsity Skaters Show Strength And Spirit Against Mighty Foe; R. Mostrom, Sandquist Score Two

Saturday afternoon, before a large house-party crowd, the Varsity skaters put on one of their best displays of scoring and skating in defeating the University of Massachusetts 6-4. Ted Sandquist and Rick Mostrom scored two goals apiece, and Dixie Griffin and Gil Winham tallied one each, filling out the Bowdoin scoring.

U. Mass. jumped to a one nothing lead at 30 seconds of the first period as Al Kippe scored the first of two goals on a scramble in front of goalie Bob Fritz. Assistants went to Ryan and Stephens.

Then at 17:31 younger brother Rick Mostrom scored his first goal on a beautiful pass play, the assist going to Gil Winham. From here until the end of the period the White put on a sparkling display of power and passing narrowly missing on 3 of 4 plays.

Unlike the first period, which until the last three minutes, was

characterized by poor passing and a consistent inability of the defense to clear the puck from the zone and set up plays, the second period was faster, sharper, and more exciting with four penalties called, 3 on the White. Then at 16:49, Dixie Griffin put the Polar Bears out in front to start with a shot into the lower right corner from 15 feet out in front.

The assist went to Dave Hunter as he combined with Pete Brown and Dixie in an intact passing pattern culminating with the goal. By far the third period gave the crowd the most thrills. At 34 seconds Rick Mostrom stole the puck from a U. Mass. defenseman and broke in alone from the blue line, faked the goalie down and to the left and pushed the puck in the right hand corner to send the Whites out in front 3-1.

Shortly later, at 4:21 Ted Sandquist scored his first from 20 feet on a shot high into the left corner after getting set up from Tom

and Rick Mostrom. But at 5:56 Al Kippe scored his second goal of the afternoon of a quick shot past the sprawled Bob Fritz to make the score 4-2.

At 14:11 a U. Mass. player was sent off for slashing and 47 seconds later Ted Sandquist scored his second from right out in front on a rebound shot. But at 17:32 U. Mass. scored their third goal as Stevens received a pass from Ryan and drove the puck into the net. Not 10 seconds later, at 17:41 Gil Winham took a pass from Roger Coe and put it high and to the left into the twine making the score 6-3. But U. Mass. was not finished. At 18:40 Ryan stole the puck at mid ice and came in alone on Bob Fritz, slammed the puck high and to the left making the score 6-4.

The closeness of the game is illustrated by the fact that Bob Fritz made 22 saves in the Bowdoin net while Roland of U. Mass. stopped 21.

Along with trophies awarded to the meet winner, the high individual scorer, and play winner, the Jack Magee trophy for the outstanding individual performance in the meet and the Elmer L. Hutchinson trophy, given to the member of the varsity who shows the most character and sportsmanship, will be awarded.

Bowdoin Aquamen Lose Cub Pucksters To Cardinal Natators Crush Dixfield By 7-1 Margin

Wesleyan's swimming team carried two many goals for an undermanned Bowdoin club Saturday and swept the diving and 440 freestyle and won the final relay unopposed for a 50-36 victory.

Bob Roach of the Polar Bears was the meet's only double winner taking the 220 freestyle in 2:27 and the 100 freestyle in 55.8.

Bill Riley won the butterfly in 1:03.5 with Jon Scarpino pulling in a third in the event. The latter also picked up a win in the 200 yard backstroke with a time of 2:29.8.

The White natators also were the winners of the 400 yard medley relay with a 4:21.3 time.

The White swam two men in only three events and allowed the freestyle relay to go by default in order to pack the medley relay.

Dom Squatro and Jon Magendens swept the diving for the Cardinals while Jim Alexander and John Clement won the quarter-mile event.

The summary:

Beta Sigma Sponsors Blackmur To Lecture On Topic Of "Poetics"

The third annual lecture sponsored by the Delta Sigma Fraternity will be held at 8:30, February 20th, in the Moulton Union. The lecture will be open, free of charge, to the student community and the general public. The lecturer, Professor Richard Palmer Blackmur, of the department of English at Princeton University, will discuss, "Poetics: The making of Poems by Analogy."

Mr. Blackmur, who is considered one of the most distinguished American critics, was born in Springfield, Mass., and has never gone to college. He was a poet and a critic from 1928 to 1940, at which time he joined the Princeton faculty, where since 1940, he has been professor of English. He was a member of the Institute of Advanced Study (1941-43), and held the Guggenheim Fellowship from 1936 to 1938.

A man "too tactful to worship consistency," Blackmur in his many books, collections of essays, and poems "refuses to work by the poetic 'headlights,'" and remains "himself" there. He is the reflection of a trend. (Quoting Kenneth Burke & Oscar Williams, *Agents* (1935), *From the Dark* (1937), *The Second World* (1942), *The Good European* (1947), *The Lion and the Honeycomb* (1955).) He is of course also a generous contributor to literary criticism, in which, indeed, many of his poems and critical essays.

Double Agent, which is, in the words of Kenneth Burke, "one of the finest pieces of contemporary criticism," reveals Blackmur as a man of "patience and taste," and his great appeal to the reader is the manner in which he treats the subject at hand as primary and all else as secondary. Writing technically perfect poems, Blackmur's only fault lies in his seemingly over-zealousness which can be sensed in most of his works.

Trophy Taken By Affirmative At MIT Match

The debating team won a cup for the best affirmative team at the MIT tournament on Saturday and Sunday, Princeton was awarded trophies for the best negative team, and Harvard won the trophy for the best affirmative team.

The affirmative team of Schreter and Al Baker won decisions over Princeton University, Harvard, Johns Hopkins, and Stanford. The first two losses were by a one point each and the third by a 4 point.

Results at MIT gave Bowdoin a season record of 46 wins in 57 debates.

Abrahamson Named First To Hold Skofield Chair

Professor Albert Abrahamson, Chairman of the Economics Department, has been named to the Skofield Chair in Economics, a position of honor and distinction, by the Board of Trustees of Bowdoin College.

Professor Abrahamson has been at Bowdoin since 1934, and has been a member of the faculty for 25 years. He was named assistant professor in 1936, and professor in 1940.

He has been a member of the National Security Council, and has been a consultant to the State Department. He has also been a member of the National Academy of Sciences.

Professor Abrahamson is one of the most distinguished economists in the United States. He has been a member of the National Academy of Sciences, and has been a consultant to the State Department.

He has been a member of the National Security Council, and has been a consultant to the State Department. He has also been a member of the National Academy of Sciences.

Fewer Warnings, Dean's List Up, At Term's Ending

This year's overall academic picture for Bowdoin is considerably improved over that of last year. The Dean's List numbers 174 men, an increase of about 30 over that of the spring semester of 1958. This includes 58 members of the freshman class. Both major and minor warnings are down from last year, with 28 majors and 108 minors against 46 and 152 in 1958.

On the darker side, nine men were dropped for academic reasons and there were only four expulsions, students, fewer than there have been for several years.

There is some question as to the correlation between the elimination of hazing and the larger Dean's List numbers. It is thought that perhaps the decreased emphasis on fraternity hazing during the last months of the academic year has resulted in more time being spent on studies by both freshmen and upperclassmen and the consequent improvement in standing.

Theme Of BIF Forum Based On Utopias

February 22nd, 23rd, and 24th have been announced as the dates for the annual religious forum of the B.I.F. Beginning on Sunday afternoon with the Chapel address of Professor Chad Walsh of Beloit College, the Forum will have as its theme "Mirror and Night-mare. Study of Inverted Utopias."

Professor Walsh will again speak in Chapel on Monday morning and in the evening in the Moulton Union Lounge, where his topic will be "Fear of the Future in the Modern Novel." As a continuation in the development of his theme Professor Walsh will speak again in Chapel on Tuesday morning.

A reception will be held Tuesday afternoon in the Union to give twenty members an opportunity to meet Professor Walsh, members of the evening's panel, and local clergy. As a new feature of the forum, a panel discussion by clergymen to the fraternities will be introduced.

This will take place at 7:30 in the Union Lounge. Panel members in the evening's discussion will include: Rev. Dr. J. H. C. Smith, Episcopal minister and sculptor of Castine, Maine; Rev. Dr. T. W. H. Smith, Episcopal minister and sculptor of Castine, Maine; Rev. Dr. T. W. H. Smith, Episcopal minister and sculptor of Castine, Maine.

On the national and international level, six services have been scheduled for the week of February 22-28. One of these, the "Save the Children" service, will be held on Monday, February 23rd.

The "Save the Children" service will be held on Monday, February 23rd, at 7:30 in the Union Lounge.

Charity Allocations, Events Announced For Campus Chest

The Campus Chest Committee has completed its list of charities which will receive money from the Bowdoin charity drive. The list is somewhat smaller this year than has been the custom in the past years.

The list is somewhat smaller this year than has been the custom in the past years. The highest number of charities given to was in 1957 when 25 were given money from the Bowdoin drive.

Chairman of the Committee John Gould, Jr. said that the committee based its decision partly on recommendations from previous committees and partly on a feeling that the money has more of a meaning if fewer organizations get money.

The largest single amount of money will go to the Brunswick Area United Fund, last year the Campus Chest drive gave money to several local drives. Now that many of these drives have been merged into the United Fund, the college is able to spread its money out to more people.

The United Fund also is able to study in detail the workings of the various drives and is able to make sure the money is used to the best advantage. At least 30 percent of the money raised will be given to the United Fund of Brunswick.

On the state level, the Maine Council for the Handicapped, the Maine Cancer Society, Inc., and the Pine Tree Heart for Crippled Children will receive money. All of these had money last year.

On the national and international level, six services have been scheduled for the week of February 22-28. One of these, the "Save the Children" service, will be held on Monday, February 23rd.

The "Save the Children" service will be held on Monday, February 23rd, at 7:30 in the Union Lounge.

Published weekly except during the Fall and Spring Semesters by the students of Bowdoin College. Address news communications to the Editor and subscription communications to the Business Manager of The Bowdoin Publishing Company at the ORIENT Office in the Hall, Bowdoin College, Brunswick, Maine. Entered as second class postage paid at the post office at Brunswick, Maine. The subscription rate for one year is five dollars (\$5.00).

Common Sense

In the past there have been innumerable editorials recommending the abolition of compulsory chapel requirements and compulsory class attendance. It is conceivable that an editorial might go even further and suggest the abolition of chapel, classes and the faculty altogether. In defense of their abolition the editorial could argue that all that is really essential for a student are books and all that is really essential for a campus is a library.

Though everyone would not accept the conclusions of such an argument, few will deny the truth and the true fact of the essential character of books and the library to the student and the campus. With this in mind some recent figures available at Hubbard Hall are worth considering. The first is that results of a survey taken during the last three weeks of the Fall Semester, including the examination period, indicate a decline in the use of library study space. The second fact is the disappearance of a record number of books which were on closed reserve during the Fall Semester. For example, there were 19 copies of Johnson and Kroos, *Origins and Development of the American Economy*, on the Economics I shelf and of these 19 ten have disappeared. There are numerous other cases, equally disheartening in light of the fact that having the use of closed reserve books enables students to save the cost of considerably expensive texts.

Through there may be no connection between the disappearance of closed reserve books and the decline in the use of library study space there is every reason to suppose that during examination period closed reserve books, like those used in Economics I, were taken from Hubbard Hall where they are supposed to be used and used instead at a more convenient locale and at the student's leisure, never to be returned. Such practice considerably diminishes both the use of library study space and the availability to all students of the books which are essential to them. Furthermore this practice drains the tight library budget by necessitating costly expenditures for replacement rather than for the purchase of badly needed additions to the general collection.

In past years the library has received generous donations from several Bowdoin Fraternities. At the present time there is considerable student interest in the future development of the library's facilities and in a substantial increase in the library's resources. Unquestionably the best and most effective expression of student interest in what must be a serious focus of attention on the library's present and future needs would be for students — and faculty — to use the library to the fullest and with due respect for its limited budget.

Lethargy

THE topic of this editorial is an old one, and there is little we can say that has not already been said. It seems to us that a great deal of talent is present on this campus that is being wasted. Many of us are in possession of talents and interests that lie fallow in their present environment. We are becoming content to plug away the minimum number of required hours to satisfy obligations, and then sit and observe the world as it spins, taking as little part as possible in its affairs.

This college has behind it a long tradition of training leaders. We fail to see how leaders can be created from listless, apathetic people, unwilling to participate actively in what goes on around them. The situation here is not unique. A few have almost always had to perform functions properly allotted to many.

Last week, a call went out from the Orient to the campus, asking anyone interested in working on the staff to contact its office. Response was nil. Our varsity swimming squad numbers currently only five men. These few face a large handicap, almost impossible to overcome; sheer lack of manpower.

A willingness to be merely a spectator seems to indicate to us a basically unhealthy state of mind. Successful men have always wanted to do more than was required of them. This desire is one of the things that separates leaders from followers. What's the answer?

Do something. Anything you do well. Join the glee club. Write for some student publication. Go out for a sport. Run for an elective office. Participate. Don't watch things happen; make them happen.

The Old Dope Peddler

by Charles Packard

True to my promise, I took an afternoon of last week and paid a call on Bill Rindler, the Chief College Fine Thinker-Upper. His office is over in the basement of Series Science Building, directly downwind from the smoldering pellets of the Atomic Energy Commission and an appointment ahead of time and Bill's private secretary, Miss Payment, quickly ushered me into the inner office. Bill was seated behind a green wooden desk, carved in the shape of a dollar sign, and was passing away the time blitting coins when I entered. A well-thumbed paperback edition of *Silas Marner* occupied a prominent place in the waste-basket and an oddly symbolic collection of sand-dollars, strung on a strand of wampum, hung from the ceiling. The wall-paper was of a soft, dove, dove in rare Roman coins against a Lead-Tender Green background, and Confederate currency cracked warmly in a fireplace formed of gold bricks. Otherwise, there was nothing in the room to indicate the presence of money—any money.

As Bill looked up to acknowledge me, I could have sworn that I had seen his face somewhere before. I was a few seconds too late, however, for he had already turned on his sociology tape to Thomson. But I wasn't quite sure. "Ah, you must be young man," he said, getting up from his desk with a golden grin, not unlike that found on the College of Bowdoin. "You're not from the Orient?" he asked.

"Yes, but from the Bowdoin Orient," I amended quickly, not wishing to be confused with a Chinese foreign student.

"Of course," Bill went on, coming around the desk. "How are you?" He held out his right hand and I shook it firmly, all the while watching his left hand, which seemed to be mysteriously attracted to my inside coat pocket.

"Fine, thank you," I answered, hoping that my pin would discourage his slightest hand. It did.

"Fine interview," Bill said, nodding. "That's a good one!" Bill squinted, frowning, and then his smile widened in a lecherous grin, and he repeated slowly, as though testing the syntax for imperfections: "That might make a good motto for our department. It's to the point, but yet it has a certain humility in its message which might impress the students. Perhaps we can use it."

I slipped into the next room for the express purpose of being sick to my stomach. When I returned, Bill was ruminating through the poems of my overcoat. "When you come to the box of Milk Duds," he said, "I'll have one too." I said politely, "Well, Bill, I began. 'I'd like to learn something about your function around here. Just exactly what do you do?'"

Functions Explained
"I think up clever methods by which to fine the students," Bill replied proudly. "That's about all there is to my job."

"Oh, come now, Bill," I chided. "Surely that can't be all you do. Don't you collect the fines, too?"

"Oh, no," he answered. "The Bursar's Office does the collecting. I just sit around here thinking up fines and drawing my salary plus ten per cent. Frankly — but don't quote me on this, of course — it's a racket."

"How did you get your start in the business, er — in the racket?" I asked. "Surely you have some background."

Past Revealed
"Yes," Bill replied. "I have an extensive background. My first job in the business was as an Assistant to the Fine-Creator of the Boston Public Library. Then I took a similar position with the Massachusetts Registry of Motor Vehicles. To augment my income, I was forced to steal from various pockets in the Greater Boston area. My diligence had not gone unnoticed, however, and it was not long before I came under the attention of the local constabulary. After leaving prison, where I established a revolutionary fine-system in the institution's library, I applied for the position of Fine Thinker-Upper here at Bowdoin. Needless to say, I was hired."

"Have you been successful here, Bill?" I asked, even though the answer was obvious.

"Definitely!" he answered. "My first fine, the fine for missing classes before and after vacations, was an immediate financial success. Then came the several hundred fines pertaining to reformation. Then came the famous *Finke*. Fine and all the others." Bill leaned back proudly.

"But we all know about those fines, Bill," I complained. "Haven't you got any new ones on the drawing-board?"

A Glance Ahead
Bill smiled cruelly. "I certainly have," he answered. "For example, how about this? It goes into effect next fall. When the students return in September, they'll find the campus surrounded by a wide deep moat. Here and there along the perimeter, there'll be toll draw bridges guarded by vicious man-eating lions. Every time a student wishes to enter or leave the campus, he'll have to pay an astrological fine."

"Come now, Bill," I chided. "You can do better than that. If his feelings were hurt, he wouldn't show it. 'Okay,' he said. 'If you want to hear about the grand-daddy of all fines, listen to this. Next Winter Vacation, when the students have left the campus —'"

"Having first paid the toll," I interrupted rudely. "But — go on."

"Next Winter Vacation, I'm calling in two hoods from Kansas City. With the students away, it should be easy for my torpedoes to ransack the rooms. I already have the College of Bowdoin to receive the goods. Robert Frost wrote out the first plans of the operation, utilizing his work — 'Good Fences Make Good Neighbors,' with the sub-title, 'Dropping Off the Goods on a Snowy Evening.'"

"It sounds like good fun, Bill," I said. "But that sort of thing is thievery, not fine-leveing, casually. 'In my profession, the two are synonymous. Don't you agree?'"

I had to admit that he had me there, so I shook my head and departed. Once outside, I checked my wrist for my watch. It was gone.

MCA Testing Given Twice To Students

Princeton, N. J., January 5: Candidates for admission to medical school in the fall of 1960 are advised to take the Medical College Entrance Test in May. It was announced today by Educational Testing Service, which prepares and administers the test for the Association of American Medical Colleges. These tests, required of applicants by almost every medical college throughout the country, will be given twice during the current calendar year. Candidates taking the May test, however, will be able to furnish scores to institutions in early fall, when many of their next entering classes. Candidates may take the MCAT on Saturday, May 2, 1959, or on Saturday, October 31, 1959, at selected testing centers. The Association of American Medical Colleges recommends that candidates for admission to classes starting in the fall of 1960 take the May test. The MCAT consists of tests of general scholastic ability, a test on understanding of the natural sciences, and an achievement test in science. According to ETS, no special preparation other than a review of science subjects is necessary. All questions are of the objective type.

Copies of the Bulletin of Information (with application form bound in), which gives details of registration and administration, as well as sample questions, are available from pre-medical advisers or directly from Educational Testing Service, 20 Nassau Street, Princeton, New Jersey. Completed applications must reach the ETS office by April 18 and October 17, respectively for the May 2 and October 31 administrations.

Greta Garbo wears size nine shoes. They are usually men's oxford's bought by her maid.

Needless to say, age has no follies nor youth any virtues. Also, we of the old guard must carry on, repairing the ravages inflicted upon the college and the literary world by the beasts of the wanton, would-be ruling youths of today — against the slanderous, unfounded accusations of the young. We are arming, and our pitchforks, pencils and wits have been sharpened to put down the whippersnapper generation with the loyalty and intelligence of many years. I speak for the entire governing Board when I say our eyes have been

opened by the light of many years our fitness tempered in time, and our minds will not be shut to these base ideas.

In passing it may enlighten to reveal that that assiduous minority, affectionately referred to as The Old Guard, in its protective role of saving souls and morals, together with Indian head jewelry and devil war memorabilia, in the present day enjoy a relatively equal value as recently as Saturday, January 31, 1959, at 10:50 sharp concerned. Moreover, in a session lasting well into the night we found it the burden of our duty to weight the most seemingly trivial matters to the detriment of the College community and the alleviation of this damned, yes, I said Damned! mounting sea of hope funds, rapidly being corrupted by what the Old Dope peddler about with his Packard.

May I add that there will be a lot of crow, held in the ancient and honorable chamber with the entire Board presiding; the Chairman of which has asked that the sheet of honor might name a convenient date upon which to hold this pleasant occasion.

That Packard, in what I took to be its post-humous gurgle but one request, "With me!" But my hearing is not what it could be and I suspect his supposition to be an appalling summation. None the less I respect the last words of the dying and have obediently complied.

Respectfully,
Lance Woodbar
Member, Governing Board

Letters To The Editor

Letter to the Editor
John Brightman
Orient Office

Dear Editor,
I ran into that old Packard over at the corner of Waterloo and Stone Streets the other day in my 1967 Stutz Bearcat, and despite the socratic cautioning of my worthy kith, (circa 1867 — incidentally a vintage year for wind instruments as for Bearcat motor cars), and gave it the accident thrashing, and I believe, the concluding incident in this short, huffy life.

I am not, perfectly preserved Stutz but suffered a deeply wounded dignity for appearing in any manner opposed to the frenetic coming, going, and putting functions of the student undergarment of the accident; the only imperfection marring the surface is a bullet hole sustained in passing through a southern town shortly after the Civil War. The Packard, lamentably is a total loss. It is to be regretted that the surface embellishments, high gloss, and apparent acidity, and perfection of this recent work were inadequate to withstand the impetuous debility of my age, tenacity, and time-hardened wear.

The courts ruled, of course, against the Packard, and the grounds of indiscretion and a lack of judgment, and entered a charge of operating without proper license, and knowledge with which to obtain said operator's privileges.

Needless to say, age has no follies nor youth any virtues. Also, we of the old guard must carry on, repairing the ravages inflicted upon the college and the literary world by the beasts of the wanton, would-be ruling youths of today — against the slanderous, unfounded accusations of the young. We are arming, and our pitchforks, pencils and wits have been sharpened to put down the whippersnapper generation with the loyalty and intelligence of many years. I speak for the entire governing Board when I say our eyes have been

In passing it may enlighten to reveal that that assiduous minority, affectionately referred to as The Old Guard, in its protective role of saving souls and morals, together with Indian head jewelry and devil war memorabilia, in the present day enjoy a relatively equal value as recently as Saturday, January 31, 1959, at 10:50 sharp concerned. Moreover, in a session lasting well into the night we found it the burden of our duty to weight the most seemingly trivial matters to the detriment of the College community and the alleviation of this damned, yes, I said Damned! mounting sea of hope funds, rapidly being corrupted by what the Old Dope peddler about with his Packard.

May I add that there will be a lot of crow, held in the ancient and honorable chamber with the entire Board presiding; the Chairman of which has asked that the sheet of honor might name a convenient date upon which to hold this pleasant occasion.

That Packard, in what I took to be its post-humous gurgle but one request, "With me!" But my hearing is not what it could be and I suspect his supposition to be an appalling summation. None the less I respect the last words of the dying and have obediently complied.

Respectfully,
Lance Woodbar
Member, Governing Board

No matter what sign you were born under, there certainly is if you come with us. During the past ten years, we've grown almost twice as fast as the insurance industry as a whole... and we're still growing! This means that since it's our policy to promote from within, if you join us, you'll be setting your own limits on advancement.

Many different positions are open. If you are the kind of ambitious man we want and we are your kind of people, you will work at a good starting salary in our home office... a cheerful, beautifully efficient building situated in the hills outside Hartford... or in one of our many branch offices throughout the country.

How would your interests and talents fit into our Management Trainee Program? The man from Connecticut General can tell you. He visits your campus on February 20. It could be an important day for you, so make it a date through your placement office.

Ice men Edge Merrimack; Succumb To U.N.H., 4-2

Saturday evening, the Bowdoin ice men skated against Merrimack at Andover and came up against strong opposition. What was expected to be a rout similar to the previous bout between the two teams turned out to be a hard-fought, well-played game with the White ending up on the top of a 4-2 score.

The first period found the Polar Bears a little stunned at the improved status of the met from Lawrence. Merrimack scored the only goal in the first marker on a shot from in close which goalie Bob Fritz did not have a chance at. The White sextet came out hustling in the second period and put pressure on the scrappy Merrimack team. Defenseman Ross Hawkins put in the first Bowdoin goal of the second stanza on a beautiful angle shot from the forty foot strip. This score was shortly followed by another White goal off the stick of wing Duce Griffin. Merrimack managed to put in another goal on a play which goaltender Fritz was screened from. The 2-2 tie lasted until late in the period when sophomore defenseman Bob Nolette put in a long shot from near the blue line. The third period opened up with fast and rugged play shown on both sides. Early in the third period, Tom Morrison put in the clinching goal on a drive from in close. The play continued to be fast and rugged with many hard checks thrown. The Polar Bear defense buckled down and did a fine job of holding the fighting Merrimack offense.

Goalie Bob Fritz once again proved his worth and turned back many a Merrimack thrust with thrilling saves. Fine games were also played by defensemen Roger Coe and Bob Nolette whose hustling kept the White in front during the last two periods.

NOTICE

Saturday afternoon, the Baby White basketball team returned to their form after a defeat by Colby earlier in the week, by team a weak Hebron club. The Frosh jumped off to a near twenty point lead by halftime. Bill Cohen led the scoring with 27, followed by Fred Hill and Greg Giese with 13 and 10 respectively.

Friday afternoon, in the Curtis Pool, the Frosh swimmers took an easy decision from Edward Little of Auburn, 49-36.

Bowdoin players scrapping it up during a tightly fought game.

Courtmen Fall CubCindermen Frosh Hoopsters To Cardinals; Triumph; Led Drop First Game Lose To Mules By Hedensted To Strong Colby

Saturday night, February 14, the Bowdoin varsity was defeated by a sharpshooting Wesleyan basketball team in Sargent Gymnasium. The game was played before a fairly large crowd with many substitutions present.

Le-Mac Franier, forward, scored the first of his nine field goals to give Wesleyan the initial lead, with Frazier hitting consistently from the outside and Donald Skinner, center, working well under the boards. Wesleyan took a 28-15 lead after 12 minutes of play. Bowdoin, with Dick Willey hitting from the outside and Pete Scott playing well under the boards, closed the gap 32-27 with four minutes left in the half. The half-time score was Wesleyan 38, Bowdoin 30.

High scorers at the half were Frazier-14, Skinner-8, Willey-10, and Scott-5.

The second half was a repeat of the first half. Wesleyan went ahead to a 50-47 lead after 12 minutes of the second half. At this point, Don Skinner took charge for Wesleyan scoring 18 points in the second half to pull Wesleyan ahead for keeps. The final score was 76-61 in favor of Wesleyan.

High scorers were Skinner-25, Frazier-18, Willey-19 and Scott-15.

Bowdoin (61) Colby

Earlier last week, the Polar Bear hoopers dropped their second decision to the Mule varsity in a contest played at Waterville. The powerful Colby quintet showed a strong offense as they pulled way out against the White in the early part of the game. Coach Donham's charges had a rough time keeping up with the Mule brand of ball as they went down in defeat by some nineteen points. Pete Scott was outstanding for the loss as he played his usual fine game.

Colby's deliberate, well-planned offense and aggressive defense were just too much for Bowdoin in a freshman contest at the Colby fieldhouse, Wednesday night.

An exciting game, the Baby White frosh were never able to catch up to the Mules who managed to hang onto their lead and win handily. Jumping off to a 10-6 lead, the previously undefeated Black and White seemed headed to their seventh victory, but a strong Colby surge led by Thaxter, put the home club ahead to stay.

Determined to erase the 34-24 half-time deficit, the Polar Cubs tried desperately to halt their opponent's scoring power and mount a drive of their own. A fast break and a newly-adapted zone press met with some success, but were not enough to stop the pace-setters. The visitors certainly had the scoring opportunities, but were just not able to find the shooting range in time. Colby's smooth and capitalizing offense, combined with the frosh's inability to revitalize its floor game spelled defeat for the luckless Bowdoin team. Dave Thaxter was the high scorer with an even 20, while Billy Cohen garnered 17 for the Cubs.

The two clubs clash again at Bowdoin on February 28, in what should be one fine ballgame.

The Phi Chi society formerly held their regular meetings in 29 Winthrop Hall. They have given way to the Jadoon Hunters of America, however, whose next regular meeting will be tomorrow night at 1 a.m. in the top of the Thorndike Oak.

POLAR BEAR PUCKSTERS SPIT; FROSH SKATERS WIN; HOOPSTERS DROP TWO

Cub Pucksters Top Blue Bobcats Take White Runners; Wilkins Stars

The White Freshman ice men ran into one of the strongest schoolboy teams in Maine Saturday afternoon, but managed to defeat Lewiston 4-1.

The Polar Bears jumped to a 2-0 goal lead in the opening period. Bacon, who had received a penalty for tripping at 2:00, came through exactly two minutes later with the first tally of the game. Stowell assisting. Gresson went off for hooking at 8:45. Two seconds after both teams were even again, Bacon assisted with a fine pass to Farniglietti who outkicked goalie Labbe.

The Blue Devils fought back in the second period with a solo effort by Larry Carst at 5:07. The Cubs came back five minutes later on Farniglietti's second goal, Stowell and Bacon getting assists.

After a penaltyless second period, both teams came out ready for a rough third twelve minutes—and were rough. Bacon netted the first penalty for the Devils at 4:35 for interference. At 5:44, the Cubs came back five minutes later on Farniglietti's second goal, Stowell and Bacon getting assists.

After the game the crowd gave an exuberant ovation for the rough and tumble third frame. The White puckmen kept the pressure on the Lewiston goalie the whole game. He had to make 29 saves, 19 coming in the third period, compared to a total of 13 saves by Chaffee.

The summary: Bowdoin Fresh (4): (1) Lewiston, Chaffee, g. Labbe, Adams, id. 1d, T. Casavant, Barten, rd. c. Charest, Blaznek, c. Gresson, w. Pinar, Pilton, w. Richards, rd. Barten, w. Colleen, J. J. Marble, Bacon, Stowell, Berthoff, Cochran, Farniglietti.

Lewiston apares: Isais, D. Carlew, R. Caron, Olko, LaPlante, Bonneau, L. Casavant.

Scoring: 1st Period: 1. Bowdoin, Bacon (Stowell) 4:01; 2. Bowdoin, Farniglietti (Bacon) 8:45. Penalties: Bacon (tripping), Gresson (hooking).

2nd Period: 3. Lewiston, Charest (solo) 5:07; 4. Bowdoin, Farniglietti (Stowell-Bacon) 10:42. No penalties.

3rd Period: 5. Bowdoin, Stowell (Bacon) 9:32. Penalties: T. Casavant, Adams (interference), Flynn (tripping), Barten (cross check), Richards (illegal check).

Saves: Chaffee 18, Labbe 29.

Referee: Harlow, Proteau. Time: 3:12's.

Hebron The Cub hockey squad scored a tremendous victory over Hebron Academy Wednesday, February 11, by trouncing the prepies 8-3. Gav. in Pilton and Ron Farniglietti were top men in the scoring department as each scored two goals. Farniglietti opened the game at 2:10 with his first goal assisted by Bacon. Later in the first period, Bacon drove home a score from a pass from Stowell at 10:33.

In the second period, Tommy Barten clipped in a shot on a rebound of Stowell's back-header at 2:27. Two minutes later, Pilton let one fly with assists from Blaznek and Gresson. He then scored his second of the period and of the game at 11:07 with another assist from Spencer Gresson.

Thirty seconds later, Gresson took the honors with an assist from Pilton. Spooling a perfect day for Bob Chaffee, Harberson of Hebron ripped the nets twice, one unassisted and the other with the help of Gresson, who in turn scored at 14:41 with an assist from Harberson. Harberson's second goal was holty preceeded by Chaffee who thought that he had shot from the crease.

New Stowell made it seven to three halfway through the third period, followed by Farniglietti at 9:02 with the help of Stowell and Don Jolly. Shen replaced Chaffee in the Bowdoin goal for the remainder of the contest.

Hebron's second goal was holty preceeded by Chaffee who thought that he had shot from the crease.

ceiving money directly allocated by congress.

Some few costs will be born by the College but the main portion of the financial burden will be borne by the Foundation, which will spend an approximate \$175,000 on the four separate institutions. In addition to faculty salaries, the fund allocates stipends of \$450.00 to each member of the program, together with \$80.00 for each dependent and four cents per mile traveling reimbursement up to eighty dollars. Costs of room and board will be borne by the individual.

Application to the Foundation by Bowdoin has been recognized largely as a result of the superior facilities and instruction in these departments of science. The biology institute will be concentrating largely on the ecological aspects of the marine environment and the use of living organisms. In mathematics, Prof. Christie will make a study of Ideas Behind Secondary School Math and The Mathematical approach. His course is directed at teachers who are likely to exert leadership in the teaching of mathematics by developing modern courses, writing textbooks, etc. In a study of the fundamentals of chemistry, Prof. Kammerling will emphasize physical and organic chemistry. Finally Professor Little's physics program will stress the unifying ideas in physics, through a limited content, in presenting an exposition and evaluation of the Physical Science Study Committee's program.

Numerically the divisions of the separate institutes will be broken down into groups of 60, 36, 50, and 30 in math, biology, physics, and chemistry respectively. The applications to date have amounted to 276, 341, 152, and 154 in the respective fields. The director of the individual institute will be in charge of his own admissions.

Bowdoin has made application for a summer institute in guidance and counseling, which to date has not been materialized, and an additional one in French, with the settlement of a large foreign language institute at the Univ. of Maine appears to have been tabled.

similarity between British and American students.

When probed, concerning the intensity of the work at Oxford, and the early age at which Englishmen are supposed to attain entrance to the University, as earlier discussed by Roger Howell Jr. '58, a Rhodes Scholar now studying at St. John's College, Oxford, in his recent "Alumnus" article, Call cited the case of his eleven year old son who accompanied him and his wife to England. The City of Oxford School for Boys, at which he became enrolled, appeared to credit him with learning roughly equivalent to that of a 14 year old. This however does not hold true at the entrance to the University where often men of twenty become freshmen. In summation Mr. Call feels that, "The Oxford student is much like the American student with a slight edge of maturity and seriousness of purpose."

Here at Bowdoin Mr. Call will be taking three sections on in English 1-2. He is high in his estimate of the College, his position and the freshman course as set up, admitting the conference possibilities with the individual student which a small college enables an instructor to hold. He feels that at this stage in the development of a writer's talent it is most important that the man develop individuality and that it is just here that discussion is

Interviews By Representatives Of Firms

During the next two weeks the placement Bureau will be visited by recruiting representatives from John Hancock Mutual Life Insurance Company, offering wide opportunities in the insurance business; the W. T. Grant Company, careers in merchandising; the Marine Midland Bank, opportunities in banking in the New York area; the Teachers Insurance and Annuity Association, opportunities in actuarial, statistical, and insurance programs.

Representatives from IBM will be interested in candidates with accounting interests and courses in physics and mathematics for sales, research, and data processing. The Naval Research Laboratories will be interested in seniors registering in Mathematics, physics, and chemistry. The Central Intelligence Agency for those with linguistic ability interested in government work and foreign service.

The Mercantile Stores will be seeking men for general merchandising in large cities across the country. Olin Mathieson offers careers in research and chemistry. The Connecticut General Life Insurance Company will offer opportunities in multi-line insurance programs. "Wiles Service" Company representative will discuss opportunities in the petroleum industry for sales and research.

The Baid Company seeks men for opportunities in management and development. The Scott Paper Company will talk with candidates desirous of opportunities in sales and promotion. The Guaranty Bank and Trust Company will offer opportunities in merchandising and management in the food industry. The Atlantic Refining Company will offer opportunities in marketing and sales. General Foods Corporation in research. The Life Insurance Company merged with the Springfield Fire and Marine Insurance Company, will offer opportunities in all phases of the insurance business.

The Goodyear Tire and Rubber Company will present a group meeting, opportunities in merchandising, sales, and management. The West Virginia Pulp and Paper Company, sales and management in the paper industry.

The Chemical Company will discuss with candidates opportunities in sales, sales management, and summer jobs for some undergraduates. The ITEK Corporation will review opportunities for candidates in research and development.

Many of these firms will hold evening group seminars before the interview day. The Director urges all to attend these sessions as excellent preparation for the industrial interviews. The March schedule of interviews will be made available to The Orient for publication at an early date.

Very important. These discussions, he found, formed a marked similarity to the Oxfordian tutorial system. "Everything is a new experience he said in speaking of the actual work involved in correction and in advising men. "You never know where a spark is going to strike!"

Letters To The Editor . . .

(Continued from page 2)

of the ORIENT, reflects my considered opinion after over twenty years of experience. I believe that the Masque and Gown, Debating Society, and Glee Club are apart from the general run of extracurricular activities, and that they are in fact co-curricular. I would go even further, and assert that they are curricular, a view shared by a number of my colleagues; and I believe that any mature reflection would recognize the genuine educational value which such activities have for the student.

Your suggestion that, because the Administration already recognizes these activities as educational, as well as the Masque and Gown production of Streetcar Named Desire this fall. Guy Davis, who has designed sets for several Masque and Gown productions in the last two years, will be Barbour's one-act play in last year's contest. The Glee Club's production of Streetcar Named Desire this fall. Guy Davis, who has designed sets for several Masque and Gown productions in the last two years, will be Barbour's one-act play in last year's contest. The Glee Club's production of Streetcar Named Desire this fall.

I should like to see these important activities removed from blanket tax control and placed under the aegis of the Administration. This indeed would give them the recognition and dignity they deserve.

I believe that Mr. Thayer has some vital statistics on this matter, showing that, with the exception of some New England colleges, the majority of educational institutions in this country recognize the importance of these activities as educational, and underwrite their programs as they do class instruction - although not necessarily admitting them for credit.

This of course would be a radical departure from the traditional practice of the college. Financially it might not be feasible, in view of the constantly changing economic scene, which finds educational institutions retrenching financially wherever this is possible.

From a realistic point of view, therefore, I would suggest, in lieu of a favorable decision by the Board and the Administration, that a fixed percentage of the income from the blanket tax be earmarked in this country to recognize these activities, just as 50 percent of the income automatically goes for Athletic. This latter procedure, as everyone knows, is by vote of the Board, and the Blanket Tax Committee has absolutely nothing to say about it. The amount allotted need not be so great as to jeopardize the programs of the other activities; and if the amount allocated proved insufficient and a program warranted additional funds, either the Administration could underwrite a reasonable request, or this addition could be granted by the Blanket Tax Committee according to the practice in the past.

I am in hearty agreement with your suggestion that the other activities, with certain safeguards, should be administered by the students themselves.

I for one am very grateful for your editorial.

Sincerely yours,
Frederic Tillotson

One-Act Plays Go Into Production For March 12th

Work has already begun on the three plays selected for production in the Annual One-Act Play Contest, which will take place on March 12 in Pickard Theater. The authors, Gary Lewis '58, Peter Anastas '59, and Floyd Barbour '60, have all chosen their directors, set designers, and stage managers, and Lewis and Anastas have selected their casts.

The director for Floyd Barbour's play, Children in August, will be Dan Calder, who also directed Barbour's one-act play in last year's contest. The Glee Club's production of Streetcar Named Desire this fall. Guy Davis, who has designed sets for several Masque and Gown productions in the last two years, will be Barbour's one-act play in last year's contest. The Glee Club's production of Streetcar Named Desire this fall.

Anastas' play, entitled Summer's End, will also have a director from last year's contest. John Swierzyński, who directed Dave Krane's one-act, which won last year, will play the role of Stanley Kowalski in Streetcar Named Desire; and who has appeared in several other college productions, will direct; John Rex will design the set, and Marc Merriam will serve as stage manager. Anastas' cast consists of Jesse Leatherwood, Barbara Packard, Dave Moore, Irma Black, Anne Cole, and Mary Kammerling.

Gary Lewis will direct his own play, If Walls Had Ears. He has chosen two stage managers, Richard Cornell and Howard Karlberg, and has selected Edward Groder to design the set. He has a small but experienced cast, including: Constance Aldrich, of Brunswick, who has appeared in the Masque and Gown productions of Streetcar Named Desire, Death of a Salesman, and Tiger at the Gates, and in two of last year's one-acts; Dave Krane, who wrote and acted in the winning play of last year's contest; and Charles Graham, who has also had much experience in college productions. James Cohen, a freshman, is also a member of Lewis' cast.

I am in hearty agreement with your suggestion that the other activities, with certain safeguards, should be administered by the students themselves.

I for one am very grateful for your editorial.

Sincerely yours,
Frederic Tillotson

Scene Not Handled Fairly

Many who are suspected of the latter three infringements are even brought to trial in the form of a hearing. Many impose the defense of definite restrictions in present case such as annulling his privilege of being present at his own trial, as well as his right to hear the charges lowered upon him. In summary, many institutions do not deal fairly in the respect to the defendant's hearing.

Many colleges consider the violation of tenure as a "breach of contract" wherein the majority of cases are not settled by mere order of restoration. Mr. Jouhoun quoted several cases in which this problem has arisen in the past and discussed their outcomes. Many revocations of tenure were caused by apparent control of college functions. In closing, he stated that tenure guarantees respect to the particular field, rather than the holder himself.

December 21, 1902 - The first complete wireless telegraph message was sent from Cornwall, Eng. to Nova Scotia.

Wilder Treats Exchange Plan In Chapel Talk

At Chapel exercise on Tuesday, February 10th, Mr. Wilder, Assistant to the President, reported on the third National Conference on the Exchange of Students. This conference, as Mr. Wilder pointed out, was attended by many leading figures from both the political and educational limelight. The President and Vice President of the United States, several senators and representatives, and many college presidents and professors were present.

"World Peace through Educational Exchange" is the general theme of this conference and of the Institute of International Education program of foreign exchange. In keeping with this aim, the Institute promotes two-way exchange of both academic and non-academic personnel. This exchange can really be termed "big business" since over 52,000 foreign students came into the country under this plan.

Why should Bowdoin be interested in the doings of the Institute? Almost from the day this college opened its doors, Bowdoin students have travelled. Henry Wadsworth Longfellow travelled to increase his knowledge on the subjects which he was to teach here at Bowdoin. There were also several exchange students during the early years of the College. Nathaniel Hawthorne was in favor of "cultural exchange" among the countries of the world.

On the other side of the ledger, Bowdoin is now well represented overseas. As Mr. Wilder pointed out, not only do we have Fulbright and Rhodes Scholars, plus professors on sabbatical leave, abroad, but we also have many ROTC officers representing this college and this country overseas.

Affidavit Provisions . . .

(Continued from page 1)

And faculties of colleges and universities throughout much of the nation are, indeed, concerned, for they feel a certain responsibility to the students. In Brunswick, the matter was discussed at a faculty meeting on December 15, and was referred by vote to a committee. President Coles appointed on the following day an ad hoc committee of Professors Darling, Daggett, Munn, Cox, and Herbert Professor Darling, of the Department of Economics, was Chairman.

In response to a letter mailed to the faculty by the Committee, 22 teachers expressed opinions. The majority was in favor of eliminating the affidavit requirement.

NOTICE

The college community is saddened to learn of the death several days ago of George Higgins, an employee of the college for over fifty years. Mr. Higgins came to Bowdoin in 1907 as an assistant to Dr. Frank N. Whittier, '85, a former member of the Medical School faculty. He was honored at the 1957 commencement exercises, which were the 50th in which he assisted in the preparations. On behalf of the college, the Orient wishes to extend its sympathy to the Higgins family.

Secretary of Health, Education and Welfare Arthur S. Flemming told a press conference on December 15 that the joyous celebration requirement will do little good; early in the same month the 40,000-member American Association of University Professors condemned the provision.

On the other side of the ledger, Bowdoin is now well represented overseas. As Mr. Wilder pointed out, not only do we have Fulbright and Rhodes Scholars, plus professors on sabbatical leave, abroad, but we also have many ROTC officers representing this college and this country overseas.

Anastas Praises Cox's, Wiseman's Art Exhibits

By Peter N. Anastas, Jr.
The diurnal winter atmosphere has been brightened by two groups of paintings showing currently on the campus. In the main gallery of the Walker Museum there is an exhibition of oils and graphics by Jan Cox, young painter of Dutch and Belgian parentage, who lives in Boston. And in the Moulton Union, the walls of the dining room are graced with oils by Ana Sayre Wiseman (Mrs. Peter Denzer), a young painter who has recently moved to Brunswick with her novelist husband.

Cox's work is characterized by an intensely personal and symbolic approach. Highly subjective, his work, for the most part, can best be described as "haptic," that is, his forms are dictated by inward sensations rather than outward observations. This is most prevalent in a large canvas "The Death of Orpheus" and in other works, such as "The Swimmers" and "House of the Forlorn Painter." A portrait of his wife is the eyes perhaps the most arresting work, along with several smaller "anapointic" renderings hanging downstairs in the little art library. In the portrait, the background is broken into rectangular forms, upon which the figure is placed. In terms of form, this is a more ordered canvas, more self-contained. On the other hand, several of the larger canvases seem chaotic in terms of subject and form. Cox has been described as a post-war European painter trying to portray in terms of color and symbol the restlessness, the chaos, and the despair of modern man. To achieve this, I would assume he has looked into himself, rather than at external things, and his private versions of the "human predicament." One student remarked: "I have trouble tuning in on his wave-length." This was exactly my feeling; his work is too personal. To say that he portrays the large "themes" of life, death and immortality, is not enough if one can not apprehend the significance of the work at once. For all that the abstract expressions of our "splish school" have spoken against this, art is still communication, still a language of its own sort, and its impact and meanings are lost to us if we too can not readily participate in its experience.

Although Mrs. Denzer's works in the Moulton Union are perhaps not as "ambitious" as those of Mr. Cox, they are intensely vital. The painter's eye is constantly upon the object or "subject," which dictates the aesthetic form. It is to take her palette is varied significantly from painting to painting. The large work of a mother and child is a work of vigor. No stark sexuality here, really, but a warmth of color, a sort of languid sensuality about the nude mother in repose. A night scene is powerfully rendered in dark tones; although the moon is not present, its magic luminosity can be felt. Mrs. Denzer is a deft capturer of human moments, as reflected in her portrait studies. A little girl at a table has a person's warmth and a strength of form through certain highlights in color and line, especially the chair and the background, the monotony of which is broken by a white oblong in the corner, giving the painting the charm of balance. A portrait of Marguerite Zorach (wife of Zorach the sculptor, who

was feted at Bowdoin last summer) is done with a background of Greek-like figures that are either wall-papers or a tapestry. It has been a pleasant experience for some, this daily encounter with art in the Moulton Union at a coffee break between classes or studies. I for one am in favor of continuing the practice of hanging small exhibitions in the Union dining room. Living closer to paintings, having a more familiar and intimate contact with them, leads to a greater enjoyment of the plastic arts. Kudos to the Student Union Committee and to Guy Davis for arranging these Union shows.

Walsh Speaks

(Continued from page 1)

the belief that humanity is good enough to live together peacefully and rationally enough to sit at conference tables and form plans. A portrait of his wife is the eyes perhaps the most arresting work, along with several smaller "anapointic" renderings hanging downstairs in the little art library. In the portrait, the background is broken into rectangular forms, upon which the figure is placed. In terms of form, this is a more ordered canvas, more self-contained. On the other hand, several of the larger canvases seem chaotic in terms of subject and form. Cox has been described as a post-war European painter trying to portray in terms of color and symbol the restlessness, the chaos, and the despair of modern man. A portrait of Marguerite Zorach (wife of Zorach the sculptor, who

Seen discussing an important campus matter are, from left to right, Peter Amann, Dean Nathaniel Kendrick, and Herbert R. Brown. Or are they?

Interview Schedule For March To Be Extensive

On March 2 representatives from General Electric will confer with senior candidates interested in their business training program and in the financial aspects of the company. Economics majors and those with some accounting preferred. In the evening the Parsons Corp. will interview production and management trainees. This group evening session will be followed by individual interviews on Tuesday, March 3. On this same day a representative from S. S. Kresge will interview seniors considering merchandising as a career. On Wednesday, March 4, the Bureau will be visited by representatives from the Equitable Life Insurance Society for their financial program and home office training opportunities. Union Carbide representatives will interview in the Chemistry Building for chemistry and science majors. That evening there will be a group meeting with representatives from the Great American Insurance Company for those interested in casualty and marine insurance.

John-Manville from Manville, New Jersey, will interview physics and math candidates on Thursday, March 5th. The Socony Mobil representative will discuss careers with those interested in marketing, transportation, and management. On Friday, March 6, New England Mutual representatives will present to candidates opportunities in home office, agency, and actuarial opportunities. The U. S. Weather Bureau, a division of the Department of Commerce, will interview qualified undergraduates for a summer program in the Academy of Oceanography. The Upjohn Company will discuss careers with it. Secondly, it said that even if the Bill wasn't discriminatory, it would not be a good idea anyway.

After reading this editorial, the Bowdoin students of Alfred Schretter and Terry Sheehan answered the editorial in a letter to the Editor of the Portland Paper. They pointed out that different situations required different solutions and that since Bates does not have fraternities their problems should not be considered in connection with a bill which involves only the fraternities at Bowdoin and the University of Maine. They also pointed out that the second argument was only an assertion and unsubstantiated by any reasons or proof. This letter was published on Monday March 2 on the Editorial Page.

Another editorial appeared in the Portland Press Herald of March 1, 1959. This editorial showed that the editorial board that fraternity men would not want it and that society must find other ways to aid college students.

A hearing on the Bill will be held at the State Legislature on Wednesday, March 4, 1959. This will be held by the Taxation Committee. On February 27, 1959, Representative Flante sent telegrams to all of the fraternities at Bowdoin and U. of Maine, urging all students to appear at the hearing. Mr. Schretter, in a personal interview, said "it is my opinion that it would be much better if a certain select group were chosen to appear at the hearing. This would provide a better chance to logically analyze the problem of fraternity taxation and would offer a much longer period of time for the questioning of students by Legislators. For these reasons," he concluded, "I would like to select these candidates myself rather than allow an unorganized group to appear in Augusta."

the country, will interview candidates interested in merchandising, especially in the food industry. On this same day the superintendent of schools from the new William School District in Massachusetts will confer with teacher candidates.

During the week of March 9 the American Insurance Company will present home office and special agent opportunities. The Bell Telephone System will be represented by recruiters from the New England Telephone & Telegraph Company, Pennsylvania Bell Telephone, Southern New England Telephone Company, Chesapeake & Potomac, New Jersey, New York, and the Bell Laboratories. Opportunities will be available in traffic, commercial, revenue accounting, plant and maintenance, long lines, and research.

On Wednesday, March 11, the Riegel Textile and Paper Company will discuss management opportunities. On March 12 Massachusetts Mutual of Springfield, Massachusetts, will have representatives on campus for seniors interested in all phases of the insurance business. On the following day the Liberty Mutual Insurance Company of Boston representatives will discuss opportunities in claims, underwriting, sales, and home office opportunities. On the same day the Great Northern Paper Company will interview seniors available for careers in science, research and management.

On March 16 representatives from U. S. Air Development Center will be on campus to interview seniors interested in careers in the defense industry. On the 17th a representative from the Boston Insurance Company will be interviewing seniors with actuarial interests, home office, underwriting and sales. Also on the 17th Benton Dickson of New Jersey, manufacturer of surgical supplies and instruments, will interview those interested in advertising and marketing.

On March 18 representatives from Flene's in Boston will interview those interested in careers in merchandising. Deering Milliken from New York will be here on this same day to discuss careers in textiles in various sections of the country. Other interviews scheduled after the college spring vacation will be carried in the columns of The Orient.

Morse Speaks On "Winter Garden" To Be Held On March 21 - 22

Dr. Philip M. Morse, Professor of Physics and Director of the Computation Center of the Massachusetts Institute of Technology, spoke on "The Problem of Scientific Information" in chapel last Thursday. He illustrated the fact of tremendous gains in science by pointing out that the Library of Congress has to double its space for scientific information every decade. He emphasized the problems which face scientists in keeping abreast with new developments in their respective fields and the accompanying difficulties of intercommunication on the scientific level. Dr. Morse broadened his theme in lectures to the physics classes Thursday and Friday.

Professor Morse visited Bowdoin under the auspices of the American Association of Physics Teachers and the American Institute of Physics. His lectures are part of a broad nation-wide program now in its second year designed to stimulate interest in physics.

During World War II he directed research on sound control and underwater sound for the U. S. Navy, serving also as Director of the Operations Research Group of the Navy.

For his contributions to the Navy's anti-submarine campaign during the war, he was awarded the Medal for Merit, the nation's highest civilian award. He was one of the originators and the first director of the Atomic Energy Commission's Brookhaven National Laboratory. Currently a member of the Scientific Advisory Committee for the Ordnance Department and the Bureau of Standards, Dr. Morse serves on the

Jenkins, who is now attending Harvard Law School, is one of the world's all-time great skaters, according to experts who have watched him perform. He won the Olympic skating championship in 1956, was four times world champion (1953 to 1956). He has been the star of "Holiday On Ice" and of numerous television spectacles.

From The Masthead

I was glad to see the return to Shakespeare play for Commencement.

While prowling through the basement of Adams Hall the other day, I found a box of old books. I corrected math papers. I discovered a small dry room. This is pleasant floor to ceiling with boards. Whose books are these?? Virginia's? Freshmen from the dorm? When Phil Chin was in her class, she had a box of books. I found mistakes??? The governing board??? I returned late. I found books holders. I found they happened to one third of the class of '59! All these thoughts flash

Dr. Russell To Assume New Position At Ohio

Dr. Doid L. Russell, Assistant Professor of Psychology and Director of Student Counseling at Bowdoin College since 1950, has accepted an appointment as Associate Professor of Psychology at Ohio University in Athens, Ohio, effective in September.

A graduate of Wesleyan University in 1942, Professor Russell served for four years in the Coast Guard during World War II and attained the rank of lieutenant. Following the war he did graduate work at the University of Minnesota where he was also as-

associated with the Bureau of Student Loans and Scholarships, the Student Counseling Bureau, and the Department of Psychology. He received a doctor of philosophy degree from the University of Maine at Bowdoin. He has taught courses in general psychology, abnormal psychology, educational psychology, and measurement and statistical method of psychology. He has also given summer courses at the University of Maine at Hampshire and Extension courses for the University of Maine.

Professor Russell is a member of the Maine State Committee on Mental Health and is currently

Examiners of Psychologists. A certified psychologist in Maine, he is a past president of the Maine Psychological Association and a member of Phi Delta Kappa, Psi Chi, the American Psychological Association, and the American Personnel and Guidance Association.

For some years he was a member of the Topsham Superintending School Committee and in 1953-54 was chairman of the William School Committee for the William School, Topsham. A frequent speaker for PTA and other groups, he has been active in Boy Scout and Cub Scout work in Topsham.

News From Other Colleges

In browsing through the latest and most informative publications from other colleges this week, we found noteworthy items ranging from draft change proposals and honor codes to rodents and knitting needles.

Dean Attacks Draft Policy
Associate Dean John C. Ealy Jr. of Amherst has made the headlines by hitting at our current draft policy. The Dean wrote a recent article in *Nation* which proposed a plan to help solve both teacher shortage and present draft inequity by granting draft exemptions to men once they have been full-time teachers for a specified length of time.

As a result of this article he was invited to testify before the Senate Armed Services Committee, which was reviewing the recently passed draft extension bill. Dean Ealy criticized the present system for creating a great manpower pool by making too many men liable for doing menial jobs in places, and for scandalous misuse of talent.

Since the bill has been passed and Senator Saltonstall's plans for a Presidential committee to study the proposal have been defeated, the Dean is now a member of the Executive Branch of the Selective Service Act. Committees have been set up in the House to study current policy.

After hearing the testimony of the proponents of the bill, Ealy was of the opinion that the Pentagon witnesses had no grasp at all of the current effect of manpower policy on young men; their statistics were self-contradictory and confusing. To pursue present policies to their logical conclusion would result in a total loss of security in terms of manpower.

While studying draft policy, the Dean also noticed that the present six-month training plan, which still must be presented for renewal, expires on August 1 of this year.

Calls to Pentagon officials revealed nothing on this matter, as the Pentagon is "too confused," said Ealy, "that they didn't know how to propose an extension." The Dean, who is both military service advisor at Amherst and the captain in the Air Force Reserve, feels however that because of the six-month plan's expiration, the Pentagon will eventually get around to proposing the draft extension.

Serious Problems at Wheaton
Wheaton College had its big chance for "honest-to-goodness intellectual stimulation" last week and one sophomore is miffed "since it was muffled. Writing a strong letter to the editor, the disgruntled sophomore circulated the letter, which had prompted giggles to replace the eloquent aura of the whole occasion. A knitting needle, a great, awful, size twelve needle, had again fallen to the floor at an embarrassing moment during a speech lecture. We find also on our honor that this has become a common occurrence in classes, movies, and even the breakfast tables are filled with girls playing pick-up-sticks or needle work while understanding the final appeal from the writer: "It's great to be blind... but there are no limitations?"

The Norton campus can, however, be congratulated on its advancement in the line of scientific progress. It seems that the girls were getting lost in the Biology Department's new greenhouse and bird-watch area. Now the problem is solved with orange stakes "at those points where one changes directions." For those who get lost in greenhouses this is definitely a great step forward.

Trinity Vetoes Honor Code
Trinity has recently turned down a Student Honor Code. Out of the total school population only 55% voted. 71% of those who did vote were in favor of the Code, but this is insignificant due to the overwhelming student support that would be necessary to institute such a system. For the time being, pilot studies will be conducted by certain faculty members in their classrooms. The studies would test the operation of a small scale honor system. It is hoped that from these experiments a new proposal can be devised and tested in another student referendum.

Meen and Spice
B.U. has just provided the play of the week. 150 women and 100 students were attentively engrossed

in taking notes at a social science lecture when "fuzzy little creatures" began running across their feet. The studio atmosphere was suddenly pierced by walls of distress from the girls, who were situated on the main tables, or whatever refuse their little frames could get them to. Upon closer investigation, the intruders were found to be three scared mice, which were valiantly corralled and sent to the science department, which hasn't as yet determined their fate.

Students Assistants at Smith
At the beginning of the second semester, Smith inaugurated a new curriculum program in which senior girls who meet rigid requirements are allowed to work for one hour a week as a teacher's assistant. So far, the program has proved successful. Many of the trivial details which the faculty had to attend to are now placed in the hands of these select girls, and a chance is provided for better and more personal student-teacher relationships. Newspapers all over the country have commended the college on its unique new program. Although the program might be slightly different, this "unique" system does sound quite familiar to this College.

The Weak Link Crumbles
From Princeton comes the news that the tottering Prospect Club is about to collapse. This eating club has long had its membership difficulties, and in recent years has suffered a major blow. The entire sophomore class — an unheard-of break with "bicker" tradition. With the institution's organized independent group this year, the number of new club members fell to zero. This eating club will subsidize Prospect for another year, but it does not seem likely that it will ever regain its footing. Popular student opinion supports the dissolution of this previously weak link in Princeton's exclusive "dining" chain.

P. H. Oney Was a Phoney
Last week, a seemingly dapper middle-aged man appeared on the Trinity campus for the expressed purpose of interviewing prospective graduates. He claimed to represent the "Trans-Jersey Corp." and solemnly went about receiving enthusiastic students. As news spread of the salaries (\$6,000 and up), the applicant list grew steadily. None of the seniors suspected that this was all a carefully executed hoax of an ingenious prankster in their own class. Even one of Mr. Oney's fraternity brothers was led astray by the clever young man. The finishing touch came in the form of the following note which was sent to each of the students interviewed:

"Dear so-and-so: In regards to our recent interview, a trip to Newark will be unnecessary. I do not think your services will be needed, as our company has gone bankrupt."
So ended the venture — until the next time!

The Norton campus can, however, be congratulated on its advancement in the line of scientific progress. It seems that the girls were getting lost in the Biology Department's new greenhouse and bird-watch area. Now the problem is solved with orange stakes "at those points where one changes directions." For those who get lost in greenhouses this is definitely a great step forward.

College History Play Reviews . . . Basis Of Recent Brauli Speech

On March 4th, Dr. Gerard S. Brauli, Instructor in French, delivered a talk in chapel on "Librarian Little's Documentary History of Bowdoin College." He stated that the best known account of the foundation and early years of Bowdoin College was to be found in a concise and well-written history at the beginning of every issue of the *College Catalogue*. "But every self-respecting institution of learning must have a special known as the official history of the college," Dr. Brauli cited Harvard's historical tomes as an example of a model institutional history and showed the gargantuan limits of such a history in that the successive Harvard librarians have spent eighty-five years in writing biographical sketches of the graduates, covering the years 1822-1907.

Dr. Brauli remarked that Mr. Little was a very methodical and enthusiastic collector of anything relating to the college from the beginning of his term as college librarian in 1883, up to his death in 1915. He said that a person could not probe very deeply into many areas of the library's holdings without coming into contact with Librarian Little's long and painstaking contribution to the formation, enrichment and orientation of the library's collections. In 1907, Louis Hatch published what is now the official History of Bowdoin College. A note in the author's preface to this readable and comprehensive narrative gives well-deserved credit to Librarian Little's vast collection of clippings and manuscript material. Yet Hatch's account is only a survey of the college's history and incidents and his description of the campus in 1907 is very much out dated.

Dr. Brauli concluded with the remark that "Librarian Little's monumental Documentary History" — unpublished by its very all-inclusiveness, still badly assorted, mixing in documents of prime historical importance with dance

(Continued on page 6)

A Campus-to-Career Case History

Bill Gibbs discusses procedure for a cutover to direct distance dialing with one of his men.

**He's getting the advancement he looked for
...and right in his own home state**

William C. Gibbs graduated from Virginia Polytechnic Institute in 1956 with a B.S. degree in business administration. He joined The Chesapeake & Potomac Telephone Company of Virginia because, "I was familiar with the company and confident that it offered the best possibilities for advancement. And I wanted to stay in my home state."

Today, after two and one-half years with the telephone company, Bill supervises eight men. His group is responsible for maintaining outside telephone facilities ranging from telephone poles and wires to mountaintop microwave relay towers. These facilities are spread over some 2500 square miles.

"I'm really getting basic supervisory experience on this job," Bill says. "My assignments during training and my earlier jobs gave me a solid feel of telephone company operations. But I find the greatest challenge and satisfaction come from working through others."

Some of the interesting training assignments Bill refers to involved arranging for TV and mobile radio pick-up for the Presidential inauguration, the Armed Forces day show at Quantico and other events of national interest.

"So far I've gotten just what I was looking for in a telephone career," Bill says. "The training and experience I've received have been tops. And with the company constantly growing to meet service demands, it looks to me like there will be plenty of opportunity to keep moving ahead in the business."

Bill Gibbs found the opportunity he was looking for with a Bell Telephone Company . . . in the state of his choice. You may, too. Talk with the Bell interviewer when he visits your campus and read the Bell Telephone booklet on file in your Placement Office.

Tax Bill . . .

(Continued from page 1)

to the land, whereas at Bowdoin it is a tax base you are discriminating against all the other taxpayers.

Rept. Bertland Lacherte (D-Brunswick) called the bill "class legislation." He also seemed to feel that it was putting a tax burden on all of the other citizens of Brunswick and Orono.

There were also many other opponents but these are too numerous to mention here.

In the closing minutes of the Hearing Peter Smith gave a well-organized rebuttal. Carefully analyzing the arguments against the Bill, he showed that these were really not valid. He was very careful to point out that the opposition had at no point damaged the case put forward by Schreter.

"Fraternities are not a private club," he said. The opposition had presented three reasons to back up their statement. They said that in ownership, management and membership, fraternities were private clubs.

Smith pointed out that "Ownership is merely a legal technicality; to the degree that management is private, it is advantageous to the students. Responsibility in running the affairs; and finally membership at Bowdoin is also private and yet would anyone question its right to an exemption?"

He went on to point out that "It was legislation to narrow the tax base in this situation because functions such as education should be given certain financial grace."

His final point was in answer to the argument that by exempting college fraternities, the state would be opening the door to the exemption of many other organizations as well. He showed here that it was his belief that "this would be merely completing the granting of an exemption to educational institutions and would hence be closing the door."

After a few closing remarks by Al Schreter and Jerome Plante, showing their belief in the Educational exemption, the hearing closed three hours after it had opened. Everyone agreed that all of the arguments had been explored.

Richard Holmes, Orono tax assessor, alumni advisor in his fraternity and for many years a chapter and national officer, was the first major opponent. He called fraternities a private club to which one may or may not belong. He could not see the argument that fraternities were an integral part of the college. "Isn't it worth \$60 a year," he asked "to live in

Burchard Tells . . . (Continued from page 1)

to deliver any material anywhere and even to design and create new materials where none exist suitable to the job."

"Look around the United States where you may, but look quickly for the jets and synthetics not only conquer time but also level differences."

The ultimate criterion of good architecture, he proposed, is the degree to which it is both utilitarian and aesthetic. Rarely is architecture treated as an art in itself. And great architecture must manifest all four of these principles: (1) Unity; (2) Dignity; (3) Beauty; and (4) Practicality. In addition, great architecture is characterized by its elaborateness; frugality has no place in architecture.

Most of our architectural history of the past century, according to Dean Burchard, has turned on the issue of whether or not we were willing to dignify industry and commerce by a place in the architectural sun. In the end we did so, and the result has been that America leads the world in the quality of its architecture of this type.

We have not done quite so well by our churches and halls of state. Does this, our architectural emphasis, reveal our social values, or is it just where the money and power now happen to be? "Or are these things the same anyway and were they not so when the cathedral or the palace, instead of the factory, was the finest building a town had?"

In each of the plays, the supporting players did nicely. Commendation goes to James Cohen, Glenn Richards, Irma Black, David Moore, Ann Cole, and Mary Kamering.

POLAR BEARINGS

By Joel Sherman

We of the Orient sports staff were very disturbed recently by an article on the Colby Freshmen hockey team which appeared in the *Boston Globe*. The article praised the prowess of this year's Baby Mules and exalted their undefeated season. We must agree that the Colby Frosh did display a fine brand of hockey throughout the season; however, we do feel that we have a perfect right to take up arms against the last statement made by the *Globe* staff writer. His misinformed or uninformed statement looked something like this:

'And just to prove that they (Colby) are human, they ended their season by defeating Bowdoin Freshmen by a score of only 3-0.'

Evidently, the *Globe* writer knew nothing of the fine record which the Polar Cub Pucksters finished their season with, and none of the details of the hard-fought Mule contest played at the Arena. Our boys played one of the finest games ever seen here on the Bowdoin campus and each of them deserves due credit for contributing his hard work during the long season.

The *Globe* article is a fine example of misinformed sports writing.

Wilkins

Congratulations to Larry Wilkins, captain of this year's varsity track team on winning the Jack Magee Trophy for "the most outstanding single performance" in the Interfraternity Meet. Larry set a new meet record, as well as a new Bowdoin indoor record and a new Cage mark, by winning the 440 yard run in 50.8. No Polar Bear track man has ever run a faster quarter mile indoors or in the Cage. Larry was also the winner of the 40 yard dash, the 45 yard low hurdles, tying another meet mark in 5.6 seconds; and the 45 yard high hurdles.

Psi U's, Kappa Sigs To Meet In Hockey Final

The Interfraternity Hockey league semi-finals were recently held in the Arena to determine the two clubs which will battle it out for the championship of the league. The two winners in the semi-final round were the Kappa Sigs and the Psi U's.

In the first semi-final contest, the Kappa Sigs' spirited pucksters were the winners over a strong Sigma Nu six in a contest which was not decided until the final period when the Kappa Sigs came up with two game-winning goals. Ted Gardner opened the evening's scoring by pushing the puck past Kappa Sig goalie, Squint Moran who played a fine game in the nets. The goal came in the second period on an assist by Bobby Hawkes, after a hard-fought first stanza.

It was not until five minutes that the tying goal was produced by Joe Carven. In the first minutes of the third period freshmen Jack Roberts skated down the ice slapping the rubber through the Sigma Nu nets, tended by Phil Very.

Outstanding for the Kappa Sigs were Roberts, Carven, Doucette, March, Powers, Turner, and net-tender Moran, who subbed for the ailing Pete Webster. For the Sigma Nus, Gardner, Hawkes, Roop, Born, Taylor, Small and Meeks all turned in fine performances.

The second game of the evening saw the Psi U's take a 3-1 decision from the Zetes in a hard-fought contest. The Psi U's jumped out in front in the first stanza by taking a commanding 2-0 lead on goals scored by defenseman Pete Sepburn and wing Jim Cunningham.

The Zete's Bob Kennedy came back with a hard shot in the second stanza against Psi U goalie, Charlie Speletis, to make the

Tennis Clinic To Feature Budge, Riggs, In April

On Saturday night April 4th at 7:30, some of the greatest tennis players of our times will appear at the Bowdoin College Arena.

Featured will be the world renowned Don Budge, considered by many to be the greatest player in history, and Bobby Riggs, a former United States and Wimbledon champion. The evening will begin with a coaching clinic, followed by a match between the two performers. Sponsored with the hope of encouraging and improving Bowdoin tennis, the exhibition is presented for the benefit of the Youth Tennis Foundation of New England.

Captains, Trophies Announced At Sports Banquet

Baseball Team Plays Nineteen Game Schedule

Bowdoin College's varsity baseball team will play a 19-game schedule this season, including six contests on a southern trip during spring vacation late this month. The Polar Bears, coached by Danny MacFayden, will open their schedule against Baltimore on March 22 and then play on successive days Loyola, Upsala, Rutgers, and Fairleigh-Dickinson (twice).

Including the spring trip, 13 games will be played on the road and six at the Pickard Field. Bowdoin's opponents at home will be Brandeis on April 28, Colby on April 30, Tufts on May 8, Bates on May 13, Maine on May 19, and New Hampshire on May 21.

Faculty Flashes Victorious Over Stunned Students

Highlighting the athletic program of the Campus Crest Week was the annual clash between the Interfraternity All-Stars and the Faculty Flashers basketball squads. With only six seconds remaining in the contest, Nate "The Great" Dane stepped to the line and sank a clutch free throw to give the scholarly laborers a 29-28 victory over their draft-dodging proteges.

The All-Stars were not able to get off a shot before the game ended, due to some excellent "pass-defense" by "Big Daddy" Glover and "Knicker" Donham.

Both teams utilized a spread offense with a "lonesome end" hanging deep down the court on occasion. It was an extremely exciting and entertaining battle that would suggest a game between the Harlem Globetrotters and the Cleveland Browns. The fraternity stars, coached by "Slats" Swenson and "Chubby" Sherman were obviously hampered offensively and defensively by the rugged blocking of their elders. Def. Morse and Fred Hill were the referees.

Hayes Jenkins To Head Arena Skating Cast

A college president will be a "guy," his wife a "doll," and their daughter a "cold cream guard" in the cast of "The Winter Garden," an original musical ice show to be presented by the Skating Club of Brunswick at 9:00 p.m. Saturday and Sunday, March 21 and 22, at the Bowdoin College Arena.

President and Mrs. Coles and their daughter Ann, together with more than 60 other skating enthusiasts from a dozen towns will appear with Olympic and world's champion skater Hayes Alan Jenkins in "The Winter Garden," written and directed by Phlippen Sanderson of Orr's Island.

Jenkins will be making his third appearance at the Arena in the past year. He skated in the 1958 Polar Ice Capades last November and a year ago was the star of the Skating Club of Brunswick's "Ice" show written by Mr. Sanderson. Now a student at Harvard Law School, Jenkins is one of the all-time great skaters in the world, according to experts who have watched him perform. He won the Olympic skating championship in 1956, was four times world champion (1953 to 1956), and four times United States national champion (also 1953 to 1956). Jenkins made the world team as a 15-year-old high school student. Now 25, he has been the star of "Holiday on Ice" and of numerous television spectacles.

Kappa Sigs Win Track Meet; Wilkins Sets New Cage Mark

The Kappa Sigma fraternity was the winner of the annual Interfraternity Track Meet held in the Bowdoin cage. Kappa Sigma won the 440, setting a meet mark of 50.8 in the latter. Jack Magee, for whom the trophy was named, personally selected Wilkins as the recipient of the award. Wilkins never competed in a track meet until he arrived on the Bowdoin campus.

Results
Other scores in the meet were: Beta Theta Pi 43, Theta Delta Chi, 29, Psi Upsilon 24, Sigma Nu, Zeta Psi 17, Alpha Delta Phi 15, Alpha Rho Upsilon 11, Delta Sigma 8, Chi Psi 1, Delta Kappa Epsilon 1.

Magie Trophy
Larry Wilkins, captain of this year's varsity track team, was

Hia younger brother David succeeded him as world champion in 1957.

Tickets for "The Winter Garden" are on sale at the Bowdoin Athletic Office and from members of the Skating Club.

awarded the Jack Magee Trophy for the most outstanding single performance in the meet. Wilkins won the dash, both hurdles, and the 440, setting a meet mark of 50.8 in the latter. Jack Magee, for whom the trophy was named, personally selected Wilkins as the recipient of the award. Wilkins never competed in a track meet until he arrived on the Bowdoin campus.

Results
Other scores in the meet were: Beta Theta Pi 43, Theta Delta Chi, 29, Psi Upsilon 24, Sigma Nu, Zeta Psi 17, Alpha Delta Phi 15, Alpha Rho Upsilon 11, Delta Sigma 8, Chi Psi 1, Delta Kappa Epsilon 1.

Magie Trophy
Larry Wilkins, captain of this year's varsity track team, was

Hia younger brother David succeeded him as world champion in 1957.

Tickets for "The Winter Garden" are on sale at the Bowdoin Athletic Office and from members of the Skating Club.

Fritz Receives Munro Award; Wilkins, Hutchinson Trophy

By Mickey Coughlin

Last Monday night the winter sports banquet was held amid much laughter in the Moulton Union. Along with the usual literary of select speakers and coaches, the fall teams of cross-country and soccer enjoyed a fine final evening by the athletic department.

Doctor Dan Hanley served as toastmaster, adeptly introducing each speaker with a timely witty joke, and kept the audience of some 150 Bowdoin athletes and guests happy throughout the evening. Dean Nathaniel Kendrick opened the night's festivities with his gratitude for a lot of hard work for the College. He realized that Bowdoin athletes do their best and offered his thanks and wishes for better seasons that are to be seen soon.

Scott, Simmonds
Basketball coach Bob Donham led a word of thanks for the seniors that will sorely be missed next year and for the fighting spirit they showed throughout the season. He also announced that co-captains for next year's hoop squad are to be Pete Scott, a senior sophomore, and Al Simmonds, who will graduate in 1960.

Griffin, Hawkins
Sid Watson, coach of the basketball team, made remarks to thanking the hockey team for the help it gave him throughout the season, with special commendation to outgoing captain Roger Coe and goalie Bob Fritz, who over a three year span, has turned away 1252 shots from the Bowdoin nets. Bowdoin coaches in the future will have to go far to match the play of Fritz. Watson announced that Dixie Griffin and Ross Hawkins have been elected to captain next year's ice edition.

Riley, Green
Coach of swimming, Bill Miller, after sending the crowd into laughter, calmed down a bit and announced that Bill Riley, an ace swimmer, will lead the squad next year. Miller also commended his team on their efforts of the season, for their fighting spirit even though small in number. Track Coach Frank Sabasteanski also added a few timely anecdotes mainly aimed at the cordial end of the banquet. Sabasteanski thanked his cross country and indoor track teams, commended them on their never-say-die attitude, and expressed his regret that a number of seniors will leave next year. Sabasteanski also announced that the team had elected distance man Jay Green as next year's captain of indoor track.

Chase, Moore, Pike
Sergeant Ed Litch, coach of the rifle team, dispensed with the usual round of jokes and announced that next year's team should be improved over this year's outfit that was one of the best in recent years. He also announced that Bill Chase and John Moore

have been elected to the captaincy of next year's team. Present captain and coach Bruce Chalmers gave his remarks that injuries held back one of the best ski teams ever to be assembled at Bowdoin, and thanked the College for all the help it has given the ski team. He also announced that Sam Pike will lead the squad next year.

Awards
The Dean made the first award of the night, the Hugh Munro Jr. Memorial Trophy. This trophy is awarded to the member of the varsity hockey team who best exemplifies the qualities of loyalty and courage which Hugh Munro demonstrated at Bowdoin and in the service of his country. The award was presented to Bob Fritz, who is certainly deserving of the award. His stellar play in the Bowdoin goal has stopped many a row and saved quite a few games.

Coe Sabasteanski then presented the Elmer Hutchinson Memorial Trophy. This award is presented to the member of the varsity track squad who deserves recognition as a man with the qualities of character and sportsmanship. This award was given very appropriately to this year's captain of track, Larry Wilkins. One of the finest gentlemen both on and off the athletic field in the history of the College, Larry has shown a phenomenal improvement over his four years at Bowdoin. Never having run before he entered the school, Larry is the type of runner who works and works some more to perfect himself. The more he runs, the better he gets; a lover of competition, he certainly more than fulfills any requirement for any such trophy.

Co-captain of next fall's soccer team, John Evans, announced that the George Lewis Trophy, presented to the College by the present coach Ben Levine, in memory of his father, will be awarded annually starting next fall to the member of the varsity soccer club who is the most valuable player to the team and demonstrates qualities of sportsmanship, valor, and desire.

With a terminating laugh at a typical Hanley joke, the banquet broke up, with a good time had by all.

NOTICE

The interfraternity basketball finals and playoffs will be held on Wednesday, March 18, and Thursday, March 19, at this time, it appears that the top four teams who will meet in this year's playoffs are the Kappa Sigs, Chi Psi, the Chi Pals, and the A's. It is unusual that the two top clubs of last season, the Kappa Sigs and the Chi Pals, may meet again in this year's final. During the regular season, the former defeated the latter in a close contest.

Why did 14,436 sophomores enter advanced Army R.O.T.C. during 1958?

Many more applied. Not all were accepted. In more than 200 U. S. colleges, 14,436 college sophomores met the high standards set. These students were selected to continue officer training in the advanced R.O.T.C. course. Why did each of these young men decide that he would benefit by fulfilling his military obligation as an Army officer? Here are two important reasons. Perhaps they'll help you make your decision.

1...TRADITIONAL RESPONSIBILITIES

As an Army officer, you're in command of men. More than the number supervised by many civilian executives years older than yourself. To meet your command responsibilities, you employ a great many of the LEADERSHIP principles acquired in advanced R.O.T.C. training. And your executive potential develops while

you gather LEADERSHIP experience. The executive ability you gain as an Army officer will be an important advantage in any civilian career. That's why employment directors often prefer men who have served as commissioned officers. These men have already proven their capacity to handle executive responsibility.

2...TRADITIONAL REWARDS

In every organization, greater responsibilities mean greater rewards. The traditional prestige of an Army officer is matched by material advantages. A second lieutenant earns a minimum of \$355.88 per month—plus substantial fringe benefits. Think you might want to marry soon after graduation? An officer's salary can

make things a great deal easier for a married couple just starting out. What's more, an Army officer is entitled to take his dependents with him, wherever possible. Imagine sharing the fun of travel with your wife—in the United States or foreign countries like France, Germany or Japan.

Responsibilities
Rewards
U.S. ARMY R.O.T.C.

SOPHOMORES: Are you considering whether to apply for advanced Army R.O.T.C.? Why not discuss your decision with the Professor of Military Science and Tactics at your college? He'll be glad to talk it over with you.

Manager

Palmer Fund For Music Upkeep To Be Established

The late Harry L. Palmer of Skowhegan, who for nearly twenty-five years served as a member of the Board of Overseers, has been honored by the establishment of the Palmer Fund for Music Upkeep at the College of the Holy Cross. The fund will be used for the upkeep of pianos in Harvey Dow Gibson Hall of Music and for the purchase of recordings for Gibson Hall.

The Palmer Fund has been established by the gifts of several of Mr. Palmer's friends. A native of Cornwallville and a graduate of Skowhegan High School, Mr. Palmer was graduated from the college in 1904 and entered business with the New York Telephone Company. After thirteen years he resigned his position as division commercial superintendent in 1917 and became general manager of the H. K. McCann Company, which was to become one of the largest advertising agencies in the world. He was later made a vice-president and director of the firm and retired in 1938.

During World War II Mr. Palmer served for two and one-half years in England with the American Red Cross as a member of the executive staff of the late Harry D. Gibson, Commissioner of Great Britain and Western Europe, for whom Gibson Hall of Music is named. Mr. Palmer was also a graduate of the college, in the class of 1902.

From January of 1949 until June of 1953 Mr. Palmer served as Executive Director of the Bowdoin Bicentennial Fund, which raised a total of more than four million dollars to help meet the capital needs of the College. Always deeply interested in College affairs, he was elected to the Board of Overseers in 1934. In 1934 he received "The College's Alumni Achievement Award," and at Commencement in June of 1951 he was awarded the honorary degree of master of arts.

Mr. Palmer died at his home in Skowhegan on November 3, 1957.

College Economy ...

(Continued from page 1)

Professor's Purchasing Power Less

"It is necessary that the economic rewards of their profession be just and comparable with the economic rewards of other significant professions such as medicine and law. This has never been the case in this country, and the last several decades have witnessed, instead of improvement in this situation, a marked deterioration. While the standard of living for the average American has been rising steadily, the relative purchasing power of the college professor has been declining. For example, taking the year 1939-40 as our base, the purchasing power of the physician has increased by more than 90% as of today, the purchasing power of the average professor has increased by more than 60% the purchasing power of the lawyer has increased by almost 30%. During this same interval, the purchasing power of a college professor has increased not at all, but instead has on the average declined by 20%; today he can purchase only 80% of what was possible in 1939-40. Barely a survey on faculty salaries which he made a few years ago, took the beginning of the 20th Century as his base period. In those terms the college professor is even worse off than in terms of the statistics I have just given you."

"President Eisenhower's Committee on Education Beyond the High School, under the chairmanship of Devereux Joseph, President of the New York Life Insurance Company, stated unequivocally in its second report that faculty salaries must be doubled by 1967. To date, although this has often been quoted before many audiences, no one has taken issue with this stated need in education of doubling faculty salaries. In part, it is to provide for that as we, as a people must find a greater support for higher education."

"On top of this there comes the necessity of providing for a marked increase in numbers of students attending our colleges and universities during the next several years. This is due to the in-

crease in birth rate some sixteen in seventeen years ago, and the compounding factor of an increased percentage of students of college age who are attending college. By 1967 it is anticipated that present college and university enrollments will be at least doubled.

Less Than 1% For Education

"Add to these two factors the effect of increasing inflation (which is almost certainly with us), and then make the best estimates you can as to what the annual cost will be for higher education in 1967, and you will have staggering figures. Roughly, instead of the three billion dollars which went into college education last year nationwide, there will be required nine billion dollars annually by the year 1967. Such estimates are hazardous at best and one can argue them backward and forward, up and down, but I would say that, if anything, this estimate is low rather than high. Nine billion dollars a year means the amount we as a people spent on higher education last year, and we thought we were having difficulty then. Some of you may say that we can not afford to spend as much on higher education, but I would point out that a nation which presently has a gross national product valued at four hundred billion dollars annually can afford to put two or three percent of that into higher education. Soviet Russia is presently putting 10 to 12% of its gross national product into its colleges, universities, and technological institutions. Some of you may say that last year could afford to spend fifteen billion dollars on higher education, but I would point out that a nation which last year could afford to spend fifteen billion dollars on higher education, and yet could not spend more than one billion dollars on higher education, is not a nation which is to be taken seriously. The question is how do we put these monies into places where they belong."

"This means for this will be several. The state-supported colleges and universities will get more money from the state. Other funds will come from the Federal Government. The 85th Congress in its session ending last summer passed the National Defense Education Act of 1958, which provides for the importance with respect to higher education in the United States that was the Morrill Land Grant College Act of 1862. It is believed by those who have analyzed the Act that, with the extensions of it which are bound to come, it will become the most im-

portant educational act ever to be adopted by the Congress of the United States. This Act will provide many funds in support of higher education through loans and fellowship programs, and also in the form of direct grants to colleges and universities for designated purposes.

"A further source of income for higher education will be through philanthropic support—this by individuals and annuities giving by college alumni, additions to endowment, and gifts of buildings and plant. It is through such gifts, presently made, and made for the decades and centuries past, that the education of every college youth is subsidized, so that few today pay the full cost of their instruction. For example, at Bowdoin College in the present year, approximately \$1,000 from funds of the College are used in addition to tuition monies received for each student toward the cost of his instruction."

"As a part of this increased cost can probably be made up through certain greater efficiencies in operations. The physical plants of colleges and universities may be used throughout twelve months of the year. Clearrooms and laboratories could be used forty hours a week rather than twenty hours a week, but I would point out that these efficiencies are not being required marked changes in views of the public in general concerning the value of higher education. Students and their parents, members of the faculty, and the alumni of colleges and universities must be prepared to have men in class until six o'clock in the evening. They must be prepared to have vacations for the individual student and professor at other times than in the summer. There would be new concepts with respect to the program of extracurricular activities under such circumstances, and if you consider the importance attached to intercollegiate athletics, you will realize how great this particular problem would be."

"Student To Pay More

"None of these considerations, a portion of the funds for this increased support of higher education will have to come from the student himself, and his family, whether he be in a private institution or a public or state institution. This is not an unreasonable requirement, for it can be shown from figures of the United States Chamber of Commerce that the average earnings of a college graduate through his lifetime exceed by \$200,000 the earnings of a non-college man. Money invested in a college education, therefore, is money invested in a means of increasing life income, in addition to the return obtained through intellectual development, increased enjoyment of life, and the personal satisfaction of the individual."

"Just what are the sums which are involved for the individual student? What does it cost him to attend college today?

"The charges at Bowdoin are not markedly different from those of the other two independent liberal arts colleges in Maine, Bates and Colby. For the student entering college in the fall, tuition will be \$1,050, and when there is added to this the charge for room, board, student activities, and health insurance, the total bill will be slightly more than \$1,850. We must add also other incidental expenses for books, laundry, travel to and from home. Thus we calculate the total expense each year to be \$2,200 to \$2,300. For the four-year course, this will total about \$9,000 in out-of-pocket expenses. (Remember that the college is contributing a total of \$4,000 in addition to the cost of the student's instruction.)

But this is not the total cost of education, for the student while in college has foregone earning income he might have received in remunerative employment. Assuming that he might earn \$3,000 annually, his loss of income during the four college years will be approximately \$12,000. Adding this to the \$9,000 in out-of-pocket expenses makes his total investment in his college education approximately \$21,000.

"For the student entering the State University, it has been estimated that his total annual expenses for room, board, tuition, books, and incidentals will be in the neighborhood of \$1,000 annually. His out-of-pocket expenses for four years and his loss of earnings again totaling \$12,000, would involve a total investment in his education of almost \$17,000.

"Assume, now, that the tuition charge is increased by \$500 annually. The total increase would be \$2,000 for the four-year period, which would make the total investment in a Bowdoin education \$23,000 and the total investment at the State University \$19,000, an increase in both cases in the neighborhood of 10%. The total increase in income for Bowdoin would be \$400,000, which would add very materially to the monies available for faculty salaries. The increase in income for Maine would be nearly \$2,000,000, and also a significant amount. In the latter case, it would be essential to assign a part of this increased income toward the establishment of a liberal scholarship program."

ship program, to assist those students who come from families which would not be able to meet the higher tuition charge. Also there would be necessary in both institutions a liberal loan program, but here the Federal Government is stepping in to help in a material way. However, the added income would be significant in providing for faculty salaries and for scholarships in either case.

"Without question, many students and their families can afford to pay a greater portion of the cost of a college education. One need only go to a college or university campus and see the automobiles driven by some students to ascertain this fact. It is only for those who are unable to pay a greater portion of their college education do so, rather than having the burden fall upon the alumnus of the college, upon the ordinary taxpayer, or upon the underpaid professor who is subsidizing each student's education through loss of his own purchasing power."

"But what of the student who is able but has no money? At the present moment the private institutions offer such students marked advantages for they often have greater scholarship and loan reserves."

"Higher education is of greater and greater importance in our society—of importance to democratic forms of government—of importance to our great Republic. Higher education must be provided for all of ability who resort to it. We must have properly paid faculties of the highest caliber of men of each generation, teaching with the best facilities which can be put at their disposal. We must have public support for higher education through the Congress and State Legislatures, and through philanthropic support. We must have realistic pricing policies for tuition. We must find ways to divert more of our gross national product to the support of higher education."

"Our institutions of higher education must be strong and must remain strong. If democracy and freedom are to be preserved on Planet Earth as we enter the Space Age."

March 5, 1959

Inventor Gives Alcohol Speech To Maine ACS

Dr. Leon A. Greenberg of New Haven, Conn., inventor of the widely used Alcometer, a breath-testing device used by police in the diagnosis of alcoholic intoxication, spoke before the Maine Section of the American Chemical Society in Cleveland Hall on Saturday, March 7.

In Professor Greenberg's talk, "Alcohol and the Human Body," he discussed what the body does to alcohol and what alcohol does to the body. He dealt with the scientific facts in relation to the many questions commonly asked about alcohol and its consumption. The amount of alcohol required to intoxicate a person is in direct proportion to his weight. The greater part of the damage done to the body is not directly caused by alcohol itself, but by the lack of proteins and vitamins caused by the drinking of alcohol and subsequently not eating the things one needs to eat for a well balanced diet. Milk and milk products containing butyrate slow down the action of alcohol on the body. Coffee does not make one sober after consuming alcohol, it only makes one more awake. Looking at the question from the point of view that alcohol causes one to become sleepy, it could be argued that coffee thus acts against the effects of alcohol by making one more awake. This is true, but coffee does not have any appreciable effect on the more important effects caused by drinking. Therefore, a drunk cannot become sober by drinking coffee; he just becomes a wide awake drunk.

Once in the body, alcohol is burned at a constant rate of oxidation. A graduate of Yale in 1930, Professor Greenberg has been a member of the faculty there for 25 years. He is presently Director of the Yale Laboratory of Applied Biodynamics and the Yale Center of Alcohol Studies. He has done a good deal of research in the fields of industrial toxicology, physiology, and alcohol studies. The author of several texts, he has also published numerous scientific papers connected with his research.

BIF Speaker

On April 9th Bowdoin College will have the honor to have as its guest Frank M. Cross Sr. Mr. Cross is one of the leading experts in this country on the Dead Sea Scrolls. His reputation has grown very widespread by means of several articles which he has written within recent times. At present Mr. Cross is a member of the Harvard School of Divinity and recently held a post at the McCormick Theological Seminary in Chicago. The public is extended an invitation to attend what should be a very interesting lecture, under the sponsorship of the Bowdoin College History ...

GERALD A. PARSONS received his B.A. in 1950 and his M.B.A. one year later, both from Cornell University. He joined General Electric in 1954 and is presently Special Marketing Administration in the company's Large Steam Turbine-Generator Department.

"The biggest challenge a man has to face is himself"

"Men and businesses are alike in one respect," says Gerald A. Parsons, 30-year-old marketing and personnel development specialist. "Their success depends to a great extent on how well they respond to challenge. And I've found that the biggest challenge a man has to face on his job is not the competition of others—but the far more important one of developing himself to his fullest capabilities."

"During my four years with General Electric, I've had plenty of opportunity for self-development. Challenging training assignments at five different locations within the company have given me a broader understanding of my career area. In my present job I have the benefit of working with experts, both in establishing long-range goals and in helping to achieve them. I've found that working toward future potential is vital in the development of successful businesses—and successful men."

Young men such as Gerry Parsons are important to the future of companies like General Electric and to the growth of America's dynamic, competitive enterprise economy. Our nation's progress will depend more and more upon those forward-looking individuals who continue to develop to their fullest capabilities during their lifetime.

That is why General Electric provides a climate for individual progress—with opportunity for increasing knowledge and skills—for all of its employees, including 30,000 college graduates. For it is only as individuals meet the challenge of self-development that there continues to be progress for a business, an industry, or a nation.

Progress Is Our Most Important Product
